- 13 — *Health Department*, annual report, 1930.

ANNUAL ADDRESS OF HON. JAMES M. CURLEY, MAYOR OF BOSTON.

Gentlemen of the City Council.

In conformity with custom we assemble at the opening of the fiscal year for the purpose of organizing the legislative branch of the government and in addition to make public a summary of the work performed during the year that has passed and to outline a program for the year that begins this day.

The Tercentenary observance by the City of Boston of the Founding of the Massachusetts Bay Colony was in keeping with the best traditions of the past.

The success of the movement to invite public attention to the advantages and attractions that Boston offers in larger measure than any other American city to organizations assembling for convention purposes was due in large measure to the wholehearted support received from the Press, the Boston Chamber of Commerce and public spirited women and men of the municipality. The conventions of the American Legion, the American Federation of Labor and the Knights of Columbus, with some five hundred other organizations have given an impetus to the movement that with proper encouragement and wise direction should result in Boston occupying first place as a convention city. It has been estimated by competent authorities that the various organizations which convened here during the year

1930 expended about \$100,000,000 and it is highly important that encouragement be given to this activity.

I want at the outset to express my sincere appreciation for the support given the legislative program submitted by me from time to time during the year 1930. The unique position which Boston has occupied among American cities during the period of industrial depression and unrest which has been world-wide, is in no small measure due to the harmony that has obtained between the executive and the legislative branches of the municipal government. Every measure submitted by me, as Mayor, has received the approval of the City Council and likewise His Excellency the Governor and the State Legislature have displayed a liberality and a willingness to cooperate that have been responsible in large measure for such success as has been attained.

That portion of the public, and it is no small part, that has suffered the loss of employment through industrial depression has undergone less hardship in our city than in any other city in America due to the courageous and liberal policy which at the outset was by many considered extremely radical, but which, after a full year of trial, is admitted the wisest policy of pursuit during the trying, drab year that has passed.

It is clearly the duty of the American people, who for a period of more than a century have been subjected to industrial depression at least once in every seven years, to devote time, thought, energy, and money to the development of such a program as will provide a panacea essential to the happiness, prosperity and patriotism of the nation.

I had a profound appreciation of the task, yet I likewise recognized that it was both unjust and short-sighted to delegate to a limited element of the population the all important work of formulating an industrial and economic program for all the people.

AMERICAN FEDERATION OF LABOR.

The American nation is eternally obligated to the American Federation of Labor for much of the

social and economic legislation upon the statute books of our country and of every state in the Union, and our appreciation is heightened when we realize the difficulty which confronted this group of patriots in the work they have undertaken with such signal success.

ECONOMIC CONFERENCES.

With a view to supplementing the work that has been so well performed by the American Federation of Labor, I have conducted weekly conferences participated in by the President and head of the Department of Economics of all the universities located in Massachusetts. This organization, after much research and study, has recommended the creation of a Federal Industrial Planning Board. The planning board thus created to be nonpartisan in character and to be composed of economists, representatives of the American Federation of Labor and the leading industrial establishments of the United States. Through a Federal Industrial Planning Board it will be possible to develop a fact-finding clearing house for the furnishing of data to Congress that may be helpful in minimizing or permanently preventing industrial depression similar to that through which this country is now passing.

PUBLIC HEALTH.

The year 1930 has been notable in the matter of public health, notwithstanding the so-called industrial depression and general unemployment. The success of the campaign inaugurated for the stamping out of diphtheria some seven years ago was particularly gratifying in view of the fact that this disease, once regarded as a dread scourge and exacting an annual toll of 225 lives, was reduced to but twenty-five fatalities during the entire year 1930, and it is not unreasonable to anticipate that provided all the children of the city had been immunized, even this number would have been less. The successful combating of tuberculosis, through the generous expenditure of money, is attested in the establishment during 1930 of the lowest death rate in the history

of the city, from this once dread scourge which now gives promise of speedily being removed from that class. An unfailing barometer of adequate public health service is represented in the infant mortality rate, which during 1930 was the lowest ever established. The development of the George Robert White Health Units and extension of Child Hygiene Clinics have made possible the waging of a constant campaign against disease where heretofore, due to overcrowding, inadequate housing and lack of knowledge of preventive measures, real progress was impossible. The George Robert White Health Units may properly be termed "Department Stores of Health." These oases on a troubled sea of sickness furnish varied health service where health education is constantly promoted, and disease successfully combated. These units, through the system of inter-relationship created by the health and relief agencies, make possible not only a speedy solution of health but economic problems as well.

Well attended pre-natal, infant and pre-school age clinics with a dental service continually growing in attendance, solaria upon the roofs, where the pre-tubercular and undernourished are cared for, with tubercular clinics not only for incipient cases, but examination of all contacts, supplemented with X-ray examinations, serve as dependable barriers against the common enemy of man, namely, disease.

Health services supplemented by relief, offer more than the reasonable assurance of life extension and disease prevention. Supplementing the work of the child hygiene clinics and the health units, the City of Boston conducts a dairy inspection system whose supervision extends to more than 100,000 cows, upon farms in New England, New York state and the Province of Quebec. The protection of the milk supply before it arrives in Boston equals in importance its proper distribution after arrival, since milk is one of the most important mediums for the spread of disease. That the Boston milk supply is equal to any to be found in any large city in the country is due not only to an excellent system of dairy inspection

but to the laws enacted in recent years providing for pasteurization. It is today accepted that public health is purchasable, that disease is largely preventable and that the promotion of public health is possible, and while protests from time to time are heard against the increasing cost of administering the activities of the health department, I am quite certain that so long as a health record as high as that obtained during 1930 is in evidence there will be little justification for either protest or complaint.

CITY HOSPITAL.

The program for the most modern municipal hospital in the United States was launched in 1922 during my previous administration. It represented studies by the City Hospital Trustees and Staff, the purpose being to anticipate the possible requirements of the next quarter of a century.

Originally it was anticipated that \$7,000,000 would be necessary but the trustees of the institution are now of the opinion that an additional \$3,000,000 will be required to complete the program.

To the citizen who has not visited the institution in recent years will come a thrill of exaltation when privileged to witness the transformation that has taken place. Substantially the major portion of the buildings formerly located upon the City Hospital grounds have been in use upwards of forty years. During this period of time rapid changes have taken place in the character of hospitalization facilities and in the care and treatment of patients. Medical and surgical cases in the past have been treated in the same building and in substantially every building upon the grounds, while the facilities provided for the doctors, nurses, internes and orderlies were wholly inadequate for the efficient and economic administration of this important function of government.

The original program, now approaching completion, provides for separate ten-story buildings for medical cases and similar buildings for surgical cases and with accommodations in each building for the treatment of 230 patients, in addition to modern

clinical laboratories. The maternity building is the largest and most up-to-date in any American city. The out-patient department, which formerly functioned in an ancient story and a half structure, now boasts a modern ten-story structure with every possible facility for the conservation of human life. The administration building, which was constructed shortly after the Civil War, will be replaced by a modern administration building of sufficient size to house all of the business offices of the hospital, and in addition, the administrative professional force, with an auditorium seating 400 persons suitable for use by clinics now conducted in the surgical amphitheater.

A contract will shortly be advertised for a new pavilion for children, the first six floors of which will house medical and surgical cases of children under 14 years of age, and the two upper floors given over to infants. Provision has been made for the installation of glass cubicles throughout this building for the purpose of preventing cross infection, the most prolific cause of death in cases of children. Provision will also be made for the installation of a vitæ-glass roof where every facility will be provided for health-giving violet rays to the children undergoing treatment.

The removal of the administration building, heretofore located in the center of the hospital grounds, will make possible the construction of a modern kitchen of sufficient capacity to provide for the entire institution, and, incidentally, it might be well to state the cost of this kitchen when completed will represent an expenditure as great as the cost of a modern ten-story building, namely, about \$400,000.

With a view to providing additional protection from fire and minimize both odors and noise, it is proposed that the morgue, the laundry, and all of the workshops, be located on the Roxbury Canal side of Albany Street, thereby removing them entirely from the present hospital grounds.

The sum of nearly \$2,000,000 has been expended for buildings and equipment at the Mattapan Tuberculosis Hospital since the transfer of the operation of this institution was made to the Boston City Hos-

pital Department. This expenditure, upon recommendation of the Trustees of the Boston City Hospital, represents a courageous yet radical departure from the policy heretofore pursued in the treatment and care of persons afflicted with tuberculosis.

The Admission Building and two adjoining buildings completed this year will provide accommodation for 250 bed patients with provision for the treatment of patients in single rooms or cubicles rather than large numbers in open wards. Under the open ward system of treatment it was extremely difficult for the patient to secure the sleep necessary for the cure of incipient cases due to the constant coughing of other patients similarly afflicted. The introduction of the cubicle or single room system permits for the first time the receiving of incipient cases and it is but proper to say in passing that the cubicle or single room system adopted at the Mattapan Hospital represents the most forward step in the care and treatment of tubercular cases of any American city since it is the only institution thus equipped.

AGED POOR AND CHRONIC SICK.

The adoption by the Commonwealth of the old-age pension law in all probability will result in a reduction in the number of inmates at the Long Island Hospital and the adoption of a program covering a period of twenty years may render possible the abandonment of the Long Island Institutions and the transfer of the inmates to the mainland. Pending the adoption of this program, I believe it both wise and humane to erect at Long Island a recreation hall, where the inmates may gather for diversion in quarters that are inviting rather than compel the use by them of the present unsanitary, unwholesome and depressing concrete basement in which they have so long been required to assemble.

The success achieved in the field of preventive medicine in the treatment of infectious and contagious diseases common to children, through the use of serum and the control of cross infection, has resulted, not-

withstanding an increase in population, in a tremendous reduction in the number of patients in the children's wards of the City Hospital. I have requested the hospital authorities to make a study with a view to the establishment of a chronic hospital upon that portion of the hospital grounds known as the South Department and now utilized for the treatment of children with infectious diseases. The indications are that, with the rapid strides being made in the treatment of this class of cases, a portion of the Homeopathic property adjoining the main hospital and located between Concord and Stoughton Streets may be developed for the treatment of this class of cases. In that event it would be possible to develop in the area now given over to children's infectious diseases, namely, the property located between Harrison Avenue, Albany Street, Massachusetts Avenue, and Northampton Street, for the erection of a chronic hospital.

It has been the custom during the past half century to treat unfortunates afflicted with chronic diseases at the Long Island institution. The distance from Long Island has always rendered it difficult for the municipality to secure the services of the ablest surgeons and physicians because of the length of time consumed in journeying from the mainland to the institution. It has likewise been a problem to secure the ablest class of professional men and women to minister to the needs of the inmates and in the event that the program as here outlined can be consummated, it would be possible on the mainland to provide the highest possible character of medical and surgical services for the unfortunates now located at Long Island.

PARK DEPARTMENT.

The parks and playgrounds of any city are an important factor in the conservation of public health and the money expended either for the acquiring of additional park area or improvements of existing parks or playgrounds nets a double return to the

community; first, important improved facilities for recreation necessary to health and second, the enhancement and value over a period of years of lands acquired.

The Park Department of the city has been required to perform a greater amount of work during the year 1930 than in any previous year in the history of the department. The extension of park and playground facilities has afforded opportunity for the employment of large numbers of men and has proven a most prolific source of wise investment of public funds. The largest single expenditure in this connection has been for the completion of Columbus Park and the erection at the Strandway of the new L Street Bath House. These two improvements represent a total expenditure approximating \$760,000 and include the erection of a stadium with accommodations for the seating of 10,000 persons, which may be enlarged to provide for 70,000 persons.

The bathing facilities at L Street have long been inadequate, the structure a fire trap and the ever present possibility that in the event of conflagration during the bathing season the public would be deprived of a privilege long enjoyed. Work is now in progress upon the new L Street Bath House which will be of fireproof construction and open the entire year with hot and cold salt water showers. It will be the first municipal bath house in the world containing a solarium with quartz glass roof through which it will be possible for the citizens of Boston unable to journey to the warmer climates during the winter season to enjoy the advantages that a warmer climate presents without any of the disadvantages such as long journeys and expensive fares.

The attendance at the Rose Garden at Franklin Park during the year 1930 equalled the numbers to be found at the Kew Gardens in London, and with a view to making this section even more attractive, a rock garden, one of the finest to be found in the country, was this year constructed adjoining the Rose Garden.

For many years the condition of Muddy River from Leverett Pond to Brookline Avenue has con-

stituted a distinct menace to public health both in the City of Boston and the Town of Brookline. Last year through an arrangement made with the Town of Brookline and representing a combined cost of \$75,000, it was possible to abate this nuisance and provide additional safeguard for public health.

In observing the Tercentenary of the Founding of the Massachusetts Bay Colony it was but fitting and proper that a suitable memorial be erected to commemorate the services of the men and women through whose courage, confidence and conscience may be traced the success of the Massachusetts Bay Colony, and for this purpose the sum of \$45,000 was appropriated for the erection of a suitable memorial at the Spruce Street entrance to Boston Common.

The program for improving the public parks and playgrounds so as to make the same more inviting for general use, entailed an expenditure approximating \$200,000 and this work will be continued until the maximum of efficient use has been established.

At a cost of \$200,000, field houses and shelters have been provided at twelve playgrounds throughout the city, while more than fifty additional instructors were employed during the entire season to supervise play activities, thereby protecting the children and preventing them from indulging in play activities upon the public highways at a possible cost of limb and life.

For many years it has been customary to conduct the Randidge Fund excursions for children at Long Island in Boston Harbor, and the method of transportation was the boat upon which prisoners were sent to the House of Correction at Deer Island. With a view to providing a more cheerful atmosphere these excursions were last year conducted at Castle Island, where bathing facilities and recreational grounds were developed and the most successful excursions ever held in the city were enjoyed.

The improvements made in the East Boston section at World War Memorial Park represented a total of about \$100,000, and it is my sincere wish that legislative action may be secured to provide the sum of \$1,000,000 this year for the purpose of providing a

marine park extending from World War Memorial Park in East Boston to the Winthrop line. These additional recreational facilities should prove of great benefit to the residents of East Boston and, in addition, increase property values in this section of the city.

It is most unfortunate that a large percentage of the citizenship has failed to take advantage of the interesting picture unfolded in the development work being conducted at the East Boston Airport and which during the past year represented an expenditure of about \$450,000. There is no method by which it is possible to visualize the future value of East Boston's Airport. It is, however, significant that the leading automobile manufacturer of America now finds it advantageous to fly tri-motor planes direct from Detroit to the Airport, there to be crated for shipments either to Europe or South America. It is equally significant that the passenger traffic by air at the port is increasing and it is generally accepted that upon completion of the East Boston Tunnel and with a widened and extended Porter Street, that Boston will not only have one of the largest and best located but the most accessible airport to be found in the world.

With a view to relieving unemployment an area comprising nearly 7,000,000 feet of land in the West Roxbury and Hyde Park sections was purchased for the purpose of establishing a municipal golf course thereon. At the present time the work is progressing in a most satisfactory manner with some three hundred men employed in clearing the wooded area and preparing the golf course for use by the public. To those persons who have not availed themselves of the privilege of playing golf, I may state, from personal observation and experience, that it is a most attractive recreation for the individual and in addition an excellent investment both from a health and financial standpoint for any municipality. The Franklin Park Golf Course last year netted, over and above maintenance charges, \$20,000 revenue to the city and the facilities were enjoyed by some 70,000 persons.

The necessity for constant expansion and improvement of the parks and playgrounds so far as finances

will permit must be evident to every citizen. Among other improvements which I am desirous shall at least be started are the following: a double-barrelled roadway throughout the park system; a boulevard from the Strandway to and around Castle Island; a motor yacht basin at Pleasure Bay, South Boston; suitable locker and field house buildings upon all public playgrounds with concrete bleachers upon all of the larger playgrounds; and tree planting upon residential streets wherever possible.

GOVERNOR SQUARE IMPROVEMENT.

The Legislature in 1925 enacted a law providing for the extension of the Boylston Street Subway but, notwithstanding the fact that the demand for traffic relief was both imperative and constant by persons obliged to travel over the Commonwealth Avenue and Beacon Street lines of the Boston Elevated Railway system, nothing was done in the matter until 1930. The bill was amended to provide that the work upon this subway extension be performed upon a day labor basis under the direction of the Boston Transit Commission and that preference in employment be given to men who had served in the Army, Navy or Marine Corps during the World War. The work is progressing at the present time in a most satisfactory manner, with three shifts of workmen operating, and with a reasonable certainty that the allotments paid in the Soldiers' Relief Department will be reduced by more than one-half. At the present time more than 600 service men are engaged upon this work and as a result of a recent conference with the Elevated Trustees and the Directors of the Boston Elevated Railway Company an agreement has been reached for an extension of the structure to Audubon Circle, which will increase the amount to be expended from \$3,100,000 to about \$5,000,000, thereby providing additional opportunities for the men upon whom the Nation relied for its continued existence during the period of the World War.

ADDITIONAL TRANSIT FACILITIES.

It is most unfortunate that the Boston Elevated Railway System has been conducted at a loss during the year 1930. Nevertheless, the convenience of the traveling public and a due regard for property values in the business section of the city make necessary an extension of rapid transit facilities.

The program as outlined by the Metropolitan Transit Council is most comprehensive in character and while it involves a tremendous expenditure is unquestionably necessary for the welfare of the city and the territory served by the electric railway system. Two plans have been drafted by the Metropolitan Transit District officials for submission to the Legislature.

Route one should begin at or near the junction of South Huntington and Huntington Avenues and follow the general line of Huntington Avenue to Stuart Street, thence along Stuart Street to Columbus Avenue, thence along Columbus Avenue and under the Common to a new station to be constructed near the present Park Street Station, thence under Beacon Hill to a connection with the East Boston Tunnel at Bowdoin Square, and thence by new construction to a terminal at, or near, Day Square, East Boston, with provision for a future connection with the Boston, Revere Beach & Lynn Railroad.

Route two should begin in the Brighton section of the city, west of Harvard Avenue, and in general follow the line of Commonwealth Avenue to Governor Square, thence via the present Boylston Street and Tremont Street subways to a point on Canal Street near the North Station, thence via the present elevated structure and viaduct to Lechmere Square, and thence by new construction along the general line of the Boston & Maine Railroad, through Winter Hill and Davis Square to a terminal in North Cambridge or Arlington.

The adoption of these plans will represent a total expenditure approximating \$40,400,000. Not-

withstanding the financial burden which the adoption of these plans represents I am nevertheless of the opinion that there is no course open other than approval.

TRAFFIC TUNNEL.

The most forward step taken in traffic facilities in the history of the city is represented in the tunnel to be constructed to East Boston, at an estimated expenditure of \$16,000,000. This project, which has been a subject for study since 1843, and which was originally recommended in the Mayoral Inaugural of 1868, has at last happily been embarked upon.

Land takings have been made upon the Boston and the East Boston sides, and specifications for the advertising of the contract to build the tunnel will be available during the present month. The completion of the tunnel will necessitate the widening and extension of Porter Street in East Boston, so that a suitable and direct artery to the Airport may be established.

AIRPORT, HARBOR DEVELOPMENT AND CITY PLANNING.

The Federal Government has cooperated and it is anticipated that legislation will shortly be enacted by Congress which will permit of the transfer of Governor's Island to the custody of the City of Boston. The Commonwealth of Massachusetts, during the year 1930, transferred to the custody of the city, state land necessary for Airport extension at East Boston, and with the razing of Governor's Island and the reclamation of the Bird Island flats the Boston Airport when completed will be more accessible to the business district of the city than any airport in the world, since it will be possible to journey via tunnel and Porter Street to the Airport from the financial district in five minutes.

The Boston Board of Port Authority, after a full year's study, drafted plans covering a program of harbor development approximating a cost of over three million dollars and which will result in making

the main ship channel not only larger and deeper but more inviting and accessible to the commerce of the world.

The movement for the removal of the discriminatory system of differentials to which may be traced in large measure the decadence of the Port of Boston commercially is being waged with a reasonable assurance of success.

The program submitted by the City Planning Board for a central high speed traffic artery and which has received the indorsement of the leading business organizations represents a departure from the haphazard and highly expensive policy of street widening which has been in vogue since the establishment of the city. It will, in all probability, require a quarter century more for consummation but upon completion will unquestionably justify the vast expenditure required and necessary.

TRAFFIC DEPARTMENT.

The success attending the installation of traffic signal systems, both from the standpoint of public safety and of reducing delay in traffic, warrants a continuance of the aggressive, forward-looking policy that has characterized the work of the Traffic Department during the year 1930.

The friction which has from time to time tended to impede the efficiency of the department can, in my opinion, be obviated by the centralizing of authority in one individual, namely, the Traffic Commissioner, and a bill has been drafted for submission to the Legislature making provision for this departure.

STREET LAYING-OUT DEPARTMENT.

Since May 1st, when the Legislature made the loan for the making of highways available this department has accepted and laid out new streets to the number of 90, at an approximate cost of \$1,800,000, leaving a balance for the year 1931 of approximately \$1,700,000. Among the principal streets particular mention is made of the North Harvard Street widening,

grade changes in Congress Street, the widening of Morton Street, the widening of River Street, Dorchester, and alterations in Washington Street, Dorchester, and Washington Street, Boston Proper.

Under special loans authorized by the Legislature the Board has completed the work of laying out Charles Street, Summer and L Streets, and Morton Street, Dorchester.

For its 1931 program the Board has already started its work on Centre Street, Weld Street, Cottage Avenue in West Roxbury, Monastery Road in Brighton, Preble Street in South Boston and Arlington Street, Boston Proper.

PUBLIC WORKS DEPARTMENT.

During the past year, through the large amount made available by the Legislature and from the tax levy, the contract work done amounted to a total of \$6,898,675, which includes only a very small sum for contracts not as yet completed.

HIGHWAY DIVISION.

In addition to the new streets authorized by the Street Commission a program of reconstruction and repairing of existing streets and granolithic sidewalks represented an expenditure in the sum of \$3,294,642, which sum is one hundred per cent in excess of the amount expended in any previous year.

SEWER DIVISION.

The important work comprised extension of Stony Brook, Savin Hill improvement, work at the Calf Pasture Pumping Station, and surface drainage for the ninety streets laid out by the Street Commissioners this year. The amount authorized and expended for sewerage works will approximate \$1,555,462.

BRIDGE AND FERRY DIVISION.

Important projects were the construction of Congress Street Bridge, L Street Bridge, and a new ferry-boat which, with miscellaneous other work, made a total of \$1,491,000.

WATER DIVISION.

The small amount of contract work in this division is accounted for by a slump in building activity. The total number of services installed was 33 per cent less than last year, with even a greater decrease in the extension of pipe mains for such services. This reduced the amount of contract work for this division to the comparatively small total of \$557,571.

The contribution by the Public Works Department with a total of nearly seven million dollars for construction contracts during last year contributed greatly to the relief of unemployment, as it has been estimated by national road authorities that practically 70 per cent of the total expenditure for road construction can be assigned to labor, either on the site of the work or at the origin of and transportation of materials.

PROGRAM FOR 1931.

Legislative approval has been asked for two million dollars for reconstruction of old streets and one and one-half million dollars for the reconstruction of Chelsea North Bridge, and two million dollars for the extension of the covered channels of Stony Brook and its tributaries, which we hope if approved will make our record of contract expenditure for the year 1931 equal to that of 1930.

LAW DEPARTMENT.

Prior to 1930 all claims for damages against the City, resulting from defects in the highway, were investigated by the Claims Division of the Boston Police Department. This system was changed and a new division of the Law Department established, known as the Investigating Division, and all claims of every nature against the City were assigned to this division for investigation and report. Upon the inauguration of this plan of investigation of cases a policy of eliminating fraudulent claims against the City for defects in the highway was commenced and as a result the City has saved at least one hundred thousand dollars in the past year. This policy has

the additional advantage of having discouraged the bringing of false and baseless claims and suits against the City for alleged accidents in the highways and will result in a still greater saving for the year 1931 and subsequent years.

SOLDIERS' RELIEF.

During the year 1930 the Soldiers' Relief Department of the City of Boston expended \$425,000 for the relief of the veterans, and the families or dependents of veterans of all wars. An investigation disclosed the fact that the cities and towns of the Commonwealth were providing aid that should properly be furnished by the Federal Government.

With a view to correcting this injustice, special counsel was engaged some five months ago for the purpose of compiling all laws relative to aid for veterans and their dependents. It was found upon investigation that the cities and towns of the Commonwealth had been for many years paying an amount in excess of one million dollars annually to veterans and their dependents which sum should be provided through the Federal treasury. A meeting was called to which were invited soldiers' relief commissioners and representatives of the veterans' organizations of the Commonwealth for the purpose of considering this all-important subject which represented an annual unfair levy upon the City of Boston alone of approximately \$250,000. A draft of the legislation which it is proposed shall be submitted to the Federal law-making bodies was considered at the meeting and received the unanimous endorsement of every city and town in the Commonwealth, in addition to a pledge of support for its enactment by every veteran organization. It was the consensus of opinion of the soldiers' relief departments of the Commonwealth and the veterans' organizations that it was the duty of the Federal Government, upon whose call the men were mustered to the colors for the defense of country, to provide for their needs, except insofar as it affected temporary relief due to industrial depression.

The legislation sponsored by the City of Boston and indorsed by every city and town in the Commonwealth will be submitted to Congress during the present session and provides for increased compensation, not only for veterans and their families, but liberal allowances for widows and dependents of those who died in the service of their country.

FINANCE.

Boston has long enjoyed an enviable financial reputation among the great cities of the country. This has been accomplished through prudent and economical management of matters financial over a long period of years. Scrupulous care in financing current obligations from taxes and providing only for permanent improvements from bond issues have been the means through which we have developed this splendid result. During the past year, with its abnormal conditions of business depression and excessive unemployment, the city has courageously faced its obligations and financed all its relief to needy citizens without resort to bond issues. Temporary loans in anticipation of taxes were issued during 1930 to the amount of \$22,000,000. The last of these loans was paid on October 7, 1930, and no temporary loans were outstanding at the end of the year.

According to a sound financial policy adopted by me in 1922, the first year of my previous administration, the books of the city will be kept open for approximately three weeks in order to pay every known liability incurred during the year 1930. Upon the closing of the books, there will be a substantial cash surplus remaining, estimated at more than \$1,250,000, notwithstanding the heavy financial demands made upon the city in a year of great business depression. Truly a most remarkable showing.

RESPONSIBILITY OF MAYOR.

The Charter of 1909 was drafted with a view to centralizing responsibility in the Mayor and it has been my purpose to conduct the activities of the

city upon a strictly business rather than on a political basis. Under the provisions of the Charter, monthly conferences of department heads have been held for the consideration of municipal problems. In my opinion, since the members of the City Council are co-directors of city affairs, it would appear but proper that they be invited to participate in these monthly conferences and it is my purpose that such invitation be hereafter extended.

CONCLUSION.

In conclusion, I invite the cooperation not only of the Boston City Council but of the Press, the Chamber of Commerce and all other agencies in the consummation of the work which under the law we are required to perform during the current year. I am firm in the belief that the year 1931 will be most prosperous and that definite steps will be taken to prevent a recurrence of the industrial depression so much in evidence during 1930.

We are gradually shedding the fear which in so large a measure has been responsible for the ills which have afflicted us during the year 1930 and if we can but approach the future with the faith that inspired the founders of the Massachusetts Bay Colony and the builders of the nation, a larger measure of happiness, prosperity and plenty should be the lot of everyone.

I recommend for your earnest consideration a study during the present year of ways and means of adoption in 1932 of a five-day working week for all persons in the employ of the City of Boston. In all matters for the amelioration of conditions that bear heavily upon the workers the city should be the leader and not the follower. The substitution of automatic machinery for labor in every field of activity has in the past ten years displaced in the United States approximately 3,000,000 of workers and competent authorities estimate that a like number will be displaced during the succeeding ten years. Inventive genius and scientific development in the machine field is essential to the progress of the Nation

and should be utilized for the benefit of all rather than for the enrichment of a few. A reduction in the days of the working week so that the machine may continue to be the slave of man rather than have man become the slave of the machine, in my opinion, justifies this departure. The adoption generally of the five-day week should prove beneficial to all the people and is worthy of our more serious thought.

With the sincere wish that the same harmonious relations that have been in evidence during the past year may continue during 1931 and that our every act shall be solely for the public weal, I bid you one and all, a Happy New Year.

ANNUAL REPORT
OF THE
ART DEPARTMENT
FOR THE
YEAR ENDING DECEMBER 31, 1930.

BOSTON, January 1, 1931.

HON. JAMES M. CURLEY,
Mayor of the City of Boston.

SIR,—The Board of Art Commissioners respectfully submits the following report for the year ending December 31, 1930.

IN MEMORIAM.

During the past year the Art Commission has suffered a severe blow in the death of its chairman, James Harleston Parker. Since the death of the former chairman, Thomas Allen, Mr. Parker carried on his tradition of devotion to the public interest. He tirelessly contributed all of his fine taste and executive ability to the service of this commission. He leaves a gap which it is impossible to fill.

MAINTENANCE OF WORKS OF ART.

Under the law this commission is responsible for the care and custody of all municipal "paintings, mural decorations, statues, bas reliefs, sculptures, monuments, fountains, arches, ornamental gateways, and other structures of a permanent character intended for ornament or commemoration." During the past year this

commission has had all the major municipal monuments cleaned: Washington Equestrian statue, Flagpole base, Charles Sumner and Thomas Cass statues, Ether monument, Edward Everett Hale, Wendell Phillips statues in the Public Garden; William Lloyd Garrison, Alexander Hamilton, John Glover, Leif Ericsson statues, Commonwealth avenue; Benjamin Franklin and Josiah Quincy statues, City Hall; Robert Burns, Crispus Attucks and Oneida Football Monuments, Lafayette and Congressional and Boston Common Tablets and Shaw Monument and Soldiers' Monument on Boston Common; Samuel Adams statue, Adams square, and William Ellery Channing statue, Arlington street; Abraham Lincoln Monument, Park square; also the Parkman Bandstand.

WORKS OF ART IN SCHOOLS.

This commission has approved a tablet in memory of Abraham Lincoln by T. F. McGann and Sons Company for a site in the Abraham Lincoln School; a statue of Lincoln for a position at the center of the stage in the same school; a portrait of the late Solomon Lewenberg by Mr. Robert Horrigan for a position in the Solomon Lewenberg School; and a portrait of the late Frederick R. Tupper by Mr. Robert Horrigan for a position in the Brighton High School.

TABLETS.

This commission has approved tablets proposed by the commission on Marking Historical Sites as follows: Tablets by T. F. McGann and Sons Company, Northern Battery, 179 Atlantic avenue, Boston, Mass.; Paul Revere, corner Washington and Court streets, Boston, Mass.; Governor Hutchinson House, 9 Garden Court street, Boston, Mass.; First Meeting House, corner Pond and East Cottage streets, Dorchester, near Edward Everett square; Boston Neck, 1174 Washington street, Old Grand Opera House Building; West Church, corner Cambridge and Lynde streets; Leverett, corner Court and Washington streets; Quaker Meeting House, 35 Congress street, June 10, 1930. Anne Hutchinson (consisting wholly of lettering), corner School and Washington streets, November 26, 1930, and De Champlain, North End Park, Commercial street; also

tablets by Mr. John Paramino, Founding of Boston Common, on the Common; Old Brick Church, 209 Washington street; Governor Winthrop, 53 State street; Faneuil Hall, Governor Endicott and Elihu Yale, Scollay square; Rev. John Cotton and Sir Henry Vane, Pemberton square.

INSCRIPTION.

The Art Commission has also approved the design for an inscription in memory of Charles Follen McKim, submitted by the Boston Society of Architects, for a position on the staircase of the Boston Public Library.

Respectfully submitted,

CHARLES D. MAGINNIS,
Chairman.

ANNUAL REPORT
OF THE
ASSESSING DEPARTMENT
FOR THE YEAR 1930.

ASSESSORS' OFFICE, CITY HALL ANNEX,
BOSTON, MASS., January 1, 1931.

HON. JAMES M. CURLEY,
Mayor of the City of Boston.

SIR,— In accordance with the requirements of the existing ordinance, the Board of Assessors respectfully submits the following report:

TAX WARRANTS.

Warrants for the assessments of taxes in the City of Boston for the financial year commencing January 1, 1930, were received by the Board of Assessors as follows:

A state warrant for the proportion of the City of Boston of a state tax of \$8,500,000, as fixed by chapter 407, Acts of 1930	\$1,816,290 00

A state warrant for the proportion of the City of Boston of the expense of a system of sewage disposal for the Neponset River Valley, chapter 406, Acts of 1895, and for the construction of a high level gravity sewer for the relief of the Charles and Neponset River Valleys, chapter 424, Acts of 1899, and any and all acts in addition and amendment thereto, South Metropolitan Sewerage Tax	338,252 86
<i>Carried forward</i>	<u>\$2,231,947 67</u>

<i>Brought forward</i>	\$2,231,947 67
A state warrant for metropolitan parks and boulevards , chapter 407, Acts of 1893, chapter 550, Acts 1896, chapter 464, Acts 1899	1,436,924 21
A state warrant for Metropolitan Parkways , chapter 364, Acts 1929	43,976 39
A state warrant for Charles River Basin under section 9, chapter 465, Acts 1903, and amendments	246,375 60
A state warrant for Charles River Basin under section 9, chapter 465, Acts 1903, as amended, section 2, chapter 402, Acts 1906, on account Bridge	25,857 03
A state warrant for Massachusetts Highways , section 16, chapter 81, General Laws	1,256 62
A state warrant for Prevention of Fires under section 29, chapter 148, General Laws, and all acts in addition and amendment thereto	15,670 70
A state warrant for Neponset River Bridge under chapter 300, General Acts for 1915, and all acts in addition thereto	13,182 06
A state warrant for Division of Metropolitan Planning within the Metropolitan District Commission under chapter 399, Acts 1923, and all acts in addition thereto and amendment thereof	11,013 92
A state warrant for Smoke Abatement , chapter 651, Acts 1910, as amended by chapter 301, Acts 1928	10,156 08
A state warrant for protection of Public Health in Neponset River Valley , under chapter 655, Acts 1911,	3,376 17
A state warrant for construction of a southern route to accommodate traffic under chapter 330, Acts 1925, as amended by chapter 369, Acts of 1926	29,723 48
A state warrant for Auditing Municipal Accounts under section 41, chapter 44, General Laws, and all acts in addition and amendments thereto	10,860 50
A state warrant for Fort Point Channel and South Bay under provisions of chapter 48, Resolves of 1929	896 49
A state warrant for elimination of objectionable conditions in Boston Harbor , under provisions chapter 29, Resolves of 1929	10,000 00
A state warrant for Investigation of Hackney Carriages and Taxicabs , chapter 53, Resolves 1929	1,289 85
A state warrant for Care of Civil War Veterans , etc., chapter 340, Acts 1929	2,753 00
A county warrant for the tax of Suffolk County for county purposes [see section 53, chapter 12, R. L.]	3,800,136 14
A city warrant for the tax of City of Boston for city purposes [see section 53, chapter 12, R. L.]	39,828,871 11
A warrant for school expenses , chapter 206, Acts of 1919, and all acts in addition thereto	20,038,272 28
	<u>\$67,762,539 30</u>

The Board of Assessors received a state warrant in accordance with the provisions of chapter 92, General Laws, and all acts in addition and amendment thereto entitled "An Act to Provide for a Metropolitan Water Supply," amounting to \$2,679,165.32. This amount was not included in the amount upon which the rate of taxation was based, as the estimated income of the Water Division of the City of Boston was sufficient to meet the expenditure.

DETAIL SHOWING THE ASSESSMENT, INTEREST, SINK-
ING FUNDS, ETC., OF VARIOUS STATE WARRANTS,
TOTALS OF WHICH APPEAR ON PAGES 1 AND 2.

South Metropolitan Sewers.

State assessment for south metropolitan sewer (\$338,252.86), \$73,365.24 is for sinking fund, \$130,774.07 is for interest, \$108,437.59 is for maintenance and operation, \$20,343.96 is for maturing serial bonds, and \$5,332 is for special investigation.

North Metropolitan Sewers.

State assessment for north metropolitan sewer (\$77,404.81), \$1,329.50 is for sinking funds, \$14,423.14 for interest, \$50,462.67 is for maintenance and operation, \$9,675.50 is to meet maturing serial bonds, and \$1,514 is for special investigation.

Metropolitan Parks.

State assessment for metropolitan parks (\$1,436,924.-21), \$39,844.65 is for sinking fund, \$275,975.09 is for interest, \$949,242.78 is for maintenance and operation, and \$171,861.69 is to meet maturing serial bonds, divided as follows:

	Serial Bonds.	Sinking Funds.	Interest.	Maintenance.	Total.
Parks . . .	\$133,570 37	\$29,875 78	\$182,317 10	\$457,681 04	\$803,444 29
Boulevard . . .	38,291 32	7,811 72	82,783 41	444,812 57	573,699 02
Nantasket . . .	. . .	2,157 15	10,874 58	43,824 45	56,856 18
Wellington Bridge . . .	. . .	. . .	. . .	2,924 72	2,924 72
Totals . . .	<u>\$171,861 69</u>	<u>\$39,844 65</u>	<u>\$275,975 09</u>	<u>\$949,242 78</u>	<u>\$1,436,924 21</u>

Charles River Basin.

Assessment for Charles River Basin under section 9, chapter 465, Acts 1903, as amended, \$272,232.63.

	Serial Bonds.	Sinking Funds.	Interest.	Maintenance.	Total.
Basin . . .	\$5,192 24	. . .	\$57,023 43	\$184,159 93	\$246,375 60
Bridge account . . .	. . .	\$5,166 12	20,690 91	. . .	25,857 03
Totals . . .	<u>\$5,192 24</u>	<u>\$5,166 12</u>	<u>\$77,714 34</u>	<u>\$184,159 93</u>	<u>\$272,232 63</u>

Massachusetts Highways.

State assessment highways, \$1,256.62.

Massachusetts Highways (County Expenses).

No state assessments in 1930 for Massachusetts highways, county expenses.

Smoke Abatement.

State assessment for smoke abatement, \$10,156.08.

Metropolitan Water.

State assessment for Metropolitan Water (\$2,679,-165.32), \$92,351.02 is for sinking fund, \$297,447.44 is for serial bonds, \$1,344,677.44 is for interest, \$592,681.53 is for maintenance, \$79,596.08 is for agreement between town of Brookline and Metropolitan District Commission, and \$272,411.81 is for development and improvement.

Fire Prevention.

State assessment for fire prevention, \$15,670.70.

Neponset River Bridge.

State assessment for Neponset River Bridge (\$13,-182.06), \$9,173.83 is for serial bonds, \$4,008.23 is for interest.

Neponset River Valley (Public Health).

State assessment under provisions of chapter 655, Acts 1911, \$3,376.17.

Metropolitan Planning.

State assessment for Metropolitan Planning within the Metropolitan District Commission, \$11,013.92.

POLL TAX ASSESSMENT.

The number of polls recorded for assessment before August 20, 1930, and included in the estimate that determined the rate of taxation for the current year was 241,423. Under the operation of the law providing for supplementary assessment of omitted male persons liable to assessment, there were added to the list 4,312 polls, making the total number of males assessed 245,735.

VALUATION.

The valuation of the city as of the first day of April, 1930, determined by the assessors August 20, when the rate of taxation for the current year was fixed, was as follows:

Value of land	\$889,598,200 00
Value of buildings	937,862,400 00
Total value of real estate	\$1,827,460,600 00
Value of personal property other than bank stock	\$144,687,600 00
Value of bank stock	None
Total value of personal estate	144,687,600 00
Total valuation	\$1,972,148,200 00
Assessments under the provisions of section 85 of chap- ter 490, Part I, Acts 1909, personal estate	1,450,300 00
Assessments under the provisions of section 85 of chap- ter 490, Part I, Acts 1909, real estate	18,100 00
The total valuation of the city upon which taxes were assessed for the financial year 1930, when all assess- ments were made, was	<u>\$1,973,616,600 00</u>

TAXABLE VALUATIONS.

<i>Real and personal estate by assessors' general assess- ment</i>	<i>\$1,972,148,200 00</i>
<i>Real and personal estate by assessors' supplementary assessment</i>	<i>1,468,400 00</i>
Total taxable valuation	<u>\$1,973,616,600 00</u>

To this amount may be properly added the intangible personal property and income assessed by the state and the personal property (except machinery) of Massachusetts and foreign corporations also assessed by the state.

EXEMPT VALUATIONS.

<i>Real estate of the United States</i>	<i>\$69,378,100 00</i>
<i>Real estate of the Commonwealth</i>	<i>51,234,500 00</i>
<i>Real estate of the City of Boston</i>	<i>191,675,900 00</i>
<i>Real estate of the town of Brookline</i>	<i>66,300 00</i>
<i>Real estate of houses of religious wor- ship</i>	<i>34,427,600 00</i>
<i>Real estate of charitable, scientific and literary corporations, including cemeteries, etc.</i>	<i>90,564,100 00</i>
<i>Personal property of charitable, scien- tific and literary corporations esti- mated, tangible</i>	<i>15,585,037 50</i>
<i>Personal property of charitable, scien- tific and literary corporations esti- mated, intangible</i>	<i>53,000,000 00</i>
Total exempt valuation	<u>\$505,931,537 50</u>

Total valuation as of April 1, 1930	<u>\$2,478,079,737 50</u>
---	---------------------------

THE RATE OF ASSESSMENT AND TAXES COMMITTED
TO THE COLLECTOR.

The rate of taxation was determined by the assessors to be 3.08 per cent, or \$30.80 per \$1,000; of this rate

\$1.86 was for state, \$1.73 for county, and \$27.21 for the city tax.

The land valuation of \$889,598,200 at \$30.80 per \$1,000 gave assessment amounting to	\$27,399,624 56
The buildings valuation of \$937,862,400 at \$30.80 per \$1,000 gave assessment amounting to	28,886,161 92
Total tax, real estate assessment	\$56,285,786 48
The personal estate valuation of \$144,687,600 at \$30.80 per \$1,000 gave assessment amounting to	4,456,378 08
The total valuation of \$1,972,148,200 at \$30.80 per \$1,000 gave a total property tax of	\$60,742,164 56
241,423 male polls, at \$2 each, amounted to	482,846 00
The taxes as determined by the assessors, when the rate for the year was fixed, and their list and warrant therefor was committed to the collector, aggregated	\$61,225,010 56
<i>Supplementary assessments</i> of omitted persons, 4,312 polls, ...	8,624 00
<i>Supplementary assessments</i> of omitted estates, added in accordance with the provisions of section 85, chapter 490, Part I, Acts 1909, amended chapter 89, Acts 1911, \$18,100 real estate	557 48
\$1,450,300 personal estate	44,669 24
The total taxes committed to the collector for the financial year 1930 amounted to	<u>\$61,278,861 28</u>

The collector was also notified that there was due the City of Boston from the Commonwealth of Massachusetts under the provisions of chapter 12, section 12, of Revised Laws, amended chapter 161, Acts 1903, the sum of \$9,240 on account of Chestnut Hill reservoir; and \$27,290.66 for reimbursement for loss of taxes on land used for public institutions. Also that there was due from the town of Brookline, under the same provisions of law, the sum of \$52.36 on account of Brookline water supply.

Also that there was due under the provisions of chapter 59, section 8, General Laws, the sum of \$13,070.31, being an excise tax on persons owning ships and vessels.

DETAILED CHART.

Warrants and Appropriations.

Appropriations for city purposes	\$36,863,257 60
School maintenance and construction	21,078,958 34
Appropriations for county purposes	3,645,199 85
Debt requirements	8,134,682 68
Special 10 per cent requirements on loans outside debt limit	510,000 00
Pension requirements	1,906,503 00
State tax and assessments	4,095,259 77
Total charges and requirements	<u>\$76,233,861 24</u>

Credits.

Surplus cash, December 31, 1929	\$884,635 88
Estimated Departmental income	3,021,000 00
School surplus and estimated income	1,040,686 06
Estimated corporation and street railway taxes	3,525,000 00
Share of state income tax	6,587,172 97
Poll taxes	482,846 00
Automobile excise tax	951,330 71

Total credits and deductions 16,492,671 62

Net requirements before adding overlay	\$59,741,189 62
Overlay (1.7 per cent of net requirements)	1,015,600 22

Total real and personal property tax (A) \$60,756,789 84

1930 assessed valuation total (B) \$1,972,148,200 00

Total appropriations and requirements for 1930	\$76,233,861 24
Total appropriations and requirements for 1929	71,171,985 78

Increase \$5,061,875 46

This increase is accounted for as follows:

City purposes	\$3,204,874 14
County purposes	30,903 58
Debt requirements	256,171 04
Special 10 per cent requirement on loans outside debt limit	205,000 00
Pension accumulation fund	51,236 00
School maintenance and construction	1,433,644 27

	<u>\$5,181,829 03</u>
Less decrease in State tax and assessments	119,953 57

Net increase \$5,061,875 46

Supplementary Assessments of Polls and Omitted Estates in Each of the Twenty-two Wards of the City, and the Taxes Assessed Thereon as of the First Day of April, in the Year 1930. Rate, \$30.80 per \$1,000.

ABATEMENTS.

The amount of abatements from all the foregoing assessments to December 31, 1930, was:

Polls	\$16 00
Real estate	395,379 23
Personal estate	30,539 76
Total	<u>\$425,934 99</u>

AVERAGE OF ASSESSORS' VALUATION FOR THREE YEARS.

In accordance with the requirements of section 4 of chapter 5 of the Revised Ordinances of 1914, we herewith include a statement of the assessed valuation of the taxable property in the City of Boston for each of the preceding three years, the abatements thereon allowed previous to the thirty-first day of December preceding, and the average of such valuations reduced by such abatements.

1928	\$1,950,186,600 00	\$17,148,800 00
1929 *	2,008,588,500 00	20,478,200 00
1930 *	2,012,764,500 00	14,639,200 00
Totals	<u>\$5,971,539,600 00</u>	<u>\$52,266,200 00</u>
Less abatements	52,266,200 00	
	<u>\$5,919,273,400 00</u>	

divided by 3 gives \$1,973,091,133.33 — average valuation for three years less abatements.

* Includes valuation of motor vehicles as provided by chapter 379, Acts of 1928, section 2 (chapter 60A); and as amended by chapter 244, section 3, Acts of 1930.

AVERAGE VALUATIONS USED, FINANCIAL YEARS

NOTE.— Commencing 1926 the financial year begins on January 1.

TAXATION OF CORPORATE PROPERTY.

The assessors, in July, 1930, returned to the Tax Commissioner of the Commonwealth the names of 3,244 Massachusetts corporations located in Boston, “ . . . with the value thereof,” amounting to —

Real estate, 999.	Valuation	\$434,939,100
Machinery, 2,245.	Valuation	102,483,700
Total		<u>\$537,422,800</u>

The number of foreign corporations registered was 397. Value thereof, amounting to —

Real estate, 125.	Valuation	\$51,537,300
Machinery, 272.	Valuation	5,572,900
Total		<u>\$57,110,200</u>

MOTOR VEHICLE EXCISE TAX.

The motor vehicle excise tax was originally created by the passage of chapter 379 of the Acts of 1928, which law became effective as of January 1, 1929. This act provided that an excise tax should be assessed on all registered motor vehicles, in lieu of the local tax formerly assessed on this class of property. This law, which became chapter 60A of the General Laws, was amended April 23, 1930, by the passage of chapter 244 of the Acts of 1930, which changed the operation of the original enactment. The new amendment corrected many of the difficulties of the original act and created a monthly assessment of motor vehicles in accordance with the date of registration and provided for proportionate assessments and excise taxes upon all such vehicles sold or transferred to other owners during the calendar year. It also provided a minimum tax of two dollars, and below which no abatement may reduce a tax higher assessed.

The tax is levied at an average State rate and valuations at which these vehicles are assessed are determined by the Tax Commissioner and forwarded to all assessors of the various cities and towns throughout the Commonwealth. All valuations are therefore uniform.

The number of motor vehicles assessed in the 1930 levy was 117,166. The total amount of the tax levied was \$1,154,835.60.

There were thirteen full units and two supplementary units committed to the City Collector upon the 1930 levy. Of the total number of motor vehicles assessed

during 1930, 3,950 were committed to the City Collector subsequent to December 31, in four units. Units numbered eleven, twelve and the second supplementary unit, were each dated January 21, 1931. The last and final unit, numbered thirteen, was dated February 3, 1931. In the second supplementary unit there were twelve divisions of taxes covering assessments levied upon vehicles registered during each month of the year. The registration records, upon which these assessments were based, were not received in sufficient season to be carried in the regular monthly unit.

The detail of number of assessments and the tax levied by wards for the entire commitment for 1930 appears in Table D on page 33 following.

SPECIAL ASSESSMENTS.

Street, Sewer and Sidewalk Assessments.

Under the operation of the existing laws the following amounts were certified to the assessors by the City Collector as remaining unpaid one year after the date of assessment:

Assessments under chapter 521, Acts 1902, for "Laying Out and Construction of Highways and Sewerage Works Acts," for street construction, which were divided into ten equal parts, with interest, said interest being figured thirty days from date of assessment	\$430,662 21
Assessment under chapter 450, Acts 1889, as amended by chapter 371, Acts 1912, for "Laying Out and Construction of Highways and Sewerage Works Acts," for sewers, which were divided into ten parts, each part being 10 per cent of total, with interest, said interest being figured thirty days from date of assessment	66,409 86
Assessment under chapter 437, Acts of 1893, as amended by chapter 269, Acts of 1916, "In relation to Sidewalks," which were divided into five parts, each part being 20 per cent of total, with interest, said interest being figured thirty days from date of assessment	27,620 33
Total	<u>\$524,692 40</u>

The several assessments were duly apportioned and bills issued for the sum of the required per cent with interest.

GYPSY MOTHS.

Under the provisions of chapter 381, Acts of 1905, amended by chapter 268, Acts of 1906, and chapter 521, Acts of 1907, the Board of Assessors was notified by the chairman of the Park and Recreation Commissioners of

the amount of assessments due for the suppression of gypsy and brown-tail moths.

The Board of Assessors duly assessed the sum of \$8,036.

STREET RAILWAY ASSESSMENTS.

Chapter 138, General Acts of 1928, provides that commutation or excise tax assessed under provisions of sections 62 and 65 of chapter 63 of the General Laws are hereby repealed.

There was also credited to the City of Boston by the treasurer of the Commonwealth the sum of \$105,931.55, being the city's share of franchise tax on street railways under chapter 14 of the Revised Laws.

RECEIPTS AND EXPENDITURES.

The appropriation and transfer	\$358,132 58
The expenditures for the financial year for salaries, compensation of assistant assessors, clerk hire, books, stationery and incidentals are as follows:	
A. Personal Service	\$304,051 08
B. Service other than Personal	25,104 57
C. Equipment	1,327 31
D. Supplies, etc.	18,207 74
F. Special Items	8,425 00
	357,115 70
Balance unexpended	
	\$1,016 88

SPECIAL APPROPRIATION.

Valuation Survey	\$17,922 44
Expenditure	1,754 77
Balance unexpended	
	\$16,167 67

Respectfully submitted,

EDWARD T. KELLY, *Chairman,*
NEAL J. HOLLAND,
HENRY L. DAILY,
Assessors of the City of Boston.

Deputy Assessors.

FRED E. BOLTON, *Secretary.*

* Under chapter 269, General Acts of 1916 (Income Tax Law), intangible personal property was exempted from local taxation.

NOTE.—Registered motor vehicles were excluded from property tax in 1929 under chapter 379, Acts of 1928, which provides for an excise tax commencing January 1, 1929.

* U. S. Census.

NOTE.— Prior to 1842 taxes were assessed on a basis of 50 per cent of true value. Custom discontinued in 1842 and thereafter.

The city of Roxbury was annexed January 6, 1868.
Valuation real estate \$18,265,400
“ personal estate 8,286,300
total \$26,551,700 said valuation
first taking effect as a part of Boston in 1868.
Population by state census of 1865 was 28,426.

The town of Dorchester was annexed January 3, 1870.
Valuation real estate \$12,826,200
“ personal estate 7,489,500
“ total \$20,315,700 said valuation
first taking effect as a part of Boston in 1870.
Population by state census of 1865 was 10,717.

The city of Charlestown was annexed January 5, 1874.
Valuation real estate \$26,016,100
“ personal estate 9,273,582
“ total \$35,289,682 said valuation
first taking effect as a part of Boston in 1874.
Population by United States census of 1870 was 28,323.

The town of West Roxbury was annexed January 5, 1874.
Valuation real estate \$16,254,350
“ personal estate 5,894,250
“ total \$22,148,600 said valuation
first taking effect as a part of Boston in 1874.
Population by United States census of 1870 was 8,686.

The town of Brighton was annexed January 5, 1874.
Valuation real estate \$11,964,450
“ personal estate 2,584,081
“ total \$14,548,531 said valuation
first taking effect as a part of Boston in 1874.
Population by United States census of 1870 was 4,967.

The town of Hyde Park was annexed January 1, 1912.
Valuation real estate \$13,088,575
“ personal estate 2,540,690
“ total \$15,629,265 said valuation
first taking effect as a part of Boston in 1912.
Number of polls, 4,130.
Population, United States census, 15,507.

APPENDIX.

ASSESSMENT DISTRICTS FOR THE ASSESSMENT OF
APRIL 1, 1930.

Districts are bounded and described as follows:

District 1.— That part of Ward 1 (East Boston, North) extending from junction of the shore line and the division line between the property now or late of Alonzo Crosby heirs and the property now or late of Richard F. Green (said division line being the same as that established by the Ordinances of 1895) to the boundary line between Boston and Chelsea; thence by said line and the boundary lines between Boston and Revere and Boston and Winthrop to the southerly side of Winthrop bridge; thence by the latter to its junction with the shore line of the City and by said line to its junction with the line of Brooks street extended; thence through latter and Brooks street to the location of Boston, Revere Beach & Lynn Railroad and to Prescott street or the line thereof extended; thence through Prescott, Princeton, Meridian, Lexington and Border streets to the division line between the property now or late of Alonzo Crosby heirs and the property now or late of Richard F. Green and by said line to the beginning.

District 2.— That part of Ward 1 (East Boston, South, including the islands) extending from junction of City shore line and the division line between the property now or late of Alonzo Crosby heirs and the property now or late of Richard F. Green (said division line being the same as that established by the Ordinances of 1895) to Border street; thence through Border, Lexington, Meridian, Princeton and Prescott streets (also Prescott street extended) to the location of Boston, Revere Beach & Lynn Railroad and through same to Brooks street or the line thereof extended; thence through latter to the shore line and by said line to the beginning. All portions of the City lying on the outside of the line beyond which building or wharfing out is or may hereafter be legally forbidden or where such line does not exist, then all portions lying on the outside of extreme low water mark and including all islands in Boston harbor within city limits are included in District 2, except Castle Island.

District 3.— That part of Ward 2 (Charlestown, West) extending from Prison Point bridge and the boundary line between Boston and Cambridge to the boundary line between

Boston and Somerville; thence by said line to the boundary line between Boston and Everett and by latter to the extension of the easterly line of a wharf now or formerly known as Brooks wharf (said line being the same as that established between Wards Three and Four by the Ordinances of 1895); thence by said line through Medford, Everett, Bunker Hill and Trenton streets; thence through Cross, High, Cordis and Warren streets across Thompson square to Austin street and through latter and Prison Point bridge to the beginning.

District 4.— That part of Ward 2 (Charlestown, East) extending from junction of Prison Point bridge and the boundary line between Boston and Cambridge through said bridge and Austin street, across Thompson square to Warren street; thence through Warren, Cordis, High, Cross and Trenton streets to Bunker Hill street; thence through latter, Everett and Medford streets to the easterly line of a wharf now or formerly known as Brooks wharf (said line being the same as that established between Wards Three and Four by the Ordinances of 1895); thence by said line and same extended to the boundary line between Boston and Everett in the Mystic river; thence by latter and the boundary line between Boston and Chelsea to the easterly side of Chelsea bridge; thence by same to its junction with the shore line of the City and by said line to its junction with the boundary line between Boston and Cambridge; thence by said boundary line to the beginning.

District 5.— That part of Ward 3 (North End) extending from junction of Cambridge street (extended) and Charles river; thence by the latter to Charles River Dam; thence through Leverett, Brighton, Lowell, Minot and Nashua streets to Causeway street, crossing John F. Lindsay square to Staniford street; thence through Staniford, Green, Chambers and Cambridge streets to Bowdoin street; thence through latter and Derne street, crossing Hancock street to Myrtle and through same, then Irving and Cambridge streets to the beginning.

District 6.— That part of Ward 3 (North End) extending from junction of Cambridge and Chambers streets, through Chambers, Green, Staniford, Causeway, Nashua, Minot, Lowell, Brighton and Leverett streets to Charles river; thence to Warren Bridge through Beverly and Causeway streets, Keany square and Commercial, Hanover and Blackstone streets, crossing Haymarket square to Merrimac street; thence through latter, Chardon street, Bowdoin square and Cambridge street to the beginning.

District 7.— That part of Ward 3 (North End) extending from junction of Beacon and Bowdoin streets; thence through Bowdoin and Cambridge streets, crossing Bowdoin square to Chardon street; thence through Chardon and Merrimac streets to Haymarket square and crossing same to Blackstone street; thence through Blackstone, Hanover, Washington, School and Beacon streets to the beginning.

District 8.— That part of Ward 3 (North End) extending from junction of Beverly street (extended) and Charles River; thence by the latter and Harbor Commissioners' line to Congress street, thence through latter, Atlantic avenue and South Market street to Merchants row; thence by southerly and westerly sides of Faneuil Hall square to Dock square and Washington street; thence through Washington, Hanover and Commercial streets, Keany square, Causeway and Beverly streets to the beginning.

District 9.— That part of Ward 3 (Boston Proper) extending from junction of Washington and Milk streets; thence northerly through Washington street and Adams, Dock and Faneuil Hall squares (westerly side) to South Market street; thence through South Market street, Atlantic avenue and Central street to McKinley square and Milk street to the beginning.

District 10.— That part of Ward 3 (Boston Proper) extending from junction of Congress and Milk streets; thence through Milk street, McKinley square, Central street, Atlantic avenue, Congress and Milk streets to the beginning.

District 11.— That part of Ward 3 (Boston Proper) extending from junction of Franklin and Devonshire streets; thence through Franklin and Congress streets, Dorchester avenue, Summer street, Atlantic avenue, Beach, Kingston and Bedford streets to Church Green; thence crossing latter and Summer street to Devonshire street; thence to Franklin street and the beginning.

District 12.— That part of Ward 3 (Boston Proper) extending from junction of Washington and Milk streets; thence through Milk, Congress, Franklin, Devonshire and Summer streets, Church Green, Bedford, Kingston, Essex and Washington streets to the beginning.

District 13.— That part of Ward 3 (Boston Proper) extending from junction of Park and Beacon streets; thence through Beacon, School, Washington and Essex streets to Harrison avenue; thence by the latter, Kneeland, Washington, Stuart, Tremont and Park streets to the beginning.

District 14.— That part of Ward 3 (South End) extending from junction of Tremont and Stuart streets; thence through Stuart and Kneeland streets, Harrison avenue, Essex, Kingston and Beach streets, Atlantic avenue, Summer street, crossing Dorchester avenue to Fort Point channel and along channel to Broadway to New York, New Haven & Hartford Railroad and Boston & Albany Railroad; thence by said railroads to Shawmut avenue and through same, Tremont and Stuart streets to the beginning.

District 15.— That part of Ward 3 (South End) extending from the junction of Shawmut avenue and the location of the Boston & Albany and the New York, New Haven & Hartford Railroads, through the location of the said railroads to Broadway; thence through Broadway to Lehigh street; thence through Lehigh street to Albany street; thence through Albany street to Union Park street; thence through Union Park street

to Washington street; thence through Washington street to Pelham street; thence through Pelham street to Shawmut avenue; thence crossing Shawmut avenue to Upton street; thence through Upton street to Tremont street; thence through Tremont street to Dover street; thence through Dover street to Shawmut avenue; thence through Shawmut avenue to the location of the Boston & Albany and New York, New Haven & Hartford Railroads to the point of beginning.

District 16.— That part of Ward 4 (Back Bay, East) extending from junction of Dalton street (extended) and Boylston street, through latter and Berkeley street to Columbus avenue; thence through same, also Clarendon, Tremont and Pembroke streets to Warren avenue; thence through same and Columbus avenue to West Rutland square, crossing the New York, New Haven & Hartford Railroad to Durham street; thence through Durham, St. Botolph and Cumberland streets to Huntington avenue; thence through latter, West Newton, Belvidere and Dalton streets, also Dalton street (extended) to the beginning.

District 17.— That part of Ward 4 (Back Bay, South) extending from junction of Pembroke and Tremont streets, through Tremont, West Springfield and Wellington streets to the location of the Providence Division of the New York, New Haven & Hartford Railroad; thence by said location to its intersection with Ward street; thence through Ward street, Huntington avenue, Francis street and Brookline avenue, southerly to Muddy river and the boundary line between Boston and Brookline; thence by said boundary line to its intersection with the northeasterly side of St. Mary's street (extended); thence by the middle line of Muddy river, across Brookline avenue near the end of Boylston street through the Back Bay Fens to its intersection with Boylston street, near Charlesgate East and Charlesgate West; thence through Boylston, Dalton, Belvidere and West Newton streets to Huntington avenue; thence through Huntington avenue, Cumberland, St. Botolph and Durham streets, crossing the railroad to West Rutland square; through West Rutland square to Columbus avenue; through Columbus and Warren avenues and Pembroke street to Tremont street and the point of beginning.

District 18.— That part of Ward 5 beginning at the intersection of Commonwealth avenue and Exeter street; thence through Exeter street and its intersection with Boylston street; thence through Boylston street to Berkeley street; thence through Berkeley street to Columbus avenue; thence through Columbus avenue to Clarendon street; thence through Clarendon street to Tremont street; thence through Tremont street to Dover street; thence through Dover street to Shawmut avenue; thence through Shawmut avenue to Tremont street; thence through Tremont street to Park street; thence through Park street to Beacon street, thence through Beacon street to Arlington street, thence through Arlington street to Common-

wealth avenue; thence through Commonwealth avenue to Exeter street and the point of beginning.

District 19.— That part of Ward 5 beginning at the intersection of Cambridge street and Irving street; thence through Irving street to Myrtle street; thence through Myrtle street, crossing Hancock street to Derne street; thence through Derne street to Bowdoin street; thence through Bowdoin street to Beacon street; thence through Beacon street to Arlington street; thence through Arlington street to Commonwealth avenue; thence through Commonwealth avenue to Exeter street; thence through Exeter street and Exeter street (extended) to its intersection with the boundary line between Cambridge and Boston and the Charles river; thence along said boundary line to its intersection with Cambridge street (extended) at Cambridge Bridge; thence through Cambridge street (extended) and Cambridge street to Irving street and the point of beginning.

District 20.— That part of Ward 5 beginning at the intersection of Granby street and Commonwealth avenue; thence through Granby street and Granby street (extended) to the boundary line between Boston and Cambridge in the Charles river; thence along said boundary line to its intersection with Exeter street (extended); thence along Exeter street (extended), through Exeter street to Boylston street; thence through Boylston street to its intersection with Muddy river in the Back Bay Fens; thence by said line through the Back Bay Fens to its intersection with the middle line of Kilmarnock street (extended); thence through Kilmarnock street to Brookline avenue; thence through Brookline avenue to its location with the Boston & Albany Railroad; thence through said location, following its northerly branch to its intersection with the middle line of Blandford street (extended); thence through Blandford street to Commonwealth avenue; thence through Commonwealth avenue to Granby street and the point of beginning.

District 21.— That part of Ward 6 (South Boston, North) extending from Fort Point channel and Dorchester avenue; thence through Dorchester avenue, West First, F, West Second and Dorchester streets, East Broadway, M and East Seventh streets; thence through East Seventh street (extended) to its intersection with Farragut road (extended); thence through Farragut road (extended) to its intersection with the shore line; thence by said shore line and Fort Point channel to Dorchester avenue to the point of beginning.

District 22.— That part of Ward 6 (South Boston, North) extending from Fort Point channel and Dorchester avenue through Dorchester avenue, West First, F, West Second and Dorchester streets, East Broadway, M, East Seventh, L, East Sixth, H, East Fourth, West Fourth, F, West Eighth and D streets, Old Colony and Dorchester avenues to the location of the Midland Division of the New York, New Haven &

Hartford Railroad; thence through said location to the easterly side of South Bay; thence through South Bay and Fort Point channel to Dorchester avenue to the point of beginning.

District 23.— The whole of Ward 7 (South Boston, South).

District 24.— The whole of Ward 8 (Roxbury, North).

District 25.— The whole of Ward 9 (Roxbury, Centre).

District 26.— The whole of Ward 10 (Roxbury, West).

District 27.— The whole of Ward 11 (Roxbury, South — Jamaica Plain, South).

District 28.— That part of Ward 12 (Roxbury, East) extending from junction of Washington and Dudley streets through latter, Greenville, Winthrop, Fairland and Moreland streets to Blue Hill avenue; thence through same, Savin and Munroe streets crossing Walnut avenue to Elmore street; thence through Elmore, Kensington, Kingsbury, Bainbridge and Dale streets to Regent street; thence through latter, Circuit and Washington streets to junction with Dudley street, the beginning.

District 29.— That part of Ward 12 (Roxbury, East) extending from junction of Blue Hill avenue and Savin street through said avenue, Canterbury and Morton streets to Morton road; thence through same and Forest Hills street to its first junction with the boundary line of Franklin Park (extended) running nearly east and west about midway between Williams street and Glen road; thence by said boundary line of Franklin Park by several courses in a general northeasterly direction and crossing Glen road, to its junction with Sigourney street; thence through latter, Walnut avenue, Munroe, Warren and Savin streets to junction with Blue Hill avenue, the beginning.

District 30.— The whole of Ward 13 (Dorchester, North).

District 31.— That part of Ward 14 (Dorchester, West) extending from junction of Blue Hill avenue and Fayston street through latter, Mascoma and Quincy streets to the location of the Midland Division, New York, New Haven & Hartford Railroad; thence through same, Wales place, Rock terrace and Olney street to Geneva avenue; thence through latter, and Bowdoin street, across Washington to Harvard street; thence through same to its junction with the location of Midland Division, New York, New Haven & Hartford Railroad and through latter to Talbot avenue; thence through same to Blue Hill avenue and Fayston street, the beginning.

District 32.— That part of Ward 14 (Dorchester, West) extending from junction of Blue Hill avenue and Canterbury street through said avenue and Talbot avenue to location of Midland Division, New York, New Haven & Hartford Railroad, thence through same, Elizabeth street (extended) and Elizabeth street, also Norfolk and Evelyn streets to Blue Hill avenue; thence through latter, Walk Hill and Canterbury streets to Blue Hill avenue and the beginning.

District 33.— The whole of Ward 15 (Dorchester, North Central).

District 34.— That part of Ward 16 (Dorchester — Neponset) extending from junction of Freeport street and the location of Plymouth Division, New York, New Haven & Hartford Railroad along said location and the line of Shawmut Branch of same railroad to Park street; thence through latter, Upland avenue, Centervale park, Bourneside street and Melville avenue to Penhallow street; thence through same, Mather, Nixon, Centre, Wainwright and Lithgow streets to Talbot avenue; thence through said avenue, Dorchester avenue, Edwin, Florida, Mallet, Adams and Ashmont streets to Neponset avenue; thence through same and Neponset avenue (extended) to middle line of Neponset river in the harbor line to a point in Dorchester bay opposite Greenwich street (extended); thence through latter to location of Plymouth Division, New York, New Haven & Hartford Railroad and through same to the beginning.

District 35.— That part of Ward 16 (Dorchester — Neponset) extending from junction of Dorchester avenue and Edwin street through latter, Florida, Mallet, Adams and Ashmont streets to Neponset avenue; thence through same and Neponset avenue (extended) to the boundary line between Quincy and Boston in Neponset river; thence by said line to its junction with Granite Bridge and through latter to its junction with the location of Milton Branch, New York, New Haven & Hartford Railroad; thence through same to its junction with Mellish road (extended), also through Mellish road and Adams street to its junction with the southern line of Dorchester park (extended), said line running north, north-westerly and southeast; thence by latter in several courses as the same is legally established, running in a general westerly direction to its junction with Dorchester avenue and through said avenue to Edwin street, the point of beginning.

District 36.— The whole of Ward 17 (Dorchester Centre).

District 37.— That part of Ward 18 (Hyde Park—Mattapan) extending from junction of Eagle Mill place (extended) with the Boston and Milton boundary line in the Neponset river along said boundary line to its junction with West street extended; thence through latter and River street to Wood avenue; thence through same, Harvard and Walk Hill streets to Blue Hill avenue; thence through latter, Evelyn, Norfolk and Elizabeth streets to location of Midland Division, New York, New Haven & Hartford Railroad; thence through same, Morton, Groveland street (extended), Groveland and River streets to Eagle Mill place and the beginning.

District 38.— That part of Ward 18 (Hyde Park — Mattapan) extending from junction of Washington and Poplar streets, through latter and Canterbury street to location of Providence Division, New York, New Haven & Hartford Railroad; thence through same, Blakemore street, Hyde Park and Neponset avenues, also Canterbury street to Walk Hill street; thence through latter, Harvard street, Wood avenue, Wood street,

River and West streets to the former boundary line between Boston and Hyde Park; thence along said line, through Turtle Pond road and Washington street to Poplar street, the point of beginning.

District 39.— That part of Ward 18 (Hyde Park — Mattapan) extending from junction of former boundary line between Boston and Hyde Park and Turtle Pond road in the Stony Brook Reservation along said boundary line to West street; thence through latter and West street (extended) to its junction with the center line of Neponset river; thence through same to its junction with the boundary line between Boston and Milton and along said line to its junction with the boundary line between Boston and Dedham; thence along latter to its junction with the former boundary line between Boston and Hyde Park and by said line to the beginning.

District 40.— That part of Ward 19 (Jamaica Plain — Roslindale, East) extending from junction of Centre and Perkins streets through latter and Chestnut street to boundary line between Boston and Brookline; thence along said line and through Allandale, Centre and Walter streets to the southwesterly boundary line of Arnold Arboretum; thence by latter on several courses as the same is legally established, and by said line extended to its junction with the location of West Roxbury Branch, New York, New Haven & Hartford Railroad; thence through same and Lee Hill road (extended) also Lee Hill road, Washington street and Whipple avenue to Stony brook; thence along latter through Florence street, Southbourne road, Bourne, Walk Hill, Canterbury and Morton streets to Forest Hills avenue in Forest Hills Cemetery; thence through same and Union terrace to its junction with the northwesterly boundary line of said cemetery and by the latter on several courses as same is legally established to Weld Hill street; thence through same, Hyde Park avenue, Washington street, Asticou road and St. Ann street across South street to the Arborway; thence through latter, Custer and South streets, Carolina avenue and Williams street to its junction with the location of Providence Division, New York New Haven & Hartford Railroad; thence through same, Atherton, Lamartine and Mozart streets, Chestnut avenue, Forbes and Centre streets to the beginning.

District 41.— That part of Ward 19 (Jamaica Plain — Roslindale, East) extending from junction of Walk Hill and Bourne streets through latter, Southbourne road and Florence street to Stony brook; thence through same, Whipple avenue, Washington, Poplar and Canterbury streets to the location of Providence Division, New York, New Haven & Hartford Railroad; thence through latter, Blakemore street, Hyde Park avenue, Neponset avenue and Walk Hill street to the beginning.

District 42.— That part of Ward 20 (West Roxbury — Roslindale, West) extending from junction of Lee Hill road and Washington street through latter, Grove and Centre streets to

the location of West Roxbury Branch, New York, New Haven & Hartford Railroad; thence through said location and Lee Hill road to the beginning.

District 43.— That part of Ward 20 (West Roxbury — Roslindale, West) extending from junction of Allandale street and Brookline boundary line through Allandale, Centre and Walter streets to the southwesterly line of Arnold Arboretum; thence by same location of West Roxbury Branch, New York, New Haven & Hartford Railroad and through latter southwesterly to La Grange street; thence through same to the boundary line between Boston and Newton and along said line to the boundary line between Boston and Brookline, continuing thereon to the beginning.

District 44.— That part of Ward 20 (West Roxbury — Roslindale, West) extending from junction of Washington street and Turtle Pond road in the Stony Brook Reservation, through said park road to its junction with the former boundary line between Boston and Hyde Park; thence along same to its junction with the boundary line between Boston and Dedham and along the latter and the boundary line between Boston and Needham in the Charles river and its junction with the boundary line between Boston and Newton; thence along said line to La Grange street and through same southeasterly to the location of West Roxbury Branch, New York, New Haven & Hartford Railroad; thence through latter to Centre street and southerly through same, then along Grove street to Washington and through latter northerly to the beginning.

District 45.— That part of Ward 21 (Brighton, South) extending from junction of Granby street and Commonwealth avenue through latter and Blandford street, also Blandford street (extended) to location of Boston & Albany Railroad; thence through same, Brookline avenue, Kilmarnock street and Kilmarnock street (extended) to its junction with the middle line of Muddy river in Back Bay Fens; thence by the latter line and the Riverway to its junction with the boundary line between Boston and Brookline on the northeasterly line of St. Mary's street (extended); thence by said boundary line to Commonwealth avenue and along its southerly side, continuing in various courses as said boundary line is legally established to its junction with Warren street; thence through Warren, Cambridge, Dustin and North Beacon streets to the latter's junction with Cambridge street in Union square; thence through Cambridge street to its junction with the location of the Boston & Albany Railroad; thence through said location to its junction with the middle line of Smelt brook; thence by the same line extended to its junction with the boundary line between Boston and Cambridge in the Charles river; thence by said line to its junction with Granby street; and through latter to Commonwealth avenue and the beginning.

District 46.— That part of Ward 21 (Brighton, South) extending from junction of Cambridge and Warren streets through latter to the boundary line between Boston and Brookline; thence along said line to its junction with the boundary line between Boston and Newton and along same, also Commonwealth avenue to South street; thence through latter, Chestnut Hill avenue, William Jackson avenue, Academy Hill road, and again Chestnut Hill avenue to Union street; thence through same, Nantasket avenue, Washington and Cambridge streets to Warren street, the point of beginning.

District 47.— The whole of Ward 22 (Brighton, North).

VALUATION OF PROPERTY OF
CITY OF BOSTON, FOR THE
YEAR 1930, BY WARDS.

Ward 1.

	Total Valuation.	Valuation Land.	Valuation Buildings.	Area, Square Feet.
Noble Primary School, southwest corner Princeton and Shelby streets.	\$51,400	\$8,800	\$42,600	17,500

 5,480,000 4 per cent, serial, at 100.039.
 1,200,000 $3\frac{1}{2}$ per cent, serial, at 100.039.

RIGHT TO BORROW IN 1931.

CITY OF BOSTON,
 BOARD OF COMMISSIONERS OF SINKING FUNDS,
 CITY HALL, January 22, 1931.

To the Members of the City Council:

GENTLEMEN,—In accordance with the provisions of chapter 93, Acts of 1891, it is estimated that the amount which the city will be able to borrow during the present municipal year within the debt limit established by law is \$4,656,600.58, as per schedule annexed.

Respectfully,

FREDERIC J. CROSBY,
 GUY W. COX,
 WILLIAM SPOTTISWOODIE,
 MICHAEL H. CORCORAN,
 EUGENE M. MCSWEENEY,
Board of Commissioners of Sinking Funds.
 RUPERT S. CARVEN, *City Auditor.*
 EDMUND L. DOLAN, *City Treasurer.*

(A similar communication was sent to his Honor the Mayor.)

¹ \$2,500,000 in addition to the cost of land. Cost of land, \$1,056,469.69; \$2,746,000 authorized by City Council; \$75,000 additional for furnishing authorized by City Council.

² Never approved by City Council.

³ Not exceeding \$6,000,000 in excess of Sinking Fund — debt authorized in 1891 (\$500,000) included in the above amount inside of debt limit; \$852,500 of this amount issued as Park Debt under chapter 394, Acts of 1897.

⁴ Chapter 548, Acts of 1894, authorizes the City of Boston to borrow not exceeding \$7,000,000 to promote rapid transit (this amount reduced \$616,000 under authority of chapter 347, Acts of 1897), and such further amount for Charlestown Bridge and of its approaches, in addition to the \$750,000 heretofore appropriated by the City Council, as may be necessary for the completion of said bridge and approaches.

* No limit to the amount.

† Also \$1,800,000 inside the debt limit. Amendment, chapter 442, Acts of 1897.

HEALTH UNIT, High street, corner Elm street, Charlestown.

The department has 3 Buick sedans, 1 Buick coupe, 1 Ford coupe, 2 Ford delivery, 1 Ford truck, 1 Reo ambulance.

Garage.— 20 North Grove street.

HOSPITAL DEPARTMENT.

GENERAL DIVISION.

The land bounded by Harrison avenue, East Concord street, Albany street and Massachusetts avenue. The lot consists of 430,963 square feet.

Also land bounded by Harrison avenue, Massachusetts avenue, Albany street and Northampton street, containing 149,821 square feet. On the first lot is the Boston City Hospital proper, which consists of a group of twenty-four buildings. On the second lot mentioned is situated the South

Department for infectious diseases, which consists of a group of nine buildings and the Lucy L. Drown House, a home for nurses.

The trustees also have charge of a plot of land containing about 69,785 square feet, on the east side of Albany street, in the rear of the hospital. On this lot are situated the ambulance stable, boiler house, dynamo station, coal pocket and storage house.

The Convalescent Home is situated on 417,615 square feet of land, at No. 2150 Dorchester avenue, near Dorchester Lower Mills. On this property is a three-story house, with a two-story ell, with accommodations for thirty-four patients and eight employees. There are also a barn and stable, shed and recreation house for patients. Part of this property is highly improved and part woodland and pasture.

The Haymarket Square Relief Station lot contains 12,039 square feet of land, on which is a three-story brick building with two one-story ells, one of these ells being the ambulance station.

The East Boston Relief Station is situated on 7,500 feet of land at No. 14 Porter street, East Boston. On this land is a three-story brick hospital and a two-story brick ambulance stable.

The West Department is situated on 1,903,865 square feet of land, at Spring street, West Roxbury, formerly occupied by the Parental School. On this land are fifteen buildings.

The total amount of land of this department is 2,991,588 square feet, or $68\frac{7}{10}$ acres. The number of buildings is 58.

AMBULANCE STATION.

- 8 White motor ambulances.
- 2 White trucks.
- 2 Dodge sedans.

SANATORIUM DIVISION.

The Sanatorium site is 249 River street, Mattapan, midway between Mattapan square and Dorchester Lower Mills. The lot has a frontage on River street of about 1,200 feet, and contains 2,232,366 square feet or $51\frac{2}{10}$ acres.

At the time of purchase the buildings included a two and one-half story house with a two-story ell, a double cottage house, a stable and outbuildings.

There have since been erected a power plant, four ward buildings, one ward building (formerly known as Children's Building, now used for male adults), a domestic and administration building, four cottage ward buildings for men, one cottage ward building for women, one Nurses' Home, one kitchen and dining room building.

The department has two horses.

Motor Vehicles.— One Ford sedan, one Studebaker ambulance.

INSTITUTIONS DEPARTMENT.

CENTRAL OFFICE.—Motor vehicles: One 7-passenger Buick sedan; one 7-passenger LaSalle sedan.

LONG ISLAND HOSPITAL.— The department controls about 167 acres. The institution buildings are as follows:

Central Administration Building:

Erected in 1887, remodeled in 1914 with addition of 1928 provides administration offices and employees' quarters; also dormitory with 712 beds for men and hospital annex (including two ward buildings erected in 1916) providing 180 beds for men.

Hospital for consumptives, erected in 1901, provides 51 beds for men, now used as hospital for men.

Hospital, erected in 1893 and 1894, provides 122 beds, now occupied by women.

Children's hospital, erected in 1928, provides 113 beds.

Dormitory for women, erected in 1895, provides 147 beds.

Nurses' home, erected in 1916, enlarged in 1927 to accommodate 118 nurses.

Nurses' home, erected in 1902, now used as domicile for employees; 33 rooms.

Domestic Buildings:

Erected in 1914, provides kitchen, bakery, storerooms, cold storage and refrigerating plant and dining rooms for employees.

Superintendent's house, erected in 1895.

Chapel, seating 800, erected in 1896.

Power house, including laundry, erected in 1900, also mortuary, barn, and a reservoir with capacity of one million gallons.

Other property consists of 1 truck, 1 speed wagon, 1 ambulance, 1 tractor, wagons, carts, 10 horses, and the necessary farm implements.

RAINSFORD ISLAND (with the buildings thereon), purchased in 1871 of the Commonwealth at a cost of \$40,000, containing 11 acres. The buildings were formerly occupied by the Suffolk School for Boys.

STEAMER "GEORGE A. HIBBARD."— This boat is 65 tons (gross) burden, 80 feet long, 17 feet beam, 7 feet draft, and was built in 1910 at a cost of \$37,500, and went into commission on December 9 of that year.

LAUNCH "JAMES J. MINOT," purchased in 1926 for the sum of \$2,500. Length, 55 feet over-all; beam, 14 feet.

HOSPITALS, PARKER HILL, SITE AND BUILDINGS.— Approximately 492,939 square feet of land and buildings thereon being a portion of property purchased in 1925-26.

PENAL INSTITUTIONS DEPARTMENT.

CENTRAL OFFICE.

SUFFOLK COUNTY HOUSE OF CORRECTION, DEER ISLAND.— The department owns approximately 7,940,988 square feet or about 102 acres of upland and 80 acres of lowland, at the high water mark; in addition 100 acres are leased from the United States Government for farming and grazing purposes. Metropolitan District Commission of the Commonwealth of Massachusetts also has approximately 11 acres.

Institution property is as follows:

Old prison building, used for administrative units and cutting room, 28 cells available for use.

New prison or "Barracks B."— 495 cells. Completed 1897.

Hill Prison (formerly the women's prison, completed in 1904), 360 cells.

Quarters for officers scattered throughout the various buildings all of which are brick buildings.

Workshops in various buildings for the various industries, including shoe shop, carpenter shop, machine shop, mattress shop, electric shop, paint shop, laundry, blacksmith shop, and stone shed.

Boat house and quarters at Shirley Gut.— Cement blocks and cement. Under construction.

Wharf house.— Inmates' visiting room and officers' quarters. Brick building.

Inmates' kitchen and dining room, bakery, officers' dining room and commissary located in parts of the various buildings.

Power and heating plant.

Stockbarns and sheds.— Fifty-seven cows and 14 horses. Frame buildings.

Piggery.— 500 pigs. Frame building.

Firehouse.— Steamer, two chemical wagons and two hose reels.

Doctor's house.— Brick building. Completed 1930.

Master's house.— Frame building.

Matron's house.— Brick building.

Deputy master's and officers' quarters.— Frame building

Reservoir, 2,500,000 gallons capacity.

ISLANDS.

APPLE ISLAND, containing $9\frac{1}{2}$ acres, purchased in 1867 for \$3,750.

DEER ISLAND.— City owns about 102 acres of upland and about 50 acres of flats.

LONG ISLAND, taken by an order of the City Council, approved January 3, 1885, containing about 182 acres.

RAINSFORD ISLAND (with buildings thereon), purchased in 1871 of the Commonwealth at a cost of \$40,000, containing 11 acres, now used for "Randidge Excursions."

See property in charge of Institutions Commissioner and Street Commissioners.

TREMONT STREET SUBWAY.

An underground structure for street car traffic extending —
From the junction of Shawmut avenue and Tremont street Two-track
From Boylston street, opposite the Public Garden to the junction of Boylston and Tremont streets Two-track
Thence under the Common to Park street Four-track
Thence under Tremont street to Scollay square Two-track
Thence under Cornhill Two-track
And under Hanover street to Washington street Two-track
Under Adams square and Washington street to corner Hanover street Three-track
Thence under Washington street and under and through property taken by the Boston Transit Commission for the City of Boston to near Traverse street Four-track
Approximate cost of subway, and alterations requested under chapter 500, Acts of 1897, and chapter 120, Acts of 1924, December 31, 1930 \$4,427,997 89
Leased December 7, 1896, to the Boston Elevated Railway Company, for a term of twenty years from the time when the right to use the subway or any portion thereof first accrues, at a rental of $4\frac{7}{8}$ per cent per annum of the net cost, plus any excess over the amount, computed at a certain fixed rate for the passage of each car through the subway. After September 1, 1917, the rental is $4\frac{1}{2}$ per cent of the net cost to July 1, 1936, and thereafter is to continue unless or until terminated as provided in contract.

EAST BOSTON TUNNEL.

Single tube tunnel used originally for street car traffic from Maverick square, East Boston, under Lewis street, under the harbor, and by way of State and Court streets to Scollay square, since April 21, 1924, used for third rail trains Two-track

Approximate cost of tunnel, and alterations requested under Chapter 120 of the Acts of 1924, to December 31, 1930 \$3,400,217 74

Leased to Boston Elevated Railway Company, December 24, 1904, for twenty-five years from June 10, 1897, at a rental of $\frac{3}{8}$ of 1 per cent, payable annually, of the annual gross receipts of all lines owned, leased or operated by that company. This lease was extended on December 7, 1911, under authority of Chapter 741 of the Acts of 1911 from June 10, 1922, to July 1, 1936, at an annual rental of $4\frac{1}{2}$ per cent on the net cost, and thereafter to continue unless or until terminated as provided in the contract.

WASHINGTON STREET TUNNEL.

An underground structure for elevated train service, extending —

From westerly side of Ash street, opposite Nassau street, to the northerly incline near Traverse street Two-track

Approximate cost to December 31, 1930. \$8,017,426 38

Leased September 25, 1902, for twenty-five years from November 30, 1908, to the Boston Elevated Railway Company at an annual rental of $4\frac{1}{2}$ per cent on the net cost. On December 7, 1911, lease extended from its expiration on November 30, 1933 to July 1, 1936, and thereafter to continue unless or until terminated as provided in the contract.

CAMBRIDGE CONNECTION.

An underground structure for train service, being the Boston end of the Cambridge-Main street subway, extending from a point in the vicinity of Phillips and Grove streets to a terminal under a portion of the existing Park street station of the Tremont street subway Two-track

Approximate cost to December 31, 1930 \$1,646,182 28

Leased December 7, 1911, to the Boston Elevated Railway Company for a term ending July 1, 1936, the rental for twenty years after the beginning of use, March 23, 1912, to be $4\frac{7}{8}$ per cent per annum on the net cost; thereafter to be $4\frac{1}{2}$ per cent per annum on the net cost. The lease to continue from July 1, 1936, unless or until terminated as provided in the contract.

BOYLSTON STREET SUBWAY.

An underground structure for street car traffic, extending —

From near the junction of Beacon street and Commonwealth avenue to and connecting with the Tremont street subway at a point nearly under Charles street Two-track

Approximate cost to December 31, 1930 \$5,460,894 87

Leased December 7, 1911, to the Boston Elevated Railway Company for a term ending July 1, 1936, at a rental of $4\frac{1}{2}$ per cent per annum upon the net cost. Rental began October 3, 1914. The lease to continue from July 1, 1936, unless or until terminated as provided in the contract.

EAST BOSTON TUNNEL EXTENSION.

An underground structure used originally for extending street car traffic from the East Boston Tunnel under Scollay square, Court street, Cambridge street to the

surface at North Russell street. Since April 21, 1924, used for third rail trains looping north of Bowdoin square. Approximate cost to December 31, 1930 Two-track \$2,386,166 15
 Leased December 7, 1911, to the Boston Elevated Railway Company for a term ending July 1, 1936, at a rental of $4\frac{1}{2}$ per cent per annum upon the net cost. Rental began March 18, 1916. The lease to continue from July 1, 1936, unless or until terminated as provided in the contract.

DORCHESTER TUNNEL.

An underground structure for train service, extending from the easterly end of the Cambridge Connection at Tremont and Winter streets, through Winter and Summer streets, Dewey square, Summer street in front of the South Terminal Station, thence curving towards the south and extending under Fort Point channel and private property until reaching Dorchester avenue near Broadway in South Boston, thence under Dorchester avenue, Andrew square, Boston street and the tracks of the New York, New Haven & Hartford Railroad and parallel to these tracks on their southerly side, passing under Dorchester avenue and ending on the surface 361 feet east of Dorchester avenue where connection is made with Dorchester Rapid Transit Two-track
 Approximate cost to December 31, 1930 \$12,302,321 31
 Leased December 7, 1911, to the Boston Elevated Railway Company for a term ending July 1, 1936, at a rental of $4\frac{1}{2}$ per cent per annum upon the net cost. Rental began June 29, 1918. The lease to continue from July 1, 1936, unless or until terminated as provided in the contract.

DORCHESTER RAPID TRANSIT.

A surface railway connecting with the Dorchester Tunnel 361 feet east of Dorchester avenue, thence running parallel with the main line tracks of the New York, New Haven & Hartford Railroad to Harrison square, thence over the right-of-way of the old Shawmut branch through Dorchester and Milton and terminating at Mattapan square, with stations at Columbia road, Savin Hill, Fields Corner, Shawmut, Ashmont, Cedar Grove, Milton, Central avenue and Mattapan. The operation is by third-rail electric trains to Ashmont, and by high speed trolley cars from that station to Mattapan. The Shawmut branch was acquired by the City on September 1, 1926, for \$950,000 Two-track
 Approximate cost to December 31, 1930 \$10,790,714 31
 Leased October 17, 1924, for a period extending from the beginning of the use of the premises and equipment, December 21, 1929, to the expiration or termination of the present lease of the Dorchester Tunnel, at an annual rental rate of $4\frac{1}{2}$ per cent per annum upon the fair and reasonable cost, as determined by the Department of Public Utilities, of the premises and equipment; provided, however, that the annual rental rate shall be sufficient to provide for an amount equal to one half of 1 per cent of said cost in addition to the annual amount of interest on the bonds issued to pay for said cost, but not less than said $4\frac{1}{2}$ per cent in any event.

ARLINGTON STATION.

An underground structure for street car traffic, extending under Boylston street, between Arlington street and Berkeley street

Approximate cost to December 31, 1930 Two-track
\$1,235,406 48

Leased July 16, 1919, for a term of years extending from the beginning of the use to the expiration or termination of the contract now in existence between the city and the company for the use and operation of Boylston Street Subway at an annual rental rate of $4\frac{1}{2}$ per cent on the net cost. Rental began November 13, 1921.

HYDE PARK STREET RAILWAY.

The city acquired from the Eastern Massachusetts Street Railway Company, on August 31, 1923, all street railway lines, tracks and locations and appurtenances, owned by that company in that part of the city formerly within the boundaries of the town of Hyde Park, together with that part of River street which extends from the old Hyde Park-Boston line to Mattapan square and leased to the Boston Elevated Railway Company on August 23, 1923, the sole and exclusive use of the street railway line on Hyde Park avenue, beginning at the old Hyde Park and Boston line and extending southerly on said avenue to a point 350 feet southerly of the intersection of the southerly side line of River street, with the center line of Hyde Park avenue, for a term extending from the beginning of the use of the premises by the company, September 1, 1923, to the termination of the period of public control of the company under the provisions of chapter 159 of the Special Acts of 1918 and acts in amendment thereof at a rental rate of $4\frac{1}{2}$ per cent per annum upon the net cost.

EAST BOSTON TUNNEL ALTERATIONS.

An underground structure at Maverick square. It is a terminal and transfer station for third-rail trains and for street car traffic. It extends northerly under Chelsea street for about four hundred feet.

Approximate cost to December 31, 1930 \$3,829,530 80

Leased June 30, 1921, to the Boston Elevated Railway Company for a term extending from the beginning of the use, April 21, 1924, to the expiration or termination of the contract now in existence between the city and the company for the use and operation of the East Boston Tunnel, at a rental of $4\frac{1}{2}$ per cent per annum upon the net cost.

WEIGHTS AND MEASURES DEPARTMENT.

Various sets of standard weights and measures, etc.

Motor Vehicles.—One Selden truck, 9 Ford trucks, 1 Chevrolet truck.

TRUST FUNDS.

BABCOCK MUSIC FUND.

By the will of ARCHIBALD BABCOCK, who died August 10, 1862, the sum of \$3,000 was bequeathed to the City of Charlestown, and accepted by the City Council of that city, November, 1862, upon the conditions and for the purposes expressed by him in his last will and testament.

"The income to be annually expended in procuring the services of musicians, or a band or bands of musicians, to perform in public in the City of Charlestown, within its present limits, free to all citizens, one half of said income to be annually expended in procuring musicians, or band or bands of musicians, to play on or near the small common, at the 'Neck' so called, at the corner of Main and Cambridge streets, preference to be given to citizens of Charlestown, due regard being had as to ability and quality."

Deposit in the Charlestown Five Cents Savings Bank	<u>\$3,110 12</u>
--	-------------------

JAMES PHINNEY BAXTER BEQUEST.

By the will of JAMES PHINNEY BAXTER, a bequest of \$50,000 was made to the City of Boston, \$5,000 of which is to be paid to the city, provided it accept the bequest within three years after the final probate of the will, which was July 19, 1921, and the balance of \$45,000 is to be paid by the trustees within ten years of the final probate of the will in such installments and at such times within the said ten years as the trustees may determine. The \$50,000 is to accumulate until the year 2020, or until such sum accumulates to \$1,000,000, and the sum is then to be used for a suitable building to be erected in the City of Boston to commemorate the lives and deeds of the founders of New England. The city is to complete the building in all such details on December 31, 2025. The bequest was accepted by the city July 25, 1922.

Deposit in Hibernia Savings Bank	<u>\$6,709 72</u>
--	-------------------

BOSTON COMMON TREE FUND.

By the will of CHARLES E. FRENCH the sum of \$5,000 was given to the City of Boston, in trust, to be invested in City of Boston Bonds, the income to be devoted to the care of the oldest and largest trees on Boston Common to preserve them from the woodman's axe. Accepted by the City Council April 27, 1907.

Invested in City of Boston Four per cent Bonds	<u>\$5,000 00</u>
--	-------------------

BOSTON RETIREMENT SYSTEM — FUNDS.

The Boston Retirement System was established on February 1, 1923, under the authority of chapter 521 of the Acts of 1922, known as the Boston Retirement Act, and the funds thereby created are the Annuity Savings Fund, the Pension Accumulation Fund and the Retirement Reserve Fund.

The care of the funds is vested in a retirement Board, consisting of the Treasurer of the City of Boston, *ex officio*; one person appointed by the Mayor of the City of Boston, subject to confirmation by the Civil Service Commission, and one person appointed by the other two members, who must be a member of the retirement system.

The Retirement Board is "authorized to invest the funds of the retirement system in such securities as are allowed for investment by the sinking fund commissioners of the City of Boston."

The purposes of the funds is to provide retirement allowances for the superannuated and disabled employees of the City of Boston and County of Suffolk who entered membership in the retirement system. Membership was optional for all employees in service on February 1, 1923, and is

compulsory for all persons entering service after that date. Members reaching the age of sixty are retired on their own request and upon attaining the age of seventy retirement is compulsory. With certain provisions members who are under age sixty may be retired for disability. A deduction of four per cent of the regular compensation of all members is made by the Treasurer and the city contributes a like amount so that upon retirement the disabled or superannuated employees receive a retirement allowance which is made up of an annuity based on their accumulated deductions and a pension from the city.

Annuity Savings Fund.

On December 31, 1930, the fund consisted of the following:

Invested in:

Cash	\$128,431 73
City of Boston Four and one-quarter per cent Bonds	667,000 00

CHARLESTOWN POOR'S FUND.

Various bequests made by Richard Russell, May, 1674; Richard Sprague, will dated October 5, 1703; Thomas Call, will dated January, 1772; Richard Devens, 1825; David Goodwin, March, 1826; Thomas Miller, April 2, 1833; Catherine Bradish, September, 1836; Daniel White, 1864; James K. Frothingham, 1864; Jacob Foss, 1865; Simeon A. R. DeWolf, 1865; Reuben Hunt, 1866; Susan Nichols, 1892; Nathan A. Tufts, 1906,—for the benefit of the poor of Charlestown. By an act of the Legislature, passed in 1825, the Board of Trust was composed of the selectmen of Charlestown *and the two senior deacons from each church* for the time being, and their successors in said office. By a subsequent ruling of court this act was considered as including the two wardens of each Episcopal church. By act of annexation the members of the City Council, for the time being, residing in the Charlestown district, together with the senior deacons of the Protestant churches of Charlestown, now constitute the Board of Trustees.

BOLTON FUND.— Legacy of WILLIAM T. BOLTON, of Chelsea, to be known as the "Bolton Fund," the income to be expended for the benefit of free beds in the Boston City Hospital. Received in 1906.

Invested in City of Boston Four per cent Bond	<u>\$500 00</u>
---	-----------------

HERBERT L. BURRELL ETHER PRIZE FUND.— A gift of Mr. TOWNSEND WILLIAM THORNDIKE for the following purposes:

"I hereby give to the Trustees of the Boston City Hospital the sum of one thousand dollars to found the 'HERBERT L. BURRELL ETHER PRIZE FUND.' From the interest of this fund I desire that money prizes shall be given semi-annually to the surgical house officer who administers ether or other anæsthetic in the most skilful and humane manner. Only surgical house officers of the Boston City Hospital shall be eligible to compete. The award is to be made by three judges, these to be appointed by the senior surgeon and the superintendent of the hospital.

"In case no house officer is considered worthy of the prize, the interest shall be added to the principal. Should the principal increase to such an amount as shall be considered sufficient to warrant the offering of a second prize of a lesser amount such second prize shall be established, and shall be known as the 'WILLIAM H. THORNDIKE ETHER PRIZE FUND.'

"The sixteenth day of October being the anniversary of the discovery of anæsthesia, that date shall be one of the days on which a prize is to be awarded." Received in 1896.

Invested in City of Boston Four per cent Bond	<u>\$1,000 00</u>
---	-------------------

CARTER FUND.— A gift to the Trustees of the Boston City Hospital in trust, to be known as the "MARTHA HOWARD THURSTON CARTER FUND," the interest of which is to be expended for books for the benefit of the nurses connected with the hospital. Received in 1903.

THE THORNDIKE MEMORIAL.

Bequest of GEORGE L. THORNDIKE, under his will dated September 15, 1900, in which he directed his trustees, on the death of the last legatee to "co-operate with the Trustees of the Boston City Hospital, that when my estate exceeds in value the sum of two hundred thousand dollars, I direct that the whole value of said estate be used to construct a hospital in some suitable location in said City of Boston, to be furnished by said city free from expense to my estate."

Said hospital to be known as "The Thorndike Memorial" in honor of his brother William H. Thorndike, for nearly a quarter of a century a visiting surgeon in the Boston City Hospital.

Amount of bequest received in 1919, 1922 and 1923	\$237,500 00
Interest received to January 31, 1924	19,501 69
Expended according to bequest to January 31, 1924	<u>\$257,001 69</u>

LAMONT G. BURNHAM WARD FUND.—Bequest of LAMONT G. BURNHAM, to construct and equip upon the hospital grounds a building to be known as the LAMONT G. BURNHAM WARD, for such uses and purposes as the Trustees of said hospital shall, in their discretion, determine. Received in 1904.

Amount of bequest	\$150,000 00
Interest on same to date of payment	3,750 00
	\$153,750 00
Interest received on same	13,445 14
Expended according to bequest	<u>\$167,195 14</u>

ANN E. TAGGARD BEQUEST.—Bequest of ANN E. TAGGARD, for the sole purpose of establishing and maintaining an emergency hospital in East Boston for the benefit of said East Boston. Received in 1905.

Amount of bequest	<u>\$11,465 35</u>
-----------------------------	--------------------

Expended toward establishing emergency hospital, East Boston.

SCREEN FUND.—A check of "E. S. C." on Bay State Trust Company for \$1,000, dated August 23, 1898, to be placed to the credit of the Boston City Hospital "Screen Fund," the same being a gift to the hospital to be drawn upon by the Trustees for furnishing the hospital with window screens.

This amount has been expended according to the wishes of the donor.

MORRIS LOUIS FUND.—Bequest of MORRIS LOUIS of \$250. This amount has been expended for furniture for the City Hospital. Received in 1903.

BRADLEY FUND.—A gift of Miss ABBY A. BRADLEY, in 1908, of \$850, as a memorial to her nephew, Robert Stow Bradley, Jr.

This amount was expended as requested by her for investigation upon the contagiousness of typhoid fever patients at the time of their discharge from the Boston City Hospital.

FRANCIS BARTLETT FUND.—Received from the executors, under the will of FRANCIS BARTLETT, late of Beverly, the sum of five thousand dollars. Under a vote of the Trustees of the City Hospital the said amount is to be applied to the purchase of radium and apparatus for the X-Ray Department. Received in 1913.

Amount received	\$5,000 00
Income received	57 06
Expended	<u>\$5,057 06</u>

COPPENHAGEN FUND.

Bequest of MEHITABLE C. C. WILSON of ten thousand dollars, of which five thousand dollars is to be used for the purchase of a site and the erection thereon of a drinking fountain for persons and animals, to be located at or near the intersection of Washington street and Columbia road.

The remainder, five thousand dollars, to be held by the city as a fund, the income only to be expended in keeping said fountain in order and preservation and necessary renewal and the remainder of said income to be applied towards beautifying said city, public parks and purchasing books and works of art for its public libraries, as determined by the Mayor of said city. Received in 1913.

Invested in City of Boston Four per cent Bonds	<u>\$5,000 00</u>
--	-------------------

CURLEY-PARKER FUND.—Gift of one hundred dollars each from Hon. HERBERT PARKER and Hon. JAMES M. CURLEY. To accumulate till the year 2030 and the entire amount to be then expended to defray cost of proper observance of 400th anniversary of Founders' Day

	<u>\$200 00</u>
--	-----------------

FITZGERALD FIREMEN'S GOLD MEDAL FUND.

Bequest of JOHN E. FITZGERALD, the income to be collected by the City Treasurer and paid annually to the Fire Commissioner, to be used yearly in buying a gold medal to be presented to the fireman who, in the judgment of the Fire Commissioner, had performed the most meritorious act and whose conduct has called for special mention. Received bond from Executors of the estate of Henry S. Russell, Fire Commissioner, May 24, 1905.

Invested in registered certificate of indebtedness of the Commonwealth of Massachusetts, due January 1, 1941, interest at three per cent per annum	<u>\$1,000 00</u>
--	-------------------

THOMAS FITZGERALD FUND.

A gift of one thousand dollars (\$1,000) for the benefit of the City of Boston, made by his Honor Mayor JOHN F. FITZGERALD, and accepted by the Board of Managers of the Franklin Fund, October 19, 1906, to be held by them and their successors under the following conditions:

1. It is to be invested and reinvested from time to time for one hundred years in such investment as men of prudence, discretion and intelligence invest their own money, having due regard both for the probable income from, and the probable safety of, the money invested.

2. At the end of one hundred years the fund then accumulated shall be expended by the managers of the Franklin Fund or their successors for some public purpose of use to the citizens of Boston.

3. The fund shall be known as the "Thomas Fitzgerald Fund," in honor of the father of Mayor John F. Fitzgerald, and the gift which shall inure to the City of Boston at the end of the period of one hundred years shall have the same name.

This fund is now in the custody and under the control of the Trustees of the Franklin Foundation, in accordance with authority granted by the Legislature in 1927.

December 31, 1930, the fund consisted of:

City of Boston Four per cent Bond	\$1,000 00
Deposit in Suffolk Savings Bank	1,580 99
	<u>\$2,580 99</u>

FOSS SEVENTEENTH OF JUNE AND FLAG FUNDS.

The City Council of the City of Charlestown, in August, 1866, accepted the bequest made in the will of JACOB FOSS, who died in Charlestown, June 2, 1866, the income of which is to be expended for the following purposes:

Celebrating the anniversary of the Battle of Bunker Hill, for either or all of the following purposes, viz.: "*Ringing the bells, firing salutes, music, or decorating the streets.*"

Invested in City of Boston Four and one-quarter per cent Bond	<u>\$2,000 00</u>
---	-------------------

Purchasing "United States flags for the use of the City of Charlestown, the flags so purchased to be used on all proper occasions, so that not more than two years' purchase shall be on hand at any time."

Invested in City of Boston Four and one-quarter per cent Bond	<u>\$2,000 00</u>
---	-------------------

FRANKLIN FUND.

This fund has resulted from a bequest of £1,000 sterling to the "Inhabitants of the Town of Boston in Massachusetts," made by BENJAMIN FRANKLIN in a codicil to his will (see Suffolk Probate Records, book 712, page 1). The said codicil provided that the fund, "if accepted by the inhabitants of the Town of Boston," should be managed "under the direction of the Select Men united with the Ministers of the oldest Episcopalian, Congregational and Presbyterian Churches in that Town," who were to loan upon certain stated conditions portions of the said fund, at 5 per cent interest, "to such young married artificers, under the age of 25 years, as have served an Apprenticeship in the said Town; and faithfully fulfilled the Duties required in their Indentures, so as to obtain a good moral Character from at least two respectable Citizens, who are willing to become their Sureties in a Bond."

The fund was accepted by the Town at a Town meeting held May 25, 1790 (Franklin having died April 17, 1790), and the "Donation" was paid to persons acting as managers in 1791.

Franklin's codicil provided that at the end of 100 years the managers should reserve 31-131 of the amount which Franklin estimated would have accumulated by that time, this amount to continue "to be let out on interest in the manner above directed for another hundred years," and that they should spend 100-131 of the fund which had by that time accumulated "in Public Works which may be judged of most general utility to the inhabitants such as Fortifications, Bridges, Aqueducts, Public Buildings, Baths, Pavements or whatever may make living in the Town more convenient to its People and render it more agreeable to strangers resorting thither for Health or a temporary residence."

The first period of 100 years expired May 2, 1891, but a suit brought by the heirs of Franklin temporarily prevented the expenditure of this portion of the fund for the purposes specified, and it was not until January 17, 1894, that the treasurer of the fund, Mr. Samuel F. McCleary, by direction of the ministers of the three churches named in the codicil and the Board of Aldermen of the City of Boston, which Board had been assumed to be the successors of the "Select Men," paid to the City Treasurer \$329,300.48 (100-131 of the fund); and the said persons voted that this amount be expended "in the purchase of land and for the erection thereon of the Franklin Trades School and for the equipment of the same." The fund was not, however, expended for that purpose, certain suits having been brought to have the courts determine who were in fact managers of said fund; and it was finally decided (see *Collins vs. Doyle*, 184 Mass. 373) that the "Selectmen while in the performance of their duties as managers were not acting as public officers of the town," and that the members of the Board of Aldermen "did not become their successors as managers of the Franklin Fund"; and by virtue of a final decree made by Justice William C. Loring of the Supreme Judicial Court on March 16, 1904, nine persons (of whom the Mayor of Boston is *ex officio*, one) were appointed to act in conjunction with the ministers of the three churches as managers of the said fund. The managers are the rector of Christ

Church, the ministers of the First Church in Boston and the First United Presbyterian Church, James M. Curley, Mayor of Boston (*ex officio*), Everett Morss (*President*), James J. Phelan (*Vice President*), Charles E. Cotting (*Treasurer*), Rev. Charles E. Park (*Secretary*), Charles R. Gow, Louis K. Rourke, J. Frank O'Hare and Henry B. Sawyer.

From the accumulated fund there has been expended by the managers \$429,091.64 on account of the construction and equipment of a building at the corner of Appleton and Berkeley streets, known as the Franklin Union, and containing a hall capable of seating 1,000, 24 class-rooms and 6 draughting rooms. The object of the institution is to afford people working at a trade an opportunity to increase their knowledge and improve their condition. The land on which the building stands was purchased by the City of Boston for \$100,000.

The balance of the fund, which was retained by the treasurer,— and which the codicil provides shall remain invested until 1991, when it will be divided between the City of Boston and the Commonwealth of Massachusetts, in the proportion specified in the bequest,— was, at the request of the managers of the fund, turned over to the City Treasurer on October 20, 1904, it having been voted by the managers that the Treasurer of the City of Boston for the time being act as the treasurer of both the accumulated and the accumulating funds.

The accumulated fund (the fund available for expenditure) was, on December 31, 1930, as follows:

Invested in City of Boston Three and one-half per cent Bond	\$6,000 00
---	------------

The accumulating fund December 31, 1930, amounted to as follows:
Deposits in Massachusetts Hospital Life Insurance Company:

Policy A-2	\$458,864 25
Policy A-3	13,648 90
Policy Ao-100	3,835 84
	<u>\$476,348 99</u>

FRANKLIN UNION.

On December 2, 1905, the City Treasurer received from Mr. ANDREW CARNEGIE \$408,396.48, said sum being the amount of the Franklin Fund, August, 1904, which Mr. Carnegie agreed to duplicate. This amount was made up as follows:

Five per cent bonds of the United States Steel Corporation, due April 1, 1951	\$408,000 00
Cash, now on deposit in Suffolk Savings Bank	396 48
	<u>\$408,396 48</u>

The income from this fund with fees, etc., is used to pay the expenses of the Franklin Union.

GEORGE B. HYDE BEQUEST.

Amount received from executor of estate of GEORGE B. HYDE, being a legacy from said GEORGE B. HYDE, for the purpose of erecting a statue of Rufus Choate and providing a suitable pedestal and foundation for the same. The amount of legacy, fourteen thousand dollars with the income thereof, by order of the City Council of 1894, to be invested, and on order of the Mayor to be applied to the purchase and erection of said statue. Statue is in Suffolk County Courthouse.

Amount of legacy	\$14,000 00
Interest on bonds and premiums on bonds sold to December 31, 1930	6,971 73
	\$20,971 73
Paid for statue	14,000 00
Balance:	
Invested in City of Boston Four per cent Bonds for \$6,000 00	
Cash in City Treasury, December 31, 1930	971 73
	<u>\$6,971 73</u>

JOHN FOSTER TRUST FUND.

Bequest of JOHN FOSTER of this city accepted by the City Council October 12, 1898, and it was

Ordered, That the Board of Art Commissioners, with the approval of the Mayor, be and hereby is authorized to procure a monumental statue of the late Rev. William Ellery Channing, and to cause said statue, with a canopy over the same, to be erected in the Public Garden, opposite the Arlington Street Church.

Ordered, That the Treasurer hold, invest and reinvest said sum, and use the same, with the income thereof, to meet the expenses incurred by said Commissioners under the above order, and pay any balance remaining of said sum and interest, after paying said expenses, to the executors of the will of the late John Foster, or their successors in said office.

Amount of bequest	\$30,000 00
Interest received to December 31, 1930	3,080 29
	\$33,080 29
Expenditures to date	32,422 50
Deposit in Hibernia Savings Bank, December 31, 1930	<u>\$657 79</u>

JOHN LARKIN FUND.

Bequest of JOHN LARKIN, under will dated September 22, 1807, to the Town of Charlestown.

"I give twenty shares in the bank aforesaid to the Town of Charlestown, the interest and profits of said twenty shares to be disposed of from time to time for the relief of the poor of said town, at the discretion of the minister or ministers and deacons of the First Church of Christ in said town for the time being."

A. F. DONNELL,
Clerk, First Church in Charlestown.

Invested in City of Boston Three and three-quarters per cent Bonds	\$535 00

ELLEN C. JOHNSON BEQUEST.

Bequest of ELLEN C. JOHNSON, accepted by the City Council April 2, 1902, and it was

Ordered, That the legacy contained in the will of Ellen C. Johnson of the residue of her estate to the City of Boston for the construction and erection of a drinking fountain be and is hereby accepted, the same to be held and disposed of in accordance with the provisions of her will; that the City Treasurer be authorized on behalf of the city to accept and receipt to the executrix of said will for said legacy; and that the amount of said legacy be hereby appropriated for constructing and erecting said drinking fountain according to provisions of said will, in accordance with such plans and in such place as the executrix may designate, provided that the same be approved by the Mayor and the Board of Art Commissioners.

The fountain is at the Hemenway street entrance to the Fens.

Amount of bequest and interest	\$32,155 32

SUSAN H. LEEDS BEQUEST.

Bequest of SUSAN H. LEEDS to the City's Home for Consumptives, accepted by the City Council, October 28, 1918.

Invested in City of Boston Four and one-quarter per cent Bonds	\$10,750 00
Deposit in Hibernia Savings Bank	1,293 45
	<u>\$12,043 45</u>

OLD STATE HOUSE REPAIR FUND.

By the will of CHARLES E. FRENCH the sum of \$3,000 was given to the City of Boston in trust to be invested in City of Boston bonds, the income to be devoted to repairs (but not improvements) in the old State House. Should it ever be found necessary to relocate the structure (not by demolition or pulling apart, but by removing the structure on rollers) to Atlantic avenue or other locality, this fund to continue, after such removal.

Accepted by the City Council April 27, 1907.

Invested in City of Boston Four per cent Bond	<u>\$3,000 00</u>
---	-------------------

OVERSEERS OF THE PUBLIC WELFARE FUNDS.

Trust Funds in the hands of the Overseers of the Public Welfare, December 31, 1930:

BOYLSTON FUNDS.—These funds were from a bequest by JOHN BOYLSTON, who died in London. His will was proved June 12, 1795. One portion of the bequest is ordered to be paid "Poor and decayed householders of the Town of Boston," "not under fifty years of age," "persons of good character, and reduced by the act of Providence not by indolence, extravagance, or other vice." The other portion to be applied to "nurture and instruction of Poor Orphans and Deserted Children of the Town of Boston until fourteen years of age."

BOYLSTON RELIEF FUND.

Invested in securities	<u>\$45,700 00</u>
----------------------------------	--------------------

BOYLSTON EDUCATIONAL FUND.

Invested in securities	<u>\$160,700 00</u>
----------------------------------	---------------------

HOLTON PROTESTANT PAUPER FUND.—Legacy left to the town of Brighton by JAMES HOLTON for the purpose of furnishing good and plentiful meals to the Protestant paupers of Brighton on Thanksgiving Day or other holidays.

Invested in securities	<u>\$6,050 00</u>
----------------------------------	-------------------

HOLTON PROTESTANT POOR FUND.— Legacy left to the town of Brighton by JAMES HOLTON in 1863; will probated June 9, 1863. Income to be expended in purchasing and distributing provisions among poor and indigent Protestant families in said town of Brighton on Thanksgiving and other holidays, or just previous to such holidays. Unmarried Protestant females to receive a liberal share.

Invested in securities \$1,500 00

JEFFRIES FUND. Bequest of DAVIS JEFFRIES, former Town Treasurer. Will dated January, 1786. Income to be applied to the purchase of tea and coffee, chocolate and sugar, for the refreshment of those persons who, in the Providence of God, are or shall be obliged to seek refuge in the almshouse, after having lived reputably, but always giving preference to the pious poor.

Invested in securities \$11,750 00

MASON FUND.— Bequest of JONATHAN MASON, by will dated July 15, 1798. Interest to be paid annually to the chaplain of the almshouse or workhouse. Interest to be added until one is appointed. The interest is now paid annually toward the salaries of the chaplains of the House of Correction and the Almshouse, Long Island.

Invested in securities \$10,450 00

PEMBERTON FUND.— This fund comprises bequests and gifts made to the City of Boston, from 1760 to the present time, from "A B.," Daniel Oliver, Margaret Blackader, Alice Quick, Annie Wheelwright, Mary Ireland, Benjamin Pemberton, Martha Stevens, Mrs. H. Driscoll, William Broad, Samuel Elliot, John Coffin Jones, Mary Belknap, "A Citizen of Boston," Anonymous, Dr. Harriot K. Hunt, George Higginson, Walter E. Hawes, William B. Spooner, Matilda Goddard, Rebecca A. Goddard and Richard C. Humphreys. The most important, however, of the bequests was from BENJAMIN PEMBERTON, whose will was proved June 25, 1782, and for that reason his name has been given to the fund. The income of this fund is to be expended, at the discretion of the Overseers, in semi-annual payments to the poor of this city.

Invested in securities \$186,600 00

PIERCE FUEL FUND.— Legacy left to the City of Charlestown by CALEB PIERCE, who died September 7, 1860, and which was accepted by the Charlestown City Council, May, 1861. Income to be expended in purchasing fuel for indigent widows, whose husbands had resided in Charlestown at least one year before their decease, said widows still continuing to reside in Charlestown.

Invested in securities \$1,500 00

DAVID SEARS CHARITY.— This is a fund contributed by the late DAVID SEARS for the relief of the poor, the income only to be expended "in aid and for the support of citizens or families who may have seen better days, and for charity in all its forms in such manner as may best tend to alleviate the sufferings of human life and render the condition of the poor more comfortable."

Invested in securities \$457,750 00

RACHEL T. STEVENS FUND.— Bequest of RACHEL T. STEVENS. The net income is to be paid (after the death of a person named in will) "for the support and maintenance of poor worthy Protestant single women of Boston, who have arrived at the age of fifty years (not including widows)

paying to each of such women during her life the sum of one hundred dollars in semi-annual payments. Upon the marriage of any beneficiary under this will, no further payments of money is to be made to her, nor is any further payment of income to be made to any beneficiary who becomes unworthy of help under this trust."

Invested in real estate (appraised value)	\$2,200 00
Securities	4,500 00
	<u>\$6,700 00</u>

STOUGHTON POOR FUND.— Bequest of Lieut-Gov. WILLIAM STOUGHTON, who died July 7, 1701. By his will he gave £50 to the relief of the poor of Dorchester, to be improved by the care of the Selectmen, and the income to be distributed to the most needy inhabitants.

Invested in securities	<u>\$4,800 00</u>
------------------------	-------------------

LUCY BULLMAN CHARITY.— Consists of an estate on Cambridge and Joy streets in this city, which came into possession of the City of Boston in 1872, in accordance with the will of LUCY BULLMAN, proved at Probate Court, Suffolk County, January 9, 1832, in which it is provided that, upon the death of certain persons therein named, said estate is given to the City of Boston upon condition that the estate never be sold, but the income used for the benefit of the poor. The estate is valued at about \$10,300.

Invested in securities	<u>\$49,100 00</u>
------------------------	--------------------

By a vote of the City Council, approved by the Mayor, January 4, 1873, this estate was placed in charge of the Overseers of the Poor.

DEXTER FUND.— Bequest of SAMUEL DEXTER, by will dated May 7, 1811, for supplying firewood or coal to such objects of charity as are not supported in the almshouse, though sometimes relieved by the Overseers of the Poor.

Invested in securities	<u>\$7,100 00</u>
------------------------	-------------------

GOODNOW FUND.— Bequest of ELISHA GOODNOW, "to be invested and the income applied forever to and for the relief, assistance and support of the poor, sick and infirm in said city, not supported by the said city in its almshouse, in such manner as the said city, or the government or officers thereof, may deem most judicious, but without reference to the religious faith or belief of those who may apply for or need the assistance from this fund."

Invested in securities	<u>\$11,250 00</u>
------------------------	--------------------

MOSES HUNT FUND FOR THE DESTITUTE.— "Income to be devoted to the relief and welfare of Protestant destitute residents of that part of said Boston which was Charlestown."

Invested in securities	<u>\$13,500 00</u>
------------------------	--------------------

NATHANIEL FREDERIC THAYER FUND.— Given to the City of Boston in May, 1900, to be invested in a fund to be formed for the benefit and use of Protestant widows and single women without distinction of color, preference always to be given to those who have seen better days, the fund to be called the NATHANIEL FREDERIC THAYER FUND, the interest of which to be annually appropriated to the uses above designated.

Invested in securities	<u>\$27,250 00</u>
------------------------	--------------------

THORNDIKE FUND.—Bequest of GEORGE L. THORNDIKE of \$10,000, the income to be used for the purchase of coal for deserving widows of East Boston. Accepted by the City Council, April 17, 1907.

Invested in securities \$10,600 00

ROWE FUND.—Bequest of RANSOM ROWE of \$1,000, the income to be used for "The Wayfarers' Lodge."

Invested in securities \$1,000 00

J. HARLESTON PARKER MEDAL FUND.

A gift by J. HARLESTON PARKER of one thousand (1,000) dollars. Accepted by the City Council December 7, 1921. The income thereof from time to time, but at no greater intervals than every three years, to be paid to the Mayor of the City of Boston for the purchase of a suitable medal to be known as the Harleston Parker Medal, to be presented by the Mayor of the city with the approval of the Boston Society of Architects or its successor from time to time, but in no case at more than a three years interval, to such architect or firm of architects as shall, in the judgment of the Mayor, with the approval of the Boston Society of Architects or its successor, erect for any private citizen, association, corporation or public authority the most beautiful piece of architecture, building, monument or structure within the limits of the metropolitan parks district as defined in section 3, chapter 407, of the Acts of 1893. If there be any unexpended income above what is required to purchase such medal as may be awarded, the unexpended income of the said fund may from time to time be spent by the Mayor with the approval of the said society towards stimulating the improvement of architecture in said district in any suitable manner.

Invested in City of Boston Four per cent Bonds \$1,000 00

GEORGE F. PARKMAN FUND.

By a codicil dated January 12, 1887, to the will of GEORGE F. PARKMAN, all the residue of his estate, both real and personal, was devised to the City of Boston, "to constitute a fund, the income of which is to be applied to the maintenance and improvement of the Common and the parks now existing, and is not to be used for the purchase of additional land for park purposes. Any portion of said income which may not be

required for the above purpose in any year is to be added to and invested as a part of said fund." This bequest was accepted by the City Council March 9, 1909.

Total amount received from executor on account of principal to December 31, 1930	\$5,080,737 19
Bonus on exchange of securities	26,258 50
Transfers of unappropriated income to principal to December 31, 1930	151,697 56
	\$5,258,693 25
Transferred from principal to George F. Parkman Fund, Building, Addition and Alteration. (Order of City Council December 14, 1927)	49,331 75
Total principal	<u>\$5,209,361 50</u>

PHILLIPS STREET FUND.

Bequest of JONATHAN PHILLIPS, who died in July, 1860, who gave by his will to the City of Boston \$20,000 "as a trust fund, the income of which will be annually expended to adorn and embellish the streets and public places in said city."

Payable to the Mayor of the city for the time being.

Invested in:

City of Boston Three and one-half per cent Bond	\$13,000 00
City of Boston Four per cent Bond	7,000 00
	<u>\$20,000 00</u>

In accepting the bequest the City Council directed the Board of Aldermen to expend the income of the fund in compliance with the terms of the trust.

There has been erected from the income derived from this fund the bronze statue of Josiah Quincy in front of City Hall, dedicated in 1879, costing \$14,716.90; John Winthrop, now on Marlborough street, dedicated in 1880, costing \$7,416.90; Samuel Adams, in Dock square, dedicated in 1880, costing \$6,856.44; also the curbing and fencing of the inclosure of the Emancipation Group, in bronze, in Park square, the gift of Moses Kimball, dedicated in 1879, costing \$4,686.99; the granite basin and foundation to the Leif Ericson monument, Commonwealth avenue, in 1888, costing \$3,996.70; and the pedestal and foundation for the Attucks monu-

ment on the Common dedicated in 1888, costing \$1,950; a bronze tablet now on State House fence, Beacon street, in 1882, to mark the site of the residence of John Hancock, costing \$75; foundation and base for memorial of John Boyle O'Reilly, on Back Bay Fens, dedicated in 1896, costing \$3,967.25; statue of Colonel Cass, on the Public Garden, costing \$9,194.41.

In 1885, under orders of the Board of Aldermen, there was paid toward the erection of the Lyman fountain in Eaton square, Dorchester, the sum of \$4,050.

Under an order of the Board of Aldermen, July 29, 1903, there was paid for approaches and curbing for the statue of Gen. Joseph Warren, Warren street, Roxbury, the sum of \$4,000.

Under an order of the Board of Aldermen of August 12, 1904, \$458.55 was paid toward cost of changing location of statue of Governor Winthrop to Marlborough street.

Under an order of the Board of Aldermen of November 29, 1905, \$300 was paid for foundation for Japanese lantern on Public Garden, presented to the City of Boston by Bunkio Matsuki.

Under an order of the Board of Aldermen, March 15, 1907, \$464.69 was expended for tablets to designate "Worcester House," "Great Bridge" and "Sparhawk Mansion."

Under orders of the Board of Aldermen, May 31, 1907, and February 5, 1908, \$2,250 was paid on account of foundation and grading for the Patrick A. Collins memorial, dedicated November 2, 1908.

Under an order of the Board of Aldermen, January 14, 1909, \$80 was expended for bronze tablet, site of "Sparhawk House," to replace one stolen.

Under an order of the Board of Aldermen, January 15, 1909, \$2,500 was expended for improvements in Lowell square, in front of West End Branch Library.

Under an order of the Board of Aldermen, March 11, 1909, \$805 was expended for bronze tablets in Dorchester, as follows: At Savin Hill, Old Dorchester Burying Ground, Birthplace of Edward Everett and site of First Meeting House and Free School.

Under an order of the City Council, April 5, 1910, \$315 was expended for a memorial tablet in Codman square.

Under an order of the City Council, December 18, 1911, \$153 was expended for a memorial tablet on the home of the late George Francis Parkman.

Under an order of the City Council, August 12, 1912, \$2,000 was paid on account of Monumental Tablet, Boston Common.

Under an order of the City Council, April 14, 1915, \$447 was expended for cleaning statue of Charles Sumner.

Under an order of the City Council, June 8, 1915, \$700 was expended for installing the Copenhagen Fountain.

Under an order of the City Council, June 11, 1918, \$30 was expended for cutting inscription on the pedestal of the Washington monument.

Under an order of the City Council, March 18, 1919, \$422 was expended for new tablet to mark the site of the home of Wendell Phillips.

Under orders of the City Council, December 4, 1917, and December 27, 1918, \$853.58 was expended for foundation for Robert Burns statue.

POLICE CHARITABLE FUND.

By an order of the City Council, approved by the Mayor July 7, 1890, the care of this fund, which since 1870 had been with the Mayor, Treasurer and Auditor as Trustees, was transferred to the Board of Police, and the funds were transferred to the City Treasurer.

The Police Commissioner is authorized to expend, with the approval of the Mayor, the income of the fund for the relief of persons who have received an honorable discharge from the police force by reason of sickness, age or other disability, and who are, in consequence of such disability, in necessitous circumstances and, with the approval of the Mayor, for the relief of widows and orphans, in necessitous circumstances, of police

officers who have died while in the service of the city or from the effects of injuries received in the execution of their duty.

Invested as follows:

City of Boston Five per cent Bonds	\$2,000 00
City of Boston Four and one-quarter per cent Bonds	14,700 00
City of Boston Four per cent Bonds	133,100 00

---	-------------------

FRANKLIN CLUB FUND.—Donation made in June, 1863, by a literary association of young men in Boston, who, at the dissolution of the association, authorized its trustees, Thomas Minns, John J. French and J. Franklin Reed, to dispose of the funds on hand in such a manner as to them should seem judicious. They elected to bestow it on the Public Library, attaching to it the following conditions: "In trust, that the income, but the income only, shall, from year to year, be expended in the purchase of books of permanent value, for the use of the free Public Library of the city, and as far as practicable of such a character as to be of special interest to young men." The trustees expressed a preference for books relative to government and political economy.

Invested in City of Boston Four and one-quarter per cent Bond	<u>\$1,000 00</u>
--	-------------------

ISABELLA STEWART GARDNER FUND.— Bequest of ISABELLA STEWART GARDNER by vote of the Library Trustees, to be known as the ISABELLA STEWART GARDNER FUND and the income applied to the purchase of material for the Allen A. Brown Music Library as a memorial to B. J. Lang, in accordance with the terms of the bequest. Received in 1924.

	<u>\$61,800 00</u>

SEWALL FUND.— Extract from the will of RICHARD BLACK SEWALL:

"*Tenth.*— I bequeath the following pecuniary legacies clear of legacy tax, namely, To the Trustees of the Public Library of the City of Boston \$25,000 (twenty-five thousand dollars) to be added to their funds and the income to be used for the purchase of books." Received in 1918.

Invested in City of Boston Four and one-quarter per cent Bond	<u>\$25,000 00</u>
---	--------------------

SKINNER FUND.— Extract from the will of FRANCIS SKINNER:

"*Eleventh.*— All my books and library I give and bequeath to my son to be enjoyed by him during his life and after his death to be distributed as he shall appoint among such public libraries as he shall judge fit, and in case he makes no such appointment then to the Trustees of the Public Library of the City of Boston.

"*Sixteenth.*— All the rest and residue of my said property of whatever kind, I give and bequeath to Augustus P. Loring and J. Lewis Stackpole in trust to pay the net income to my son Francis Skinner, Jr., during his life, or to apply the same to his maintenance and support, or the maintenance and support of any issue of his, as they shall think best during his life; and at his death to apply the income to the maintenance and support of his issue until his youngest child shall reach the age of 21 years and then to distribute said property among said issue, the issue of a deceased child to take the share a parent would have taken if living.

"If there shall be no issue surviving at the time of my son's death, then to turn the said property into cash and to divide it equally among the following legatees: The Trustees of the Public Library of the City of Boston, the Museum of Fine Arts of Boston, Massachusetts, the Massachusetts General Hospital, the Medical School of Harvard University, and the Free Hospital for Women, Brookline, Massachusetts." Received in 1914.

Invested in:

City of Boston Four per cent Bonds	\$10,450 00
City of Boston Three and one-half per cent Bond	40,000 00
Sixteen shares Worcester Street Railway Company	1,280 00
Cash, December 31, 1930	2 14
	<u>\$51,732 14</u>

SOUTH BOSTON BRANCH LIBRARY TRUST FUND.— Donation of a citizen of South Boston, the income of which is to be expended for the benefit of the South Boston Branch Library. Received in 1879.

Invested in City of Boston Four and one-quarter per cent Bond	<u>\$100 00</u>
---	-----------------

MARY ELIZABETH STEWART FUND.— Bequest of MARY ELIZABETH STEWART of \$3,500 to the Trustees of the Boston Public Library. The Trustees voted under date of June 29, 1923, that the income be applied to the purchase of books and other library material.

Invested in City of Boston Four per cent Bond	<u>\$3,500 00</u>
---	-------------------

JAMES JACKSON STORROW (HARVARD '57) FUND.— Gift of Elizabeth Randolph Storrow, as a memorial to James Jackson Storrow, Senior, by vote of the Library Trustees, to be known as the "JAMES JACKSON STORROW (HARVARD '57) FUND" and the income to be used for the purchase of Italian books as requested by the donors. Received in 1927.

Deposit in Boston Five Cents Savings Bank	\$10,000 00
Deposit in Dorchester Savings Bank	5,000 00
Deposit in Suffolk Savings Bank	10,000 00
	<u>\$25,000 00</u>

PATRICK F. SULLIVAN FUND.— Extract from will: "I give and bequeath to the Trustees of the Boston Public Library the sum of five thousand dollars, the principal or income of said sum to be expended by them for the purchase of Catholic standard books, said books to be approved by the Archbishop of the diocese of Boston, Mass., or by the President of the Trustees of Boston College, in Boston, Mass." Received in 1908.

This bequest, together with interest amounting to \$339.61, has been expended for books.

TICKNOR BEQUEST.— By the will of GEORGE TICKNOR, of Boston, he gave to the City of Boston, on the death of his wife, all his books and manuscripts in the Spanish and Portuguese languages, about four thousand volumes, and also the sum of four thousand dollars. After the receipt of said sum the city is required to spend not less than one thousand dollars in every five years during the twenty-five years next succeeding (*i. e.*, the income of four thousand dollars, at the rate of five per cent per annum) in the purchase of books in the Spanish and Portuguese languages and literature. At the end of twenty-five years the income of said sum to be expended annually in the purchase of books of permanent value, either in the Spanish or Portuguese languages, or in such other languages as may be deemed expedient by those having charge of the library. The books bequeathed or purchased are always to be freely accessible for reference or study, but are not to be loaned for use

outside of the library building. If these bequests are not accepted by the city, and the trusts and conditions faithfully executed, the books, manuscripts and money are to be given to the President and Fellows of Harvard College.

In order that the city might receive the immediate benefit of this contribution, Anna Ticknor, widow of the donor, relinquished her right to retain during her life the books and manuscripts, and placed them under the control of the city, the City Council having previously accepted the bequests in accordance with the terms and conditions of said will, and the Trustees of the Public Library received said bequests on behalf of the city, and made suitable arrangements for the care and custody of the books and manuscripts. Received in 1879.

Invested in City of Boston Four and one-half per cent Bond, \$4,000 00

WILLIAM C. TODD NEWSPAPER FUND.—Donation by WILLIAM C. TODD, accepted by order of the City Council, approved October 30, 1897, the income to be at least two thousand dollars a year, to be expended by the Library Trustees for newspapers of this and other countries.

Invested in:

City of Boston Four per cent Bond	\$25,000 00
City of Boston Three and three quarters per cent Bonds	25,000 00
	<u>\$50,000 00</u>

TOWNSEND FUND.—Donation from William Minot and William Minot, Jr., executors of the will of MARY P. TOWNSEND, of Boston, at whose disposal she left a certain portion of her estate in trust for such charitable and public institutions as they might think meritorious. Said executors accordingly selected the Public Library of the City of Boston as one of such institutions, and attached the following conditions to the legacy:

"The income only shall, in each and every year, be expended in the purchase of books for the use of the library; each of which books shall have been published in some one edition at least five years at the time it may be so purchased." Received in 1879.

Invested in City of Boston Four per cent Bond, ... \$4,000 00

TREADWELL FUND.—By the will of the late DANIEL TREADWELL, of Cambridge, late Rumford Professor in Harvard College, who died February 27, 1872, he left the residue of his estate, after payment of debts, legacies, etc., in trust to his executors, to hold during the life of his wife for her benefit, and after her decease to divide the residue then remaining, in the hands of the Trustees, as therein provided, and convey one-fifth part thereof to the Trustees of the Public Library of the City of Boston.

By order of the City Council, approved May 17, 1872, said bequest was accepted and the Trustees of the Public Library authorized to receive the same and invest it in the City of Boston Bonds, income of which is to be expended by said Trustees in such manner as they may deem for the best interests of the library.

Invested in:

City of Boston Four and one-half per cent Bond	\$1,000 00
City of Boston Four and one-quarter per cent Bonds	3,100 00
City of Boston Four per cent Bonds	9,850 00
Cash in City Treasury, December 31, 1930	37 69
	<u>\$13,987 69</u>

TUFTS FUND.—Bequest of NATHAN A. TUFTS, of Charlestown, to be known as the "NATHAN A. TUFTS FUND," the income to be applied at all times to the purchase of books and other additions to the library to be placed in the Charlestown Branch. Received in 1906.

Invested in:

City of Boston Four per cent Bonds	\$10,000 00
City of Boston Three and one-half per cent Bond	100 00
Cash in City Treasury, December 31, 1930	31 77
	<u>\$10,131 77</u>

TWENTIETH REGIMENT MEMORIAL FUND.— Donation on account of the TWENTIETH REGIMENT MEMORIAL FUND, the income to be used for the purchase of books of a military and patriotic character, to be placed in the alcove appropriated as a memorial of the Twentieth Regiment. Received in 1897.

Invested in City of Boston Four and one-quarter per cent Bond	<u>\$5,000 00</u>
---	-------------------

WALES FUND.— Extract from the will of GEORGE C. WALES: *Seventh.* "After the foregoing bequest I direct that the sum of five thousand dollars be paid to the Trustees of the Public Library of the City of Boston, the same to be held, managed and invested by them, so as to produce an income, and the said income to be applied to the purchase of said books for said library as they may deem best." Received in 1918.

Invested in City of Boston Four and one-quarter per cent Bond	<u>\$5,000 00</u>
---	-------------------

MEHITABLE C. C. WILSON FUND.— Bequest of MEHITABLE C. C. WILSON, the income to be expended for the purchase of books for the Boston Public Library. Received in 1913.

Invested in City of Boston Four per cent Bonds	<u>\$1,000 00</u>
--	-------------------

WHITNEY FUNDS.

Bequests of JAMES LYMAN WHITNEY, who died September 25, 1910.

ALICE LINCOLN WHITNEY FUND.— The twelfth clause of his will directed that: One-tenth of said remaining income of the principal fund, I direct to be paid to the Trustees of the Public Library of the City of Boston, to be held and accumulated by said Trustees and permanently invested and reinvested. The first five thousand dollars of income so accumulated, including the income thereon arising during the period of accumulation, I request to be funded in the name of my sister, Alice Lincoln Whitney, and the income of said fund after its accumulation or so much of said income as may be required, to be paid to such employees of the said library, who are sick and in need of help, as the Trustees may in their discretion deem most worthy (there are often such cases). Any amount of income from said accumulated fund not needed for the purpose just mentioned shall be used for the purchase of books and manuscripts. Received in 1917.

Invested in:

City of Boston Four and one-quarter per cent Bonds	\$1,000 00
City of Boston Four per cent Bonds	4,000 00
	<u>\$5,000 00</u>

JAMES LYMAN WHITNEY FUND.— The Alice Lincoln Whitney Fund having been established, all amounts of income of the principal fund paid to said Trustees after the accumulation of said fund of five thousand dollars shall be held as the JAMES LYMAN WHITNEY FUND, and invested and reinvested and the income used in equal shares, one share for the purchase of rare and expensive books, and one share for the purchase and care of manuscripts; one half at least of the share devoted to manuscripts to be expended for their cataloguing and proper care. Received in 1917.

Invested in:

City of Boston Four and one-half per cent Bonds . . .	\$1,200 00
City of Boston Four and one-quarter per cent Bonds . . .	3,700 00
City of Boston Four per cent Bonds	12,800 00
City of Boston Three and three-quarters per cent Bonds . . .	800 00
Cash in City Treasury, December 31, 1930	77 54
	\$18,577 54

In addition to the above Mr. Whitney created a trust, directing that of the net income seven hundred dollars a year be paid to the Trustees of the Public Library of the City of Boston, to be expended on bibliographical work for the benefit of the Library.

DONATIONS.— Besides the preceding, the following donations have been made to the Public Library, and the amounts have been appropriated for the purchase of books, according to the intention of the donors, viz.:

J. Ingersoll Bowditch	\$6,800 00
Samuel Appleton, late of Boston	1,000 00

SAMUEL E. SAWYER FUND.*

Bequest of SAMUEL E. SAWYER, of Gloucester for the benefit of the Marcella Street Home, the income to be expended in a manner that will promote the interests and prosperity of the institution. Received in 1895.

Invested in:

City of Boston Four per cent Bonds	\$2,400 00
--	------------

SCHOOL TRUST FUNDS.

BOWDOIN DORCHESTER SCHOOL FUND.—On March 1, 1797, JAMES BOWDOIN, of Boston, in token of his respect and esteem for the inhabitants of the town of Dorchester, and for the sum of 5s., deeded to them and to their successors forever, "for the use and benefit of the public schools in said town, a certain parcel of woodland." The sale of this estate by the Board of Street Commissioners was authorized by the City Council in 1889, and the net proceeds paid to and invested by the City

* See, also, Horace Mann School Fund.

Treasurer in bonds of the City of Boston, the income of said bonds being expended by the School Committee for the benefit of the public schools in that part of said city formerly called Dorchester.

On September 27, 1897, the Corporation Counsel of the City gave an opinion that the schools in South Boston had the same right as the schools in Dorchester to participate in the benefits of this fund, and since that date the income has annually been expended for the purchase of books and other supplies for the schools in these two sections of the city.

Invested in City of Boston Four and one-quarter per cent	
Bond	<u>\$4,500 00</u>

CHARLESTOWN SCHOOL TRUST FUND.—The Legislature of Massachusetts, on the 27th of March, 1793, passed an act to incorporate Richard Devens, Nathaniel Gorham, Josiah Bartlett, Aaron Putnam, Joseph Hurd, Nathaniel Hawkins, Seth Wyman and their successors, Trustees of the Charlestown Free Schools. On the 18th of April, the same year, it was "Voted that the Town Treasurer deliver to Aaron Putnam, Esq., Treasurer of the Trustees of the Charlestown Free Schools, all the money, bonds, notes of hand, etc. (being the property of said free schools), that now are or may come into his, the Town Treasurer's, hand."

The charter of the City of Charlestown, after prescribing the manner of electing the School Committee, provides that the person thus chosen shall have "all the powers and privileges, and be subject to all the liabilities set forth" in the act to incorporate certain persons under the name of the Trustees of Charlestown Free Schools. The Act of Annexation to Boston provided for the continuance of this corporation in the members of the School Committee of the City of Boston from the Charlestown District.

By chapter 53 of the Acts of 1877, the School Committee was incorporated and authorized to receive the Charlestown School Trust Fund, to "manage said fund, and disburse the income thereof within the limits of the former City of Charlestown, according to the tenor of the instruments creating said trust."

The School Committee elects annually one of its members as treasurer of the corporation, who holds in trust the property of this fund, and expends the income thereof for the purchase of books and other articles for the benefit of the schools situated within the limits of the former City of Charlestown.

The following is a statement of the fund on December 31, 1930:

City of Boston Four and one-quarter per cent Bond	\$650 00
City of Boston Four per cent Bond	5,000 00
On deposit in Charlestown Five Cent Savings Bank	3,961 32
On deposit in Warren Institutions for Savings	829 98
On deposit in First National Bank	254 78
	<u>\$10,696 08</u>

EDWARD M. SULLIVAN, *Treasurer.*

COMINS SCHOOL LIBRARY FUND.—LINUS B. COMINS made a donation in 1855 of \$500 to be held in trust by the Chairman of the School Committee, the Mayor of the city and the President of the Common Council who are constituted *ex officio* trustees of the fund, the income to be expended for the library of the Comins Grammar School for girls situated in the former limits of the town of Roxbury. This school subsequently became a mixed school attended both by girls and boys, and the income of the fund is paid annually to the master of the school, and by him expended in accordance with the wishes of the donor.

Invested in City of Boston Four and one-quarter per cent	
Bond	<u>\$500 00</u>

PETER P. F. DEGRAND FUND.—Bequest of PETER P. F. DEGRAND, late of Boston, whereby he gave one-twelfth of the residue of his estate to the City of Boston, for amusing picture books for infant schools.

By an order of the City Council, dated May 16, 1917, the bequest was accepted and the City Treasurer authorized in behalf of the city to receive and receipt for all sums received, invest and reinvest the same, the income therefrom to be placed to the credit of the School Committee to be expended for the purpose named in the bequest.

Invested in:		
City of Boston Four and one-quarter per cent Bonds	\$2,100	00
City of Boston Four per cent Bond	25,000	00
Cash in Treasury, December 31, 1930	2,000	00
	<u>\$29,100</u>	<u>00</u>

DEVENS INFANT SCHOOL FUND.—The will of DAVID DEVENS, who died August 30, 1855, contains a bequest of \$1,000 to the inhabitants of the town of Charlestown, “the income thereof to be applied in the discretion of said inhabitants, or by such officers of said town as they shall authorize, for the benefit of the Infant Schools in that town, and of the children who shall attend them.” This bequest was accepted by the City of Charlestown, November 10, 1856, and the income is now paid to the Mayor for the Hunt Asylum for Destitute Children, formerly the Infants’ School and Children’s Home Association.

Invested in City of Boston Four per cent Bond	<u>\$1,000</u>	<u>00</u>
---	----------------	-----------

EASTBURN SCHOOL FUND.—JOHN H. EASTBURN bequeathed in his will, proved July 28, 1873, the sum of \$10,000 to the City of Boston, “the interest of which is to be applied to aid and assist deserving and poor scholars to finish their education by pecuniary assistance in the Normal School for Females in said City.” This bequest was received by the Mayor in May, 1886, and paid to the City Treasurer, who was authorized to invest the same in City of Boston bonds, the fund thus created to be known as “The Eastburn School Fund” and the income thereof paid to the School Committee, to be expended by it for the purposes set forth in the will of the testator.

Under regulations adopted by the School Committee the income of this fund is now paid to the head master of the Teachers College, and expended by him with the approval of the superintendent for the benefit of deserving and indigent pupils attending the college.

Income invested in City of Boston Four and one-quarter per cent Bond	<u>\$1,000</u>	<u>00</u>

FRANKLIN MEDAL FUND.—The will of Dr. BENJAMIN FRANKLIN contained a legacy of one hundred pounds sterling to establish a fund, the income thereof to be expended in silver medals as honorary rewards to the pupils of the free school belonging to the town of Boston. In 1867 these medals were given for the last time to pupils in the grammar schools. They are now given only to graduates of the Public Latin, English High, Mechanic Arts High Schools and the High School of Commerce. At the present time these medals are awarded annually in June by the Board of Superintendents, on the recommendation of the head masters of these four schools, to those graduates who have attained high rank in scholarship and conduct. From twenty to twenty-five medals are thus distributed annually, divided proportionately among these four schools.

Invested in City of Boston Four per cent Bond	<u>\$1,000</u>	<u>00</u>
---	----------------	-----------

GIBSON SCHOOL FUND.—Bequest of CHRISTOPHER GIBSON, who provided by will, about 1674, that after the payment of legacies and debts his executors should “purchase some estate for the promotion of learning in the Town of Dorchester.” The surviving executor, Daniel Preston, purchased for £104 twenty-six acres of land at Smelt Brook, and deeded the same February 6, 1693, to Enoch Wiswell, Samuel Robinson, John Tolman, James Bird and Increase Sumner as Trustees, and to their successors and assigns, for the “use and purpose, benefit and behoof, of the schools of learning in the town of Dorchester.” Sales of this land have been made from time to time, and the part now held consists of 38,230 square feet set apart as a site for the Rochambeau School and 30,090 square feet rented to the Public Works Department. The proceeds have been invested in

City of Boston Three per cent Bonds	5,000 00
Cash in City Treasury	600 43
	<u>\$77,640 43</u>

The income of this fund is appropriated for the supply of library books and such apparatus for the schools which are now or shall be embraced in the territory formerly known as “Dorchester” which are not supplied by the city, upon order of the School Committee, and apportioned to each school as said School Committee shall decide.

Under an opinion given by the Corporation Counsel of the city on September 27, 1897, the income of this fund since that date has been expended for the benefit of the schools in South Boston as well as for those in Dorchester.

EDWARD S. GOULSTON MEMORIAL FUND.—Gift of LEOPOLD M. GOULSTON in memory of his brother. The income of this fund is to be used annually for the award, by the Head Master of the English High School, to a deserving pupil in the graduating class, to be applied by the pupil to his expenses in obtaining a higher education.

Deposit in the Massachusetts Savings Bank	<u>\$1,000 00</u>
---	-------------------

HENRY B. HALL FUND.—Bequest of HENRY B. HALL (late Master of the “John Winthrop” and “Phillips Brooks” schools), of certain deposits in various banks; no withdrawals to be made till the principal and interest in each bank respectively shall have reached the maximum that the law allows, after which all interests are to be paid annually (the principal remaining intact) as the School Board may direct, to the “John Winthrop” and “Phillips Brooks” schools, for the purchase of books, pictures and other educational material, and shoes for any needy pupils attending any class in these two school districts.

(Accepted by the School Committee, December 15, 1924.)

PERMANENT SCHOOL PENSION FUND.

This fund was established under authority of chapter 589 of the Acts of 1908, as amended by chapter 617 of the Acts of 1910 and chapter 304 of the Special Acts of 1915 for the payment of pensions to the members of the teaching or supervising staff of the public day schools of the City of Boston.

The care and investment of said fund are "vested in a board of three trustees, of whom one shall be the Chairman of the Board of Commissioners of Sinking Funds of the City of Boston, *ex officio*, another chosen by the School Committee and the third shall be chosen by the Board of Trustees of the Teachers' Retirement Fund in the City of Boston.

"In addition to the amount which the school committee is now authorized by law to appropriate for the support of the public schools of the city and for other purposes, it shall annually appropriate for the purposes contemplated by this act, and in the same manner in which it makes appropriations for other school purposes, the sum of seven cents upon each one thousand dollars of the valuation on which the appropriations of the City Council of the city are based, and shall from time to time pay to the treasurer of the permanent pension fund such portion of the proceeds of said seven cents upon each one thousand dollars of the valuation aforesaid as, in the opinion of the school committee, will not be needed for the purpose of paying pensions to teachers during that year."

On December 31, 1930, the fund consisted of the following:

Bonds, par value —	
American Telephone and Telegraph Company at Five per cent	\$25,000 00
Chicago, Burlington and Quincy Railroad at Four per cent, ...	20,000 00

PUBLIC SCHOOL TEACHERS' RETIREMENT FUND.

This fund has been created in accordance with the provisions of chapter 237 of the Acts of 1900 and in charge of a board of trustees consisting of the superintendent of schools, three female teachers, three male teachers and four members of the School Committee.

The fund is for the purpose of providing annuities to teachers who have retired from the service of the City of Boston after having taught a certain length of time in the day schools of the city, and who have contributed a certain sum to the fund.

Eighteen dollars per year is deducted by the City Treasurer from the salaries of all teachers who enter the service of the city after the passage of the Act of 1900, and also from the salaries of such other teachers as have voluntarily elected to come within the provisions of the act.

On December 31, 1930, four thousand two hundred sixty four teachers were contributing to the fund at the rate of \$18 per year.

On December 31, 1930, three hundred forty teachers were receiving annuities of \$10 per month, one at \$6.67 per month, one at \$6 per month, three at \$5 per month, one at \$5.78 per month and one at \$4.44 per month.

On December 31, 1930, the fund in the hands of the City Treasurer, custodian, consisted of the following property:

Bonds, par value —	
City of Boston Four per cent	\$22,000 00

WALTER SCOTT MEDAL FOR VALOR FUND.

Gift of Walter Scott of \$2,000, the income to be expended in the purchase of solid gold medals to be known as the "Walter Scott Medal for Valor," one-half thereof to the Fire Commissioner of the City of Boston for the purchase of such gold medal to be presented by him to the fireman who in his judgment has during the calendar year specially distinguished himself for valor in the performance of his duty as a fireman; and to pay the other half thereof to the Police Commissioner of said City for the purchase of such gold medal to be presented by him to the policeman who in his judgment has during the calendar year specially distinguished himself for valor in the performance of his duty as a policeman. If in any year the Fire Commissioner or the Police Commissioner or both of them, be respectively of opinion that there is no fireman or no policeman entitled to receive such medal, or if there be surplus income above what is required to purchase such medals as may be awarded, the unexpended or surplus income of the said fund shall be added to and become a part of the principal received in 1922.

	<u>\$2,770 00</u>

GEORGE ROBERT WHITE FUND.

Under the will of GEORGE ROBERT WHITE, dated December 30, 1919, the rest and residue of property of every nature was devised to the City of Boston, "the same to be held as a permanent charitable trust fund to be known as the GEORGE ROBERT WHITE FUND," and the net income only to be used for creating works of public utility and beauty, for the use and enjoyment of the inhabitants of the City of Boston. It is my intention that no part of said income, however, shall be used for a religious, political, educational or any purpose which it shall be the duty of the City in the ordinary course of events to provide.

The control and management of said Fund and the disbursement of the income shall be in the hands of a board of five trustees to consist of the Mayor, who shall be its chairman, the President of the City Council, the City Auditor, the President of the Chamber of Commerce and the President of the Bar Association of the City of Boston.

Invested in:

Principal:

APPROPRIATIONS AND TAX ORDERS FOR THE FINANCIAL YEAR 1930.

Ordered, That to meet the current expenses payable during the financial year beginning with the first day of January, 1930, for performing the duties and exercising the powers devolved by statute or ordinance, or by vote of the City Council during the year, upon the City of Boston or County of Suffolk, or the departments or officers thereof, and to meet their obligations for interest on debt, sinking fund requirements and maturing debt not provided for by sinking fund, the respective sums of money specified in the tables and schedules hereinafter set out be, and the same are, hereby appropriated for the several departments and for the objects and purposes hereinafter stated.

Ordered, That the appropriations for Water Service current expenses and the payment to the state under the provisions of chapter 488 of the Acts of 1895, and acts in addition or amendment thereto, and for the interest and debt requirements or for loans issued for water purposes be met by the income of said service and any excess over income from taxes; that the appropriation for Printing Department be met by the department income and any excess over income from taxes; and the appropriation for *City Record* be met by the income of said publication and any excess over income from taxes; that the other appropriation hereinafter specified be met out of the money remaining in the treasury at the close of business on December 31, 1929, exclusive of the money raised by loan or needed to carry out the requirements of any statute, gift, trust or special appropriation, and by the income of the financial year beginning January 1, 1930, and taxes to the amount of \$36,565,133.14, and that said amount be raised by taxation on the polls and estates in the City of Boston.

Ordered, That all sums of money which form no part of the income of the city but shall be paid for services rendered or work done by any department or division for any other department or division, or for any person or corporation other than the City of Boston, be paid into the general treasury, and that all contributions made to any appropriation be expended for the objects and purposes directed by the several contributors thereof.

Ordered, That all taxes raised to meet the appropriations of the city and county and all taxes assessed for meeting the city's proportion of the state tax for the year 1930, be due and payable on the fifteenth day of September, 1930, that interest shall be charged on all taxes remaining unpaid after the second day of October, 1930, in accordance with the provisions of chapter 59, section 57, of the General Laws, until paid, except the taxes assessed upon shares of national banks, which shall bear interest at the rate of 12 per cent per annum from the fifteenth day of September, 1930, until paid; and that all interest which shall have become due on taxes shall be added to and be part of such taxes.

Ordered, That except as the appropriation for any purpose or item shall be increased by additional appropriations or transfers lawfully made, no money shall be expended by any department for any of the purposes or items designated in the tables and schedules hereinafter set out in excess of the amount set down as appropriated for such specific purposes or item; and except as aforesaid no salaries or wages shall be paid in excess of the rates specified in said tables and schedules.

Passed, yeas nineteen, nays none.

W. J. DOYLE, *City Clerk.*

Approved August 6, 1930.

JAMES M. CURLEY, *Mayor.*

Attest:

W. J. DOYLE, *City Clerk.*

CITY OF BOSTON.

IN SCHOOL COMMITTEE, March 3, 1930.

Ordered, That to provide for the cost of alteration and repair of school buildings and for furniture, fixtures and means of escape in case of fire, and for fire protection for existing buildings, and for improving existing school yards during the financial year January 1 to December 31, 1930, the sum of one hundred thousand dollars (\$100,000) is hereby appropriated on account, which appropriation on account shall include payments for liabilities covering emergencies and other necessary purposes incurred prior to January 1, 1930.

The chairman stated that the appropriation order as now presented has been approved by the committee after conference with the Board of Commissioners of School Buildings, the Corporation Counsel, and the City Auditor.

The order passed by the following vote: yeas, 5, nays, 0.

Approved by the Mayor, March 8, 1930.

A true copy.

Attest:

ELLEN M. CRONIN, *Secretary.*

CITY OF BOSTON.

IN SCHOOL COMMITTEE, April 1, 1930.

Ordered, That in accordance with the provisions of chapter 206 of the Special Acts of 1919, as amended by chapter 524 of the Acts of 1920, as amended by chapter 488 of the Acts of 1923, as amended by chapter 327

of the Acts of 1925, as amended by chapter 314 of the Acts of 1926, the following appropriations are hereby made for the purpose of meeting the cost of new land and building items and the additional cost of land and building items previously authorized:

<i>Item 1.</i> — Administration expenses, Department of School Buildings (land, plans and construction of school buildings)	\$115,000 00
<i>Item 2.</i> — Rent of hired accommodations	40,000 00
<i>Item 3.</i> — Bennett District, Brighton (Brighton High School): Construction of thirty-six classroom high school for boys and girls (Item 35, 1923; Item 22, 1924; Item 12, 1925; Item 17, 1928)	55,000 00
<i>Item 4.</i> — Bennett District, Brighton (Brighton High School): Equipment of thirty-six classroom high school for boys and girls	75,000 00
<i>Item 5.</i> — Bennett District, Brighton (Brighton High School): Finished grading	95,000 00

ANNUAL REPORT
OF THE
BOSTON RETIREMENT BOARD
FOR THE YEAR 1930.

Boston, February 1, 1931.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR SIR,—In accordance with section 20 of chapter 521 of the Acts of 1922, the Boston Retirement Board respectfully submits the Annual Report for the year ending December 31, 1930.

The Boston Retirement System began operation on February 1, 1923, under the provisions of chapter 521 of the Acts of 1922 of the Commonwealth of Massachusetts.

The Retirement Board is composed of three members, Wilfred J. Doyle, City Clerk, appointed by the Mayor; City Treasurer Edmund L. Dolan (*ex officio*), and J. George Herlihy, Assistant Business Manager of the School Committee, elected by the other two members. Mr. Doyle is chairman of the Board, Mr. Dolan is treasurer, and Mr. Herlihy is secretary.

It is the duty of the Board, under the law, to retire all members who have attained the compulsory age limit of seventy years and those who apply for retirement who have attained the age of sixty. They also approve the retirement of members who apply for retirement for ordinary or accidental disability after a report is received from the Medical Board established by the act. The Board is authorized and has the responsibility of invest-

ing the funds in such securities as are allowed for investment by the Sinking Funds Commissioners of the City of Boston. The Board also adopts for the Retirement System the necessary mortality and service tables as experience may teach to be equitable and certifies the rates of contribution payable by the City of Boston under the provisions of the act and employs such actuarial, clerical and other assistants as may be necessary for the proper operation of the system.

The Medical Board consists of three members, Dr. John A. Foley, medical practitioner, Dr. Robert C. Cochrane, surgeon, and Dr. Arthur W. Fairbanks, neurologist. The members of this Board are nominated by the Senior Medical Staff of the Boston City Hospital and are appointed by the trustees of the Boston City Hospital.

The duties of this board are to examine as to mental and physical capacity all members who apply for ordinary or accidental disability retirement and approve or disapprove their retirement, and to re-examine annually all such retired members until the age of sixty is attained. The result of this re-examination is reported to the Retirement Board and if the disability is no longer present and the member was retired at his own request, the retirement allowance ceases; if the member was retired at the request of the head of the department, the member returns to duty at the same rating and salary as before retirement.

The employees appointed by the Retirement Board to carry out the executive and general work necessary for the operation of the system consist of an executive officer and ten other employees. Briefly, their work may be stated as follows: Receive and properly record all applications for membership; post from pay rolls the deductions of these members as are shown on the respective pay rolls; prepare the service records of all members who make application for retirement; determine service credits and dates of birth for the actuarial computation of the retirement allowances; prepare and properly execute the monthly pay roll of retired members and beneficiaries; assist the actuary in his preparation of mortality and service tables and in the actuarial valuation of the assets and liabilities of the system; general correspondence notifying members of their retirement and also of their retirement allowances. As there is an average net increase of 650 members yearly

and an annual addition of 175 to the pay roll of retired members, the work of the organization increases in proportion.

Briefly, the law provides for retirement at the age of sixty, if retirement is requested by employees, and compulsory retirement at age seventy. The amount of the retirement allowance is calculated on the length of service, the salary received during the period of service and the age of the member at retirement. The employee, by accepting a reduced allowance, may elect that the same allowance continue after his death, to his wife or another beneficiary for life, or that one half the allowance that he receives continue throughout the life of his wife or another beneficiary or he may also elect that the balance of his reserve remaining unexpended be paid to his estate. In case of death from injury occurring in the performance of duty, the widow, children or dependent father or mother receives a pension equal to one half the member's annual salary or compensation received by him during the year immediately preceding the date of the accident. For permanent disability caused by an accident occurring in the performance of duty, the member receives a pension equal to three fourths of the annual salary or compensation paid to him during the year immediately preceding the date of the accident. For disability from any other cause, an allowance is paid equal to 90 per cent of what it would have been had the member remained in service until the age of sixty, provided, the member has fifteen years of creditable service at the time of filing application for retirement. The cost of benefits provided for service after February 1, 1923, is borne equally by the employees and the city. The entire cost of benefits on account of prior service, *i. e.* service prior to February 1, 1923, is borne by the city.

**Valuation Balance Sheet Showing Assets and Liabilities of the
Funds of the Boston Retirement System as of December
31, 1930.**

ASSETS.		Present Value of Payments to be Received.
Annuity Savings Fund.....	\$5,331,698	
Pension Accumulation Fund.....	\$8,917,967	
Add reserve previously trans- ferred on member considered in liabilities as active.....	7,665	
	<u>8,925,632</u>	
Retirement Reserve Fund.....	\$624,550	
Deduct reserve for pension on member considered in liabili- ties as active.....	7,665	
	<u>616,885</u>	
Total Present Assets.....		\$14,874,215
Present value of prospective contributions payable by the City of Boston into the Pension Accumulation Fund as follows:		
Normal contribution of 3.11 per cent of future salaries.....	\$7,339,537	
Accumulated liability contribution of 5.15 per cent of future pay roll until liabilities of Pension Accumulation Fund on ac- count of past services are liquidated...	19,114,715	
	<u>26,454,252</u>	
Total contributions to Pension Accumulation Fund,		
Total Assets.....		<u>\$41,328,467</u>

LIABILITIES.	Present Value of Payments to be Made.
Present value of benefits payable on account of beneficiaries or their dependents now drawing allowances from the Retirement Reserve Fund.....	\$635,201
Present value of benefits payable on account of beneficiaries or their dependents now drawing allowances from the Pension Accumulation Fund.....	4,833,735
Present value of benefits to members with prior service credit to be paid by contributions of the City of Boston into the Pension Accumulation Fund:	
Superannuation pensions on account of service as members, equal to annuities provided by contributions of employees,	\$4,502,193
Additional superannuation pensions on account of service rendered prior to February 1, 1923.....	17,539,864
Ordinary disability pensions provided by the city.....	1,444,362
Accidental disability pensions provided by the city.....	45,292
Accidental death benefits provided by the city.....	177,767
Total, all benefits to members with prior service credit provided by the contributions of the city into the Pension Accumulation Fund.....	23,709,478
Present value of benefits to new entrants to be paid by contributions of the City of Boston into the Pension Accumulation Fund to be transferred to the Retirement Reserve Fund:	
Superannuation pensions on account of service as members, equal to annuities provided by contributions of employees,	\$4,043,890
Ordinary disability pensions provided by the city.....	1,595,547
Accidental disability pensions provided by the city.....	328,470
Accidental death benefits provided by the the city.....	850,448
Total, all benefits to new entrants.....	6,818,355
Present value of benefits on account of which contributions have been accumulated to date in the Annuity Savings Fund.....	5,331,698
Total liabilities.....	\$41,328,467

MEMBERSHIP OF THE SYSTEM.

Active Membership.

The membership of the system consists of those employees who joined during the first year of its operation and who therefore are entitled to credit for service rendered prior to February 1, 1923, and all persons who have entered the service of the city since that date.

The following table shows the number of members and their annual compensation as of December 31, 1930.

STATISTICAL DATA.

During the year the Board retired 199 members from active service, at a cost to the Retirement System of \$139,986.20; of this number 178 were for service, 8 were for accidental disability, 11 were for ordinary disability, and 2 were for accidental death benefit.

During the year there were admitted to membership 1,574 new employees. The number of withdrawals from service were 554, of which 123 were due to death, 405 to resignation and dismissal, and 26 resulted from error. The amount of cash refunded as a result of these withdrawals was \$133,742.35. The cost of administering the system for 1930, which is borne by the city, was \$30,269.82 which was about three-fourths of one per cent of the payments for the year.

The itemization of the administration is as follows:

Personal Service	\$19,993 67
Service Other than Personal	8,761 11
Office Equipment	1,108 47
Office Supplies, including Postage	406 57
Total	<u>\$30,269 82</u>

The system is being administered strictly in accordance with the law, and the valuation as of December 31, 1930, indicates it to be in a very satisfactory financial condition.

The members of the Board are grateful to the personnel whose efforts have materially aided in the proper administration of the system.

Executive Officer.

ANNUAL REPORT
OF THE
BUILDING DEPARTMENT
FOR THE YEAR 1930.

Boston, February 2, 1931.

HON. JAMES M. CURLEY,
Mayor of the City of Boston.

SIR,— In compliance with section 1, chapter 550, of the Acts of 1907, and section 24, chapter 3, of the Revised Ordinances, a statement of the operations of the department from January 1, 1930, to December 31, 1930, is herewith presented.

EDWARD W. ROEMER,
Building Commissioner.

BUILDING OPERATIONS.

The volume of building operations in the City of Boston for the year 1930, totaling \$30,299,625, was very satisfactory when considered in the light of conditions prevailing throughout the country. Despite a recession of slightly over 50 per cent from the total of 1930 in building activities, Boston held its own with the other large cities, and ranks well up among the first twenty-five cities of the nation in this respect.

Due to the general depression existing throughout the country several large building projects which were under contemplation were for the time being postponed. Had these projects been carried to completion the total for

1930 would have equaled or exceeded the total for 1929. Confidence in the outlook for the future is evidenced in the erection during the year of three large office structures at a cost of nearly \$4,500,000 — the Western Union Building, the Professional Arts Building and the New England Telephone and Telegraph Building at Bowdoin square. The year also witnessed the completion of the \$2,500,000 tower building at 75 Federal street and the completion and dedication of the new \$2,000,000 Manger Hotel in the North Station group.

In view of these large undertakings and the general feeling of optimism which seems to be growing on every hand the department looks forward to a resumption of building activities during the coming year. With the many projects under way by city, state and nation we look forward with confidence that the City of Boston will once again be one of those in the front rank of municipalities in all lines of business activities and endeavors.

Housing construction suffered a further decline from the volume of last year, although this recession was more marked in the type of multi-family apartment and tenements than in the smaller unit dwellings. The total of construction of the private type one, two and three family dwellings held up very favorably with the preceding year, there being 818 of this type of homes erected at a cost of \$5,445,800 as compared with 962 buildings in 1929 valued at \$6,902,000. Total housing construction for the year accommodated 1,415 families in 832 structures at an estimated cost of \$6,226,800.

A further increase in the hospital facilities of the city was begun with the start on the initial group of buildings for the New England Medical Center at the South End. Several new units at the Boston City Hospital and another of the George R. White district health units were also completed and put into commission during the year.

Commercial and industrial construction, including stores, offices, manufacturing, storage and warehouse buildings, projected during the year amounted to \$6,080,525 for 119 structures as compared with 167 buildings of this character in 1929 costing \$9,677,000. Although no large public garages were erected during the year the number of smaller private garages, of which there were 825 costing nearly \$700,000, compares well with 1929.

Although not reflected to any great extent in the volume of building construction for the year the work of the department's inspection force was immeasurably augmented by the large number of conventions held in the city during the summer and by the celebration of the Tercentenary of the founding of the city. These affairs necessitated the supervision and inspection of a huge number of reviewing stands, seating thousands of spectators viewing the many parades and pageants staged in connection with these gatherings. This work reached its climax with the celebration of Tercentenary week in September and the convention of the American Legion in October, when the greatest parades and pageants in the history of the city were staged. The department is happy to report that not one accident or injury occurred as a result of any defect in the construction and maintenance of these stands. Inspection and supervision of egress at all public halls and places of assembly during these gatherings was also greatly increased.

Construction of public buildings during the year included additions to the courthouses at Brighton and East Boston, and branch libraries at Roxbury and Mattapan, costing in all nearly \$500,000. Two new theaters, one completed and in operation at Mattapan and the other contemplated in downtown Boston on Adams House site, were also undertaken during the year.

Another phase of the department's work which does not show in the total volume of construction, but which was tremendously increased during the year, is the inspection and designation of "main stairways" in conjunction with the lighting of hallways in accordance with section 45 of the Acts of 1907, which provides that:

"Public halls and main stairways in all tenement houses now existing or hereafter erected three stories or more in height, and accommodating four or more families who are served by a common main stairway and hall, shall be provided with proper and sufficient lights to be kept lighted during the night. The words 'Main Stairway' as used in this section shall mean the staircase so designated by the Building Commissioner."

There are many hundreds of tenement and apartment houses in the city which come within this classification and it has been necessary to detail the entire inspection

force of the department, in addition to their other duties, to the inspection of these tenements and the designation of the "main stairways."

The advent of miniature golf, both indoors and out, has also entailed considerable increase in the work of the Egress and Zoning Divisions. While the actual investment involved in these undertakings is large, the amount of construction necessitated is small, since the indoors are usually located in vacant buildings with large floor area and the outdoors in vacant lots.

The department has numerous and frequent requests from other cities, chambers of commerce, civic bodies and research organizations for statistics in many forms concerning the various phases of the building and housing situation in Boston. Building departments in many other cities, too, are interested in the provisions and application of the Boston Building Law and Zoning Law and the department has many calls for information along these lines. Preparation of these many statements of varying character entail much additional work for the clerical force of the department.

During the year changes were made in the routine of office procedure which have resulted in greater efficiency of the office and expedited the passing and examination of plans and the issuance of permits for construction.

The following is a list of the principal building projects, those involving an outlay of \$100,000 or more, for which applications were filed with the Building Department of the City of Boston during the year ending December 31, 1930:

New England Telephone & Telegraph Company, 6 Bowdoin square. Office building and machine switching exchange, ten stories, 155 feet,	\$1,700,000
Professional Arts Building, 435 Stuart street. Office building and stores, twenty stories, 230 feet	1,700,000
Western Union Telegraph Company Building, 218-232 Congress street. Offices and service building, twelve stories, 155 feet	1,250,000
Atlantic National Bank (addition), Water and Kilby streets. Offices and banking quarters, 13 stories, 155 feet	1,000,000
New England Medical Centre Group, Ash, Bennet and Nassau streets. Hospital, dispensary and clinical buildings	402,000
Sears-Roebuck Building (addition), Audubon road and Brookline avenue	400,000

Municipal Bath House (New L Street Bath), 1685 Columbia road	\$300,000
Paramount-Publix Theater (tentative), 549-559 Washington street	250,000
Boiler House and Laundry, Boston Sanatorium, River street, Mattapan	230,000
Kitchen and Refectory, Boston Sanatorium, River street, Mattapan	224,400
East Boston Courthouse and Police Station (addition)	216,000
Automobile Sales and Service Building, 1055 Commonwealth avenue, Allston	200,000
Locker Building and Gymnasium, Harvard Stadium, Isolation and Pathological Ward, Children's Hospital, Longwood avenue	190,000
New England Hospital for Women and Children, Dimock street, Roxbury	180,000
Edison Electric Illuminating Company Generating Station, 27 Scotia street	175,000
North Station Industrial Building (alteration)	165,000
Apartment Houses, forty-two families, 1766-1770 Centre street, West Roxbury	160,000
Medical Library (addition), 8 Fenway	150,000
Stores and Restaurant Building, 37-51 Court street, Apartment House, 435 Beacon street, seventeen families	125,000
Gordon College of Missions and Philosophy (addition), Evans way	120,000
Stores Block, Blue Hill avenue and Oakland place, Mattapan	112,000
Boston Elevated Railway Bus Garage, 2545 Washington street, Roxbury	100,000
Brighton Courthouse (addition), 40 Chestnut Hill avenue	100,000
R. C. A.-Victor Corporation of Massachusetts (addition), 76 Atherton street, Jamaica Plain, Apartment House, twenty-eight families, 96 Kilsyth road, Brighton	100,000
Thompson's Spa (alterations), 227-233 Washington street	100,000
Heating Plant, Harvard Medical Dormitories, Vila street, Roxbury	100,000

EGRESS DIVISION.

The required inspection of the 259 theaters, moving picture houses and public halls, has been attended to, also such inspection (day or night) as was deemed necessary for the safety of the public.

The Licensing Board, also the State Department of Public Welfare, are cooperating with the department by referring all applications for lodging houses and homes for aged persons for inspection and approval of the egress.

The Licensing Board in the past, having sent only applications for new licenses or changes of licenses, has now furnished the department with a list of all lodging houses in the city, so that an inspection can be made of the remaining, or about five hundred houses.

An outstanding feature of the year was the installation of sprinklers on the stage in all second-class constructed moving picture houses, also replacing all screens with an approved type of fireproof screen and flameproofing all fabric drops, borders, wings and other properties on the stage.

Another new feature this year has been the inspection and approval of thirty-four indoor golf courses which have been classed the same as public halls.

Beginning with the first of the year all hotels (about 115) will be re-examined for egress and thereafter at regular intervals, especially in regard to lighting of stairways, alarm signals and watchmen, as section 44, chapter 143, of the General Laws require.

In the densely populated districts of this city there are many fire escapes which require inspection, as it is a well known fact that in this climate metal rusts very quickly, also that fire escapes are not generally kept in good condition or even free from snow or ice in the winter months.

The Egress Division has many monthly inspections to make which are required by law; this in addition to the daily assignments due in a great measure to the active cooperation and the many communications from the Fire and Health Departments.

FIRE PROTECTION EQUIPMENT.

Automatic sprinkler protection is based on the fact that nearly all fires have a small beginning, and this protection should be so installed that possible fire may be controlled at the start.

This requires that such work be properly designed, carefully supervised and frequently inspected after installation. Standpipe systems for use by the Fire Department and occupants are also under like supervision and inspection.

Department regulations require standpipe protection in buildings while under construction.

Sprinkler and standpipe requirements should be extended to include certain types of buildings which at present are not required by law to install this very important safeguard.

It is hoped that the bill presented by his Honor the Mayor of Boston to the Legislature will receive favorable action; by its passage the fire hazard will not only be lessened very materially, but will in many instances provide means to control incipient fires.

WATER SUPPLY SYSTEMS FOR FIRE PROTECTION AND DOMESTIC USE.

Legislative acts permitting the erection of buildings to heights above that at which water may be properly supplied from the city mains, have brought new problems to the department.

Water at adequate pressure and volume for domestic use and for fire protection must be provided. The department has designed pumping equipment to meet these conditions, which are entirely automatic, being controlled by the pressure in the piping system. Each installation, having engineering difficulties peculiar to itself, requires a great amount of study. Plans of the proposed building are examined, probable water consumption is estimated, and on this basis, pressure required, size and capacity of pumps, tanks, etc., are determined.

The department has also designed an electric control panel used to regulate the operation of these pumping equipments which has greatly reduced the initial cost of such devices. Many of these equipments are now in operation in Boston and are giving unfailing service with the least amount of attention.

Equipped as above:

Parker House.	Metropolitan Building.
Ritz-Carlton Hotel.	Sears-Roebuck Building.
Beth Israel Hospital.	United Shoe Machinery Build-
Hotel Bradford.	ing.
Boston Continuation School.	Tower Building.

PLUMBING DIVISION.

While the number of applications for plumbing permits was not as large as usual, there were several out-

standing jobs during the year, among which are the Tower Building, the Telephone Building, Bowdoin square, and the new Dillon locker building for Harvard College, each one presenting their particular problems of plumbing installation. Probably the most interesting job of plumbing was that in the Edison heating plant, which is the first of its kind in this city, in which the particular problem was the drainage of the waste water used for washing the smoke and cinders. As this water contains a large percentage of sulphuric acid a rubber lined iron pipe was used, which is supposed to be acid resisting, and as this is the first of its kind ever used in this city it will be watched with interest by the department.

The plumbing inspectors have been especially active in investigating and following up complaints of the installation of illegal plumbing and it is due to the vigilance of the division and to the vigorous enforcement of the plumbing law that we have in Boston such a small amount of illegal and unsanitary plumbing installations.

We have had the usual number of complaints of roof water flowing upon neighboring property and public ways, which have been given proper attention. These complaints have been followed up by the inspectors with the result that in the majority of cases the violations have been removed, and others have been referred to the Law Department for such action as may be deemed necessary.

In addition to their regular duties the inspectors of plumbing have cooperated with the other divisions in making special inspections of the lighting of halls and stairways.

ZONING DIVISION.

All applications made to the Building Department, either for a new building or an alteration of an existing building, are first referred to the Zoning Division for its approval before any action is taken on same. It is important and necessary that all applicants for permits for a new building or an addition to an existing building file a certified plot plan with their application in order that all setbacks, yards and other open spaces may be provided as specified under the different sections of the zoning law. It would save considerable time and trouble if the applicant would be sure that

the measurements on said applications, such as the size of the structure, the depth and width of the lot and the distances of required setback and yards, agree with the plot and construction plan.

Since the zoning law went into effect the Street Commissioners have sent all applicants for garage licenses and for licenses for the storage and sale of inflammable fluids to the Zoning Division in order that the application and accompanying plans could be stamped according to the zone the property is located in.

During the past year the Police Department, the Board of Health, and the Licensing Board have sent all applicants for licenses to the Zoning Division, and if the location was found to be in the proper zone the application was approved. There have also been numerous applications for miniature golf courses and other amusement enterprises referred to this division for approval or rejection by the Licensing Division of the Mayor's office.

While the Zoning Division in common with all the other divisions of the Building Department is at all times pleased to patiently explain and also advise anyone regarding proposed work, giving the benefit of years of experience, we have absolutely no power to change even one word of chapter 488, Acts of 1924, and if all those who come seeking information would bear this fact in mind, it would save considerable time to the applicants.

In specific cases any applicant whose application has been refused has the privilege of appealing to the Board of Appeal which has the power to permit a variance of the act where its enforcement would involve practical difficulty or cause unnecessary hardship.

If a change is desired in the boundary lines of a district, a citizen or group of citizens, whether by petition or otherwise, may apply to the Zoning Adjustment Board for relief.

GAS DIVISION.

The extensive use of gas for domestic and industrial appliances, and for central house heating, has caused the manufacturers to place on the market better, safer and more scientifically constructed appliances.

In the supervision and inspection of the installation in buildings it is necessary that the proper type and size appliance be selected. The weight on the floor,

the fire protection and the ventilation of the appliance, as well as the room, must be taken into consideration.

Gas is not turned on until all the requirements for safety have been complied with.

In the past year the gasfitting inspectors have been able to return to previous installations of house heating and industrial appliances and to more fully study and check up their operation as to safety.

ELEVATOR DIVISION.

The enforcement of the provisions of the state elevator and escalator regulations rests with the Elevator Division of the Building Department. The division consists of one supervisor, eleven inspectors and one special night inspector. The work of the night inspector is restricted to the making of tests at night for the convenience of those who do not care to have work done during the day. The regular inspectors make examinations on complaints, accidents, alterations and installation of new elevators, shaftways, etc. They also test about 3,000 elevators each year. There are about 12,800 elevators in the city and it is estimated that the daily passenger travel on these elevators is about 1,000,000 persons. It is interesting to note that only one person was killed on a passenger elevator last year, although seven persons were killed on freight elevators. There is at present a lack of proper safety devices on freight elevator doors and gates. The installation of such devices would prevent the operation of these elevators when the doors or gates are open and would do much to prevent accidents.

The law does not require licensed operators on freight elevators and boys, pedlers and other persons having no experience frequently run the elevator. At least 95 per cent of the accidents on freight elevators could be prevented if the law required licensed operators or interlocking devices on gates.

Interlocking devices are being installed on practically all new passenger elevators with corresponding increase in their safety.

The increase in the height of buildings now permitted by law has raised an interesting question for the department. The present law permits a speed of 600 feet per minute, which is not considered sufficient for higher buildings.

DILAPIDATED BUILDINGS.

The work of taking down buildings or repairing same has been done with every possible care for the safety of the public as well as safeguarding the interests of the property owners. Police protection is required in all cases during the process of razing buildings and is of great help and protection.

In some cases, where party walls have been left in an unsafe condition due to the taking down of buildings, it has been found necessary, owing to the fact that there are disputes between the owners in regard to the expense of taking care of these walls, for the department to obtain permission from the Mayor to secure and shore same. The number of buildings taken down was 240, at an estimated cost of \$37,526. The number of buildings repaired was 140, at an estimated cost of \$109,300. The total cost to the City of Boston was \$3,431.90. The number of inspections was 1,967 and the number of reports, 247.

Materials Approved by Building Commissioner After Satisfactory Test as Provided by Section 8, Chapter 550, Acts of 1907, as Amended.

NAME OF MATERIAL.	Date of Approval.	Manufactured by	Condition of Approval.
Celotex.....	August 2, 1922.....	The Celotex Company.....	Substitute for wood lathing, interior finish, interior and exterior sheathing on full frame buildings only.
Gypsteel long span floor construction.....	July 11, 1923.....	Structural Gypsum Corporation,	Floors and roofs not over 150 pounds live load.
Gypsteel — poured in place.....		Structural Gypsum Corporation....	Floors and roofs not over 150 pounds live load.
Gypsteel — precast.....		Structural Gypsum Corporation....	For roofs only, when less than 3 inches as a substitute for wood only.
Bois interlocking stairs.....		E. Van Noorden Company.	
Hyttest.....	April 21, 1924.....	Hyttest Cement Company.....	See letter of approval.
Gypsum for protecting steel from the effects of fire.....	January 5, 1925.....	The Gypsum Industries.....	Poured in place or precast.
Flex-or-Crete.....	May 9, 1925.....	Structural Flex-or-Crete Company	Floors, roofs, partitions and fire protection.
Smith steel stairs.....	December 24, 1925.....	A. L. Smith Iron Works.	
Revised design of platform.....	April 3, 1926.....	A. L. Smith Iron Works.	
Suspension type Pyrofill floor and roof.....	June 23, 1926.....	U. S. Gypsum Company.	
Steel joist type Pyrofill floor and roof.....	June 23, 1926.....	U. S. Gypsum Company.	
Three and one-half inch hollow Pryobar tile.....	June 23, 1926.....	U. S. Gypsum Company.....	Roofs only.
Four-inch hollow Pryobar tile.....	June 23, 1926.....	U. S. Gypsum Company.....	Roofs only.
Three-inch solid Pryobar tile.....	June 23, 1926.....	U. S. Gypsum Company.....	Roofs only.
Five-inch long span channel tile.....	June 23, 1926.....	U. S. Gypsum Company.....	Substitute for wood on pitch roof only not less than 45 degrees.
Five-inch long span hollow tile.....	June 23, 1926.....	U. S. Gypsum Company.....	Substitute for wood on pitch roof only not less than 45 degrees.

Six-inch long span channel, tile.....	June	23, 1926.....	U. S. Gypsum Company.....	Substitute for wood on pitch roof only not less than 45 degrees.
Six-inch long span hollow tile.....	June	23, 1926.....	U. S. Gypsum Company.....	Roofs only.
Gyp-Lap.....	June	23, 1926.....	U. S. Gypsum Company.....	Substitute for wood sheathing on full frame buildings.
Rocklath.....	June	23, 1926.....	U. S. Gypsum Company.....	Substitute for wood lathing.
Sheetrock Pyrofill roof.....	July	13, 1926.....	U. S. Gypsum Company.....	Roofs of second-class buildings.
Swanson steel and concrete stairs.....	August	16, 1926.....	Knowlton Iron Works Company ..	
Gypsum plaster board.....	October	9, 1926.....	The Gypsum Industries.....	Substitute for wood lath.
Gypsum board sheath.....	October	9, 1926.....	The Gypsum Industries.....	Substitute for wood sheathing on full frame buildings.
Concrete block in foundation.....	October	18, 1926.....	Any manufacturer (after freezing and compression test).	Twelve-inch block laid according to specifications dated October 18, 1926.
Havemeyer security anchor.....	November	9, 1926.....	Havemeyer Steel Company.....	Anchoring brick or stone to structural concrete frames.
Dovetail anchor slot.....	November	9, 1926.....	Dovetail Anchor Slot Company,	Anchoring brick, stone or terra cotta to structural concrete frames.
Precast Porete slab 32 inches by 24 inches by 1½ inches. . . .	November	29, 1926.....	Porete Manufacturing Company...	Substitute for wood on roofs only.
Mitco Interlocking Grating..... Type C 1 inch. Type C 1¼ inch.	March	4, 1927.....	Hendrick Manufacturing Com- pany.	Floors of balconies and fire escapes and treads of stairs.
Diamond Grating..... Type A-3.	April	1, 1927.....	William F. Kemp Company.....	Floors of balconies and fire escapes and treads of stairs.
Revised design of stringers and post connections.....	April	22, 1927.....	A. L. Smith Iron Works.	Fireproof construction.
Precast Porete slab 32 inches by 24 inches by 3 inches. . . .	May	4, 1927.....	Porete Manufacturing Company...	Floors of balconies and fire escapes and treads of stairs.
Irving subway flooring.....	May	4, 1927.....	Irving Iron Works Company.....	
Atlas Lumnite cement.....	May	10, 1927.....	The Atlas Lumnite Cement Com- pany.	Shores and forms may be removed in twenty-four hours when used in a 1-2-4 mix.

Materials Approved by Building Commissioner After Satisfactory Test as Provided by Section 8, Chapter 550, Acts of 1907,
as Amended.— Continued.

NAME OF MATERIAL.	Date of Approval.		Manufactured by	Condition of Approval.
Holorib.....	May	17, 1927.....	Holorib, Inc.....	Substitute for wood in construction of roof boarding; spans not to exceed 4 inches; metal to be not thinner than 0.038 inch.
J. & L. Junior beams.....	June	30, 1927.....	Jones & Laughlin Steel Corporation.	See letter of approval.
Tri-Lox grating panels.....	July	7, 1927.....	Tri-Lok Company.....	Floors of balconies and fire escapes and treads of stairs.
Keystone Gypsum slab.....	August	11, 1927.....	Keystone Fireproofing Company of New York.	Roofs.
Gypsteel slabs.....	August	15, 1927.....	Structural Gypsum Corporation...	For roofs, providing the slabs are not more than 37 inches long, not less than 4 inches thick, and reinforced with four $\frac{3}{8}$ -inch diameter rods $\frac{1}{4}$ inch from the bottom of the slab spaced 6 inches on centers.
Slagblok slab.....	September	2, 1927.....	Republic Fireproofing Company, Inc.	Floors only.
Pyrocell.....	September	14, 1927.....	United States Gypsum Company,	Substitute for following. 1. Bricknogging between studs and joists. 2. Cinder concrete between screeds in floors in fireproof construction. 3. Cinder concrete fill on roof slabs. 4. Sound deadener and insulator.
Thermofill.....	September	14, 1927.....	United States Gypsum Company,	Sound deadener or insulator only.
Certain-Teed roofing.....	September	22, 1927.....	Certain-Teed Products Corporation.	Covering of roofs of first-class buildings.
Eight-inch composition roofing.....	November	17, 1927.....	Philip Carey Company.....	See letter from fire underwriters.

Open truss type of steel joist.....	January 24, 1928.....	Truscan Steel Company.....	Welded connections only. Carrying capacity to be designed and analyzed in accordance with usual methods of computations recognized by the Building Department.
Steel stairs with Interlocking Precast concrete treads and risers.	March 1, 1928.....	Babcock Davis Corporation.	
Reinforced gypsum roof slab.....	March 10, 1928.....	H. E. Marks Corporation.....	Substitute for wood on roofs only.
“Ezyfit” boltless riser and tread.....	March 10, 1928.....	Standard Steel Sections, Inc.....	Approved for straight runs only.
Steel stairs.....	May 17, 1928.....	A. L. Smith Iron Works.....	Welded stringers and minor connections.
Steel stairs.....	May 17, 1928.....	Babcock Davis Corporation.....	Welded stringers and minor connections.
“Monoprest” fire escape tread.....	September 27, 1928.....	David H. Smith & Sons, Inc.....	Approved for standard fire escapes on condition that the open spaces between the ribs or bars of the step shall not exceed $\frac{9}{16}$ inch, and the minimum thickness of material shall not be less than $\frac{9}{16}$ inch.
Certain-Teed insulating board and beaver insulating board.	September 27, 1928.....	Certain-Teed Products Corporation.	Approved for boarding-in of frame houses.
Barrymore “Readymixed” concrete.....	September 27, 1928.....	Metropolitan Sand and Gravel Company.	Concrete furnished in said trucks approved for use in Boston.
Bostwick “Truss-loop” metal lath.....	September 27, 1928.....	Bostwick Steel Lath Company....	Approved for reinforcement in concrete slabs with the proviso that the slab complies with the minimum thickness of slabs and the fire protection of the reinforcing as described in section 15, chapter 550, Acts of 1907, as amended.
Steel stairs.....	April 13, 1929.....	Babcock Davis Corporation.....	For straight runs only.
Brixment.....	April 13, 1929.....	Louisville Cement Company.....	Mortar be used no poorer than one part Brixment and three parts of sand by volume. Load not to exceed 14 tons per square foot.

Materials Approved by Building Commissioner After Satisfactory Test as Provided by Section 8, Chapter 550, Acts of 1907,
as Amended.— Continued.

NAME OF MATERIAL.	Date of Approval.	Manufactured by	Condition of Approval.
No. 1 "Tie-To" inserts for tying metal lath to concrete..	June 7, 1929.....	Tie-To Insert Company.	Inso board approved for outside boarding-in on full frame build-ings only, and for interior finish and sheathing. Inso lath ap-proved as a substitute for wood lath.
No. 1 "Tie-To" inserts used as masonry anchors for bond-ing brick, stone or terra cotta veneer to concrete.	June 7, 1929.....	Tie-To Insert Company.	
No. 2 "Tie-To" inserts for securing metal lath to sheath-ing or insulation for the use of stucco.	June 7, 1929.....	Tie-To Insert Company.	
No. 2 "Tie-To" inserts for securing brick veneer to insulation or sheathing.	June 7, 1929.....	Tie-To Insert Company.	
Inso board and Inso lath.....	June 18, 1929.....	Stewart Inso Board Company.....	
Insulite.....	October 16, 1929.....	The Insulite Company.....	Approved for sheathing on full-framed buildings only; for plas-ter base as substitute for wood lath only; roof insulation on sec-ond-class buildings; for wall board as substitute for wood lath and plaster; for acoustical correction, condensation correc-tion, sound deadening between floors or partitions, and for re-frigeration work, only after ex-amination of each specific set of plans or building.
West Coast hemlock.....	October 16, 1929.....	West Coast Lumbermen's Asso-ciation.	Allowable working stresses. Bending, 1,100 square inches. Modulus of elasticity, 1,400,000. Horizontal shear, 75. Compression across grain, 209.

Trowlite.....	October 31, 1929.....	Hercules Cement Corporation.....	Trowlite may be used for mortar in brick work not required to sustain a load of over 14 tons per square foot, and only when used in the proportion of one part of cement to four parts of commercial sand.
Ferrobord roofdeck.....	November 5, 1929.....	Truscon Steel Company.....	Approved as a substitute for wood on the roofs of buildings.
Century cement.....	March 18, 1930.....	Century Cement Corporation.....	See approval on file.
Velo.....	March 21, 1930.....	Glen Falls Portland Cement Company.	High Early Strength Cement.
Heath cubes.....	May 26, 1930.....	Valley View Brick Company.	
Havermeyer joist.....	November 17, 1930.....	Concrete Steel Company.....	Welded connections.
Heliopore.....	November 29, 1930.....	National Heliopore Floor Corporation.	See conditions on file.

Total.....	832	1,415	1,063	3,642
Estimated cost of housing construction.	\$6,226,800		\$14,629,712	

The total estimated increase in construction and improvement for the year 1930 is \$30,299,625.

Estimated valuation of buildings in Boston which come within the jurisdiction of the building law:

1872	\$168,607,701
1930 (January 1)	1,050,404,637
1930, new construction	24,882,551
1930, totally destroyed by fire	16,000
1930, take-downs	102,382
1931 (January 1), estimated value	1,075,168,806

Estimated valuation of buildings (above the land) in Boston of January 1, 1931, exempted from the operations of the building laws and not included in the estimate of building operations under the Building Department:

United States Government	\$36,440,400
Commonwealth of Massachusetts	16,585,900
Public schoolhouses	40,620,800

All notices of complaints are sent to the Law Department simultaneously with the service on the violator of the law.

The purpose of this is to have the Law Department's representative endeavor to arrange for a conference at the Building Department between the violator, the building inspector and the Building Commissioner, the purpose being to aid the person against whom the complaint is made by showing him what is necessary to be done to have the complaint against him closed.

As a result of this practice many cases have been settled at the conference, thus eliminating court action.

The representative of the Law Department is also frequently called into consultation in reference to plans and the law on proposed structures, the purpose being to offer aid and counsel to those intending to build.

The number of cases referred for actual court action during 1930 is as follows:

For neglect to provide egress	182
For violation of the building law	40
For maintaining unsafe buildings after notice to secure or take-down	5
Sprinkler complaints	4
Total	<u>231</u>

Of the above number of referred complaints, the following have been closed:

For neglect to provide egress	37
For violation of the building law	1
Total	<u>38</u>

In addition, the following complaints referred for court action prior to January 1, 1930, have been closed during the year 1930:

For neglect to provide egress	57
For violation of the building law	56
For maintaining unsafe buildings after notice to secure or take-down	8
Sprinkler complaints	1
Total	<u>122</u>

On January 1, 1930, there were

Brick buildings, etc.	42,190	
Erected during 1930	809	
	42,999	
Take-downs	119	
Destroyed by fire	1	
	120

		92,304
Total number of buildings, January 1, 1931,		<u>135,183</u>

ITEMS OF INTEREST.

Tallest buildings:

Custom House, 495 feet.

United Shoe Machinery Building, 290 feet.

75 Federal street, Tower Building, 245 feet.

Ames Building, 196 feet.

Sears-Roebuck Building, 192 feet.

Covering greatest ground area:

South Station, 1,467,522 square feet.

Smallest mercantile building:

212 State street, $2\frac{1}{2}$ stories high, 4 feet 9 inches front,
50 feet depth, ground area, $237\frac{1}{2}$ square feet.

Costliest building:

Storehouse, Army Supply Base, South Boston.

Oldest building:

Paul Revere House, 1660.

Largest office buildings:

Park Square Building and John Hancock Building.

Largest hotel:

Statler.

Largest sports arena:

Boston Garden, North Station.

GENERAL STATISTICS.

Area of Boston:

30,598 acres (47.81 square miles).

Value of buildings (above the land), \$937,862,400.

(Estimated April 1, 1930.)

Population:

(Estimated) July 1, 1931, 781,578 (Federal Government).

Number of buildings:

Total, 135,183.

Number of buildings occupied for habitation:

(Estimated) January 1, 1931, 94,681.

Divided into:

Tenement houses, 8,476.

Three-family houses, 23,681.

Other habitations, 62,524.

Buildings other than habitations, 40,502.

PILING AND CONCRETE INSPECTIONS.

Average number of inspectors of piling and concrete .	29
---	----

Total number of days' work	1,164
--------------------------------------	-------

Cost for employment of same (paid by contractors) .	\$18,148

MASSACHUSETTS SUPREME JUDICIAL COURT DECISIONS.

Marcus *v.* Commissioner of Public Safety. Suffolk. March 1, 1926. Certiorari. Zoning Law. Permit to Erect Garage. Commissioner of Public Safety has jurisdiction to entertain appeal from Decision of Fire Marshal.

Norcross *et al.* *v.* Board of Appeal of the Building Department of the City of Boston. Suffolk. March 2, 1926. Certiorari. Petition to Review Action of Defendant in Annuling Refusal of Building Commissioner of Boston to Grant a Permit to Erect a Building Exceeding Eighty Feet in Height. Plaintiff claimed a Violation of the Zoning Law. Respondent contended that the District was Abrogated by a Later Statute. Record while not Overpoweringly Convincing cannot be Pronounced Erroneous as Matter of Law. Petition Dismissed.

Bradley *et al.* *v.* Board of Zoning Adjustment. Suffolk. March 2, 1926. Certiorari. Constitutionality of Zoning Statute in Respect to Appointment of Board and its Power to Change Boundaries of Districts established by Legislature. Failure to give Notice of Hearing in Accordance with Statutes. Vote of Board Changing Boundaries and Zoning Map Invalid Because Statement of Reasons Required by Statute Not Given. Writ to issue.

Stuart *v.* Alpert is the plaintiff's appeal from a decree dismissing a bill in equity brought to enforce a building restriction. The parties owned premises on Massachusetts avenue, Boston, within a short distance of each other. The plaintiff acquired her title by mesne conveyance from the City of Boston, and the defendant acquired his title by mesne conveyance from the Boston Water Power Company. The plaintiff based her cause of action on an agreement between the Commonwealth of Massachusetts, the Boston Water Power Company and the City of Boston in regard to the development of certain land in the Back Bay. The plaintiff's chain of

title showed a restriction requiring building to be set back a certain distance from the street, and the defendant's deed contained a similar restriction. Prior to the bringing of this action the defendant started erection of an addition to his house within the restricted area. Held that the findings of fact disclose no common title and no basis for an inference that the restriction in the deed of the defendant's predecessor in title was inserted for the benefit of the estate owned by the plaintiff. As the plaintiff had no right to enforce the restriction in the defendant's deed the bill was properly dismissed. Mass. Supreme Court.

Wood *et al. v.* Building Commissioner of the City of Boston. Suffolk. May 29, 1926.

Bancroft *et al. v.* Building Commissioner of Boston. Suffolk. September 18, 1926.

Seigemund *v.* Building Commissioner. Suffolk. May 20, 1927.

Landers *v. Brooks et al.*, Trustees. Tenant Injured Descending Fire Escape. Middlesex. November 29, 1926.

O'Brien *v.* Turner. Zoning. Norfolk. February 27, 1926.

Hammond *v.* Board of Appeal. Springfield. Zoning. Hampden. November 23, 1925.

Vorenberg *v. Bunnell et al.* Garage. State Restrictions. Suffolk. November 11, 1926.

Siegemund *v.* Building Commissioner, City of Boston. Suffolk. April 3, 1928. Zoning laws are binding upon all.

In dealing with real estate, all who are interested are required to take notice of zoning laws.

Building Commissioner, Town of Brookline *v.* McManus. Norfolk. April 5, 1928. Zoning law. Plaintiff not barred in action, because he first made a criminal complaint against defendant.

Godfrey *v.* Building Commissioner, City of Boston. Suffolk. May 28, 1928. Mandamus. Petition to compel respondent to refuse to grant a building permit.

ANNUAL REPORT OF THE BOARD OF APPEAL.

BOSTON, February 1, 1931.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR SIR,— In accordance with the provisions of section 8, chapter 550, Acts of 1907, as amended, we submit herewith a summary of the decisions of the Board of Appeal rendered during the period between January 1 to December 31, 1930.

Due to a recent decision of the Supreme Court stating that the advertising of the public hearing in a daily newspaper and notice of hearing to all those deemed by the Board affected thereby should be done by the Board and not by the petitioner as has been the practice heretofore, the Board has been in consultation with a Special Committee on the Zoning Law, which met in the office of the City Planning Board, in reference for legislation relative to the payment of an additional fee under the Zoning Law of the City of Boston.

The Board further recommends that section 19, chapter 488, Acts of 1924, have the same provision that section 129, paragraph 2, of chapter 550, Acts of 1907, has to indemnify and save harmless the person or persons in whose favor a decision of the Board has been rendered, to wit:

“The person applying for the writ of *certiorari* shall file a bond with sufficient surety, to be approved by the court, for such sum as shall be fixed by the court, to indemnify and save harmless the person or persons in whose favor the decision was rendered from all damages and costs which they may sustain in case the decision of the Board is affirmed. In case the decision of the Board is affirmed the court, on motion, shall assess damages, and execution shall issue therefor.”

Respectfully submitted,

BOARD OF APPEAL,
by JAMES A. McELANEY, JR.,
Secretary.

The following is a statistical summary of the work of this department for the year 1930:

In re Building Law — chapter 550, Acts of 1907, as amended:

Appeals received	108
Appeals sustained	55
Appeals sustained with proviso	44
Appeals dismissed	3
Appeal decisions rendered	102
Appeals pending	4
Appeals withdrawn	2

In re Zoning Law — chapter 488, Acts of 1924, as amended:

Appeals received	122
Appeals sustained	58
Appeals sustained with proviso	22
Appeals dismissed	37
Appeals withdrawn	1
Appeals decisions rendered	117
Appeals decisions rendered pending from 1929	1
Appeals pending	4

In re Building Law — chapter 550, Acts of 1907, as amended:

Violation of the Elevator-Escalator Regulations.— Use of hinge hatch cover instead of vertical lifting hatch on sidewalk opening. The sidewalk elevator was located in a busy thoroughfare and the method as proposed by the appellant was less hazardous than the legal hatch cover for it created less congestion on the sidewalk, less interference with and greater safety to pedestrians. The Board believed that this was a case not contemplated by the act although covered by it and sustained the appeal.

Violation of Section 9 or Sections 23 and 32, of Chapter 550, Acts of 1907, or Chapter 42, Acts of 1927, Special Act Governing Metal Buildings.— Erection of temporary steel buildings. The appellant desired to erect a temporary steel building on leased land. In view of the fact that the appellant could be ordered to vacate at a thirty days' notice, the Board was of the opinion that it would be a manifest injustice to compel the appellant to erect a more permanent form of construction, viz., a second-class building. There were sixteen of these

cases and the Board sustained them with the proviso, "that same be removed at the expiration of a certain date,"— the dates varying from one to two years according to the needs of the appellant in each instance.

Violations of Sections 9, 13 and 40.— *In re* alterations to buildings of third-class construction. There were twelve appeals *in re* conversion of two-family houses into three-family houses due to the change in living conditions, there being no longer a demand for large apartments; eight appeals *in re* increasing area of wooden buildings to provide a porch, better sanitary conditions, etc.; fourteen appeals *in re* permitting extensions to existing stores and renovating same into clean, healthful structures, or permitting change of occupancy from dwelling house to a synagogue in one of the fourteen aforesaid appeals and into a church in another instance — such renovations were permitted during the period of 1922 and 1925 under the section 9 above quoted. In view of the character of the proposed alterations as expressed by the appellant in each instance, the Board was of the opinion that the spirit of the law was maintained and believed it would be a manifest injustice to refuse the appellant a permit and sustained the appeals as set forth in full in decisions on file.

Violations of Sections 9, 40, 39 and 20.— Temporary wooden buildings in fire limits that were in excess of the area permitted for wooden buildings were not carried on masonry foundations and foundations were not carried to satisfactory bearing soil. The buildings in question were ten of a group of fifteen buildings that were to be erected for a period of only sixty days in connection with an exposition. Due to the temporary nature of the buildings, the Board was of the opinion that it would be a manifest injustice to compel the appellant to erect a more permanent form of construction of building, and after having consulted with competent engineers as to the stability and safety of the proposed construction, which did not conflict with any provision of the spirit of the act in question, the Board sustained the appeals with the proviso, "that the buildings in question be removed no later than September 15, 1931."

Violation of Section 13.— Moving building in the fire limits. There were four appeals where the appellant desired to move the building due to the fact that the

premises on which the building stood was to be used for other purposes. In each instance, the Board viewed the premises and came to the conclusion that same came within the spirit of the law and that it was a manifest injustice to refuse the appellant a permit. The Board sustained the appeals as set forth in full in decisions on file.

Violation of Section 17.—Building exceeds 3,500 square feet in area. First floor and basement stories required to be of first-class construction. It appeared at the hearing that the appellant proposed to wire-lath and cement plaster the entire building throughout in lieu of putting in a first floor and basement of first-class construction. The Board was of the opinion that the appellant had complied with the spirit of the law and that it was a manifest injustice to refuse the appellant a permit and sustained the appeal with the proviso, “that the building in question be metal wire-lathed and covered with three coats of cement plaster throughout and provided with metal-covered door.” There were two other similar cases, all of which are on file in this office.

Violation of the Tenement House Laws.—Converting three-family house into five family. There were six cases where the appellant appealed to convert a three-family house of nine-room apartments into smaller apartments of three or four rooms each due to the fact that it was impossible to rent flats because of their sizes. There were to be no structural changes except the providing of more exits and the appellant desired to be relieved of tearing down existing partitions around the staircases in order to brick-nogg, wire-lath and plaster same. In view of the fact that the building, when altered, was to be occupied by a less number of people, the Board realized that the demolishing of these partitions was a hardship and it was of the opinion that it would be a manifest injustice to refuse the appellant a permit. Therefore, with the proviso, “that the back stairs leading to the basement be entirely inclosed in a fire-proof partition and be provided further with a metal-covered, self-closing door,” the Board sustained the appeals in each instance. In the seventh appeal, the appellant had complied with the letter of the law with the exception of the installation of a tea room in one room and the appellant desired to be relieved of spoiling

the existing beamed ceiling by covering same with wire-lath and plaster. The Board sustained the appeal as set forth in full in decision on file.

Violation of Section 43.—Egress. There were two appeals where the appellant desired to be relieved of a strict interpretation of the act by being permitted to omit an outside fire escape. The Board found that instead of the fire escape that the appellant had provided two stair towers of fireproof construction within the building with direct communication from each suite and smoke doors. The Board was of the opinion that in those two cases the violation was a technical one and that the appellant had complied with the spirit of the act and sustained the appeal with the proviso, "that the egress from the bedrooms be unobstructed by any closets."

Violation of Section 18.—Elevator penthouses and parapets exceed legal height. The Board found in one specific case that the appellant was taking advantage of the new law, which permitted him to erect his building to a height of 232 feet and still be under the allowable volume with the exception of a slight projection 36 feet by 8 feet by 40 feet outside the envelope line (as it were) and the parapets that were for ornamental purposes. The slight projection occurred in the penthouse, which was occupied by elevators only and the slight projections of the parapets that were for ornamental purposes only. To offset this slight projection, the Board found that the volume of the proposed building was 106,000 cubic feet less than the volume permitted under the act — the appellant having designed the building sacrificing aforesaid cubic feet in order to effect an artistic architectural design. The Board found that the spirit of the law was maintained in this particular case and being a specific case not contemplated by the act although covered by it sustained the appeal as set forth in full in decision on file in this office.

There were three cases in which the Board, having heard the appellant, and in many instances having examined the premises, concurred with the Building Commissioner in his refusal, and dismissed the appeals as set forth in decisions on file.

Miscellaneous.—The remaining cases were appeals in regard to technical questions as to the meaning of the law, where the appellant had complied with the spirit

of the act although not the letter, or where it was a case not contemplated by the act although covered by it. A few typical cases are as follows:

Permission to omit sprinklers in second-class building as the building in question was virtually a first class one being constructed of terra cotta and gypsum partitions; metal door frames with Genfire Truscon bar joists; increasing floor area of tenement house over 1,850 square feet by inclosing a piazza into a sun parlor; permission to light stair halls by means of permanent artificial light of eight-story buildings due to the fact that the skylight as required by the act would only filter light through to the last few stories and the remaining stairhalls would be dark; omission of a court required because of no rear yard owing to a city restriction of a 20-foot front set-back on the property and due to the narrowness of the lot; there was a building but 24 feet in depth and the set-back provided more light and air to the occupants of the building and the adjoining property than that required by the act and which would serve no useful purpose as it abutted a blank party wall; reducing side courts of a theater from 6 feet to 5 feet 6 inches, the reduction occurring only at the pilasters; omission of an open court on one side of an auditorium of a theater, which omission was offset by a covered court and the egress was unusually good; use of wooden shingles on roof instead of incombustible material to continue old colonial effect of old New England landmark; use of wood in outside finish to carry out architectural design of remaining group of buildings of a university; omission of sprinklers in a second-class building that had been constructed for over fifty years and was being repaired because of a fire damage; permit building to exceed 5,000 square feet, of second-class construction, the excess area being divided from the other portion by an unpierced party wall; wooden building exceeding the legal area caused by the erection of a canopy to protect the help from the inclemency of the weather; installation of telephone switches in the fireproofing of three columns on each floor, but in no case were the conduits continuous, and it was necessary to provide concealed, convenient locations for them, etc. In view of the circumstances peculiar to each specific case as expressed by the appellant at the hearing, the Board was of the opinion that in each instance there

was no violation of the spirit of the act, and, therefore sustained the appeals as set forth in full in decisions on file.

IN RE ZONING LAW, CHAPTER 488, ACTS OF 1924
AS AMENDED.

The statistical summary has already been enumerated on the first page of this report.

The appeals fall into the following approximate classifications:

Violations of Section 4.—Conversion of premises into commercial uses in district zoned for general residence purposes. There were seven appeals where the appellant petitioned to be permitted to convert open, waste stretches of land into a miniature golf course for a period of a year or two when the real estate market would be readjusted and the premises in question could be advantageously developed for residential uses such as apartment houses as permitted under the act. In every instance the property in question had been in the ownership of the immediate owners or their ancestors for many years and to date, the time was not propitious for its development as permitted under the newly adopted Zoning Law in Boston. The Board was of the opinion that since the proposed use of the premises was for only a temporary period that a strict enforcement of the act involved a practical difficulty upon the appellant in this specific case and sustained the appeals with the proviso "that the premises be only used for the variation of the Zoning Act petitioned, viz., a miniature golf course for a period of two years."

There were twenty further appeals sustained with the provisos that might be grouped as follows: One appeal was to be permitted to continue a gasoline station in a residential district that had been in operation five years — a permit having been granted for same when the Zoning Law was new and there were some misunderstanding as to where the zoning line actually was dividing the residential district from the local business district; the second was to permit a gasoline pump to supply the tenants of a group of community garages; the third was to permit a few shelves in a garage for the storage of candy — the appellant keeping his truck in the garage but doing no business whatever on the premises; the fourth was to permit an undertaker's sign to be exhibited on the lawn of the appellant's premises

and an undertaker's office but there was to be no mortician work such as embalming or waking of bodies on the premises whatsoever; the fifth was to permit additional tankage of 2,000 gallons of gasoline in an existing gasoline station established before the Zoning Act went into effect; and the sixth was to permit the manufacturing of marble in a one-story structure as the premises in question abutted an 1-155 zone, a district that permitted structures to be erected to a height of 155 feet for industrial projects; the seventh was to permit a theater as the premises in question abutted a local business center; the eighth was to permit a filling station on the premises in question as across the street was zoned B-80, a district that permitted structures to be erected to a height of 80 feet for general business projects; the ninth was to permit an automobile service station to extend through the entire premises, the zoning line running through the property and thus permitting one half to be used for commercial enterprises and the other half for residential purposes; the tenth appeal was to permit a man out of work and unable to earn a living due to physical incapacities to run a small automobile repair shop about 15 feet by 30 feet in a residential district that abutted a commercial one and the remaining ten appeals were to permit either one-story stores or permit stores in the first floor or basement of an existing dwelling house due to the fact that the neighborhood in each instance was a purely commercial one. The Board viewed the premises in each instance and found that the lot in question was entirely unsuited for residential purposes and for that purpose it had completely lost its value. In each specific case, the Board was of the opinion that this was a specific case wherein a strict enforcement of the act worked an unnecessary hardship upon the appellant and wherein desirable relief might be granted without substantially derogating from the intent and purpose of the act, and therefore sustained the appeal — in some instances putting on provisos as the case warranted. There were twenty-nine further appeals requesting either a filling station, theater or stores in a residential district. In these cases, however, the Board after having viewed each locus in question, concurred with the Building Commissioner in his refusal, and dismissed the appeals.

Violations of Sections 5 and 6. In re Uses in L or B Districts.— There was one appeal where the appellant

petitioned to be permitted to convert a building that came under a "Non-Conforming Use" in a local business district to the business of a modern carpet cleaning plant. The Board found that the proposed use of the building was less derogating from the intent and purpose of the Zoning Act than the existing legal use of the building. The same conditions applied to two other cases only in one instance the use of the building was to be a bakery in a local business district and in the other instance a bottling works in a general business district — the bottling works consisting merely in the conduct of a tonic business. The Board found in the three instances the spirit of the Zoning Law remained intact by the proposed variance in question and sustained the appeals. In two other instances where the appellant petitioned for a contractors' yard in a general business district and a coal yard in a local business district, the Board, having viewed the premises in question, concurred with the Building Commissioner in his refusal and affirmed same.

Violation of Section 12.—Front set-backs. There were four cases where the appellant desired to be relieved of setting his building back 10 feet from the street: In one instance it was a technical violation because the appellant was inclosing an existing piazza and thus making same a sun parlor; in another, the appellant set his building back what he was advised was 10 feet and when the street line was finally established, it was found to be 5 feet back from the line; in the other two instances the appellant petitioned to keep his building on a line with the other houses already erected on the street which was a set-back of 5 feet.

Violation of Section 12.—Building covers more than 70 per cent of the lot. There were two cases in which the appellant desired to erect a one-story structure and to cover 85 per cent of the lot. While section 12 reads that no structure shall exceed 70 per cent of the lot, section 16 (which deals with exceptions) reads, "No yard is required for one-story buildings other than dwellings," and the structures in question were to be occupied for commercial purposes, and the Board was of the opinion that the appellant was within his rights.

Violation of Section 12.—Corner cut-off. In two instances the appellant petitioned a 4-foot corner cut-off in lieu of 15 feet: In one case the corner cut-off was required due to the street widening, and in the other case the appellant had a building which already

had no cut-off and in altering and moving same the law required that he cut down his building. Had the appellant not tried to improve the appearance of his property, he could have legally maintained a worse condition than had he not petitioned an alteration to his building.

In the eight foregoing petitions, the Board found that in each instance the spirit of the Zoning Law remained intact and that desirable relief might be granted without substantially derogating from the intent and purpose of the act and sustained the appeals as set forth in full in decisions on file.

Violation of Section 12.—Yards less than legal area: Section 16. Garages in side yards. There were twenty-four appeals for a variation of the Zoning Law to permit a reduction of the rear and side yards either by a garage or a dwelling house. In some instances, the garages were legally in the rear yard, but a small percentage would extend into the side yard. The appellants were handicapped in so far that the lots had been owned by them for many years previous to the passage of the Zoning Law and dwellings had already been erected upon them. In other instances, the rear yard had been established in accordance with the law at the time the dwellings were erected, but the side yards were more ample than the rear yards, and the appellant petitioned to erect the garages in the side yards instead of the rear yards. In other instances, the appellant petitioned for relief to reduce the depth of the rear yard; the area of the lot was such that if the appellant had to comply with the law as to rear yards, it would be impossible to erect the structure in question and the project would have to be abandoned. In most instances, however, the area of the rear yards was greater than the act required but due to the irregular shape of the lot, the depth of the lot at one point being double what the law required and at the other point being about 6 feet less than the required depth. In a still further instance, the zoning district lines ran diagonally through the appellant's property so that the portion of the lot on which the building was to be erected was in an R-65 district that permitted a 12-foot rear yard as the appellant proposed, but the yard itself was in an R-40 district that required a 20-foot rear yard. In each instance the Board viewed the premises in question, and found that the aforesaid appeals were specific

cases wherein desirable relief might be granted without substantially derogating from the intent and purpose of the act, and sustained the appeals and where necessary regulated the variation with provisos as set forth in full in decisions on file.

Violation of Section 16.—Garages in front yard. There were twenty appeals where the appellant petitioned to be permitted to erect a one or two car garage in the front portion of the lot. The lot rose from 7 feet to 20 feet from the sidewalk line to the rear portion of the house so that it was impractical to erect the garage in the rear of the lot due to the difference in grade between it and the street grade. The garage was to be buried in the embankment, so that, when completed, it would be lower than the higher portions of the adjacent ground, and would form no obstruction of view from the surrounding properties. In each instance, the Board viewed the premises, and found that the case in question was a specific case wherein a strict enforcement of the act involved a practical difficulty upon the appellant and wherein desirable relief might be granted without substantially derogating from the intent and purpose of the Zoning Act, and sustained the appeals (and where necessary regulated same with provisos) as set forth in full in decisions on file.

There were thirty-seven cases (twenty-nine of which have been mentioned under "Violation of Section 4" of this report) in which the Board, after having heard the appellant and having viewed the premises in each case, was of the opinion that there were not specific cases wherein a strict enforcement of the act involved either a practical difficulty or an unnecessary hardship upon the appellant, and, therefore, it (the Board) concurred with the Building Commissioner in his refusals, and dismissed the appeals as set forth in full in decisions on file in this office.

ANNUAL REPORT OF BOARD OF EXAMINERS.

BOSTON, February 1, 1931.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR SIR,— In compliance with your request the Board of Examiners submits herewith the report of the activities of the department during the year 1930.

During the year the Board held 109 meetings at which 4,960 applications for various classes of license were acted upon. In addition, eleven complaint cases were disposed of or sent to the Law Department for prosecution. Despite the great depression, the number of new licenses granted was nearly the equivalent of that of the preceding year, while the number of renewals was slightly in excess of that of 1929. Special licenses reached 959 as compared with 943 in the previous twelve months.

The method of examination continued as in the past, with the Board making a special effort to aid men laboring under the handicap of an unprecedented lack of work. Despite this apparent unbending as regards restrictions, the prevention of accident purpose of the law was emphasized as in the past and the number of complaint cases rigidly prosecuted.

Applicants for renewal of previously issued licenses showed an increased familiarity with the Building Law, this knowledge being due to the campaign waged by the Board to acquaint all holders of license with such an understanding. Communications from other cities showed an ever-increasing interest in our law. Passage of similar ordinances is evidently taking place in several communities.

The following is a summary of applications acted upon between January 1 and December 31, 1930:

	Approved.	Rejected.	Total.
For new licenses.....	516	306	822
For renewals.....	2,541		2,541
For special licenses.....	959	638	1,597
Totals.....	4,016	944	4,960

The fees collected amounted to:

For new license	\$2,580 00
For renewal	5,082 00
For special license	959 00
	<u>\$8,621 00</u>

Respectfully submitted,

BOARD OF EXAMINERS,

by JOHN F. HICKEY,
Chairman.

ANNUAL REPORT OF THE FENCE VIEWERS.

BOSTON, February 2, 1931.

EDWARD W. ROEMER,
Building Commissioner.

DEAR SIR,— Complying with your request, we herewith submit our annual report as fence viewers for the year 1930:

Number of hearings held	6
Number of orders issued to owners	12
Amount received for fees and deposited with City	
Treasurer	\$8 00
Amount of fees due and uncollected	\$16 00

Numerous complaints are made, but working under the conviction that fence disputes are generally due to disagreements in no way connected with fences, we attempt first to find out the real cause of the trouble and interview both parties before calling for a hearing. A good common sense talk coupled with an explanation of the law on the subject usually results in the parties coming to a satisfactory agreement without resort to our official intervention.

Respectfully submitted,

CORNELIUS J. MURPHY,
JOSEPHAT C. BLAIN,
Fence Viewers for the City of Boston.

REPORT OF BOARD OF EXAMINERS OF GAS
FITTERS.

BOSTON, February 2, 1931.

In compliance with chapter 265 of the Acts of 1897 the Board of Examiners of Gas Fitters held examinations from January 1, 1930, to December 31, 1930, with the following results:

Number of applications referred to the Board of Examiners by the Building Commissioner	107
Number of examinations held	5
Number of applicants examined	84
Masters	14
Journeymen	70
Number who passed the examination and were certified by the Board of Examiners to the Building Commissioner for license	16
Masters	6

ANNUAL REPORT
OF THE
CITY CLERK DEPARTMENT
FOR THE YEAR 1930.

CITY HALL, February 2, 1931.

HON. JAMES M. CURLEY,
Mayor of Boston.

SIR,— In compliance with the provisions of the Revised Ordinances, I submit the following report showing the details of the business and of the receipts and expenditures of the City Clerk's office for the year ending December 31, 1930.

PAPERS RECORDED OR FILED.

	1928.	1929.	1930.
Mortgages and other recorded instruments. . . .	9,991	9,587	9,843
Business certificates.	3,003	2,638	2,760
Assignments for the benefit of creditors.	231	258	291
Declarations of trust.	92	115	71
Miscellaneous.	268	246	219
Accident notices.	1,303	1,839	1,679
Liens for labor or material.	33	64	71
Bonds for blasting.	89	74	68
Returns of primary and election expenses.	281	125	251
Pole and conduit locations.	905	731	593
Totals.	16,196	15,677	15,846

RECEIPTS AND EXPENDITURES.

Receipts.

	1928.	1929.	1930.
Mortgage fees, etc., and certified copies.....	\$19,062 75	\$18,681 75	\$19,657 10
Reimbursement for pole location notices.....	715 30	528 36	603 68
Miscellaneous.....	554 77	2,777 90	2,762 95
Totals.....	\$20,333 02	\$21,988 01	\$23,023 73

Expenditures.

	1928.	1929.	1930.
A. Personal service.....	\$47,298 96	\$44,752 73	\$47,465 12
B. Service other than personal.....	606 43	549 85	229 45
C. Equipment.....	40 90	302 83	20 00
D. Supplies.....	1,602 67	1,816 95	1,641 76
F. Pensions.....	600 00	600 00	600 00
Totals.....	\$50,148 96	\$48,022 36	\$49,956 33

Respectfully submitted,

WILFRED J. DOYLE,
City Clerk.

SEVENTEENTH ANNUAL REPORT

OF THE

CITY PLANNING BOARD

FOR THE YEAR ENDING DECEMBER 31, 1930.

BOSTON, January 31, 1931.

HON. JAMES M. CURLEY,
Mayor of the City of Boston.

DEAR SIR,— The City Planning Board submits herewith, in accordance with the provisions of section 24, chapter 3, Revised Ordinances of 1925, its Seventeenth Annual Report, containing a statement of its acts and doings and receipts and expenditures for the year ending December 31, 1930.

Two changes have taken place in the personnel of the Board during the past year. The vacancy which existed by reason of the resignation of Mrs. Frances E. Slattery was filled by the appointment of Miss Mary A. Barr for the term ending April 30, 1931, Miss Barr having previously served as a member of the Board from 1919 to 1927. Ernest A. Johnson, who had served as a member of the Board from 1923, found himself unable to continue on account of the pressure of other business and accordingly submitted his resignation upon the expiration of his term in 1930. This vacancy was filled by the appointment of Nathan

Sidd for the term ending April 30, 1935. At the annual organization meeting in May, Frederic H. Fay was re-elected chairman for the ensuing year, Edward H. Hoyt, acting chairman, and Elisabeth M. Herlihy, secretary.

As in previous reports, the various problems studied during the past year are presented herewith in as much detail as appears advisable for purposes of record. They have been, so far as possible, classified into groups under appropriate headings, while all of the blueprints, maps, plans, charts and photographs referred to are on file in the office of the Board, Room 30, City Hall, and are open to inspection.

COMPREHENSIVE SURVEYS.

OFFICIAL THOROUGHFARE PLAN.

One of the most significant measures enacted by the last Legislature was in the form of chapter 168 of the Acts of the year 1930, to the effect that

“The Mayor of the City of Boston, after receipt from the City Planning Board, the Board of Street Commissioners and the Board of Park Commissioners of said city, of their recommendations and proposals therefor, may adopt an official thoroughfare plan, designed to include a system of major traffic streets, express roads and major traffic parkways, to meet future as well as present traffic needs in so far as they may be reasonably determined.”

The act, which further provides for public hearings as a preliminary to the adoption of such a plan, for procedure, and for amendments from time to time under certain conditions, was accepted by the Boston City Council on May 5, 1930, and approved by your Honor the following day.

Briefly, the enactment of this law means that the City of Boston is now permitted to substitute carefully thought-out and scientifically prepared plans for the development of its street system in place of the unrelated and isolated projects which have sprung up in the past and been carried through to completion as the result of expedience or necessity. There is no doubt in the minds of anyone that the adoption of a program such as authorized under the provisions of this legislative act will result not only to the convenience of the city but also to its very material financial advantage.

REPORT ON A THOROUGHFARE PLAN.

During the past year the Board completed its “Report on a Thoroughfare Plan for the City of Boston,” and following its presentation to your Honor, it was publicly presented at a luncheon at the Boston City Club on Friday, October 3, 1930, before a group composed of public officials, representatives of business organizations, private individuals and newspaper correspondents.

The report is the result of three years of careful investigation, during which an unusually complete traffic analysis and forecast has been prepared under the direc-

tion of Robert Whitten, City Planning Consultant of New York City and president of the American City Planning Institute. The street projects proposed have been carefully designed with reference to the traffic they must carry, and each project has been classified in the order of its urgency in relation to the whole program.

The plan includes ten major projects and fifty-six other projects, each one of which has been carefully investigated to determine whether the resulting economic savings are at least equal to the cost. Certain improvements that would be advantageous and would seem to be a logical part of any complete thoroughfare plan have not been included because they cannot be economically justified.

Each project has also been considered with reference to its relative urgency. It is clear that the financial capacity of the city is limited, and that not all the improvements that are now needed can be undertaken at one time. Moreover, some of the projects will not be greatly needed for ten or more years and their construction at present could not be justified economically. An order of urgency program extending over a period of years is therefore included as an essential part of the plan.

During the year the plan was submitted to various groups and resolutions of endorsement, either in principle or with reference to particular projects, were passed by the:

- Boston Society of Architects.
- Retail Trade Board.
- Boston Society of Landscape Architects.
- United Improvement Association.
- Master Builders Association.
- Women's Municipal League.
- Massachusetts Real Estate Exchange.
- Boston Central Labor Union.
- Boston Fruit and Produce Exchange.

Other groups giving the plan active study at the close of the year include:

- Boston Chamber of Commerce.
- Financial Interests.
- Boston Real Estate Exchange.
- Dorchester Board of Trade.
- West End Businessmen's Association.
- Automobile Interests.
- Boston Port Authority.

Expressmen's League.
 Massachusetts Truckmen's Association.
 Engineering Societies of Boston.
 Upham's Corner Improvement Association.
 Life insurance companies and others.

1931 LEGISLATIVE BILL.

As the first step in the carrying out of this legislative program your Honor has recommended to the Legislature of 1931 a bill providing for the laying out, widening, relocation, reconstruction, extension and construction of Chardon street, Merrimac street, Haymarket square, Cross street, and Mercantile street to State street, including a traffic circle in Haymarket square; Albany street, Way street, Seneca street, Motte street and Castle street, including a traffic circle at the junction of Albany street and Broadway; and Castle street, Hall street and Tremont street, including a traffic circle at Arlington square.

This measure carrying with it provision for the issuance of fifty-year bonds to an amount not exceeding \$11,000,000 was printed as House Bill No. 1259, and referred to the Committee on Municipal Finance where it is now awaiting public hearing.

ZONING PLAN AND STATUTE.

The Board has participated in legislative hearings with regard to amendments to the Boston Zoning Law, including:

- House No. 883, 1930. (Judiciary.) An Act Relative to Certain Legal Proceedings under the Zoning Law of the City of Boston. (Given leave to withdraw.)
- House No. 894, 1930. (Mercantile Affairs.) An Act Relative to the Use of Buildings and Premises, the Height and Bulk of Buildings and the Occupancy of Lots in Specified Districts of the City of Boston. (Next Annual Session.)
- House No. 895, 1930. (Mercantile Affairs.) An Act Relative to Substitute Members on the Board of Zoning Adjustment under the Zoning Law of the City of Boston. (Given leave to withdraw.)
- House No. 893, 1930. (Mercantile Affairs.) An Act Relative to the Use of Buildings and Premises According to Bulk of Buildings and the Occupancy of Lots in Specified Districts in the City of Boston. (Enacted in amended form as chapter 347, 1930.)

The usual conferences with city officials and other individuals concerned with the development or admin-

istration of the Zoning Law were called by the City Planning Board in November and December, 1930, for the purpose of considering desirable changes in the law itself. The group went on record as opposed to the reintroduction of House Bill No. 895, but in favor of House Bill No. 883, and House Bill No. 894 in the form of two bills. Also in favor of a new bill providing for an increase in the filing fee for petitions before the Board of Appeal, from \$10 to \$15, and before the Board of Zoning Adjustment from \$10 to \$25. These bills are now waiting consideration before the different legislative committees as indicated:

- House No. 226, 1931. (Judiciary.) A Petition Relative to Certain Legal Proceedings Under the Zoning Law of the City of Boston. (House No. 883, 1930.)
- House No. 228, 1931. (Mercantile Affairs.) A Petition for Legislation Relative to Set Back Provisions in Connection With the Use of Buildings and Premises, and the Occupancy of Lots in Specified Districts in the City of Boston. (Part of House No. 894, 1930.)
- House No. 230, 1931. (Mercantile Affairs.) A Petition for Legislation Relative to Side Yards and Set Back in Connection with the Use of Buildings and Premises, and the Occupancy of Land in the City of Boston. (Part of House No. 894, 1930.)
- House No. 231, 1931. (Mercantile Affairs.) A Petition for Legislation Relative to the Payment of Fees by Certain Applicants Under the Zoning Law of the City of Boston.

The chairman of the City Planning Board is an *ex officio* member of the Board of Zoning Adjustment and has served as chairman of that group since its organization in 1924. The secretary of the City Planning Board acts as clerk of the Board of Zoning Adjustment, and every assistance possible is rendered by the other members of the staff to the end that the Zoning Plan, which was prepared and sponsored by the City Planning Board, may be safeguarded and supported in its enforcement.

COMMITTEE ON CIVIC CENTER.

By direction of your Honor a committee was formed, on January 13, 1930, consisting of the members of the City Planning Board and Messrs. Clarence H. Blackall, Charles A. Coolidge, Ralph Adams Cram, Charles D. Maginnis and William Stanley Parker, to consider the question of a possible new civic center for the City of Boston. J. Harleston Parker was later added to the committee and continued as an active member until his death.

Meetings were held practically every week, including conferences with representatives of the business and financial interests, the real estate interests and representatives of many of the city departments. In addition each member of the committee made a personal study of the whole problem, examining possible sites and submitting suggestions as to available areas.

The problem proved to be one of very great complexity. Many considerations had to be taken into account, as, for example, accessibility by the rapid transit system, automobile and foot traffic; the relation to a future City Hall of the State House and Courthouse; the effect on vested interests of a removal of the City Hall to any destination from its present site; the relationship of a new municipal center and City Hall to the financial, retail, and wholesale centers; access from the different residential portions of the city proper with due regard to the possibility, at some future time, of a borough system of government whereby much of the present metropolitan district would become in fact the City of Boston; the choice of a site which would permit a dignified architectural development with a proper location for a City Hall commensurate with the dignity of Boston; opportunities adjacent for the erection of public and semi-public buildings including perhaps a Municipal Auditorium; impressive lanes of approach by means of existing or future avenues or boulevards; and, finally, available land which, at present not being developed through the existence of modern costly buildings, could be acquired at a reasonable price.

Many possible sites were studied, some of them intensively, only to be discarded for their failure to meet essential requirements. In the end consideration was given only to two sites, one in the vicinity of Scollay square and the other in the vicinity of Park square, the latter being finally revised to include the area in the vicinity of Arlington square.

The final majority report to your Honor recommended a location in the vicinity of Scollay square for a new City Hall and in the Park Square district for a State Auditorium if decided upon, whereas the minority report was to the effect that Arlington square offered the best site for a civic center capable of holding a City Hall, State Auditorium and other public buildings.

STREETS AND TRANSPORTATION.

COMPREHENSIVE THOROUGHFARE PLAN.

The work of the City Planning Board in its preparation of a comprehensive Thoroughfare Plan, including the major arteries of traffic rather than the minor residential streets, was completed during the past year and is reported upon more at length in the chapter devoted to Comprehensive Surveys. The report itself has been published as a separate document entitled "Report on a Thoroughfare Plan for the City of Boston."

WEST END STREET PROGRAM.

At the request of your Honor the City Planning Board, together with the Division of Metropolitan Planning and the Board of Street Commissioners, made a detailed study of street improvements in the West End section of the city and submitted to you recommendations upon which a legislative program authorizing an appropriation of \$11,000,000, not more than \$6,000,000 of which should be issued during the year 1931, was prepared.

This legislation provided for the widening and construction of Chardon street, following the route of Central Artery, as proposed in the report on a Thoroughfare Plan, along Merrimac street, Haymarket square, Cross street and Commercial street to State street; the enlargement of Haymarket square and the construction of a traffic circle, the widening and construction of Albany street, from Kneeland street to the vicinity of Seneca street and Lehigh street; the construction of a traffic circle at the intersection of Albany street with Broadway; the widening and construction of Castle, Motte and Way streets from Arlington square to Albany street and the enlargement of Arlington square and the construction of a traffic circle therein.

MATTAPAN SQUARE TAKING.

At the request of your Honor the City Planning Board investigated a suggestion offered to the effect that the city take over a small piece of land between

River street and the Mattapan Rapid Transit Station. The findings of the Board were to the effect that the property in question is owned by the City of Boston Transit Department and is leased to the Boston Elevated Railway, and that the Transit Department had recently relocated the curb and sidewalk around the Mattapan square station with a radius satisfactory to the Boston Elevated Railway for the movement of buses.

It was the opinion of the engineer of the Transit Department that any change in the radius of the curb as now laid out would interfere with the movement of buses to the loading platforms in the stations. The Board concurred in this opinion and accordingly recommended that no action be taken at the present time along the lines of the suggestion advanced. A report to this effect was submitted to your Honor under date of September 26, 1930.

INTERSECTION WESTERN AVENUE AND SOLDIERS FIELD ROAD.

The attention of the City Planning Board was called to traffic conditions at the intersection of Western avenue and Soldiers Field road on the ground that there were a large number of accidents at this particular point. The Division of Metropolitan Planning recognized the fact that present conditions are dangerous and had accordingly drawn plans for a grade separation, carrying Soldiers Field road under the approach to the Western Avenue Bridge.

In the opinion of the City Planning Board the present traffic in this intersection is not heavy enough to warrant the construction of such an underpass, but it believes that a traffic signal would greatly reduce the number of accidents without appreciably slowing up traffic movement.

INTERSECTION LONGWOOD AVENUE AND BROOKLINE AVENUE.

The attention of the City Planning Board was called to traffic conditions at the intersection of Longwood avenue and Brookline avenue and, as a result of its investigations, expressed the opinion that the installation of a traffic light was of first importance in safeguarding traffic at this point, and also that a rounding

of the corner was desirable in order to permit vehicles making right turns an opportunity to do so without interfering with other lanes of traffic.

In addition, the removal of the fence around the Windsor Playground on the north corner, or lowering it to a height of not over three feet and the removal of the waiting station on the south corner, would greatly increase the visibility and give the drivers an opportunity to see vehicles approaching from other directions.

MOUNTFORT, NORTH HARVARD AND MORTON STREET WIDENINGS.

At the request of your Honor the Board investigated and reported upon these three projects to the effect that the necessity for the widening of Morton street, between Druid street and the Southern Artery was obvious and desirable at the present time if it could be financed; that it appeared reasonable to widen Mountfort street, from Audubon road to St. Mary's street, from fifty to sixty feet before repaving, in order to correspond with a recent similar widening of Mountfort street, between Carleton street and St. Mary's street, Brookline, there being no building damage and the land needed for the widening being largely owned by the City of Boston and used for schoolyard purposes; and that in the case of North Harvard street, the route proposed by the City Planning Board in its Thoroughfare Plan was desirable if it could be afforded, otherwise that the street in its present location should be widened before being paved.

PEDESTRIAN UNDERPASS — BELLEVUE STATION.

The following report was submitted to your Honor under date of August 15, 1930:

The City Planning Board has before it a letter from your Honor submitting suggestion offered with regard to a pedestrian underpass in the vicinity of Bellevue Station, West Roxbury district, and submits the accompanying report from its engineer in connection therewith.

This report is to the effect that there are twenty trains per day each way passing this station, in addition to unscheduled work and freight trains; that it accommodates about 300 passengers in the morning and in the evening; that passengers are allowed to board and alight on either side of the train, there being no fence separating the tracks and that the railroad

track divides the Theodore Parker School District, resulting in considerable passing back and forth of school children, as well as of adults using this crossing as a matter of convenience in reaching the car line and church. In view of these facts, the Board believes that a pedestrian underpass should be constructed approximately from the end of McCraw street, a rough estimate of the cost of which is given as \$10,000.

You will note that some years ago the Sewer Department in rebuilding a sewer bordering the tracks, upon request of the railroad, lowered it to allow for a future pedestrian tunnel.

The Board believes further that the New York, New Haven & Hartford Railroad should be asked to share in the expense of this undertaking to an amount equal to two thirds of the cost, also that the railroad should be required to erect a fence between its tracks in order to prevent future trespassing.

Footway at Bellevue Station.

Bellevue Station is on the West Roxbury Branch of the New York, New Haven & Hartford Railroad about 600 feet east of the West Roxbury Parkway and 150 feet north of Belgrade avenue.

The New York, New Haven & Hartford Railroad divides West Roxbury or Roslindale into two sections between Roslindale square and the junction of Belgrade avenue and Centre street. On the north are South street and Centre street, and on the south is Belgrade avenue. There is a vehicular crossing under the railroad at Robert street and crossings over the railroad at Walworth street, Roslindale, at the West Roxbury Parkway and at Belgrade avenue, near Centre street.

There are two pedestrian tunnels under the railroad, one at Ainsworth street and another connecting Fallon Field near Metcalf street. The Ainsworth Street Tunnel is 1,500 feet east of Bellevue Station and connects South street and Belgrade avenue.

Bellevue Station accommodates about 300 passengers in the morning and a similar number in the evening. There are about twenty trains per day each way and thirteen of them stop at the station. In addition to this regular schedule, there are unscheduled work and freight trains and odd engines using this line. It is the only station on the branch at which passengers are allowed to board and alight on either side of the train, as there is no fence separating the tracks. The tracks at this point are crossed by both the train passengers and other pedestrians, a startling fact about the pedestrian traffic being the number of small children, ranging in ages from four to seven years, who cross the tracks four times a day going to and from school.

The reason for the use of this crossing by pedestrians is that it is the line of least resistance between the corner of South street and Centre street and Belgrade avenue. This fact is

readily seen when it is realized that it is 2,000 feet from the corner of McCraw street and Belgrade avenue to the junction of South street and Centre street via the West Roxbury Parkway as compared to one half that distance via the track crossing at Bellevue Station.

The district of the Theodore Parker School, which is at the corner of Centre street and Church street, includes the territory on the southerly side of the railroad tracks. The grades in this school are the kindergarten, first, second and third grades. According to figures obtained from the assistant in charge of the school, the number of children from the section south of the railroad tracks is forty-two out of a total registration of 135 pupils, or approximately one third of the entire number.

The adult pedestrians use this crossing as a short cut to the business section and to the car line on Belgrade avenue.

Recently a new church edifice has been erected on Centre street, the parish limits of which include considerable area on the southerly side of the tracks. Many parishioners naturally follow this line of least resistance and cross the tracks in going to and from church services. In fact people are really invited to use this crossing on account of the new surfacing of McCraw street, and also on account of the flight of steps leading from the street surface to the level of the tracks.

While there have been no fatal accidents to pedestrians at this point it is nevertheless a dangerous practice especially for the children and it should be stopped before an accident does occur. There have been numerous narrow escapes and if present conditions are allowed to continue a serious accident at some future time is almost inevitable.

The most feasible solution of this problem is the construction of a pedestrian tunnel similar to that at Ainsworth street. Upon request of the railroad authorities, the Sewer Department some fifteen years ago, when it was rebuilding a sewer bordering the tracks, lowered it to allow for a future pedestrian tunnel.

The railroad should build a fence between its tracks, which fence would prevent pedestrians from crossing the tracks and being liable to arrest as trespassers.

A rough estimate of the cost of a pedestrian tunnel from the end of McCraw street to Guernsey street (a private way) would be about \$10,000. A portion of this cost should rightly be apportioned to the railroad on account of the convenience and safety afforded its passengers. One suit against the railroad which proved negligence on its part might be a greater loss to the road than its portion of the cost of the tunnel.

The citizens of the Theodore Parker School District have a right to expect protection for their children in going to and from school. Conditions at the present time, particularly for those living in the territory south of the railroad tracks, not only afford no protection for the children but actually place temptation in their paths. The danger is further aggra-

vated by the fact that there is a train passing Bellevue Station at 8.53 a. m., which is just at the time the children are going to school, and another at approximately 1.25 p. m., which is also at school time.

A detailed study of the engineering features of such a tunnel should be made by the Bridge Division of the Department of Public Works from which a close estimate of the cost may be prepared.

GEORGE H. MCKAY, *Engineer.*

EXPRESS TRANSFER FACILITIES.

The following report was submitted to your Honor under date of June, 1930:

The City Planning Board has studied the suggestions made by the Hon. Joseph A. Conry, Traffic Commissioner, relative to express transfer facilities to relieve congestion at Haymarket square and in the neighborhood of the South Station and transmits to you herewith the following statement in connection therewith based upon its own investigations and upon conference with the Traffic Commissioner.

The City Planning Board is in full agreement with the Traffic Commissioner that the situation, particularly in the vicinity of Haymarket square, could be materially relieved if some way could be found to eliminate the practice which exists at the present time of using this location for the transfer of express packages.

In the report of the Street Traffic Control Problem of the City of Boston, prepared under the direction of the Mayor's Street Traffic Advisory Board in 1928, the recommendation is made that no vehicle shall be stopped in a public street for the purpose of exchanging goods or merchandise with any other vehicle in any place in downtown Boston. While this has not resulted in a complete elimination of the practice, it has resulted in reducing the number of locations from six, under former conditions, to two at the present time, Haymarket square and Winthrop square.

The Board believes that this exchange of freight on any of the public streets or squares in the downtown section should not be permitted. At the same time it has no desire to work a hardship upon the express companies who are in the habit of taking advantage of this privilege and would suggest that an order be adopted to the effect that on and after a certain date it would not be permitted. This would doubtless result in the securing of "off" street space, possibly through united action as the Traffic Commissioner suggests.

While the Board is reluctant to endorse the idea of the city erecting at its own expense a shed or terminal for the exchange of these express packages on a plan providing for the rental of stalls similar to the practice which exists in the market district,

it nevertheless feels that the city should cooperate in the work to the greatest possible extent through street improvements in order to make such areas accessible, and through such other facilities as would contribute to their efficient operation.

So far as the locations specifically suggested by the Traffic Commissioner are concerned, the area adjacent to Charles River avenue, off Commercial street, would be convenient for the parties at present utilizing Haymarket square. Fort Hill square has a definite economic value in its relation to the business and industrial establishments in the vicinity and to their employees, and the Board would be reluctant to see it diverted from its present use.

The third location suggested, on Dorchester avenue, between Congress street and Summer Street Bridge, carries with it certain complications in the way of Federal and state ownership and might be difficult to acquire and expensive to develop. A further complication would be found in the immense volume of traffic already existing in the immediate vicinity of this location. However, there are doubtless other locations in that section of the city which could be secured and which would meet the needs of the express companies in that vicinity, so far as convenience is concerned.

PLAYGROUNDS AND OPEN SPACES.

EXTENSION OF J. M. AND J. J. SULLIVAN PLAYGROUND.

Fellows Street — Roxbury District.

At the request of your Honor a study was made of the advisability of extending the J. M. and J. J. Sullivan Playground on Fellows street, Roxbury, and for the reasons set forth in the following report the City Planning Board recommended the acquisition by the City of Boston for playground purposes of approximately 46,975 square feet of land on the northeast and west of the present location, together with the buildings situated thereon, representing a total assessed value of \$15,000 (land, \$14,300, buildings, \$700). This, in addition to the present playground, will provide a total area of slightly less than two acres in extent:

The J. M. and J. J. Sullivan Playground on Fellows street, Roxbury district, at the present time comprises 36,928 square feet of land, or .85 acres. Within a quarter of a mile radius of the area is contained 6,334,722 square feet of land, or approximately 145 acres, divided as follows:

	Square Feet.	Acres.
Residential use	2,474,361	56.8
City property	507,085	11.6
Vacant	122,843	2.8
Streets	1,898,934	43.6
Other uses	1,331,499	30.5
	6,334,722	145.3

The total population within this quarter-mile radius is 12,211 persons, or an average density of eighty-five persons per acre, as compared with the average density for the city of approximately twenty-eight persons per acre. In view of the fact that only about one third of the district, or 56.8 acres, is devoted to residential purposes, this means an actual density of 211 persons per acre. The district must be accepted as a congested residential community, therefore, in spite of the fact that the population has been decreasing for the last ten years.

Within the quarter-mile radius of the area, seven school buildings are located with a total school population of nearly 2,000 children. So far as the five buildings in the Dearborn and Hyde Districts are concerned, the Board is informed that the population has been decreasing steadily within the last few

years. The George T. Angell School of the Sherwin District is used as a special course center having a capacity for about 190 pupils, so that this number has been and is expected to remain approximately the same for some time. The present enrollment of St. Rita's School, located at Thorndike and Reed streets, is 255. This school now includes six grades, but it is the intention within the next two years to add the seventh and eighth grades, when it is expected that the total enrollment will be approximately 400.

At a Playground and Recreation Association Conference held in Atlantic City seven years ago, the meeting went on record as favoring 100 square feet of play space per child. The minimum requirement for supervised play in New York is 25 square feet per child (Regional Plan Report, Vol. 5, page 158), although this is recognized as not an ideal condition by any means. Assuming that there are more than 2,000 children of school age and under in the one-quarter mile radius from the J. M. and J. J. Sullivan Playground, this would mean that under the best of circumstances, not less than 50,000 square feet was needed for play purposes. In addition there are a number of older children, or young people, who would use the playground if there were adequate facilities and equipment.

The only other open space within the quarter-mile radius, excepting the school yards, is Orchard Park, containing 2.56 acres. This is used for park purposes only, with trees and benches for older people. The Board is informed that the wading pool for the children in Orchard Park has been discontinued, it having been found impossible to keep the water free from glass and other foreign substances.

The property at the southwest corner of Randall street and Fellows street is free from buildings at the present time, and is used for dumping cinders and junk. Several of the buildings formerly located on property abutting on Fellows place were condemned by the city within recent years and removed. The buildings now remaining include several wooden dwellings and old stables which would necessarily be removed in order to permit the extension of the playground through to Randall street.

The playground area should also be extended on the westerly side to the rear line of properties fronting on Harrison avenue, thus acquiring space at present devoted to dumping and junk yard purposes. The block of houses fronting on Brown street, at the southwesterly corner of the playground, the Board believes might very properly be allowed to remain for the present, at least, inasmuch as they are substantial brick houses and afford good living conditions so far as light and air are concerned. To acquire them at the present time would add considerably to the total expense involved.

In making this study the Board has conferred with the chairman of the Park Department, with the Diocesan Supervisor of Schools, and with the General Director of Community

CITY PLANNING BOARD — CITY OF BOSTON
PROPOSED EXTENSION J. M. AND J. J. SULLIVAN PLAYGROUND
ROXBURY DISTRICT.

Service of Boston, Inc., all of whom agree that there is compelling need for additional playground space in this locality.

The present playground because of its limited area serves the younger children only, and for a limited period during the day. It does nothing towards the solution of the leisure time problem of the older children, while at the same time the adjacent dump and junk yard detract both from the efficiency of the playground itself and also from the general living conditions in the immediate neighborhood.

The City Planning Board believes that if the additional area were required and developed for wholesome recreation, it would be of benefit to the district and would add materially to the general well-being of the community.

PROPOSED PLAYGROUND, FANEUIL DISTRICT.

At the request of your Honor a study was made with regard to a playground location within the area bounded by Faneuil street, Parsons street, Arlington street and Market street, Brighton, and the following report submitted under date of April 4, 1930:

On July 30, 1926, in response to a City Council order, the Board recommended the acquisition for playground purposes of an area in the block bounded by Faneuil, Parsons, Harriet and Hobart streets, on the ground that the district was developing rapidly for residential purposes and if not taken advantage of immediately for playground use the opportunity would be lost. There was available at that time approximately five acres of vacant land. This has since been developed and there is now remaining in that particular block only about one acre of undeveloped land.

The Committee on Future Parks and Playgrounds, appointed in 1926, reported that there was need for a playground of four or five acres near the center of the Brighton district, at the same time recommending the widening of the present playground, known as Rogers Park.

In a report on "Future Parks, Playgrounds and Parkways," published by the Boston Park Department under date of November, 1925, although no specific recommendation is made, one of the diagrams indicates that recreation facilities are needed in the locality under consideration.

A study of population figures shows that there is within a quarter-mile radius of the block bounded by Faneuil, Parsons, Arlington and Market streets, a total of 4,589 persons according to the 1925 census. (The distribution of this population was shown on an accompanying map, also the site of the proposed playground in its relation to the other recreational facilities of the district.)

The Faneuil section is essentially a residential district, the block in question being zoned almost entirely for residential

PROPOSED PLAYGROUND LOCATION IN BLOCK BOUNDED BY FANEUIL, PARSONS
ARLINGTON AND MARKET STREETS, BRIGHTON.

use. There is in the center of this block a considerable area of vacant land which the Board believes should be taken at this time for playground purposes. It also believes that the buildings fronting on Faneuil street should be taken at the same time in order to allow free access from the north.

A playground area as indicated on the accompanying plan, contains 321,249 square feet, or approximately 7.4 acres. This is ample for two full-size baseball diamonds, bleachers, tennis courts, children's corner, and such other equipment as might be desirable. This entire area has an assessed value, land and buildings, of \$51,180. Much of the rear lands have been used for agricultural purposes and are assessed upon an acreage basis, no change having been made in the assessment over a considerable period of years.

The plan as shown herewith (to line A) would permit the development of the easterly side of Sanderson place for residential purposes and for its possible future extension and connection with Arlington place. This thoroughfare would then serve as the easterly boundary line of the playground.

This area is recommended by the City Planning Board as desirable both in location and size. It would be possible to reduce the size somewhat and at the same time to reduce the expense considerably by extending the playground only as far as the westerly boundary line of the Neil property and of the Keenan property (to line B). This would still afford entrance from the south by means of Arlington place.

On the other hand it would be possible to extend the area and at the same time afford direct access from Market street by taking all of the J. W. and A. E. Keenan properties (to line C) only a portion of which is included in our present recommendation.

The district is developing rapidly. Very few tracts of land available for playground purposes remain vacant at the present time. This particular location appears to the City Planning Board to be entirely desirable and necessary. Development has already started in this area and the Board believes that action should be taken immediately in advance of further construction.

FREEPORT STREET PROPERTY.

The following report was submitted to your Honor under date of September 26, 1930:

The City Planning Board returns herewith letter from William P. Long, chairman of the Park Department, suggesting that the property adjacent to 264 Freeport street, Dorchester, containing 160,745 square feet of land, be sold at public auction for the reason that it is of no use to his department and will never be used for park, beach or playground purposes.

In this connection the City Planning Board would say that

this property which was formerly known as Mallock's Wharf, contains 1.15 acres of land and 2.54 acres of flats, having been transferred to the Park Department by the Sanitary Division of the Public Works Department in 1913.

The following paragraph appeared in the Thirty-Eighth Annual Report of the Board of Park Commissioners for the year ending January 31, 1913:

"The Public Works Department also transferred to us a small piece of wharf property on Freeport street, Dorchester, which at the present time is of doubtful value, but may be useful later as a boat landing in connection with a possible harbor service which may be established under the auspices of this department."

In the opinion of the City Planning Board the development of the Savin Hill playground, beach and bath house, the Tenean playground, the dredging and construction of a storm drain, the building of the Old Colony Parkway, and other improvements which have taken place in the vicinity, render the particular area under consideration less valuable for any public purpose. Also the entire area is zoned for industrial use at the present time which renders the property still less valuable for recreation purposes.

The assessed valuation of the area in 1930 was \$39,500, the solid land being assessed at 60 cents per square foot and the flats at 8 cents per square foot.

In view of the facts as set forth in Mr. Long's communication, combined with its own investigation, it is the opinion of the City Planning Board that the recommendation of the Park Department should be adopted and the property sold at public auction.

ADJACENT TO MICHELANGELO SCHOOL.

The following report was submitted to your Honor under date of June 19, 1930:

With regard to the situation now existing in the vicinity of the Michelangelo School addition on Hull street, the facts are that the city in constructing the addition of the Michelangelo School has built almost to the westerly line of Snelling place, leaving only a passageway varying from 7 feet to 14 feet in width between the side of the new addition and the four houses fronting on Snelling place. Naturally this has deprived these four houses of light and air which they had received for years from the old Pormort Schoolyard. It is a recognized fact that dark living conditions exist in many locations throughout the North End but it is unfortunate, and to be regretted, that the city through one of its own departments should create a situation similar to those which efforts are being made to relieve.

Conditions would be improved if the School Department could see its way clear to acquire Snelling place and the property abutting on the easterly side numbered 1, 2, 3 and 4 Snelling

place, and No. 7 Hull street. These properties have a total assessed value, land and buildings, of \$30,600.

It is perfectly true that the school authorities were within their legal rights in utilizing the entire lot area for the construction of the addition to the Michelangelo School, and it may be that space requirements made such procedure entirely necessary, but the city in its expenditure of public funds through any of its departments should endeavor whenever possible to improve the opportunity for healthful living conditions.

In the opinion of the City Planning Board, the responsibility for relief in this particular instance rests upon the school authorities, rather than upon either Street or Park Departments. The Board accordingly recommends that the attention of the school authorities be called to the unfortunate living conditions which have resulted through the erection of the addition to the Michelangelo School and an appeal made that Snelling place and the property abutting on the easterly side be acquired for additional schoolyard area.

This will also permit additional light and air through the windows on the easterly side of the school building and provide better and more healthful conditions for the occupants of the building than exist at the present time with the windows facing on a narrow court.

MOTOR BOAT HARBOR.

The following report was submitted to your Honor under date of May 27, 1930:

The City Planning Board has considered, at your Honor's request, the advisability and feasibility of a motor-boat harbor in Pleasure Bay, South Boston, as suggested in the Yacht Harbor Survey issued by the National Association of Engine and Boat Manufacturers (1929), and in reply would say that while such a project might be advantageous from a commercial standpoint and a convenience for a portion of the population, the Board is nevertheless reluctant to recommend its adoption at the present time.

To carry out such a project it would be necessary in the first place to establish the question of ownership which involves Federal, state and city rights. It would also necessitate a considerable amount of dredging and unless retaining walls are built along the shore, this would in all probability affect the slope of the existing beach. Finally, in order for motor boats to safely use the bay for anchorage purposes, they would have to have protection from the wave action which would necessitate running a breakwater out from Castle Island as Pleasure Bay is exposed to the direct action of the winds sweeping across the harbor from the east.

The Board has taken the matter up with the Park Department, as suggested by your Honor, and a communication from the chairman emphasizes our own point of view to the effect that protection from wave action and winds would be absolutely necessary. At the same time the chairman of the Park Department calls attention to some studies made by his department for the opening up of a vista to the monument at Thomas Park and the construction of a yacht basin between the Carson Beach and the Mosquito Fleet Yacht Club.

The City Planning Board has not considered this latter proposition in detail, but it has certain features to commend it as a more appropriate extension of the park service than would be accomplished by the development of the larger and more expensive undertaking.

MISCELLANEOUS.

COOPERATION AND PUBLICITY.

Fort Point Channel Study.

The chairman of the City Planning Board was designated as a member of the special commission originally constituted by chapter 50 of the Resolves of 1926, and continued in later legislative enactments for the purpose of investigating further the advisability of filling in part of Fort Point channel and South Bay in Boston Harbor. In this connection he participated in meetings and conferences throughout the year and attended legislative hearings, particularly with reference to the recommendations contained in the report of the special commission in the form of House Bill No. 1290, now waiting consideration before the Committee on Harbors and Public Lands.

Tercentenary Committees.

The members of the Board and the secretary took active part in the preparation of a program providing for the observance during the year 1930, of the three hundredth anniversary of the settlement of Boston, including representation on the Board of Officers, Executive Committee, Sub-Committees, and General Committee.

Conference on Metropolitan Boston.

The Board was represented by its secretary, who also served as secretary of a committee appointed by your Honor to develop a program of metropolitan unity in governmental activities in the metropolitan district. The deliberations of this committee continued throughout the year 1930 and its recommendations were submitted to the Legislature in the form of House Bill No. 1094, now waiting consideration before the Legislative Committee on Metropolitan Affairs.

CONFERENCES.

National Conference on City Planning.

The Board was represented at the twenty-second annual meeting of the National Conference on City

Planning, which was held in Denver, Colo., June 23 to 26, inclusive, by its vice chairman, Edward H. Hoyt, and by its secretary, Elisabeth M. Herlihy. A complete record of the proceedings of the conference has been published and is on file in this office.

Massachusetts Federation of Planning Boards.

The seventeenth annual conference of Massachusetts planning boards was held in Boston on Tuesday and Wednesday, September 30 and October 1. The conference was privileged in having your Honor as its speaker at the luncheon meeting on Tuesday, September 30. Members of the Board and the secretary also participated in the program and the meetings were attended by the entire personnel of the department. A verbatim record of the proceedings has been published and is on file in this office.

Respectfully submitted,

THE CITY PLANNING BOARD,

FREDERIC H. FAY, *Chairman.*

MARY A. BARR.

SIDNEY S. CONRAD.

EDWARD H. HOYT.

NATHAN SIDD.

ELISABETH M. HERLIHY, *Secretary.*

ANNUAL REPORT
OF THE
COLLECTING DEPARTMENT
FOR THE YEAR 1930.

COLLECTING DEPARTMENT,
BOSTON, January 1, 1931.

To the Mayor and City Auditor of the City of Boston:

SIRS,— The undersigned, in compliance with chapter 3, section 24, and chapter 13, section 6, of the Revised Ordinances of 1925, herewith presents a report for the year which ended December 31, 1930, of all moneys received by him, and the disposition thereof and of the account upon which such moneys have been received. Also a statement of the leases in custody of the Collector belonging to the City of Boston, December 31, 1930.

Respectfully submitted,

WILLIAM M. McMORROW,
Collector of the City of Boston and County of Suffolk.

ANNUAL REPORT
OF THE
ELECTION DEPARTMENT
FOR THE YEAR 1930.

Boston, January 10, 1931.

HON. JAMES M. CURLEY,
Mayor of the City of Boston.

SIR,—In compliance with section 24, chapter 3 of the Revised Ordinances, the Board of Election Commissioners respectfully submits its annual report.

REGISTRATION.

Registration was held at the central office from July 1 to August 27, inclusive, and from September 17 to October 15, inclusive. No registration Sundays or holidays. Registration in wards was held on August 19, 20, 21, 22, 23, 25, 26 and 27, from 6 p. m. to 10 p. m. continuously for the state primary; and October 1, 2, 3, 4, 6, 7, 8, 9, 10, 11, 14 and 15, from 6 p. m. to 10 p. m. continuously for the state election. This registration was held in two places in different sections of each ward, ten nights in each place.

NUMBER OF VOTERS.

At the city election held November 5, 1929, the number of male and female voters on the list was 279,313. The number of such voters on the first list

published by the Board August 1, 1930, was 246,721. From that time to the close of registration for the state election there were added the names of 26,879 voters. The number of voters on the final list sent to the polls on the day of the state election, held November 4, 1930, was 273,600, a decrease of 5,713 from the number on the list at the preceding city election.

SUPPLEMENTARY REGISTRATION OF SOLDIERS AND SAILORS.

Under the provisions of chapter 51, sections 50 and 51 of the General Laws, one person in the military service availed himself of the opportunity afforded by this act by registering as a voter of this city during the period after the close of registration up to the third day preceding the state election.

NOMINATION PAPERS AND REFERENDUM PETITIONS.

The Board received 1,143 nomination papers for the state primary on which 19,785 names were certified; 297 independent nomination papers for the state election on which 5,741 names were certified; and 139 referendum petitions on which 1,724 names were certified. This makes a total of 1,579 papers on which the names of 27,250 voters were certified.

QUESTIONS THAT APPEARED ON THE BALLOT AT THE STATE ELECTION, HELD NOVEMBER 4, 1930.

Statistics will be found in the body of this report showing the votes cast in this city on all questions that appeared upon the ballot at the state election.

REVISION OF THE VOTING LIST.

The names of 2,726 voters were stricken from the voting list by reason of death, removal from the city and other causes. There were no complaints of illegal registration.

JURORS.

In accordance with chapter 234 of the General Laws as amended by chapter 311 of the Acts of 1924, the Election Commissioners prepare a list of the inhabitants of Boston liable to serve as jurors. The Board has established a system of having each person pro-

visionally selected for jury duty appear at this office to fill out a questionnaire, making oath to the statements contained therein before a member of the Board. This gives the Board an opportunity to meet each individual and note, if any, his physical defects or disability to render to the county the service that would be required of him as a juror. These personal examinations also enabled the Board to know the educational qualifications of each prospective juror. The members of the Board make an impartial selection from all parts of the city of men of various occupations, and are of the opinion that the persons finally selected represent an average of our citizenship.

The jury list prepared by the Board in 1930 contained the names of 10,733 voters of Boston. During the time covered by this report, 2,882 were drawn for jury service.

ABSENT VOTING.

The Board received 508 requests for applications for absent voters' ballots. From this number 404 applications were received. From the number of applications properly filed, 386 were found to be voters qualified to receive a ballot, and ballots were mailed to said applicants. Three hundred and one ballots were received in this office in time to be distributed to the various precincts before the close of the polls. One ballot was received and not cast, as the applicant voted in person. Five ballots were returned too late to cast, and 8 were returned by the Post Office officials as unclaimed.

MEMBERSHIP OF THE BOARD.

John D. Marks, Esq., resigned as an Election Commissioner; his service terminating on January 31, 1930. Helen A. Macdonald was appointed his successor for the term ending March 31, 1930. Said Helen A. Macdonald was further appointed for the term ending March 31, 1934. She assumed the duties of her office on February 1, 1930.

Nina M. Gevalt resigned as an Election Commissioner; her service terminating on February 24, 1930. Charles T. Harding, Esq., was appointed her successor for the term ending March 31, 1931. He assumed the duties of his office on February 26, 1930.

Hon. James J. Mulvey resigned as an Election Commissioner; his service terminating on June 26, 1930. Hon. Peter F. Tague was appointed his successor for the term ending March 31, 1932. He assumed the duties of his office on June 27, 1930.

Hon. Frank Seiberlich died on June 4, 1930. Daniel H. Rose, Esq., was appointed his successor for the term ending March 31, 1933. He assumed the duties of his office on June 27, 1930.

Hon. Peter F. Tague was designated as Chairman of the Board of Election Commissioners to succeed Hon. Frank Seiberlich, deceased, and Helen A. Macdonald was appointed a member of the Listing Board to succeed Hon. James J. Mulvey, resigned.

EXPENSES OF THE DEPARTMENT.

The expenses of the Election Department for the year ending December 31, 1930, amounted to \$251,764.08.

Respectfully,

PETER F. TAGUE,
HELEN A. MACDONALD,
CHARLES T. HARDING,
DANIEL H. ROSE,
Board of Election Commissioners.

Votes Cast for Question No. 1, Amendment to Constitution,
State Election, 1930.

Shall an amendment to the constitution relative to the apportionment of senatorial, representative and councillor districts, further described as follows:

The proposed amendment of the Constitution provides for the annulment of Article XXI of the Articles of Amendment of the Constitution and the substitution therefor of a new Article XXI, and for the annulment of Article XXII of the Articles of Amendment of the Constitution and the substitution therefor of a new Article XXII. The proposed amendment embodies in substance the following changes in and additions to said Articles XXI and XXII:

1. In proposed Article XXI, towns of twelve thousand inhabitants or more may be divided in forming representative districts. No precincts, however, in such towns may be divided. In taking the census the special enumeration of legal voters shall specify the number residing in each precinct of such towns. Under existing Amendment XXI no town may be divided and no specification of the number of voters in a precinct is required.
2. The division of a county into representative districts and the apportionment of representatives to districts therein is to be made by "The county commissioners or other body acting as such or, in lieu thereof, such board of special commissioners in each county as may for that purpose be provided by law, . . ." Under Article XXI as it now stands the division and apportionment is made by "The mayor and aldermen of the city of Boston, the county commissioners of other counties than Suffolk,—or in lieu of the mayor and aldermen of the city of Boston, or of the county commissioners in each county other than Suffolk, such board of special commissioners in each county, to be elected by the people of the county, or of the towns therein, as may for that purpose be provided by law, . . ." The time for assembling of such commissioners, board or body for the purpose of making such division and apportionment is also changed, from the first Tuesday of August next after each assignment by the Legislature of the number of representatives to each county, to a time within thirty days after certification by the Secretary of the Commonwealth to such commissioners, board or body of the number so assigned, or within such other period as the General Court may by law provide.
3. Under the proposed Articles, each special enumeration shall be the basis for determining the districts, senatorial, representative and councillor, for the ten-year period beginning in the fourth January following said special enumeration and the present division of districts is to remain in effect until January, 1939. Under the existing amendments the ten-year period is the period between the taking of each census. (Thus, the next redivision based upon the next census in 1935 would, under the proposed Articles, affect those elected in 1938 to hold office beginning in January, 1939, instead of affecting those elected in 1936 to hold office beginning in January, 1937. Under existing amendments representation of newly created districts begins in January of the second year after each ten-year census, whereas under the proposed article it would begin in January of the fourth year thereafter.) The number of representatives (240), senators (40), and councillors (8) is not changed.

4. The Legislature may limit the time within which a division of representative, councillor or senatorial districts may be questioned by judicial proceedings. The existing amendments contain no provision that itself limits or authorizes the Legislature to limit such time, which received in a joint session of the two Houses held May 17, 1928, 182 votes in the affirmative and 48 in the negative, and at a joint session of the two Houses held May 26, 1930, received 155 votes in the affirmative and 88 in the negative, be approved?

ANNUAL REPORT
OF THE
FIRE DEPARTMENT
FOR THE YEAR 1930.

BOSTON, March 30, 1931.

HON. JAMES M. CURLEY,
Mayor of the City of Boston.

DEAR SIR,— I have the honor to submit herewith the report of the activities of the Boston Fire Department for the year ending December 31, 1930, as required by section 24, chapter 4, of the Revised Ordinances of 1925.

FIRE LOSS.

The total fire loss of 1930 in the City of Boston, estimated by the insurance companies amounted to \$5,151,541. There were sixty-five (65) fires where the loss was over fifteen thousand dollars each. The outstanding fires in this group were as follows:

January 15, North Harvard street, Harvard Athletic Association	\$119,446
March 1, 227 and 229 Washington street, Thompson's Spa	105,034
June 6, L Street Drawbridge	250,000
July 4, 141-153 Medford street, Palmer, Parker Company <i>et al.</i>	193,133
December 10, 96 Essex street, Economy Umbrella Company <i>et al.</i>	159,960
December 24, 11 Columbia street, John Hetherington & Sons <i>et al.</i>	116,043

During the year there were 8,701 alarms of fire of which 4,593 were box alarms and 4,108 were still and automatic alarms: 698 false alarms were received during the year. There were 28 arrests and 25 convictions of sounding false alarms.

FIRE PREVENTION.

The personnel of the Fire Prevention Division was increased during the year in order that the work of this division might be more effective.

During the year all classes of buildings, with the exception of one and two family dwellings, were inspected by the inspection force.

Number of inspections (initial)	361,246
Number of reinspections	24,835
Complaints reported	10,224
Conditions corrected by personal contact	22,111
Conditions corrected by service of order	520
Number of personal inspections by officers of Fire Prevention Division	2,852
Oil burners inspected	2,482
Oil burners reinspected	807
Oil burner defects corrected	861

Reports of hazardous conditions were sent to other departments as follows:

To Building Department	2,727
To State Fire Marshal	39

Eight hundred and ninety-four notices were sent to owners and occupants to correct hazardous conditions and 520 personal services and orders of reinspection were made by the constable attached to the Fire Prevention Division. There were twenty prosecutions for violations of the fire prevention laws.

One hundred and sixty-five fires were reported as suspicious and forty-one from unknown causes. Investigations of these fires were made by attaches of the Fire Prevention Division. These fires were also reported to the State Fire Marshal, Police Commissioner and the Boston Board of Fire Underwriters.

The number of inspections made by district and company officers during the year, in addition to those of the Fire Prevention Division were as follows:

NEW BOWDOIN SQUARE FIRE STATION, OCCUPIED NOVEMBER 10, 1930.

Building inspections	62,760
Theatre inspections	4,178
Schoolhouse inspections	3,848
Public building inspections	909
Inspections at Long and Deer Islands	24
Car house inspections	108
Total number of inspections made by Fire Prevention Division, district and company officers (includ- ing initial and reinspection of all types of build- ings)	464,036

Eighteen thousand, three hundred and eleven dollars and twenty-five cents was collected in fees for permits issued by the Fire Prevention Division.

During the Christmas holiday season a detail of fire prevention inspectors was maintained in and about the shopping and high value districts and other locations where there was congestion due to shopping.

BUILDINGS.

On Monday, November 10, 1930, the Fire Department occupied the new fire station erected in Bowdoin square. Engine Company 4, Engine Company 6, Ladder Company 24, Rescue Company 3 and Water Tower 2 and the District Chief of District 4 moved into the building on this date.

The buildings formerly occupied by Engine Company 6 and Ladder Company 24 were turned over to the Public Buildings Department. The building formerly occupied by Engine Company 4 and Water Tower 1 was demolished in connection with the new fire station. Rescue Company 3 was transferred from its temporary quarters at Engine 50 in Charlestown. The new station is a first-class modern fireproof building, erected at a cost of \$347,905.03, excluding the land.

Extensive alterations and repairs were made at the quarters of Engine Company 9 and Ladder Company 2, Paris street, East Boston, and a reinforced concrete floor installed.

The old building, formerly occupied by Ladder Company 5 on Fourth street and temporarily used by this department as a storehouse, was transferred to the Public Buildings Department.

FIRE APPARATUS.

Thirty-six motor vehicles were purchased, tested and placed in service, viz.:

- 10 American LaFrance combination hose cars (booster pumps).
- 1 American LaFrance combination pump and hose car.
- 2 American LaFrance aerial ladder trucks.
- 1 American LaFrance 85-foot aerial trailer.
- 2 Federal chassis with special type bodies for rescue cars.
- 9 Hupmobile sedans.
- 4 Hupmobile coupes.
- 1 Mack emergency truck.
- 1 1½-ton Brockway truck.
- 1 2½-ton Sterling truck.
- 4 Ford cars with pick-up bodies.

Eleven (11) pieces of major equipment, ten (10) smaller cars and three (3) trucks were traded in as part payment for the new equipment.

The motor equipment at the present time consists of the following:

TYPE.	In Service.	In Reserve.
Pumping engines.....	50	8
Steam engines (tractors).....		3
Hose cars.....	48	8
Aerial ladder trucks.....	22	6
City Service trucks.....	9	4
Water towers.....	3	1
Chief officers' cars.....	33	9
School car.....	1	
Rescue cars.....	3	1
Fuel cars.....	1	1
Portable lighting plants.....	2	
Wrecking car.....	1	
Motorcycle (fire patrol).....	1	
Commercial trucks.....	7	
Emergency cars (Ford).....	12	
Ford coupes.....	2	

HIGH PRESSURE SERVICE.

The records of the two high pressure stations for the year are as follows:

OLD QUARTERS OF ENGINE COMPANY 4, BULFINCH STREET,
REPLACED BY NEW FIRE STATION IN
BOWDOIN SQUARE.

	Station No. 1.	Station No. 2.
Total alarms to which pumps responded.....	267	216
Water discharge recorded on Venturi meters *.....	104,000 gallons	413,000 gallons

* Owing to the construction of the Venturi meters, they do not record flows under 600 gallons per minute.

HYDRANTS.

The following is a list of the hydrants in service for fire purposes as of December 31, 1930, showing the number and different types of hydrants:

	Public.	Private.
Ordinary post.....	3,874	133
Boston post.....	2,734	22
Lowry.....	873	33
Boston Lowry.....	403	5
Batchelder and Finneran post.....	2,813	5
Boston.....	123	112
High pressure.....	451	
Chapman post.....	84	55
Ludlow post.....	5	13
Matthew post.....		4
Coffin post.....	1	
Totals.....	11,361	382

FIRE ALARM SERVICE.

The Fire Alarm Service of the department has been maintained at its usual high standard. In order to increase the efficiency of the operating force two additional men were appointed.

A change in the manner of striking alarms received from the Boston Automatic Fire Alarm Company was made. Upon receipt of an alarm the Boston Automatic Fire Alarm Company transmitted the signal directly to the stations in the section where the fire occurred. It was deemed advisable to abandon this method and to strike the signals to the Fire Alarm Headquarters. Upon receipt of the signal in the Fire Alarm Office a special signal was sounded on the tappers to all department stations.

More fire alarm boxes than usual were installed during the past year. Of seventy-seven put in service fifty-

nine are owned by this department, three by the School-house Department and fifteen by private owners. Sixty-eight of the old sector boxes were replaced by boxes of the latest type. All street boxes and posts were painted.

Considerable work was done in the Fire Department Stations in order to maintain the electrical equipment in the department in an efficient working condition.

A contract was made during the year to furnish equipment for "floating" storage batteries and for 2,500 cells of batteries to replace batteries worn out in service. The power equipment consisted of 130 rectifiers, 2 motor-generators, switchboard apparatus, rack for supporting rectifiers, and incidentals. With this change in method of supplying electric current to the system many beneficial results are expected.

OPERATING RECORDS.

First alarms	4,593
Second alarms	104
Third alarms	23
Fourth alarms	5
Fifth alarms	2
Total	<u>4,727</u>

BOX ALARMS RECEIVED BUT NOT TRANSMITTED.

Same box received two or more times for same fire	379
Adjacent box received for same fire	309

Underground cable boxes attached to poles	12
Underground cable boxes removed from service	6

WIRE DIVISION.

In accordance with chapter 240 of the Acts of 1926, the following streets were prescribed for the underground district for 1930, from which all poles and overhead wires were placed underground, making a total distance of four miles as prescribed by law:

East Boston.—Paris street, from Sumner street to Bennington street.

South Boston.—N street, from Columbia road to East Second street; B street, from West First street to West Seventh street; C street, from West First street to Old Colony avenue; E street, from West Broadway to Old Colony avenue.

Dorchester.—Baird street, from Blue Hill avenue to Morton street; King street, from Adams street to Neponset avenue.

Brighton.—Winship street, from Washington street to Chestnut Hill avenue; Mapleton street, from Murdock street to Market street.

Jamaica Plain.—Centre street, from Holbrook street to the Arborway; South street, from Centre street, a distance of 2,665 feet to a point within 65 feet of the Arborway.

In these prescribed streets, from which poles and overhead wires were to be removed, there were standing on January 1, 1930, a total of one hundred and seventy-nine (179) poles (not including the trolley poles of the Boston Elevated Railway which are exempt), owned by the Edison Electric Illuminating Company, New England Telephone and Telegraph Company, and Boston Elevated Railway, supporting a total of five hundred and thirty thousand eight hundred (530,800) feet of overhead wires owned by the Edison Electric Illuminating Company, Boston Elevated Railway, New England Telephone and Telegraph Company, Boston Fire Department (Fire Alarm Branch) and Boston Police Department (Police Signal Service).

During the year there were 107 fires and 10 accidents due to electricity. The total of fire losses in so far as could be determined was \$146,222.93. The income for the year for permits to perform electrical work was \$70,282.33.

INTERIOR DIVISION.

This division made inspections of all new installations and continued its inspection of all installations in so far as possible. Regular inspections were made of electrical equipment of theatres, places of amusement, public halls, miniature golf courses, etc.

Following is a table showing a summary of the work of the division:

Notices of new work received	20,271
Number of permits issued to turn on current	15,709
Number of incandescent lamps inspected	2,346,106
Number of motors inspected	17,710
Number of buildings in which wiring was completely examined	3,883
Number of inspections made	35,530
Number of inspections made of theatres, places of amusement and public halls	1,428
Fires in interior of buildings	100
Fires on poles	3
Fires in manholes	3

Miscellaneous fires	1
Injuries to persons	10

EXTERIOR DIVISION.

During the past year the inspectors of this division have reported one hundred and seventy-seven (177) poles decayed at the base and thirty-one (31) poles leaning, or a total of two hundred and eight (208) poles, which were replaced by new poles or reset by the various companies at the request of this department.

Five (5) abandoned poles were also reported by our inspectors and were removed at our request.

The following table shows the overhead work for the year, from January 1, 1930, to December 31, 1930, inclusive:

Number of new poles in new locations	183
Number of poles replaced, reset or straightened	875
Number of poles removed	200
Number of poles now standing in the public streets	18,019
Number of defects reported	1,574
Number of defects corrected	1,475
(Other defects in process of correction.)	
Number of notices of overhead construction	8,851
Number of overhead inspections	17,457
Number of overhead reports	7,215
Amount of overhead wires removed by owners (in feet)	1,776,910

UNDERGROUND CONSTRUCTION.

The ducts used for the underground conduits of the drawing-in system are of the following type:

1. Vitrified clay (laid in concrete).
2. Fiber (laid in concrete).
3. Iron.
4. Wood.

In side or residential streets, special underground construction for electric light and power purposes (110 and 220 volts), of a type known as the "Split Fiber Solid Main System" has also been installed.

The electrical approvals for underground electrical construction numbered	4,103
Number of inspections of underground electrical construction	9,004
Number of reports of underground electrical construction	3,065

Table Showing Underground Work for the Year 1930.

BOSTON FIRE DEPARTMENT BAND.
ORGANIZED MAY 17, 1930, BY FIRE COMMISSIONER EDWARD F. McLAUGHLIN.

FIRE DEPARTMENT BAND.

In May, 1930, a call was issued to the department for members of the department who were interested in a band to meet at the quarters of Engine Company 26. The response to this invitation was beyond all expectations. Approximately one hundred and fifty men attended the meeting and plans to organize the band started. On September 17, 1930, the band made its first public appearance on the streets of Boston in the Tercentenary Parade, and for its accomplishment and appearance won the admiration of the hundreds of thousands of people who watched the parade. The organization, instruction and equipping of this band required no expenditure of the city's money and has placed no financial burden on the City of Boston. The expenses of the band were met privately by the Fire Commissioner, assisted by those men who undertook the purchase of their own instruments.

The establishment of a band in the Fire Department has done much to increase the interest and efficiency of the personnel in its work. The band has for its purpose a constructive organization to perform some beneficial service to the families of members of the department who may lose their lives in the performance of their duty. The raising of funds and the furnishing of relief to the families of members of the department who lose their lives in duty is a matter which has practically been left entirely with the firemen themselves. A musical organization of the type and character planned for the Fire Department Band will be the means of assisting in raising of money for the relief of these families.

The band has not been organized with any commercial object in view, but solely for the purpose outlined above and to appear on public occasions as a representative organization of the Fire Department. In addition it has for its purpose the aiding of any great public charity or benefaction, when the times and circumstances require its aid.

RECOMMENDATIONS.

The principal objective of the Fire Department is the protection of life and property against fire, with the thought always in mind to bring about a substantial

reduction in the fire loss. In order that these purposes may be accomplished the department must at all times be maintained at a very high state of efficiency. Today the personnel and equipment of the department is in first-class condition. Certain improvements are necessary during the coming year to maintain this present high standard.

1. A new fireboat should be built and placed in service in the department to replace one of the three fireboats now in service. Once each year the boats are taken out of service for annual inspection by the United States Steamboat Inspectors. Such repairs as are required by the inspectors are made before the boat is placed back in service. As the boats grow older the annual repair bill becomes more and more extensive. The replacement of one of the boats by a new boat, more modern in type, will result in a tremendous increase in the waterfront fire protection and reduce the repair bill of the department. I urgently recommend consideration of this proposition.

2. A new fire station should be built in the South Boston district to provide quarters for Engine Company 2 and Ladder Company 19. These two companies are housed in two old stations, inadequate and antiquated, without proper facilities for modern fire companies and automobile fire apparatus. At Ladder Company 19 the station is too small to place an aerial truck in service and considerable delay is caused in responding to alarms because of the narrowness of the street. At Engine Company 2 there is not room enough for a hose car so that the company has to operate with one piece of apparatus. An up-to-date fire station on a wide street will provide this section of the city with the fire protection it should have.

3. A study of the causes of fires throughout the city shows very apparently that many of the fires are due to arson. This condition exists to such an extent that it is a matter of grave concern, and it is prevalent in the residential districts as well as in the commercial and mercantile sections of the city. The Fire Commissioner is without statutory power to investigate suspicious fires as this authority is placed elsewhere by law. While an honest effort is being made to trace arson in this city I believe that if the Legislature gave to the head of the Fire Department authority to conduct investigations better results would be obtained. I

FIRST PUBLIC APPEARANCE OF BOSTON FIRE DEPARTMENT BAND,
TERCENTENARY PARADE, SEPTEMBER 17, 1930.

recommend, therefore, that at the next session of the General Court legislation be introduced to give this authority to the Fire Commissioner in the City of Boston.

4. It is a well known and accepted fact that constant study and application are necessary to keep a person properly equipped to perform the duties of his position. The necessity for such training applies in the Fire Department just as it does in any other form of employment. I have found however that no organized system has been in effect in the Boston Fire Department to keep the officers and men properly informed as to their work. I propose to devote considerable time and effort to establish a fire college in Boston which will be without equal in the country. There is no doubt that this can be accomplished with the result that all members will be fully informed as to their obligations and at the same time methods of operation in the department will be standardized.

Respectfully submitted,

EDWARD F. McLAUGHLIN,
Fire Commissioner.

CHIEF OF DEPARTMENT.

HENRY A. FOX.

The chief is in charge of the fire protection of the city, which is divided into three divisions, each commanded by a deputy chief, which are subdivided into fifteen districts, each commanded by a district chief.

DIVISION 1.

Deputy Chiefs, HENRY J. POWER and JOHN J. KELLEY.

Headquarters, Ladder House 8, Fort Hill Square.

This division comprises Districts 1, 2, 3, 4, 5.

District 1.

District Chiefs, THOMAS E. CONROY and HENRY KRAKE.

Headquarters, Ladder House 2, Paris Street,
East Boston.

Apparatus Located in the District.—Engines 5, 9, 11, 40, 47 (fireboat), Ladders 2, 21, 31.

District 2.

District Chiefs, PHILIP A. TAGUE and HAMILTON A. McCLAY.

Headquarters, Engine House 50, Winthrop Street,
Charlestown.

Apparatus Located in the District.—Engines 27, 32, 36, 50, Ladders 9, 22, Rescue 3.

District 3.

District Chiefs, JOHN J. KENNEY and JOHN F. GOOD.

Headquarters, Ladder House 18, Pittsburgh Street.

Apparatus Located in the District.—Engines 25, 38, 39, 44 (fireboat), Ladders 8, 18, Water Towers 1 and 3.

District 4.

District Chiefs, AVERY B. HOWARD and JOHN F. McDONOUGH.

Headquarters, Engine House 4, Bulfinch Street.

Apparatus Located in the District.—Engines 4, 6, 8, 31 (fireboat), Ladders 1, 24.

District 5.

District Chiefs, JOHN F. WATSON and DENNIS J. COUGHLIN.

Headquarters, Engine House 26-35, Broadway.

Apparatus Located in the District.—Engines 7, 10, 26, 35, Ladder 17, Rescue 1, Water Tower 2.

DIVISION 2.

Deputy Chiefs, THOMAS H. DOWNEY and WILLIAM F. QUIGLEY.

Headquarters, Engine House 22, Warren Avenue.

This division comprises Districts 6, 7, 8, 11.

District 6.

District Chiefs, MICHAEL J. TEEHAN and EDWARD G. CHAMBERLAIN.

Headquarters, Engine House 1, Dorchester Street,
South Boston.

Apparatus Located in the District.—Engines 1, 2, 15, 43, Ladders 5, 19, 20.

District 7.

District Chiefs, NAPEEN BOUTILIER and MICHAEL F. MINEHAN.

Headquarters, Engine House 22, Warren Avenue.

Apparatus Located in the District.—Engines 3, 22, 33, Ladders 3, 13, 15.

District 8.

District Chiefs, LOUIS C. STICKEL and DANIEL MARTELL.

Headquarters, Ladder House 12, Tremont Street.

Apparatus Located in the District.—Engines 13, 14, 37, Ladders 12, 26.

District 11.

District Chiefs, THOMAS H. ANDREOLI and CORNELIUS J. O'BRIEN.

Headquarters, Engine House 41, Harvard Avenue,
Brighton.

Apparatus Located in the District.—Engines 29, 34, 41, 51, Ladders 11, 14.

DIVISION 3.

Deputy Chiefs, WALTER M. MCLEAN and FRANK A. SWEENEY.

Headquarters, Ladder House 23, Washington Street,
Grove Hall.

This division comprises Districts 9, 10, 12, 13, 14, 15.

District 9.

District Chiefs, WILLIAM H. McCORKLE and EDWARD J. LOCKE.

Headquarters, Engine House 12, Dudley Street.

Apparatus Located in the District.—Engines 12, 23, 24, Ladders 4, 23, Rescue 2.

District 10.

District Chiefs, FRANCIS J. JORDAN and CHARLES H. LONG.

Headquarters, Engine House 17, Parish Street,
Meeting House Hill.

Apparatus Located in the District.—Engines 17, 18, 21, Ladder 7.

District 12.

District Chiefs, TIMOTHY F. DONOVAN and JOSEPH W. SHEA.

Headquarters, Engine House 28, Centre Street,
Jamaica Plain.

Apparatus Located in the District.—Engines 28, 42, 53, Ladders 10, 30.

District 13.

District Chiefs, CHARLES A. DONOHUE and PATRICK J. V. KELLEY.

Headquarters, Engine House 45, Corner Washington
and Poplar Streets, Roslindale.

Apparatus Located in the District.—Engines 30, 45, Ladders 16, 25.

District 14.

District Chiefs, JAMES MAHONEY and JAMES F. RYAN.

Headquarters, Engine House 46, Peabody Square,
Dorchester.

Apparatus Located in the District.—Engines 16, 20, 46, 52, Ladders 6, 27, 29.

District 15.

District Chiefs, JOHN P. MURRAY and MICHAEL D. SULLIVAN.

Headquarters, Engine House 48, Corner Harvard
Avenue and Winthrop Street, Hyde Park.

Apparatus Located in the District.—Engines 19, 48, 49, Ladder 28.

FIFTY-NINTH ANNUAL REPORT
OF THE
HEALTH DEPARTMENT
FOR THE YEAR 1930.

Boston, January 2, 1931.

HON. JAMES M. CURLEY,
Mayor of Boston.

SIR,—Pursuant to section 24 of chapter 3 of the Revised Ordinances of the City of Boston, I have the honor to submit herewith the fifty-ninth annual report of the Health Department, covering the work of the department, the morbidity and mortality statistics, and receipts and expenditures for the year 1930.

SUMMARY OF ACTIVITIES OF THE HEALTH
DEPARTMENT FOR THE YEAR 1930.

POPULATION, APPROPRIATION AND EXPENDITURES.

The estimated population of the city for the year was 782,000. The amount of money expended by the Health Department was \$1,099,586.96, a per capita expenditure of \$1.40, as compared with an expenditure of \$1,009,110.07 in 1929, or \$1.25. Of the total amount expended, \$189,781.87 was paid from the appropriation to the Commonwealth and to cities and towns for the care and treatment of persons ill with communicable diseases for which Boston was legally responsible by

reason of settlement. Of this amount \$181,977.58 was expended, mainly to the Commonwealth, for the care of cases of tuberculosis, and the remainder, \$7,804.29, to cities and towns, for cases of other communicable diseases, a decrease in both items over last year.

Receipts from the Commonwealth and cities and towns for the care of out-of-town patients in Boston hospitals are not credited to the Health Department appropriation, but to the receipts of the City Collector. The accompanying charts show in detail the expenditures for the past year by the various divisions and for personal service. The accompanying tables show the income received from various sources, mainly from licenses and permits, but not reimbursements for the care of patients with a legal settlement outside of Boston.

MORTALITY AND MORBIDITY.

The outstanding favorable feature for the calendar year 1930 was the decrease in the total number of deaths from all causes from 11,652 during 1929 to 10,996 for 1930, with a corresponding decrease in the death rate from 14.92 in 1929 to 14.06 for 1930.

There was an increase in the total number of live births recorded from a total of 17,935 in 1929 to 18,015 for the year 1930.

A decrease in the number of deaths of persons sixty years and over from 5,025 during 1929 to 4,737 during 1930 was shown.

Deaths from diphtheria, twenty-three for the year 1930, was the lowest number from the disease ever recorded in Boston.

Grouping the deaths from arteriosclerosis, cerebral hemorrhage, heart disease and chronic nephritis (the so-called degenerative diseases), the total for 1930 was 3,735, a decrease of 226 as compared with 1929.

Decreases were also shown in the deaths from broncho and lobar pneumonia, accidents, homicides, influenza, tuberculosis, pulmonary and typhoid fever.

Increases were shown in the number of deaths from cancer, diarrhea and enteritis under two years, puerperal diseases and suicides.

A statistical table for 1930, with comparative figures for the five previous years, follows.

VITAL STATISTICS FOR CALENDAR YEAR 1930 WITH COMPARATIVE FIGURES

MEDICAL DIVISION.

During the past year, Boston has been very fortunate in having escaped anything in the nature of epidemic.

Anterior Poliomyelitis.— The total number of cases reported for the year was less than 300 and over half of these were convalescent nonresidents who were brought to Boston for treatment for paralytic symptoms.

Cerebrospinal Meningitis.— The number of cases reported the past year was no more than our average total.

Diphtheria.— Cases of diphtheria tended to show an increase despite the extensive artificial immunization that is being carried on.

Septic Sore Throat.— The number of cases reported during the year, less than 100, failed to indicate the number or seriousness of streptococcus infections of the throat.

Scarlet Fever.— The prevailing type of this disease was mild, which fact made its control difficult, since many cases were not recognized until they had given rise to secondary cases.

Measles and Chicken Pox.— The number of cases of these diseases is indicative of a process of natural immunization which is going on in the community.

Typhoid Fever.— The number of cases reported was smaller than the average in the past.

Lobar Pneumonia.— The number of cases was average for recent years when no epidemic has prevailed.

Venereal Diseases.— Approximately 2,500 cases of gonorrhea and about 1,600 cases of syphilis called for action on the part of this division because of neglect of treatment.

Ophthalmia.— The number of reported cases was average and is not to be taken as an indication of the prevalence of serious eye infections in the new-born in Boston, but is the result of a local situation which serves to bring a nurse under some auspices or other into nearly every home where there is a new-born infant.

Miscellaneous.— The division was also called upon to investigate cases of food poisoning and carbon monoxide poisoning.

Contagious Diseases in Animals.— The regulations promulgated by the State Department of Public Health, in 1928, making all dog bite cases reportable to the local Health Department, has materially increased the work of this division.

A considerable number of cases of supposed psittacosis were reported, but in no one of the cases seen was there any justification found for such a diagnosis.

The health and condition of the cattle in Boston is satisfactory and stables and surroundings well kept. No milch cows were condemned in Boston for tuberculosis.

LABORATORY DIVISION.

About 58,000 examinations were made in the bacteriological laboratory of this department for the first eleven months.

After three years of research a new medium for the growth of *C. diphtheria* was completed during the past year, and this is now used in the routine outfit.

Also during the past year dentists and physicians have apparently recognized the importance of a search for the spirilla of Vincent and are finding it to be the cause of infection in many conditions of the mouth and throat. Between January 1 and November 30, 1930, the laboratory made 114 examinations for Vincent's angina, of which 59 were positive and 55 negative.

DIVISION OF TUBERCULOSIS.

The clinic work of this division is becoming every day more efficient. There has been one solarium added, that of the West End Health Unit, and this program, handling as it does the children of pre-school age who are contacts with open cases, and under par constitutionally, is carrying on ably and well.

The program is as comprehensive as can be made, combining in proper relation sunlight and nutritional activity. These children have made remarkable progress. We have been fortunate with this age group up to the recent few months, at which time Charlestown suffered by reason of whooping cough.

Forty-seven cases were admitted to private sanatoria; 173 to state sanatoria; and 455 to Boston Sanatorium.

The hospitalization of cases of tuberculosis is a difficult problem as yet, and will be acute for a few months yet to come. It is expected that at that time the Boston Sanatorium equipment will have been completed, and will make possible the admission of those cases now in private sanatoria.

The following statement shows the activities of the Division of Tuberculosis:

Total number of examinations at clinics . . .	13,202
Total number of new examinations at clinics . .	2,284
Total number of hours spent at clinics by physicians .	2,182
Total number of clinic sessions held	1,304
Total number of Von Pirquet tests	1,810
Total number of Wassermann tests	806
Total number lamp treatments (ten-month) . .	1,408
Total number X-rays (ten-month)	3,316
Total number cases reported	1,497
Total number deaths reported (death rate per 100,000, 66.57)	540

"Lamp" and "X-Ray" figures estimated on a ten-month basis owing to vacation period during the month of August.

The completion of the West End Health Unit adds one more full X-ray equipment, making a total of seven.

DIVISION OF CHILD HYGIENE.

The attendance of babies and pre-school age children at the child health conferences maintained by this division is a splendid indication of the interest of the parents of Boston in the preservation of child health. There are twenty-eight conferences held weekly at eighteen stations, seven of which are in health units, and eleven in municipal buildings, settlement houses, etc. As has been the custom for several years, the entering classes of the parochial schools were immunized against diphtheria by the medical inspectors of this department. The Charlestown Health Unit, opened late in 1929, began the program of activities early in 1930. The new Blossom Street Health Unit, adjacent to the old building, which has been functioning since 1916, was dedicated in September, 1930. This makes a total of seven health units functioning in various parts of the city. In the eye service, in the North End Unit, 239 new cases were seen, 918 refractions found, and glasses recommended in 262 cases.

DENTAL SERVICE AT HEALTH UNITS.

The dental service in operation at the units now employs fourteen dentists and seven dental hygienists, working under the direction of a director, with a marked increase in the number of children receiving treatment, in fact, almost twice as many patients have been treated as evidenced below:

Total patients, January 1 to December 31, 1930	. 56,812
Total patients, January 1 to December 31, 1929	. 28,672
Total operations, January 1 to December 31, 1930	. 91,651
Total operations, January 1 to December 31, 1929	. 51,732

The above increase of almost 100 per cent in number of patients and 72 per cent in number of dental operations shows the value of the system inaugurated early in the current year whereby each dental clinic has two registered dentists who are permanently assigned to

their respective clinics and to which they devote their full time each day. Much has also been done toward the education of children in the care of their teeth.

NURSING SERVICE.

Service has been provided for twenty-seven weekly tuberculosis clinics, thirty weekly child hygiene conferences and the solarium program (daily) for the Tuberculosis Division. Most of the parochial schools are visited every day. Day nurseries are also visited daily. Home visits are made to well children, from birth to school age. Parochial school children are visited when necessary; also communicable disease cases, tuberculosis cases and other special assignments, as needed.

The nurses have secured information for two surveys this past year; one on the pre-school age child for use of the White House Conference and one on maternal deaths in hospitals.

FOOD INSPECTION.

Food inspection has been carried on in a satisfactory manner. More than 50,000 regular route inspections of stores, warehouses, manufactories and the stocks of vendors were accomplished, together with reinspections of premises where defects were found to exist. Over 2,000 notices to abate unsanitary conditions were served at defective establishments; 413,400 pounds of foodstuffs were condemned.

The new sausage law, which forbids the manufacture as well as sale of a certain unwholesome type of sausage, was brought to the attention of various establishments by means of a circular.

In the hot weather, special attention was paid to require persons operating temporary refreshment stands, not equipped with the necessary sterilization facilities, to supply straws and paper dishes and cups which are discarded after one use. Every effort was made to see to it that ice cream was served with a minimum of handling. Itinerant vendors were required to carry only wrapped ice cream. Ice cream manufactories were given special inspections at intervals, particular attention being given to the cleanliness of the premises, products and methods, and a generally satisfactory condition was noted.

Bakeries and tonic factories were also specially inspected, with a view to bringing about any needed corrections.

In cooperation with the Boston Station of the United States Food, Drug and Insecticide Administration, a survey was made of warehouses and wholesale establishments dealing in all classes of nuts. In the course of this inspection, 2,600 pounds of chestnuts were condemned.

DAIRY INSPECTION.

The product of about 120,000 cows on New England farms, also New York State and the Province of Quebec, is necessary to provide the 650,000 quarts of milk needed to supply the citizens of Boston with milk and cream.

In Boston, the milk is received at establishments licensed to pasteurize the milk, whose owners are licensed milk dealers, and the milk is pasteurized in strictly modern equipment approved by this department. At the end of the processing, each day, all equipment is taken apart, cleaned and sterilized. All pasteurizing equipment is provided with automatic recording devices which show upon a chart the record of the temperature and holding period of each lot of milk pasteurized. A dated chart must be on file to show the results of each day's operation. After pasteurization, the milk is cooled and bottled and then capped. Milk bottle caps are purchased in sealed tubes and the process of bottling milk and capping is done by machinery. In every particular, all establishments for the pasteurization of milk are under constant supervisory inspection.

A brief summary of the work follows:

Total number inspections	18,248
Dairy inspections	6,925
Inactive dairies	179
Inspection milk plants and dealers	2,749
Bacteriological examinations	1,995
Sediment tests	6,222
Inspection of country creameries	140
Dairies scoring passable mark	5,133
Dairies scoring below passable mark	1,792
Dairies with milk rooms	5,765
Dairies without milk rooms	1,160
Total number of cattle inspected	113,464

BUREAU OF MILK INSPECTION.

The established routine of inspection of milk, milk products, ice cream and vinegar has been maintained and there have been collected and examined somewhat less than the average number of samples.

In order to protect the milk supply of this city from the destructive effects caused by the illegal and unfair competition offered by western cream in unlimited quantities at cut prices, the Health Commissioner, on February 15, 1930, declared an embargo against western cream, which was kept until November 27, 1930, when it was lifted to a limited extent. As a result of this, production within the inspected milk shed was stimulated and a quality improvement program sponsored by producers was encouraged.

During the year, in cooperation with the Dairy Division, a program was worked out for a more adequate control of western cream when and if it becomes necessary to admit it for sale in Boston. A program was also worked out for the limitation of purchases of western cream to sources of demonstrated ability to ship cream of good quality. The producer quality improvement program above referred to was adopted and has accomplished very satisfactory results.

As an aid to the producer in his efforts to improve his product, two new regulations were adopted which require in substance that all milk be delivered daily to receiving stations either as milk or cream. A marked improvement in the quality of the milk received for pasteurization was immediately noticed.

The program for elimination of infectious abortion from herds producing certified milk under the supervision of the Medical Milk Commission of Boston, Inc., adopted in July, 1929, with January 1, 1931, as a time limit, has progressed well and is expected to be consummated on schedule.

Especial attention has also been directed to ice cream in continuation of the program adopted in 1929. The paid permit system for sale of ice cream with the inspection follow-up required has resulted in remarkable improvement in the general quality of ice cream and the sanitation surrounding its dispensing.

SANITARY DIVISION.

The work of this division in the abatement of nuisances, removal of sources of filth and causes of sickness, including insanitary buildings, yards, areas and vacant lots, has been carried forward consistently, with satisfactory results.

A special survey and intensive work in remedying bad drainage conditions along the waterfront was made.

A survey of drainage conditions along the Neponset river was also undertaken.

A tour along the waterfront with a committee interested in the removal of old hulks and other debris, especially along Chelsea creek, was made late this fall.

Two of the large public alleys in the Back Bay district were resurfaced and drained under the direction of this division during the year.

A new development of the work has resulted from the opening of a large number of indoor golf courses. These places are maintained and operated under the usual rules and conditions imposed on public halls and theaters in the city. The usual inspection, especially at the time of licensing of places of amusement, in cooperation with the licensing bureau, has been carried on during the year.

The inspectors detailed for rat-breeding suppression and investigations of ships and wharves have carried on their work throughout the year. Ships to the number of 277 have been examined in cooperation with the United States Quarantine Service. The work has increased over 1929.

The following table shows the detail of the work accomplished by the division for the eleven (11) months ending November 30, 1930:

Complaints investigated	7,278
Original inspections made	32,192
Nuisances abated	21,614
Defects noted:	
Structural	3,317
Maintenance	30,714
	34,031
Tenement house inspection:	
Tenement houses:	
Measured	29
Routine inspections	3,748

Three-family houses:	
Measured	72
Routine inspections	5,613
Drainage conditions remedied:	
House	1,249
Surface	273

F. X. MAHONEY, M. D.,
Health Commissioner.

REPORT OF MEDICAL DIVISION.

BOSTON, December 31, 1930.

FRANCIS X. MAHONEY, M. D.,
Health Commissioner.

SIR,— I have the honor to submit the following report relative to the activities of the Medical Division during the past year.

The statistical data regularly compiled by the Boston Health Department makes it evident that one of the most important problems which confront the department, or any other agency intended to promote public health, is the prevention of human disability and of premature deaths from degenerative diseases of the cardio-vascular system.

Deaths attributable to this condition may be variously recorded under such conventional statistical "causes of death" as arteriosclerosis, myocarditis, cerebral hemorrhage, or angina pectoris, or may be statistically concealed by such fatal terminations as cancer, diabetes or pneumonia.

Insurance companies tell us that the expectation of life for adults over forty is decreasing, that people are dying of old age sooner than they used to do. Even though it be conceded that the present day coddling of human beings through the first two decades brings more people of deficient vitality to maturity, nevertheless premature adult mortality presents aspects indicating that it may be in a great measure preventable. Moreover, the success which is being attained in reducing disease and mortality in infancy and childhood make it inexcusable to neglect comparable efforts to conserve adult human efficiency.

Clinical medical experience shows us that in many instances, even after symptoms of cardio-vascular degeneration have become pronounced, a person's usefulness may be prolonged and death postponed by the observance of certain precautions with respect to eating and other habits and by the removal of diseased teeth, tonsils or gall bladders.

The Medical Division is cooperating with other

agencies to bring about by a process of public education a wider appreciation of the facts just stated and to promote a practice of utilizing the services of physicians for the prevention of disease, to teach people to take cognizance of symptoms that something is wrong while a cure or arrestation of trouble may still be possible.

Another most important health problem which challenges the Medical Division of the Department as well as all other agencies intended for the promotion of public health, is that of the common cold. Human disability resulting from colds is incalculable and the economic loss enormous.

Here again an official public health promotion agency is dependent chiefly upon the possibilities of public education to secure results.

Recent investigations are believed to justify the Medical Division in assuming the following to be established facts and in making them the basis of educational efforts.

A cold is due to infection from an as yet unidentified filterable virus.

A cold is a contagious disease and results from the transfer in some way of the infective virus from a person in the early stages of a cold.

Susceptibility to infection with the virus of a cold is increased by a local or general chilling, by mechanical irritation of the respiratory mucous membrane and by various habits which tend to impair resistance to infections generally.

Recovery from a cold is followed by a period of immunity to infection usually about three months.

The infection with the virus of a cold is not in itself serious. The disabling effects or serious consequences of a cold are due to the fact that the cold virus, like the virus of influenza, renders a person vulnerable to certain bacteria with dangerous potentialities.

Unless favorable conditions are prepared for them by an initial infection with the cold virus or in some other way, these bacteria, which include the pneumococci and various streptococci, may be cultivated indefinitely in persons' mouths or throats without doing appreciable harm.

The number of persons in the community so carrying these bacteria in their mouths and throats is at a minimum in the summer and reaches its maximum usually in March.

These bacteria are swapped about in a community like the cold virus itself, by coughing and sneezing, by handkerchiefs and hands contaminated with secretions from the nose and mouth and by dishwashing methods which instead of killing bacteria serve to distribute them from contaminated eating and drinking utensils onto others supposedly cleaned by the washing process. In other words, the infective agents of colds and their complications are spread by practices which are in effect uncleanly, although not realized to be so.

Until artificial immunization against colds or their complications are put on a reliable basis hope of lessening the disabilities and losses from colds rests on success in educating the public to avoid the uncleanly practices by which bacteria from the nose or mouth are transplanted from person to person. Insistence by patrons of restaurants on the observance of rules prescribed by the Health Department for the conduct of such establishments will help to this end.

During the past year the Medical Division has been called upon to consider possible dangers to public health by reason of the smoke and dust contents of the Boston atmosphere. It has been represented that the increasing use of heavy fuel oil may be causing such an atmospheric contamination with sulphur and nitrogen oxides as to constitute a definite menace to public health. It has been alleged that the introduction of powdered coal as a fuel is serving to increase enormously the throwing off from chimneys and stacks of silica (SiO_2) whose potentialities in causing serious disease of the lungs are well recognized.

While the atmosphere of Boston is relatively free from smoke as compared with many American cities the occupants of buildings in some localities must respire air heavily laden with material presumably deleterious. Tangible evidence of injurious effects on health, however, even in such localities is lacking. It would seem that the deficiency of our information as to what, if anything, is happening to those exposed to the corrosive chemicals and silica as they may exist in the Boston atmosphere might be supplied by careful post-mortem studies of the lungs of persons who have died from causes uncomplicated with acute diseases of the lungs.

Such evidence as we have regarding the prevalence of acute diseases of the lungs in Boston would indicate that

they fluctuate considerably if one year be compared with another. In a few years in the past twelve years there has been a marked increase in the mortality from pneumonia, undoubtedly due to the presence of true influenza in the city. Studies of the admittedly inconclusive data which we have relative to the prevalence of pneumonia in Boston for the past thirty years would seem to make it reasonably certain that pneumonia, whatever the kind, is not tending to increase in Boston either in prevalence or mortality but rather to decrease.

Modern conveniences have wrought their special hazards. It is stated that the largest number of claims paid by accident insurance companies is on account of falls in bath tubs. About 150 cases of carbon monoxide poisoning involving unconsciousness are reported annually to the Boston Health Department. It has been stated in previous reports that investigations by the Medical Division would indicate that chronic carbon monoxide poisoning is much more common than suspected. Subsequent experience tends to confirm a belief that chronic poisoning from worn-out or maladjusted fixtures of gas ranges and other household gas appliances is a comparatively frequent factor in the causation of symptoms of ill health in housewives in this city. As is indicated by the frequency with which intelligent men are killed in their garages, the results of efforts to educate the public to the dangers of carbon-monoxide are discouraging. So far as household gas appliances are concerned it would seem that regular routine inspections and the servicing of such appliances by company employees would in the long run prove to be a more profitable business policy than the suppression of news of accidents.

The investigation by the Medical Division of alleged cases of food poisoning during the past year disclosed no unusual causes. As usual, complaints of poisoning tended to come in bunches as though one suggested others. The total was below rather than above the annual average of recent years. There were as usual a few complaints of wholesale poisoning at banquets, and one such instance was especially interesting since circumstantial evidence pointed to an article on the menu which it is hardly conceivable could have been responsible. As a rule, the Medical Division finds complaints of food poisoning at banquets to be due purely to hog-

gishness, to an unreasonable intake of unaccustomed or bad combinations of food and drink under conditions unfavorable to digestion.

During the past year a considerable number of supposed cases of psittacosis were reported in Boston and the vicinity. All cases reported from Boston, and some outside the city, were seen by representatives of the Boston Health Department. In none of the cases thus seen did a representative of the department find justification for a diagnosis of psittacosis.

The first cases reported were two in the same household in Providence, R. I., and were attributed to a parrot picked out in a bird store in Boston just before the New Year and shipped by express to Providence. Whether there was exposure to other parrots does not appear. These cases were not seen by a representative of the Boston Health Department, but the description of the clinical symptoms and the course of these cases were consistent with psittacosis. The appearance of symptoms was not inconsistent with infection from the Boston parrot. The bird had been in possession of the dealer for about three weeks. It had been seen several times by the purchaser and was apparently in good health when finally selected, paid for and immediately shipped by the dealer by express to Providence. In less than seventy-two hours it was dead. It was in bad shape on arrival at Providence. Whether it had psittacosis or not, it was accidentally delayed in transit to Providence and was subjected to exposure to cold winter weather sufficient to cause the death of a parrot. Following the report of these cases, the dealer's place in Boston, the largest bird store in New England, was investigated and was kept under close surveillance by the Medical Division during the rest of the winter, as was also the large municipal collection of birds at Franklin Park. In neither place did any sickness appear suggestive of psittacosis.

Besides the two cases above mentioned four other persons, all nonresidents of Boston, were reported to have been infected with psittacosis from the Boston store. One of these was a young man who had been temporarily employed in the store about two weeks. In the opinion of the Medical Division he had a cold with an ordinary bronchial involvement. He had completely recovered within ten days. There were no cases

of illness among the other nine employees of the place, all of whom came daily in intimate contact with the birds.

On representations made to him the Surgeon General of the United States Public Health Service recommended that the stock in the Boston store, valued at over \$7,000, be destroyed by the Boston Health Department and the store closed and the premises thoroughly disinfected. In view of the facts herein stated this action was not believed to be justifiable and the Surgeon General's recommendation was not carried out. No complaints regarding the store have since come to the knowledge of the Health Department.

The routine work of the Medical Division in connection with the control of reportable communicable diseases during the year offers the following features of possible interest.

Rabies.—The regulation promulgated by the State Department of Public Health about a year ago requiring all cases of dog bites to be reported to and investigated by local health officials, even though the dog be not suspected to have rabies, has greatly increased the work of the Medical Division. At present, biting dogs in Boston are occasioning an expense of nearly \$10,000 a year to the Boston Health Department alone, a sum equal to the license fees of 5,000 dogs.

Anterior Poliomyelitis.—Boston again escaped the past year anything suggestive of an epidemic visitation of infantile paralysis. The total cases reported to the Boston Health Department for the entire year was less than 300 and over half of these were convalescent nonresidents who were brought into Boston hospitals for treatment for paralytic symptoms. It may also be stated that a better understanding of the early symptoms of this disease is causing the detection and reporting of cases which would not have been recognized a few years ago. The Medical Division is cooperating with the Harvard Infantile Paralysis Commission to secure appropriate treatment for Boston cases.

Cerebrospinal Meningitis.—An epidemic visitation of the disease, which we have some reason to fear by reason of its epidemic prevalence in other American cities, has not yet arrived here. The number of cases reported in Boston the past year was no more than our average annual total.

Diphtheria.— Cases of diphtheria were less than in 1929. Marked annual fluctuations are, however, occurring in Boston in spite of the extensive artificial immunization that is being carried on and notwithstanding the fact that immunization is being constantly extended to include younger children. The conclusion seems inescapable that the prevalence of diphtheria is influenced by some biological factor which is not understood.

Septic Sore Throat.— The septic sore throat cases reported during the year, less than 100, fails to indicate the number or seriousness of streptococcus infections of the throat. The part which the same organisms play in other infections as well certainly makes their distribution in the community a matter deserving of greater attention than it has received.

Scarlet Fever. The prevailing type of this disease continues to be mild and this fact is making its control exceedingly difficult since so many cases are not recognized until they have given rise to secondary cases.

Measles and Chicken Pox.— The number of the cases of these diseases which become a matter of official record is indicative of a process of natural immunization which is steadily going on in the community. While deaths properly attributable to measles may be concealed, often unintentionally, by a death certificate of pneumonia, the mortality from measles in Boston has become very small, much smaller than even a few years ago.

Ophthalmia Neonatorum.— The number of reported cases of ophthalmia neonatorum is not to be taken as indicative of the prevalence of serious eye infections in the new-born in Boston. Such infections are still entirely too numerous, but the large number of cases of ophthalmia neonatorum recorded is the result of a local situation which serves to bring a nurse under some auspices or other into nearly every home where there is a new-born infant. The wording of the State Law with reference to the responsibility of nurses to report “inflamed eyes” in infants, as well as the attitude taken by the Boston Health Department to secure observance of the law, inclines a nurse to “play safe” and as a consequence many of the statistical cases of ophthalmia neonatorum are nothing more than a mild conjunctivitis resulting from the use of a prophylactic silver solution, or from soap. So long as impairment and even loss of eyesight from ophthalmia is occurring in Boston, it is not

the policy of the Medical Division to do anything to discourage the prompt reporting of sore eyes in an infant whatever the effect on published statistics may be, especially as we frequently encounter a tendency to regard an inflammation of an eye not dangerous to eyesight if a smear comes back from a laboratory negative for gonorrhea.

Tetanus.—The soil about Boston seems to be freer from the tetanus bacillus than in some parts of the state, but it is certainly worthy of note that tetanus killed a dozen persons in Boston during the past year.

Typhoid Fever.—It may be worthy of mention in view of the unprecedented drought and reduced sources of drinking water in this part of the country that the number of cases of typhoid fever reported was decidedly smaller than the average in the past. Most of the cases occurred as a “vacation disease” in the summer and fall and were as usual due to infection outside the City and State.

Lobar Pneumonia.—The number of reported cases of lobar pneumonia approximates that for the average for recent years when epidemics of predisposing respiratory infections have not prevailed. It is to be regretted that the effort to make a statistical distinction between *lobar* and *broncho* pneumonia is not recognized as impracticable and abandoned and any form of pneumonia made reportable.

Venereal Diseases.—Approximately 2,500 cases of gonorrhea and about two-thirds that number of cases of syphilis called for action on the part of the Medical Division during the year because of neglect of treatment. The number of such cases preserves a remarkable constancy year after year. While in most instances the persons involved are feeble minded, efforts to hold them under treatment without invoking the police powers of the department are usually successful.

Respectfully,

M. VICTOR SAFFORD,
*Deputy Health Commissioner,
Medical Division.*

FREDERICK J. BAILEY, M. D.,
*Deputy Health Commissioner,
Division of Communicable Diseases.*

communicable disease. At present we find some schools admit these contacts while others exclude them for the same disease.

We also need printed instructions to be given to the parents in cases of pediculosis, also a first-aid cabinet in each school and a sufficient supply of throat sticks and absorbent cotton.

CHILD HYGIENE.

There has been no change in the program or policies of the nursing service given to the child hygiene work this past year. The nurses have continued assisting in the child hygiene conferences and in doing the follow-up work for this division. On December 31, 1930, there were 9,875 children under school age under active supervision of the nursing group. On December 31, 1930, there were 10,627 children under active supervision. This does not seem to be a very large increase but may be accounted for by the fact that in several districts, a number of private physicians conduct their own "well baby conferences," where for a fee which is included in the prenatal and delivery care, the baby is kept under supervision for about six months. The physician supervises the feedings and also gives treatment for any minor illness. This means that when the babies are discharged by their physicians they have no further health supervision until they reach school age, unless we come in contact with them through some other channel. Also, many of the hospitals conduct their own well baby clinics and retain not only the babies born in the hospitals, but also those referred to them because of illness.

In our child hygiene work one of the greatest needs is a more prompt reporting of births. At present in many cases the nurses do not get the birth reports until the baby is several months old.

It would be helpful if a child who had been immunized against diphtheria could be given a certificate similar to his vaccination certificate which could be presented when he enters school.

COMMUNICABLE DISEASES.

There has been no change in the policy of our work with this division. The nurses visit all cases of reported communicable disease for the purpose of seeing that quarantine is kept and explaining the necessity of quarantine. They also make the first visit to establish

quarantine and the release visits on the so-called minor communicable diseases. They take all release cultures on diphtheria cases and collect specimens for examination in typhoid. In some districts there have been a fewer number of cases of communicable diseases to be visited, but the nurses working in these districts feel that because of the families' inability to employ a physician many existing cases are unreported. They have come to this conclusion because of the number of suspicious cases they have discovered while visiting homes for other purposes. This failure to call a physician when the need exists is another indication of the result of unemployment.

Our work in this division seems to show a need of a better understanding on the part of many physicians and social agencies as to health department policies and regulations regarding the reporting and quarantine of communicable disease.

TUBERCULOSIS.

Tuberculosis clinics are held in eleven of the seventeen stations and at the Boston Dispensary. Nursing service is given as formerly to these clinics and the necessary follow-up work is done by the nurses. Nurses have made a special effort this past year to get all contact cases examined and under supervision, either by their own physician or by the clinics. This effort has been very successful and the number of examinations of contact cases has increased considerably. On December 31, 1930, we had under supervision 8,274 cases, 7,339 of these being clinic cases.

At present there are five districts in the city without a tuberculosis clinic. These are: Roslindale; Lincoln street, Brighton; Columbia road; Jamaica Plain and West Roxbury. Now the Roslindale patients go to the Hyde Park Clinic; the Lincoln street, Brighton, patients to the Old Town Hall, Brighton; Columbia road patients to South Boston; and Jamaica Plain and West Roxbury to Concord street. This lack of district clinics presents several difficulties. First, the patient is more likely to take advantage of clinical service if it is easily accessible and if he knows that his visiting nurse will be present. Also, the matter of carfare necessary, if patients have to go a distance, is a serious one to many families. Then this situation hampers the nurse in her

work. She finds it difficult to persuade patients to attend the clinic because of reasons noted above. She is further hampered by not having the clinic records easily available and it is difficult for her to be keenly interested in the work when she does not have a personal responsibility for the conduct of the clinic. She is also not able to make the proper type of home visit unless she knows exactly what the doctor has recommended and the physical findings on the patients' clinical record.

One of the most interesting features of the tuberculosis program is the solarium work for preschool children in which the nursing service takes a most important part. At six of the health units this solarium work is carried on. There are three nurses on duty on each roof, one of whom is permanent, the others being nurses in the station who in turn serve a month at a time on the roof. The work of the nurse is directed by the district supervisor assisted by the dietitian.

The roof-nursing program has three distinct phases: the actual care of the children on the roof; the supervision of their homes by the nurse in the district and the instruction of the mothers of these children in classes held monthly at the stations.

DAY NURSERIES, ETC.

The nurses visit fifteen day nurseries, a kindergarten, and an institution caring for children. Some of these agencies are visited daily, some two or three times a week, others only on request. The children are weighed and measured, inspected for cleanliness or any suspicion of disease, and home visits are made to secure the correction of any defect. In some of the nurseries the nurse assists in vaccination and toxin-antitoxin work and in others the children are taken to the child health conference for this work. Many of these children, both from the day nurseries and the children's institution, are taken to the dental clinics for the necessary dental work.

In the survey of the preschool child, made for the White House Conference, the nurses made 3,513 visits and secured 1,600 schedules.

MATERNAL DEATHS INVESTIGATION.

Because of the apparent increase in the number of maternal deaths in hospitals we were asked to make a study of the hospital records of these patients to determine, if possible, the contributing causes of these deaths.

The following table of maternal deaths in Boston hospitals covers the period of the first six months of 1929 and the first six months of 1930. It was not possible, with the information or rather lack of information on the hospital records, to draw any definite conclusions regarding the efficacy of hospital care for these patients. There are, however, some facts noted which may be significant.

There were during the periods studied 137 maternal deaths, 132 of which occurred in hospitals. Ninety-one of these mothers gave Boston as their place of residence and forty-one as living outside of Boston. The number of nonresidents would probably be greater if more were known about their real place of residence, as it is known that frequently a Boston address of a friend or relative is given, rather than the real home address of the patient. This, in order that the patient may receive the preference given to Boston residents in some of the hospitals.

Twenty-seven of these mothers were delivered before coming to the hospital and thirty-three died before they had been in the hospital one day, which indicated that there were probably some serious complications which necessitated hospital care. Only ten were in the hospital more than four days previous to delivery and seventy-one were in the hospital more than four days previous to death.

The records show that thirty-three entered the hospital in poor condition, eleven in fair condition and twenty-two in good condition. On sixty-six of the records there was no mention of the condition of the patient on admission.

Very few of the records showed the length of time a patient had received prenatal care, and none recorded type of care given to her. On fourteen of the records

there was a definite statement that no prenatal care had been given, and on forty-seven records this fact is recorded as "unknown."

Practically nothing could be learned from the records regarding the number of examinations made by the physician after the patient entered the hospital.

Of the 132 deaths, thirty-one had had cesarean sections and in twenty-five there was a record of forceps having been used. In most cases the hospital records did not show why a cesarean section was necessary. This was also true in cases where forceps were used for delivery. Twenty-seven of the 132 deaths had peritonitis, five of which had had cesareans; seventeen had septicemia and four of these had had cesareans.

Forty-eight of these mothers were primipara, seventy-seven were multipara and seven were unknown.

Nothing of value was secured in this study but the need of more complete and uniform records.

As a contribution to future public health nursing, this division gives an opportunity for field work and observation of its activities to students from the Simmons School of Public Health Nursing. From ten to fifteen students during the school year are detailed to us each month for usually a period of a month. The supervising nurses as well as the field nurses deserve much credit for the interest they take in teaching these student nurses health department practices and procedures.

The members of the Nursing Division in all its activities are rendering invaluable service to the city. Many and varied are the problems which appear in the day's work. The following case is typical of the service rendered.

A nurse making an infant welfare visit noticed that three children belonging to a neighbor had discharging eyes. She called on their mother and discovered that the children had had the measles but the mother had not "bothered" to call a doctor. When the eyes started to discharge she did call one who ordered drops for the eyes. The mother did use the drops but could not afford to call the doctor again. The nurse immediately notified the Communicable Disease Division of the Department and a medical inspector was sent to visit the family. He ordered immediate hospitalization. The department sent a car as one of the children was too sick to walk, and two nurses accompanied them as the mother was unable to go. The children were covered with impetigo and their eyes and noses were discharging profusely. All had pediculosis and one had discharging ears. After several hours of waiting about and going from one place to another to have the necessary records made out, the children were admitted. Early the next morning the social service worker at the hospital asked to have the mother brought to the hospital to give consent to operation on the eyes of two of the children. It was difficult to get the mother's permission for the operation as she was afraid her husband would object and would ill-treat her if she gave it. The nurse told her she would see her clergyman and ask him to visit her husband and explain the matter to him. Then the woman consented. One little boy, four years old, lost one eye but the hospital has since made arrangements for a glass eye for him. Besides the eye operation the other children had their tonsils and adenoids removed.

The nurse, true to her promise, did see the family's clergyman and when the husband returned from work that night the clergyman was there waiting for him and everything was arranged satisfactorily.

On the day that the three children were taken to the hospital, the nurse noticed that two of the other children had sores about their nostrils. They were cultured and the oldest girl found to have nasal diphtheria. She was sent to the City Hospital.

Later the mother was taken to the hospital for treatment for nasal discharge which she had had for some time.

The nurse is now supervising the health of the pre-school children of this family and incidentally the health of all members.

In many of the stations, outside the health units, the nurses are handicapped by poor quarters and lack of proper equipment. In some of the quarters not only is there not sufficient space but lack of proper toilet accommodation and hot water make the work extremely difficult. However, in spite of these conditions they are doing excellent work and with good spirit.

Respectfully yours,

HAZEL WEDGWOOD, R. N.,
Director, Nursing Service.

REPORT OF DIVISION OF CHILD HYGIENE AND HEALTH UNITS.

BOSTON, January 1, 1931.

FRANCIS X. MAHONEY, M. D.,
Health Commissioner.

MY DEAR SIR,— Permit me to submit the following statement including facts and figures relative to the activities of the Division of Child Hygiene and Health Units for the year 1930, which activities have been, in a marked measure, a continuance and extension of the services which have been carried on for several years in an effort for the promotion of health and prevention of disease.

Constantly increasing appreciation by the men and women of our city of the importance of preventive measures in young child health in the promotion of health and prevention of disease has not only resulted in larger attendance at our clinics but also by demands for the expansion of services which are factors in life extension.

INFANT MORTALITY.

Boston's infant mortality rate for 1930 was 70.2 per 1,000 live births, one of the lowest in the history of the city, which may be attributed in a considerable degree to an increasing participation on the part of the people in preventive service and a realization by the parents of children that many diseases are preventable and that much can be done to safeguard the lives of the young children.

CHILD HEALTH CONFERENCES.

There are at present eighteen stations maintained by the Child Hygiene Division, seven of which are housed in the health units and eleven in municipal buildings and other locations throughout the city. Thirty-one weekly conferences are conducted with fifty-four pediatricians in attendance. A total of fifteen hundred and thirty-eight clinics were held in 1930. Sixty-eight thousand, seven hundred and seventy-one visits were made by infants and preschool children to these clinics.

This figure compares very favorably with a total of sixty-two thousand, six hundred and eighty-eight visits made in 1929.

PEDIATRIC SERVICE.

Affiliations of the Boston Health Department with Harvard Medical School, Tufts College and Boston University School of Medicine make possible the obtaining of very highly qualified pediatricians who are either on the teaching or hospital staffs of the leading institutions of the city and make it possible for us to offer the fathers and mothers of children brought to the clinics the soundest of advice in the direction of the maintenance of health and the prevention of disease.

THE PRESCHOOL CHILD.

The period of life between the ages of two and six has been very aptly and properly characterized as the "neglected age" because of the apparent lack of appreciation that this is the formative and growing period of the child when faulty habits are easily formed and the so-called "diseases of childhood" so prevalent. It is in this plastic age that so much can be done to prevent many diseases, for the formation of proper habits and toward encouraging the proper nutrition and growth of the child. The nurses and pediatricians of the Department of Health endeavor to arouse in the parents of this group of children a more complete realization for the need of thorough medical supervision of the preventive type. This would make possible the early detection of physical defects and exert an influence for the eradication of the same.

DAY NURSERIES.

It appears self-evident that no group of children are so much in need of all that medical service has to offer in the way of prevention as well as medical supervision as the youngsters entrusted to the care of our day nurseries. Because of economic reasons parents find it necessary to entrust their children to the care of these institutions and anything that can be done to safeguard their health is a wise economic provision.

DIPHTHERIA PREVENTION.

Perhaps the very best index of the success of the campaign waged by the Department of Health and other

agencies in Boston for the prevention of diphtheria is the constantly decreasing number of cases of this disease and a marked reduction of death from the same. Boston, which lost annually for many years from diphtheria alone about two hundred and twenty-five people, mostly children, had only twenty-three deaths in 1930 from this disease, by far the lowest in its history. Children brought to the child health clinics and health units are immunized against diphtheria and representatives of the Department of Health carry on an active campaign for diphtheria prevention in the parochial schools of the city.

HEALTH UNITS.

The citizens of Boston, as well as health and relief workers all over the United States, are quite familiar with our health unit development, which has had for its objective the coordination and correlation of existing agencies, both official and voluntary, in the field of health and welfare, made possible by the bringing together under one roof of all agencies engaged in this work.

As is quite well known the first health unit was opened in Blossom street in 1916. The success of this effort in an attempt for more inter-related health and welfare programs resulted in the decision of the George Robert White Fund Trustees to establish a chain of health units in such sections of the city as appeared to need them most. Seven are now functioning, the new

* This station was closed in March, 1930.

Blossom Street Health Unit being opened in 1930. For the benefit of those who may be interested we list the health units as follows:

Charlestown — Corner High and Elm streets.
East Boston — 59 Paris street.
North End — 41 North Margin street.
Roxbury — 82 Savin street.
South Boston — 133 Dorchester street.
South End — 57 East Concord street.
West End — 25 Blossom street.

Among the agencies functioning at the units are the following:

Boston Provident Society.
Boston Dispensary.
Boston Health Department.
Boston Lying-in Hospital.
Catholic Charitable Bureau.
Children's Hospital.
Community Health Association.
Family Welfare Society.
Federated Jewish Charities.
Forsyth Dental Infirmary.
Overseers of Public Welfare.
State Department of Mental Hygiene.

THE PROGRAM OF THE DEPARTMENT OF HEALTH.

In every sense of the word the health unit becomes the local office of the Health Department for the particular section of the city in which it functions. The health unit is in charge of the medical inspector who carries on the medical program of the department which includes vaccinations, immunizations against diphtheria and typhoid fever, physical examinations and who also visits the homes of persons who are quarantined from communicable disease. He also watches over the health of the pretubercular children on the roofs and is in every sense the health officer of the district. The health unit is the local headquarters of the nurses, sanitary and food inspectors and other agents of the Department of Health.

DENTAL SERVICE.

Under the auspices of the Forsyth Dental Infirmary and under the direction of Dr. William B. Griffin,

Dental Coordinator of the City of Boston, an active dental program is carried on at all health units for preschool and school children from both the public and parochial schools of the city. The figures which follow will emphasize the enormous amount of work done by this service for the children of Boston.

Total number of patients	.	.	.	.	.	.	56,635
Total number of operations	.	.	.	.	.	.	92,178

NOSE AND THROAT SERVICE.

The Forsyth Dental Infirmary also conducts nose and throat examinations among the children who receive dental treatment at the units for the detection of faulty tonsils and adenoids.

Number of clinics	.	.	.	.	.	.	19
Number of examinations	.	.	.	.	.	.	1,777
Number of operations recommended	.	.	.	.	.	.	567

TUBERCULOSIS SERVICE.

I should like to testify to the efficiency and value of the tuberculosis clinics conducted by the Department of Health at the various units under the capable direction of Dr. George T. O'Donnell. The success achieved by this arm of the Health Department service more than proves the wisdom of the decentralization of this phase of the work, first put into effect in 1927.

Allusion has already been made to the assembling of preschool children on the roofs. The children are malnourished and pretubercular, coming from homes in which tuberculosis exists and to which they have been exposed. A well-regulated and supervised program, having for its objective the building up of the health of these children, is carried on, stressing proper food, sufficient rest and supervised play, with the additional benefit of the vitaglass roof.

The mothers of these children have periodic luncheon meetings on the roofs, where they are served luncheon and receive instructions from the Health Department dietitians on the proper preparation of health-giving foods.

Number of mothers' club meetings	.	.	.	.	.	24
Attendance	.	.	.	.	.	364

REFRACTION SERVICE.

Refraction service is carried on at the North End Health Unit for preschool and school children. These clinics are held daily.

Number of refractions	.	.	.	.	.	.	.	930
Number of diagnoses	.	.	.	.	.	.	.	1,021
Glasses recommended	.	.	.	.	.	.	.	262
New cases	.	.	.	.	.	.	.	274

MENTAL HYGIENE.

The State Department of Mental Hygiene conducts habit-forming clinics at the West End Health Unit, where a valuable service is carried on.

Number of clinics	.	.	.	.	.	.	.	45
Attendance	.	.	.	.	.	.	.	390
New cases	.	.	.	.	.	.	.	52

COMMUNITY HEALTH ASSOCIATION.

An efficient staff of nurses and supervisors of the Community Health Association make their headquarters in the health units and furnish bedside care for the people in the district.

Number of homes visited	.	.	.	.	.	.	.	175,781
Cases referred to Health Department	.	.	.	.	.	.	.	7,175
Diseases reported to Health Department	.	.	.	.	.	.	.	613
Mothers' club meetings	.	.	.	.	.	.	.	314
Attendance	.	.	.	.	.	.	.	4,503

INFANTILE PARALYSIS SERVICE.

Children discharged from the Children's Hospital attend these clinics, conducted by the Community Health nurses at our units.

Number of infantile paralysis clinics	.	.	.	.	.	.	.	223
Attendance	.	.	.	.	.	.	.	2,027
New cases	.	.	.	.	.	.	.	8

PRENATAL SERVICE.

Prenatal clinics are conducted by the Boston Lying-in Hospital at the various health units. The Community Health nurses do the follow-up work by visits in the homes. It is an extremely important work and continues to expand, with gratifying results.

Number of clinics	.	.	.	.	.	.	.	303
Attendance	.	.	.	.	.	.	.	3,510
New cases	.	.	.	.	.	.	.	834

The Jewish Maternity Clinic in operation at the Roxbury Health Unit had an attendance as follows:

Number of clinics		13
Attendance		26
New cases		6

AMERICAN RED CROSS.

This organization conducts home nursing classes, giving valuable instruction in home nursing and first aid at some of the units.

Number of home nursing classes		35
Attendance		473

BOY SCOUTS OF AMERICA.

This splendid organization has established headquarters at some of the health units and uses the units for the meetings of the boys and their councilors.

Number of meetings		29
Attendance		811

CONCLUSION.

May I express my appreciation of the splendid co-operation, not only on the part of the doctors, dentists and nurses of the Boston Health Department, but also of the representatives of the private agencies housed at the units, both health and welfare, whose interest and assistance makes possible the solution of many problems brought to the unit daily.

It is fitting that we express our appreciation of Dr. Percy Howe and the Trustees of the Forsyth Dental Infirmary for their cooperation in the direction of adequate decentralized prophylactic dental service for the children, which is carried on at the health units, and which is doing so much for the better care of the teeth and the hygiene of the mouth.

I should also like to thank everyone whose efforts are making possible the furtherance of better health for those who avail themselves of the services of the child health clinics and the health units of Boston.

Annual Report of Medical Inspectors, 1930.

Inspections	3,505
Physical examinations	6,977

HEALTH DEPARTMENT.

[illegible]

REPORT OF FOOD DIVISION.

BOSTON, January 2, 1931.

FRANCIS X. MAHONEY, M. D.
Health Commissioner.

DEAR SIR,— The following report of activities of the Food Inspection Division for the year 1930 is respectfully submitted:

Inspection of food establishments in the City of Boston was carried on by a chief food inspector and 17 food inspectors, under the supervision of the deputy commissioner in charge. In the course of the year one permanent inspector was appointed, and two other inspectors were appointed on a temporary or provisional status.

More than sixty thousand inspections were made of stores, markets, restaurants and manufacturies, together with about five thousand additional visits listed as re-inspections. A reinspection constitutes a follow-up where a defective condition is observed on the original visit. More than two thousand notices to abate defective conditions were served.

The vigilance and success of food inspection is rightfully gauged by the amounts of unwholesome foodstuffs that are removed by seizure and condemnation before reaching the consumer. Due regard, of course, must be given to the rights of the dealer who may suffer unnecessary loss by the unwarranted destruction of his goods. As no effectual protest was lodged by any dealer in this connection, it would appear that such official action has been well calculated. As to the amounts and kinds of foodstuffs condemned, reference may be had to accompanying tables.

Alcohol (Denatured).— Licenses to the number of 627 were issued by the department for the sale of denatured alcohol and wood alcohol. The practice of last year to refer the names of all new applicants to the Police Department for character report was continued. As a result several parties were refused a license. The police have given particular attention to problems aris-

ing out of the trade in denatured alcohol, one case especially where six deaths resulted from a drinking party in which wood alcohol figured. It appeared from the investigation that the victims had mistaken the wood alcohol for ordinary denatured alcohol, which is not always immediately deadly.

Although the law calls for the labeling of denatured alcohol with the words in red "Deadly Poison," it seems that no small number of drinkers have established what amounts to a practical immunity from its immediate effects at least. Reports are common of various expedients resorted to, such as pouring the alcohol through the cut ends of ordinary bread, or combining the alcohol with milk, and some have been noted draining the radiator water from automobiles, presumably for beverage uses.

The year 1931 will see a marked change in the denatured alcohol situation. Under a decision lately issued by the Federal Commissioner of Industrial Alcohol, completely denatured alcohol formula No. 5 will be compounded as follows:

To every 100 parts by volume of ethyl alcohol of not less than 160 degrees proof, add

1 part by volume of the compound, or one similar thereto, known as aldehyol Grade A;

1.25 parts by volume of the compound, or one similar thereto, known as alcotate.

From the foregoing it will be judged that the denatured alcohol, in the absence of wood alcohol, need not be labelled "Deadly Poison," as formerly but the retail containers will have to be marked with certain statements as to the character of the contents to comply with federal requirements.

Bakeries.—The six hundred or more manufacturing bakeries in this city were made the subject of a semi-annual inspection under the provisions of the bakery law. The general condition was satisfactory. Throughout the year 350 notices were served on bakeries, and in each case the defect noted was corrected.

Cold Storage.—The work on sales of cold storage goods in retail stores was continued. Attention was paid to see that stores posted the proper signs to comply with the law.

Fish.—A vigilant food inspection service is obliged to keep in touch with innovations in food production

and preparation. Early in the year it was discovered that there existed in the fish fillet trade a custom of washing or rinsing the fillets with a chlorinated solution. At first glance it might appear that such treatment would result either in adulteration, or at least the presence of an added element for declaration on the package label. Laboratory examination, however, developed the fact that if chlorine still remained on the fillet it was not recoverable. This finding was coupled with the receipt of an opinion from the federal government that the use of chlorine under such conditions was approved, provided that it did not show up in the finished product.

Weekly inspection at the Boston Fish Pier was continued as usual. Through the efforts of the division and the cooperation of the pier officials several improvements were brought about. An item of particular importance was the installation of a convenience station to do away with insanitary practices previously observed. Another item was the arrangement with the various dealers on the pier to provide platforms for heavy fish, instead of throwing them directly on the wharf floor. Still further, every effort is made to see that each establishment makes proper disposal of business waste, rather than merely to sweep refuse out on to the wharf streets.

Ice Cream (Manufacture and Sales).— Licenses for the manufacture of ice cream to the number of 107 and permits for the sale of ice cream to the number of 3,298 were granted by the department during the year. All new places were subjected to a rigid inspection before granting, and throughout the year a special detail of inspectors covered the inspection of ice cream manufacturies by a quarterly visit.

Market.— Inspection of stock and methods of pedlers in the Saturday and pre-holiday markets has brought about an improvement. A long standing practice has been for the pedlers to throw papers and other wastes of the business under their carts for later collection by the city street trucks. Every effort is being made to have each pedler provide his own means for caring for waste, without littering the street. One practice to which a stop was put was that of certain unscrupulous pedlers selling unwholesome tomatoes. These tomatoes, due to some blight or disease of the tomato plant, are badly spotted at the stem, and some pedlers are able to foist these goods on the public by exposing only the good half of the tomato. Inspection of the carts in line

waiting for the market opening and further inspection of later comers has served to bring about generally satisfactory conditions.

Nuts.—Cooperative work has been done with representatives of the Boston station of the United States Food, Drug and Insecticide Administration on nuts. Late in the year a survey was made of warehouses and wholesale establishments dealing in all classes of nuts. In the course of this inspection 2,600 pounds of chestnuts were condemned. The nuts were rated from thirty-five to ninety per cent decayed and moldy. This condition may be due to the requirement of sterilization of chestnuts received from abroad. The seizures are a real saving to the buying public, as unscrupulous pedlers are able to work a percentage of these bad nuts into each pound of good ones and thereby escape detection.

Poultry.—For many years it has been the unvarying policy of the department not to issue permits to pedlers of live poultry who propose to go about from house to house selling from motor trucks. This is in spite of the fact that it was possible since September 1, 1929, for a pedler to get a permit for such business from the State Division of Standards. The state permit for this city was really inoperable in the face of the city ordinance and health regulation forbidding the bringing into the city or offering for sale of live poultry without a permit from the Health Commissioner. Such a situation was bound to bring about embarrassing developments, and that proved to be the case in that numerous applicants of unquestioned character have appeared at the office of the department for the purpose of obtaining the desired permit. Not alone from that angle, it also appears that poultry raisers throughout New England, particularly those handy to Boston, were highly incensed at what they believed to be an unwarranted embargo which prevented them from getting the higher prices possible by sales direct to the consumer. It was pointed out in the last annual report that the questions involved were pressing for solution, and this estimate proves far from exaggeration. The present situation of the department may briefly be described as follows: On the one hand is nuisance and possible sickness resulting from holding and slaughtering chickens in private homes, and on the other hand are the local poultry raisers who seek a legitimate outlet for their wares. Undoubtedly there is a large demand for live fowl by persons who may only feel

assured of a fresh killed fowl when the work is performed by themselves. At present there are about fourteen poultry slaughter houses, selling live fowl to be killed before being taken away from the premises. These places would suffer materially if licenses were granted to itinerant vendors of live poultry. Perhaps the most practical solution of the difficulties presented would be the adoption of a new policy whereby a few itinerant permits were issued, strictly on a trial basis. Whether or not this policy would be further extended or discontinued entirely could properly depend on results obtaining from the experiment.

Sausage Manufacturers.—All plants engaged in this line of business are subject to extra inspection throughout the year. The new sausage law which forbids the manufacture, as well as sale, of a certain unwholesome type of sausage, was brought to the attention of the various establishments by means of a circular. This law will tend to do away with an excuse frequently offered that the type of sausage objected to is being manufactured for an outside trade where the standards are less stringent.

Sterilization.—Work on sterilization of dishes, glasses and silverware in the service of food and drink at restaurants and soda fountains, continued to be a major employment of the food inspection service. Throughout the hot weather months, particular attention was paid to require persons operating temporary refreshment stands, not equipped with the necessary sterilization facilities, to supply straws, paper dishes and cups that are thrown away after one use.

Terminal Inspection.—Inspection at the railroad terminals was marked by huge condemnations of fruit and vegetables arriving in the city in unwholesome condition. The warmest June on record contributed largely to the total. At one period, six tons of lettuce and eleven tons of celery were declared unfit on arrival at the terminal. In the fall of the year condemnatory action was taken on five carloads of grapes found to be decayed and mouldy.

Tonic.—Fifty-six licenses were issued throughout the year for the manufacture or bottling of carbonated nonalcoholic beverages. From time to time each place is given a careful inspection.

Victuallers (Hotels and Restaurants). Establishments serving food to be consumed on the premises continued to be subject to careful supervision as to

cleanliness of premises, sanitary methods of service and wholesomeness of food. Special attention is given to methods of sterilizing dishes and utensils in service. The regulations of the department insist that after each service there must be a complete sterilization of equipment, usually by hot water. The chief problem in this connection is to see that all places have an ample supply of hot water on hand at all times, and that the hot water is used for efficient results. The difficulty is obvious in that where the system is designed for dish washing by hand only, there is the natural tendency to limit the temperature of the water on the part of the employees engaged therein. The restaurant system of the intown and Back Bay districts was given a severe test in October in connection with the American Legion Convention. As it was assumed that vast crowds of people from all parts of the country would gather in the city, resulting in heavy patronage of the downtown foodstores, it was deemed advisable to have a special inspection of the Back Bay and city proper restaurants. For a few days in advance, all inspectors were assigned to this special work. Particular attention was paid to the quality of fish and shellfish intended for sale. The success of the efforts of the inspectors was demonstrated by the fact that no complaint was received of the sale of unwholesome food during the convention.

Miscellaneous.—Early in the year a report was received from the local station of the Food, Drug and Insecticide Administration, that numerous cases of a certain type of paralysis had occurred in various sections of the country, and that investigation seemed to indicate that the cases resulted from drinking fluid ginger extract from bottles marked with the label of a Boston concern. Investigation was at once begun by the Federal food and prohibition officials, and their work was supplemented by a careful inquiry instituted by this division to ascertain if any adulterated ginger was being manufactured or bottled here. None of the samples taken at different establishments by the food inspectors showed any trace of unusual characteristics, although from information received from the prohibition enforcement it would appear that some of the barrels located had a small content of methyl alcohol. The nature and extent of the subject matter was such that it was shortly deemed desirable to leave the entire

inquiry to one agency, the federal prohibition enforcement, and for that reason action by the federal and local food forces was discontinued.

The investigation of the fluid extract of ginger sales was carried on vigorously and indictments were returned in four states against three Boston business men. Final action is still pending. This division has no exact information as to the nature of the adulterant in the extract of ginger which caused the serious results.

Attached are tables showing detail of work.

E. A. DOWD, M. D. V.,
Veterinarian.

BOSTON, December 31, 1930.

FRANCIS X. MAHONEY, M. D.,
Health Commissioner.

SIR,—I have the honor to submit, in addition to the tabulated report, the following résumé of the activities of the veterinarians for the year ending December 31, 1930.

The major activities of the veterinarians assigned to the Medical Division of the Boston Health Department are in relation to the investigation of dog bite cases and the attendant dangers of rabies. Rabies, among our domesticated animals, shows no diminution in the number of cases and the general public does not realize how great a menace it is. Rabies is a preventable disease and should not exist in any civilized community. When the general public insists, and apparently not until then, rabies will be eradicated. Veterinarians and all other interested persons should promptly report to the Boston Health Department all cases of rabies, or suspected cases, of which they have knowledge. There are so many obvious reasons why such reporting is demanded that failure to do so seems almost unbelievable.

The spread of rabies in the vast majority of cases is directly traceable to the stray dog, whose liberty is absolutely unrestricted and whose tendency to roam in consequence brings in many instances dire results.

For many practical reasons, which need not be specified here, the elimination of the stray dog from the streets of Boston is primarily a duty of the Health Department, and therefore the collection of dogs should be placed directly under the control of the Health Department where, without doubt, it properly belongs.

Since September 26, 1928, under the authority of sections 6, 7, 109, 111 and 112, of chapter 111 Massachusetts General Laws, all dog bite cases are reportable to the local Health Department. The insistence of such prompt reporting has certainly resulted in a marked increase in the number of cases. With the prompt notification of dog bite cases almost all physicians and hospitals seem to consider their responsibilities at an end. If, however, an effort was made to report also the location of the dog in question, many more dogs would be examined, delays avoided, the uneasiness of the patient much sooner allayed and the precautionary administration of the Pasteur treatments would be greatly reduced. Some few physicians, notably the Boston City Hospital and also the Boston Police Department, make consistent and usually successful efforts to locate the biting dog and include this in their report. The Boston Police Department in addition to this procedure have instituted the most

gratifying method of having the biting dog confined until examined by a veterinarian of the Boston Health Department.

That the health of dogs is slowly, but perhaps surely, coming to receive the consideration so long denied, is made evident by the recent decision of Arizona to require a health certificate from an authorized veterinarian before a dog will be permitted to enter the state.

With the possible exception of the unallayed uneasiness regarding the rabies situation the outstanding event to be recorded in connection with a report of the work of this department was the furor caused by psittacosis among parrots early in January. To many, psittacosis was believed to be a new disease. This is not the case. Psittacosis has for many years been probably more or less constantly present in the northern Argentine provinces of Santa Fe, Corboda and Tucuman where parrots are plentiful. To prove conclusively that psittacosis is not a new disease, Ritter observed a house epidemic in Switzerland in 1879. Parrots afflicted suffer with loss of appetite, their feathers bristle, and the birds are prostrated to a marked degree. There is present also a secretion which adheres to the bill and eyelids, breathing is difficult, pulmonary rales are noticeable, and a greenish diarrhea, which is claimed to be diagnostic, is present. Mortality in all cases is very high. German authorities have been inclined to blame Argentina for the prevalence of psittacosis. This accusation is stoutly denied by the Argentine authorities who hold the Brazilian parrots responsible for the spread of the disease since Brazil is the principal source for pet parrots.

The Surgeon-General of the United States Public Health Service, Hugh S. Cumming, estimates the importation of parrots chiefly from Buenos Aires, the west coast of Africa and from Australia, as between 50,000 and 60,000 birds.

On January 24, President Hoover declared an embargo against the importation of parrots from any foreign port. This embargo was removed in November.

Many calls came to the Health Department from owners of parrots in Boston, who were very much alarmed regarding the health of their birds. These calls, the subsequent examination of the parrots, and the intensive search for psittacosis among the bird and animal stores in Boston necessitated the assignment of

a veterinarian exclusively to this line of work, which was continued for a considerable period. The disease, although everything possible was done to discover a case, was not found among the birds in Boston.

Tularemia, an Animal-Bourne Disease.— The disease “tularemia” has assumed such proportions in the United States that the United States Bureau of Biological Survey has issued a statement summarizing the available information relating thereto; extracts from this statement follow:

“The disease itself is a plague-like disease of rodents, transmissible to man. It was originally discovered in ground squirrels in California in 1910.

“Later investigations have disclosed the disease in many states, although, as yet, the disease has failed to make its appearance in the New England States. Human cases have been definitely traced to rabbits or other animals in the locality or to shipments of diseased animals sold in the public markets. The disease is carried from animal to animal and to man by bites of the infected deer flies and ticks. Ticks carry the infection through the winter and females transmit it through the eggs to the next generation.

“In wild rabbits a spotting of the liver and spleen with yellowish or whitish flecks is the most characteristic symptom. Stupor or evidences of sickness in a rabbit should be regarded with suspicion. Diagnosis is made by inoculating guinea pigs with spleen or liver of the suspected animal and then examining a culture isolated from the inoculated animal after death.

“No protective vaccine has thus far been determined nor has any treatment been found effective. Care must be taken to avoid as far as possible bites of deer flies or ticks. When dressing animals rubber gloves should be worn but this does not furnish absolute protection. The same method should be used in handling fresh skins. As infected animals usually die within five or six days, although they may not invariably do so, a ten-day quarantine is an essential safeguard. When restocking is desirable this quarantine should be rigidly enforced.

“All rabbits that die after capture during shipment or while held in quarantine should be examined by competent persons to determine the cause of death.”

Cattle.— There were, according to the report of the Massachusetts Department of Animal Industry for the

year ending November 30, no milch cows condemned in Boston for tuberculosis.

The condition of the cattle in Boston is satisfactory, and the stables and surroundings are well kept. The march of progress has materially reduced the pasturages and there is a steady diminution in the number of herds.

The new regulations relating to contagious abortion, issued by the Massachusetts Division of Animal Industry, is published in this report that it may be available to interested parties.

THE COMMONWEALTH OF MASSACHUSETTS.

DEPARTMENT OF CONSERVATION, DIVISION OF ANIMAL INDUSTRY,

STATE HOUSE, Boston, June 24, 1930.

To Transportation Companies, Inspectors of Animals, and all persons whom it may concern.

SECTION 1. A bovine animal which has recently aborted or which has given a positive or suspicious reaction to the agglutination or complement fixation test for Bang Abortion Disease (Contagious or Infectious Abortion) shall not be shipped, driven, transported or moved into the Commonwealth of Massachusetts except upon and accompanied by a special permit issued by the Director of Animal Industry.

SECT. 2. Any animal brought in on a permit as referred to in Section 1 of this order is hereby declared to be in quarantine and must be held in isolation at the risk and expense of the person, firm or corporation owning the same until released by order of the Director.

SECT. 3. An animal as referred to in Section 2 of this order after passing two approved negative blood tests for Bang Abortion Disease made after arrival and at least three months apart may be released by the Director.

This order shall be published by the Inspector of Animals in each city and town in the Commonwealth by filing a copy hereof with the City Clerk or Town Clerk as the case may be and by posting a copy hereof in a conspicuous public place within the city or town for which he is the Inspector of Animals.

EVAN F. RICHARDSON,
Director of Animal Industry.

Approved:

W. A. L. BAZELEY,
Commissioner of Conservation.

Approved in Council: July 16, 1930,

WILLIAM L. REED,
Executive Secretary.

Poultry.— Although many flocks were examined in the customary routine of inspection, but few requests were

received from poultry owners to have their birds examined. No contagious disease was discovered among the various flocks of poultry in Boston. Constipation occasioned many fatalities, but as the owners carefully followed the instructions furnished by the Health Department deaths soon ceased and the afflicted flocks quickly regained their normal health.

For many years chicken pox has taken regular toll from the poultry owners in the country, usually appearing in the late summer, fall and early winter. This disease reduces production, causes sickness and death, makes poultry keeping unprofitable and brings considerable discouragement to the poultry keeper.

In itself chicken pox is serious, but it is usually associated with certain allied infections, colds, croup and canker, which seldom make their appearance when chicken pox is controlled. Chicken pox is readily recognized, and is contagious to a very marked degree. Pustules appear on the comb, followed by scabs on the comb, face and wattles and sometimes on shanks and body, frequently closing the eyes and making it impossible for infected birds to see to eat.

A method of vaccination was recently found which immunizes the flock so treated and makes it possible for the poultry man to secure a full season production without fear of chicken pox.

It is advisable to vaccinate the flock, when feasible, in warm pleasant weather, where they can quickly come back to normalcy and when there is no danger of the vaccine causing an acute generalized type of infection. The vaccination produces a very mild attack of chicken pox which produces immunity usually for life. This vaccine is inexpensive, easily administered and there is no good reason why every poultry man should not have his flock vaccinated. This vaccination can be successfully applied by any competent veterinarian.

Swine.—As hogs in Boston are inoculated against hog cholera not a case was discovered or even a suspicious drove. There are but two large piggeries in Boston, one the Municipal Piggery at Deer Island and the other at the Boston State Hospital. The health of swine within the confines of Boston is very good.

Glanders.—Seven horses were found by the Massachusetts Division of Animal Industry to be suffering

from glanders and were immediately and humanely destroyed. Full precautions were taken to prevent the spread of this disease and these precautionary measures were evidently successful, for although numerous mallein tests were made no further positive cases were discovered.

Respectfully submitted,

EUGENE A. DOWD, M. D. V.,
Veterinarian.

REPORT OF MILK INSPECTOR.

BOSTON, January 1, 1931.

FRANCIS X. MAHONEY, M. D.,
Health Commissioner of Boston.

DEAR SIR,— I have the honor to submit the following report for the year ending December 31, 1930.

The total number of samples collected was 25,328, which was twenty-two samples more than were collected in 1929, this increase occurring although the full force of collectors of samples was short one man for two months because of his transfer to another department. This shortage in man power was equivalent to the collection of approximately 1,200 samples.

The number of court cases for the year was 122, 54 less than in 1929. No unusual violations of the law and regulations were discovered. The principal inspectional activities of this office outside of the established routine have been connected with the enforcement of the regulation establishing a maximum limit of 750,000 bacteria per cubic centimeter in pre-pasteurization milk.

In connection with the quality program which was set up in 1929 a survey was again made of the bacteria content of pre-pasteurization milk destined for the grade known as market milk; 4,607 samples were taken as delivered to establishments for the pasteurization of milk and the following table shows the results:

Results of Bacteriological Examinations of Raw Milk as Received
for Pasteurization.

From January 1 to December 31, 1930.

BACTERIA PER CUBIC CENTIMETER.	Number of Samples.	Per Cent of Samples.
Under 50,000.....	390	8.4
50,001 to 100,000.....	780	17.0
100,001 to 200,000.....	908	19.7
200,001 to 300,000.....	902	19.6
300,001 to 400,000.....	568	12.3
400,001 to 500,000.....	201	4.4
500,001 to 600,000.....	208	4.5
600,001 to 750,000.....	259	5.6
Total under 750,000.....	4,216	91.5
Total above 750,000.....	391	8.5
Total samples.....	4,607	

Per cent under 750,000, 91.5. Per cent above 750,000, 8.5.

Especially significant is the figure of 8.5 per cent as approximately representing the amount of all pre-pasteurization milk in excess of 750,000 bacteria per cubic centimeter. Comparing this figure of 8.5 per cent with the 13.7 per cent of all samples which were above 750,000 in 1929 a very satisfactory improvement is shown. The causes for these high counts were as usual found to be improper cooling, dirty milk, and dirty cans, of importance in the order named.

The drought of 1930 imposed upon the producer of milk great hardships. This drought not only made it difficult to secure water for cattle but also in many cases made it very difficult, if not impossible, to secure water for cooling the milk. When this is considered the progress made in 1930 as represented by the above figure of 8.5 per cent seems quite remarkable.

Interest in the quality program set up in 1929 has been maintained with difficulty because of the discouraging effects which a declining price for market milk has had upon producers.

I view with great concern this decline in price of milk which was experienced in 1930. At 13 cents a quart for pasteurized market milk, pasteurized milk is the cheapest safe food available. At 13 cents a quart retail the producer receives about 6 cents a quart, barely a living income above the cost of production. At 10 cents a quart retail, the price prevailing now, the producer gets about 4 cents a quart, which is below the cost of production. No business man will long continue to make a product and lose money. The producer of milk is no exception. The price of his product when too low discourages him; he gets careless; and will no longer pay attention to those little details which make for quality milk. Compare the food values contained in one quart of pasteurized milk at 13 cents with a quart of soft drink, such as orangeade, the food value of which is negligible and for which citizens pay 18 to 20 cents a quart with scarcely a thought to the cost. The prosperity of the soft drink manufacturers is scandalous. It is a calamity, the results of which will be reaped in the future when the price of milk, a necessity of life, declines from 13 cents to 10 cents a quart.

Already I notice the quality of milk delivered at establishments for the pasteurization of milk is depreciating. We will, indeed, be fortunate if the figure of 91.5 per cent of all milk having a bacteria content below

750,000 and received by establishments for the pasteurization of milk does not represent a high mark for some time to come.

Everywhere in the country at meeting places; in the farm papers of all descriptions, including publications from the United States Department of Agriculture, state experiment stations, and journals of producer organizations, producers of milk are being urged to cut production. A wave to cut production has started and will grow to such proportions that men with foresight already fear that a milk shortage in 1931 is inevitable; a milk shortage with its inevitable proportion of poor quality milk which is sold because the public must and will have milk.

Thus the entire program of a quality product at a fair price is upset so completely that a lot of hard work over a considerable period will probably be needed to again get back to the standard set by the quality market product of 1930. How much better a fine pasteurized market milk of the quality of 1930 at a price which gives the producer a fair return on his labors and investment, encourages him to carry on, and yet is to the consumer so fair indeed that pasteurized milk is still the cheapest safe food available. A stabilized market would safeguard the quality of milk as well as the price. Such a stabilized market it is hoped the New England Dairies, Inc., will provide. These New England Dairies, Inc., a proposed marketing organization of producers created with the cooperation of the Federal Farm Board, can save both the consumer and producer from the destructive results of the chaotic price conditions of the fall of 1930.

Western Cream.— In order to protect the milk supply of Boston from the destructive effects caused by the illegal and unfair competition offered by Western cream in unlimited quantities at cut prices, the Health Commissioner on February 15, 1930, declared an embargo against Western cream. This embargo was kept tight until November 27, 1930, when it was lifted to a limited extent. As a result of this embargo production within the inspected milk shed was stimulated and a quality program sponsored by producers was encouraged.

During the year, in cooperation with the dairy division, a program was worked out for more adequate control of Western cream when and if it might become necessary to admit it for sale in Boston. A question-

naire in the form of a utilization report was prepared so that purchases might be limited to actual needs in terms of actual shortage of cream as measured by the difference between the actual demand from consumers and the actual supplies from inspected areas. A program was also worked out for a limitation of producers of Western cream to sources of demonstrated ability to ship cream of good quality.

License Law.— Collections for license fees in 1930 were \$3,655.50, representing 7,311 licenses; whereas in 1929 \$3,647.50 were collected and 7,295 licenses were issued.

Number of Milk Dealers and the Quantity of Milk Handled Daily.— In 1930, 87 licenses were issued to wagon dealers. In 1929, 88 such licenses were issued.

The number of shops selling milk is somewhat greater than last year as 6,460 store licenses were granted, whereas 6,406 were granted in 1929.

The amount of milk received daily in 1930 was less than in 1929. Approximately 874,388 quarts of milk were reported as received daily by the Boston dealers. This is approximately 11,975 quarts less than the average daily receipts of milk reported in 1929. In 1929 the people of Boston were reported to have consumed approximately 392,890 quarts of milk daily. In 1930 Bostonians were reported to have consumed approximately 388,646 quarts of milk daily, which is 4,244 quarts less than in 1929. Approximately 540 quarts of milk, or 0.14 per cent of the total consumed daily in Boston, were the product of the 54 cows kept within the city limits for the purpose of producing milk for sale. The number of cows reported in 1929 was 64.

Certified Milk.— The program for the elimination of infectious abortion from herds producing certified milk under the supervision of the Medical Milk Commission of Boston, Inc., adopted in July, 1929, with January 1, 1931, as a time limit when clean-up must be completed, was consummated on schedule. Inasmuch as this certified milk is the only raw milk which can be sold in Boston, the importance of having the cows producing such milk as free from disease as it is humanly possible to have them, cannot be over-emphasized, and such is the program adopted by the above commission. About 4,511 quarts of certified milk are sold daily in Greater Boston, of which about 1,591 quarts of certified milk are reported as being sold daily in Boston. This

amounts to about 0.41 per cent of the total daily sales of all milk and is a decrease of 938 quarts daily.

Certified Milk — Pasteurized.— This is certified milk produced under the supervision of the Medical Milk Commission of Boston, Inc., to which the additional safety afforded by pasteurization has been added under the supervision of the Commission. It is the cleanest and safest milk that has ever been available to the consumer. The average bacteria content is less than 100 per cubic centimeter and many times shows no growth whatsoever when examined by the standard plate method of the American Public Health Association. About 585 quarts of certified milk — pasteurized are sold daily in Greater Boston, of which about 285 quarts are sold in Boston. These figures do not include a very substantial quantity of milk which is actually certified milk—pasteurized, but is not so labelled by the producer. These daily sales of certified milk — pasteurized amount to 0.07 per cent of the total daily supply of milk.

Grade A Milk.— The amount of Grade A milk reported as sold daily in Boston in 1930 was 23,434 quarts, a reported daily sale of 916 quarts less than in 1929. This amounts to about 6.03 per cent of the total supply.

Buttermilk.— The approximate average daily sales of buttermilk in 1930 was 2,646 quarts. Of this quantity very little was true buttermilk. The average daily sales of 1929 was 3,247 quarts.

Butter and Cheese.— Four samples of butter and cheese were examined. No violations of the law were found.

Oleomargarine.— The number of oleomargarine registrations was smaller than last year. 764 registrations were issued in 1930 and 801 registrations in 1929.

Vinegar.— 791 samples of vinegar were collected and eight (8) violations of the law were found and prosecuted to conviction.

Ice Cream.— The regulations of the Health Commissioner for ice cream have been enforced. 107 licenses were issued for the manufacture of ice cream. The outstanding achievement continues to be the results of the permit system for the sale of ice cream adopted by regulation of the Health Commissioner. 3,298 such permits were issued. The improvement in the sanitary condition of sales at retail which were shown to some extent by the 1929 report was maintained, as is indicated in the following table:

Results of Bacteriological Examinations of Ice Cream.

BACTERIA PER CUBIC CENTIMETER.	PERCENT OF SAMPLES COLLECTED.				
	1926.	1927.	1928.	1929.	1930.
Under 50,000.....	4.9	0.8	0.6	51.8	76.6
50,001 to 100,000.....	9.6	12.7	20.0	35.4	11.1
100,001 to 200,000.....	36.4	45.6	57.0	7.8	4.4
Total under 200,000.....	50.9	59.1	77.6	95.0	92.1
200,001 to 300,000.....	13.6	16.0	13.0	1.1	2.6

Total above 200,000.....	49.1	40.9	22.4	5.0	7.9

New Regulations.—In order to maintain an adequate supply of milk it is necessary that dealers carry a surplus, and whether milk produced is ultimately to be sold as milk or as cream it must all have a bacteria content of not more than 750,000 per cubic centimeter in the raw product at the establishment for the pasteurization of milk, and also it is necessary that the organization and equipment exist for shifting cream to milk or milk to cream on short notice according to demand.

As an aid to the producer in his efforts to improve his product two new regulations were adopted which require in substance that all milk be delivered daily to receiving stations either as milk or as cream. A marked improvement in the quality of milk and cream received for pasteurization was immediately noticed. Because of transportation difficulties, however, 100 per cent enforcement of the regulation requiring that cream be delivered daily to receiving stations was delayed to some time in the near future, but all deliveries were required to be at least four times a week.

Sale of Milk from Dip Tanks in Restaurants.—A survey was made of all prosecutions in recent years for

violations of the milk law resulting from milk being offered for sale at retail and disclosed that 75 per cent of all such prosecutions resulted because of the sale of milk from bulk in restaurants to be consumed on the premises. Only 25 per cent of all such violations were due to the sale of milk in bottles. It is again recommended that the Health Commissioner adopt a regulation prohibiting the sale of milk from bulk in all eating establishments.

New Legislation.—An investigation was made of the conditions surrounding the manufacture of sherbet. It was found that many dealers licensed to manufacture ice cream also manufacture sherbet under the same conditions of sanitary control as provided by statute and regulations of the Health Commissioner for the manufacture of ice cream. It was also found that certain dealers who formerly manufactured ice cream under the conditions which prevailed prior to the enactment of the Ice Cream Act of 1927 gave up the manufacture of ice cream rather than meet the standards imposed by the aforesaid act. They did not, however, go out of business, but simply called their product “sherbet” or “frozen milk.” Some of the conditions disclosed by the investigation were abominable. No lavatory facilities for employees; toilets a part of the room in which the sherbet was manufactured; employees going directly from the toilets to the working of the sherbet without washing their hands were observed. As a result Senate Bill No. 42 was petitioned by his Honor James M. Curley, Mayor of Boston, for the regulation of the manufacture and sale of sherbet, the purpose of which was to place the manufacture of sherbet under the same conditions of sanitary control as now obtain by Acts of 1927 in the manufacture of ice cream.

When the milk laws were first enacted soda fountains and the sale of milk as the important ingredient in mixed milk drinks did not exist. A huge quantity of milk is now sold at soda fountains as mixed milk drinks. The customer asks for milk and expects to receive milk as defined by the statutes when he uses the word milk in connection with these mixed milk drinks. The vendor displays signs in which milk is advertised as an ingredient in the mixed milk drinks, such signs as

“Soda 5 cents.”

“Soda with Milk 10 cents.”

Milk so sold is under absolutely no supervision by health authorities because such sales are outside the milk law. A preferred class has thus sprung up which morally at least makes a sale of milk but legally is not subject to the provisions and penalties provided by law with respect to sales of milk. It has never been the intent of the Legislature that such a class should exist, and in order to bring such sales within the law, his Honor James M. Curley, Mayor of Boston, introduced House Bill No. 246.

Samples in the Custody of the Bureau of Milk Inspection for Examination During the Calendar Year 1939.

Pasteurized and Raw Milk.— Approximately 388,646 quarts of milk were reported as delivered daily in Boston, of which 387,055 are pasteurized milk, equivalent to 99.59 per cent of the entire daily consumption of milk; and 1,591 quarts are Certified Milk, equivalent to 0.41 per cent of the entire daily consumption.

Temperature of Milk in Stores.— The system of trying to ascertain in each case the cause for any milk in the hands of the retailer being found at a temperature greater than 50 degrees Fahrenheit, which was estab-

lished in 1928, was continued in effect in 1930. In 1930, 121 warnings were sent where the temperature was more than 50 degrees Fahrenheit, a substantial improvement over the 141 such notices sent in 1929.

Bacteriological Examinations of Bottles and Caps.—To test the efficiency of bottle washing by different firms, examinations of bottles were periodically made to determine their bacterial content. In all 198 bottles were tested. They were considered and reported on a group basis, each finding is the average of two bottles collected from a dealer at one time. Figures were obtained representing ninety-nine groups. On this group basis, there were seven returns on half-pint bottles, five on pint bottles and eighty-seven returns on quart bottles. Detailed results are shown below:

GROUPS.	Size of Bottle.	Under 500 Bacteria.	Average Bacterial Content.	501 to 1,000 Bacteria.	Average Bacterial Content.	Over 1,000 Bacteria.	Average Bacterial Content.
7.....	$\frac{1}{2}$ Pint.	7	39				
5.....	Pint.	5	66				
87.....	Quart.	76	70	6	650	5	4,770

Where groups of bottles were found to contain organisms in excess of 500, a warning was issued to the dealer and a follow-up inspection made. As a result of these notices and follow-up inspections, greater interest is being displayed in the matter of cleaning containers.

Bottle caps were also tested on the same plan as that adopted for the bottles. In all, 536 were examined and averaged according to the dealers from whom they were obtained, on a basis of ninety-six groups. The results of these examinations appear below:

GROUPS.	Under 50 Bacteria.	Average Bacterial Content.	50 to 100 Bacteria.	Average Bacterial Content.	Over 100 Bacteria.	Average Bacterial Count.
96.....	82	25	12	70	2	320

Warning letters were sent out to dealers and a follow-up inspection made where caps were found to carry

more than fifty organisms each. The bottle and cap examinations were made by the Bacteriological Laboratory of this department.

Bacteriological Examinations.— In the following tables will be found the results obtained in the examination of 8,663 samples of milk and cream collected for bacteriological examination.

Where milk exceeded the bacterial standard of 50,000 per cubic centimeter, or cream exceeded the limit of 500,000 bacteria per cubic centimeter, warnings were issued as follows:

Receipts from license fees	3,655.50
Total	<u>\$4,995.50</u>

Respectfully submitted,

FRANK E. MOTT,
Milk Inspector and Chemist.

REPORT OF DAIRY DIVISION.

FRANCIS X. MAHONEY, M. D.,
Health Commissioner.

DEAR SIR,— I have the honor to submit the following report of dairy inspection activities for the year ending December 31, 1930.

The product of about 120,000 cows on New England farms, also New York State and the Province of Quebec, is necessary to provide the 650,000 quarts of milk needed to supply the citizens of Boston with milk and cream.

To properly supervise this production of milk the Dairy Inspection Division of the Boston Health Department was organized in 1910. This division concerns itself with the inspection of dairy farms, milk receiving stations, country creameries, and city distributing plants, a corps of inspectors being constantly engaged in this work. Before any dairy can send milk to Boston it is necessary for it to apply for and secure a permit to do so. Before a permit is issued a dairy inspector must examine and approve of the sanitary conditions obtaining at the dairy and the methods of milk production. The score card of the United States Department of Agriculture is used and a minimum score of 50 is acceptable for market milk. This score card is especially valuable as it introduces a spirit of rivalry among producers, each one working for a higher score than his neighbor. By this system poor dairies and producers who are unwilling to improve are weeded out with the result that progress in dairy farm sanitation is encouraged. Faulty conditions of production found on a dairy farm at any time are sufficient to warrant exclusion of the product from the Boston market supply unless the faults are at once remedied.

Milk from each approved dairy is daily transported to Boston, either directly by truck or by delivery, to a country creamery or receiving station where the milk is further refrigerated and sent to Boston by railroad. The country creameries and receiving stations are under

constant inspection as to equipment and methods of operation. No faults are tolerated.

The bulk of the milk is transported to Boston by railroad, in modern refrigerator cars, and the milk is either in forty-quart jugs or in tank cars. Thirty-six tank cars are now in use and the number is increasing. The tank milk car is really a huge glass lined bottle similar to a thermos bottle. It marks a great improvement in the sanitation of milk transportation.

In Boston the milk is received at establishments licensed to pasteurize milk, the owners of which are also licensed milk dealers. Here the milk is pasteurized in strictly modern equipment approved by the Boston Health Department. This equipment is located in suitable buildings so constructed as to be easily maintained and operated in a cleanly manner. At the end of the processing each day all equipment is taken apart, cleaned and sterilized in preparation for the work of the next day. Inasmuch as a minimum temperature of 140 degrees Fahrenheit, and a maximum of 145 degrees Fahrenheit and a holding at that temperature for a period of thirty minutes are the important steps in the process of pasteurization, all pasteurizing equipment is provided with automatic recording devices which show upon a chart the record of the temperature and holding period of each lot of milk pasteurized. A dated chart must be on file showing the results of each day's operation. After pasteurization the milk is cooled to below 50 degrees Fahrenheit, and is then bottled and capped. The milk bottle caps are purchased in sealed tubes and the process of bottling the milk and the capping of the bottle is all done by machinery. From the time the milk is emptied from the container in which it comes from the country until the milk is delivered the human hand does not touch it. The bottles in which the pasteurized milk is placed are first washed and sterilized by apparatus and temperatures are automatically controlled. All of the establishments for the pasteurization of milk are under constant supervision.

A detailed summary of the work for the past year follows:

Total number of services	19,630
Number of dairies inspected	7,355
New dairies inspected	799
Inactive dairies	181

Dairies scoring 50 points (passable mark)	5,461
Dairies scoring below 50 points	1,894
Dairies with milk room	6,160
Dairies without milk room	1,195
Total number of cattle inspected	121,443
Dairies excluded because of insanitary conditions	884
Dairies readmitted upon compliance with recommendations	687
Dairies where improvements are still pending	197
Applications for dairy permits	2,471
Inspection of milk plants and licensed dealers	3,123
Investigation of high bacterial counts at city plants, ...	43
Inspections of country creameries	147
Sediment tests	6,446
Bacteriological examinations at country creameries, ...	2,335

Table of Dairy Inspections, Inactive Dairies, Country Creamery Inspections, Microscopic Examinations, Dairy Exclusions and Readmissions by States.

Respectfully submitted,

R. E. DYER, D. V. S.,
In Charge, Dairy Inspection Division.

REPORT OF SANITARY DIVISION.

BOSTON, January 2, 1931.

DR. FRANCIS X. MAHONEY,
Health Commissioner.

DEAR SIR,— Following is the report of the activities of the Division under my direction for the year 1930.

PERSONNEL.

<i>January, 1930.</i>	<i>December, 1930.</i>
Deputy Commissioner.	Deputy Commissioner.
Chief inspector-supervisor.	Chief inspector-supervisor.
5 Supervisors.	5 Supervisors.
42 Sanitary inspectors.	43 Sanitary inspectors.
1 Illuminating gas investigator.	1 Illuminating gas investigator.
3 Police officers.	4 Police officers.
1 Constable.	1 Constable.
2 Rat men.	2 Rat men.
4 Clerks.	3 Clerks.
Convenience stations.	Convenience stations.
1 Chief caretaker.	1 Chief caretaker.
17 Caretakers.	17 Caretakers.
10 Matrons.	10 Matrons.

The work of the division in the abatement of nuisances, the removal of sources of filth and causes of sickness, including insanitary buildings, yards, areas and vacant lots, has been carried forward consistently, and I feel that the results attained have been satisfactory, and, as a result of the work, the city is in a clean and sanitary condition.

The inspection force is now covering the full 42 routes under the six supervisory districts laid out, and one inspector has been detailed for special work on public halls, theatres and other places of public amusement under the direction of the licensing division of the Mayor's office.

Each inspector is held responsible for conditions on his route and for the proper enforcement of the laws,

ordinances and regulations of the Health Department relating to the abatement of nuisances and correcting of insanitary conditions. This includes the periodical inspections of tenement, three-family and lodging houses required by statute, and regular routine inspections of stables, dumps, premises where are kept live fowl under permit from this department, barber shops, the so-called "offensive trade" establishments including premises causing nuisance by smoke and fumes.

Applications for the conducting of lying-in hospitals referred to this department by the State Division of Charities have been investigated for certification.

Tenement, Three-family and Lodging Houses.— Working under the requirements of chapter 550 of the Acts of 1907, as amended by chapter 586 of the Acts of 1913, the premises indicated in the heading have received the attention called for by the law. Upon initial inspection a permanent card record has been made, and the semi-annual inspections called for have been made consistently to comply with the statute.

The few remaining public lodging houses have been the subject of night and day visits, with reports to the Police Department with recommendations as to issuance of licenses.

Yards, alleys and vacant lots have been kept under observation and cleaning has been ordered when found necessary. A survey of dilapidated, abandoned automobiles littering the yards, alleys and vacant lots throughout the city was undertaken during the spring for the information of the Boston Tercentenary Committee, who were to endeavor to have these old machines removed before the time set for the Tercentenary exercises. Approximately 350 locations with 2,400 abandoned machines were tabulated. It is hoped that authority will be given to enable the removal of these abandoned automobiles which are unsightly to say the least. At present there is no enabling legislation in regard to the matter.

Two of the large public alleys in the Back Bay district were resurfaced and drained during the year under the direction of this division. Several other alleys were considered but have not as yet been acted upon. It is a long and difficult task to get action on caring for these alleys, as it is necessary to have all the abutting owners agree to pay their proportionate part of the cost, select a contractor and go forward with the work.

Dumps.— Any report with regard to dumps should, in my opinion, start with the recommendation that the disposal of house wastes, especially the lighter refuse, by the antiquated dumping on vacant lots, be stopped, and provision made for disposing of the material by incineration. No matter how well handled or policed, these dumps are a potential nuisance by reason of the inevitable dust and smoke that is bound to exist. For at least six months of the year the material dumped is absolutely unsuitable for filling, being composed almost entirely of papers, cartons, excelsior and other light and inflammable waste matter. If incinerators were provided in different sections of the city this material could be disposed of in a proper manner, with a minimum of offence or nuisance. I strongly recommend some action be taken in the near future along the lines suggested.

One of these dumps, located in the East Boston district, caused considerable apprehension during the late summer by reason of smoke from the fires on the dump. It was claimed by the officials at the Boston Airport that the smoke from the burning refuse drifted to the airport adjoining and made the landing of planes difficult and dangerous. The fear was expressed that one of the large New York planes might be wrecked, with consequent loss of life. It finally became necessary to close this dump, and another location was found where the refuse could be dumped with a minimum of annoyance.

Continuing the policy adopted some time ago, approximately 250 references were made to the Building Department of premises needing attention by reason of dilapidated condition, and various defects found by our inspectors during their investigations.

Temporary drainage by cesspools or privy vaults have been passed upon and authorized in a number of cases where the premises were not served by a proper sewer. All these cases have been followed up to see that a proper cesspool or privy vault has been installed, and when the public sewer becomes available the various owners are notified to connect with sewer.

A special survey and intensive work in causing an improvement in drainage conditions along the waterfront was carried forward during the year. It was found that many buildings along the waterfront were not provided with proper drainage to the public sewers,

and that the wastes from many of the sinks and water-closets were discharging into the harbor. As a result of our work the entire waterfront from the North to the South stations, with two exceptions where the sewer was not available or accessible, is now properly drained.

A survey of drainage conditions along the Neponset river was undertaken during the year. On account of the low level of the water in the river the banks were exposed and complaint was made of conditions. No sewage was found to be discharging into the river. Some evidence of contamination was found in the water of the river, apparently coming from other cities and towns along the river. Until the extension of the Metropolitan sewer no relief can be expected.

The daily observations and reports on the different plants and factories throughout the city, which are apt to cause a nuisance by reason of odors or smoke, have been maintained, and the result of this attention seems to be apparent in the lack of complaints received from this source during the year.

While all the inspectors of the division take note of conditions regarding the breeding and infestation of rats in the respective districts and require the elimination of the pests so far as is possible, the two men especially rated as rat experts are doing intensive work along this line. They work principally along the waterfront and ships. Vessels from ports of the Orient are especially investigated to ensure the proper placing of rat guards, policing of gang planks, breasting off, etc. During the year 322 vessels were covered.

Special investigations and conferences with citizens asking for help and advice have been undertaken by these rat men.

The convenience stations under the control of the department were maintained during the year in good repair and condition. A new heating system was installed during the year in the station at 105 Dorchester avenue to replace the inadequate hot air system.

A matter which comes up from time to time is the question of providing additional service in parts of the city not already served by the existing convenience stations. At the present time a petition is under consideration from property owners and residents of the section around Blackstone park in the South End, asking that a convenience station be provided in that

neighborhood. There is no question but what an extension of this service is desirable and I would recommend that the matter be given consideration.

Plans for the indirect lighting and ventilation of water-closet apartments were examined during the year and eighty such plans were approved: These will be followed up carefully to see that the requirements are carried out.

Investigations were made of a number of premises reported as housing persons unable to properly care for themselves. In a number of such cases it was found necessary to require the removal of the occupant, either to the hospital at Long Island, or to the care of relatives.

The requirements of chapter 358 of the Acts of 1921, regarding the approval of applications for the transportation of garbage through the streets of the city have been carried out; such requirements being the inspection of vehicles and containers and the checking up of the locations, etc., as given in the application. A number of complaints have been received and investigated by the division concerning the collection by these parties, and it is felt that such outside collections should be discouraged as much as possible inasmuch as the work can be done with better satisfaction by the regular city departments under proper supervision.

The barber shops throughout the city have been kept under observation — inspections being made at least monthly. The shops are maintained in good condition in so far as cleanliness and compliance with the regulations are concerned.

Sand blasting operations are kept under observation as usual. No complaints have been received during the year, and the several companies doing the work have shown an entire willingness to cooperate with the department.

Many complaints of smoke and fumes from chimneys and ventilating stacks and fans have been investigated during the year. Where the nuisance was caused by defective or inadequate chimneys, the matter has been referred to the Building Department for attention. The ventilation systems of restaurants have been the cause of some complaint, and relief has been afforded in most cases by requiring the extension of the vent stack or the providing of a proper and adequate system of ventilation.

It became necessary during the year to consider court

proceedings against fifteen (15) offenders. Some of these were adjusted before actually taking the owners to court, but a number of cases were carried through with resulting fines of \$210. On account of the time consumed in court work, it is our practice to try to adjust all cases without reference to the courts, and only as a last resort is such action taken. During 1930, employees of the division spent 248 hours in court.

A tour along the waterfront with a committee interested in the removal of the old hulks and other debris, especially along Chelsea creek, was made late this fall. This appears to be a matter beyond our control, and it was decided that the Boston Port Authority had jurisdiction, and the matter has been referred to that board. These filthy old hulks, covered with slime and dirt, certainly are an eyesore at least, and need attention. It is hoped that something will be done to remedy conditions.

A number of indoor-golf courses opened during the fall and winter have required the attention of the inspector detailed on work relating to public halls and theaters. The rules and conditions governing sanitary conditions of public halls and theaters will be enforced at these new golf courses.

The usual inspections, especially at the time of licensing of places of amusement, in cooperation with the licensing bureau of the Mayor's office, has been carried on during the year.

The ship "Ellen Little," lying in the upper harbor, was the subject of an investigation during August, in cooperation with the Medical Division, the Police Department and the Massachusetts Society for the Prevention of Cruelty to Children.

Sanitary conditions on this ship were found to be very bad and action was taken to remove the occupants.

The ship was purported to be a training ship for junior naval cadets, and the man operating the scheme was indicted in the Federal Court for impersonating a naval officer. The fifteen boys found aboard were recruited from New York and New Jersey by advertisements representing that they would be taken on a nautical training ship for a training cruise and prepared for a cadetship. The boys were sent to their homes and the ship docked.

Work with other departments or agencies has been carried forward, including:

United States Public Health Service.— Work along the waterfront, including the inspection of vessels from plague suspected ports, with enforcement of the regulations regarding rat-guarding and breasting off from the docks.

Police Department.— In the inspection and certification of premises used as public lodging houses, and the examination of premises reported to the Health Department where persons have suffered from monoxide poisoning.

Building Department.— In the demolition and removal of defective buildings and parts of buildings, and the approval of plans for the indirect ventilation of toilet rooms and water-closet apartments. Approval of plans for temporary drainage by cesspools or privy vaults. Defects in buildings, including low and defective chimneys, defective and dangerous stairs, verandas, fire escapes, foundations, etc.

Fire Department.— Investigation of reports from the Fire Prevention Division of nuisances noted by inspectors of that division. Reference of applications for dumping locations, for approval by the district chiefs.

Board of Labor and Industries.— References of defects and maintenance in buildings used for manufacturing or mercantile purposes, such as improper or inadequate toilets; water-closets used jointly by both sexes; improper lighting and ventilation of work rooms, etc.

Public Works Department.— Cooperative work and assistance in matters relating to water supply, drainage, resurfacing of passageways, collection and disposal of refuse, sand blasting, etc.

The appended statements indicate statistically the work of the division for the year 1930.

Respectfully submitted,

T. J. DONNELLON,
Deputy Commissioner.

Respectfully submitted,

WILLIAM H. GRIFFIN, D. M. D., *Director.*

REPORT OF THE LABORATORY DIVISION.

BOSTON, December 31, 1930.

FRANCIS X. MAHONEY, M. D.,
Health Commissioner.

DEAR SIR,—I respectfully submit the following report of the activities of the Bacteriological Laboratory for the year ending December 31, 1930.

The total number of examinations for 1930, as stated in this report, is 50,280. As these examinations are made in duplicate, triplicate or quadruplicate the actual number is far in excess of the number given.

To this number should be added the following:

Swimming pools examined	800
Extra water specimens examined	60
Beach water examined	90
Milk bottles examined	198
Caps for milk bottles examined	536

making 1,684 to be added to the 50,280 examinations, a total of 51,964.

During the past year it would appear that physicians and dentists have realized more and more that the spironema vincentii, in association with fusiform bacilli, is the causative agent in many pathological conditions of the mouth and throat, since 124 examinations were made for this diagnosis of which 65 were found to be positive.

After three years of experiment a modification of the standard Loeffler blood serum media has been developed and is now being used in the laboratory outfits which are supplied to physicians for routine diagnostic purposes. The various steps leading to the final adoption of this modification and the results of the study have been summerized in an article which will be published soon in the *Journal of the Society of American Bacteriologists*. Reprints have also been contracted for and the laboratory will be very glad to honor any requests for copies.

When a patient is in isolation on account of positive release cultures for an undue length of time following recovery from the disease, if the physician in charge or the Medical Division of the Health Department requests it, a virulence test is made. If this test gives a positive result, quarantine is continued (unless during the period over which the virulence tests extends, two consecutive negative cultures have been obtained from the patient). If the virulence test be negative, the patient is released without taking further cultures. Physicians should bear this in mind and request a virulence test should they feel that a case is of too long duration.

Respectfully submitted,

KARL R. BAILEY, M. D.,
Deputy Commissioner.

REPORT OF TUBERCULOSIS DIVISION.

GENERAL STATEMENT.

Three and one half years have elapsed since the Health Department assumed the tuberculosis program, excepting the hospital (Boston Sanatorium), and the creation of a Division of Tuberculosis, and there is present at this time every assurance of healthy and sturdy development.

The clinic service is offered through twelve stations. Six of these are situated in George Robert White Health Units, one in health unit originally the Out-Patient Department of Boston Sanatorium, four in municipal buildings and one at Boston Dispensary. In this way all parts of this city are served. Day and night clinics are held at these stations, and an average of one hundred and thirty-five (135) clinics monthly has been sustained. The night clinics are not as well patronized as would be supposed and the attendance has not shown such improvement as to make it a profitable service to continue beyond perhaps the one which would cover the law and one or possibly two more at the most promising points. In this regard it does seem as though we are spread a little thin and accomplish little more than to lower our daily attendance average.

These clinics are all well equipped and well manned. Seven are supplied with complete X-ray equipment — six White Fund Health Units and one health unit (formerly Out-Patient Department of Boston Sanatorium).

The examining staff is comprised of physicians who devote full time to tuberculosis practice and who are recognized leaders in this specialty. Therefore, the medical service rendered is equal to the best offered anywhere in the city.

The X-ray staff comprises one physician, a leader in Roentgenology, one expert technician and one competent secretary. This service is also equal to the best offered anywhere.

The nursing service is rendered by the Nursing Division and is most competent.

The staff carried on an association with the teaching programs of the three established medical schools in Boston, and thus the advantages of the clinics are made available for teaching.

Since the establishment of the present program in 1927, it has been pleasing to note at the end of the year that Boston has the lowest mortality rate in its history and this year again it is repeated, as each succeeding year has shown a decrease over the preceding rate.

The ratio of deaths to reported cases has never exceeded, one is to two, until 1930, which shows a change of one point — one is to three. This is encouraging.

There is yet much cause for complaint in delayed reports and delayed diagnoses. Over three-fourths of the cases hospitalized locally are far advanced in type at time of admission. Little can be hoped for in these cases by hospitalizing except to remove them as menaces to the community and particularly the young.

Early and frank recognition of tuberculosis and encouragement of hospitalization at this time will do much in life saving and adjustment of these victims. There would be as a result less expense and less unfavorable reaction to the whole program.

PROBLEMS.

There is present still a very acute situation in hospital accommodation. There are forty-eight patients in private sanatoriums, waiting for admission to Boston Sanatorium and a waiting list of home cases well over a hundred. The completion of structural and equipment work at the sanatorium which is expected shortly will offer much relief.

It does not help matters greatly when made to realize that about 80 per cent of those to whom beds are offered at Boston Sanatorium refuse indignantly to consider such disposition, and refer to the institution in anything but elegant manner. This is the attitude also of their relatives and friends. Most of these referred to have never seen Boston Sanatorium, but have been advised and informed by friends, medical and lay. If this is in any degree true, it is a most unfavorable commentary on the intelligence and spirit of those involved.

Boston Sanatorium cannot be selective as to the types of case it accepts. It has all kinds, old and young (over sixteen years), and all degrees of disease, from minimal to far advanced, and therefore cannot in certain ways be compared with institutions which select types.

It does seem strange, however, that our own citizens follow so poorly the progress of our city as not to be

aware of the generous and magnificent structural and service program carried out at Boston Sanatorium. Boston has now an institution for the care of her tuberculous citizens which stands forth with the best in the country. The bed capacity is five hundred and eighty-five (585).

The cases which are reported when the disease is far advanced and those cases which refuse sanatorium care in the early stages create an unreasonable stir when the case is desperate, because hospitalization is not immediately possible.

There is a large group among our tuberculous patients which is most difficult to keep in hand. Some have no permanent home, and get lodging here and there. For the most part this group is comprised of adult males, and although ill and unwelcome guests at most places, will not go to the hospital except as a last resort.

Many individuals, once diagnosed as tuberculous, very soon drop from sight and months, even years, pass before another contact is made. Families disintegrate for similar reasons, and these with many other reasons make difficulties in records and files.

Experience has shown in these few years that we would profit much in keeping family records as one, in one folder and that a change in the examination form by which the repeated examinations of patients could be more definitely recorded would help greatly the whole record system. We can obtain these forms and folders but without proper filing cases there would be no object served. We hope that the Public Buildings Department will deal generously with this division this year, as it is true also that the present filing cases have long since outlived their intended usefulness.

Notwithstanding the ever decreasing mortality rate in this disease, it must not be forgotten that we have with us a very serious and sad problem. The age group which comprises the years fifteen to thirty has a case incidence rate and a death rate which is very high. Refer to table nineteen in Vital Statistics report for this and preceding few years.

Factors which influence such conditions as here outlined are beyond the direct scope of a tuberculosis program and belong to the series of happenings which have to do with our economics and life program.

Much more in a satisfactory way might be carried into a program of this size in the treatment of patients

who are obliged to wait over more or less long periods for admission to the sanatorium. This refers to the so-called "gas treatment," and is in reality a simple operative procedure by which a quantity of air is injected into the chest cavity, preventing most of the movement in that lung and, therefore, encouraging a healing process in the diseased portion.

This feature we have desired for three years, and could be carried on with some extra service and small equipment in fact, such is carried daily in the private offices of our examiners, and in the hospitals, dispensary and sanatorium, the patients not being retained. The value of this procedure to the patient and to the program cannot be over-estimated. Those requiring greater surgical interference to collapse the lung are necessarily in the sanatorium.

We hope at a not too distant day to establish such a feature at the clinics or make some arrangement by which it can be done elsewhere.

The clinic attendance depends for high standard upon the ability and personality of the examining physicians and the nurses, and a glance at the figures, coupled with a little thought, will disclose why this division is grateful to both forces.

The machinery which means home visit, clinic attendance, physical and X-ray examination, advice, and case disposition becomes smoother of operation with each passing month.

The solarium program has proved a most satisfactory project and the division feels that the splendid cooperation in a service way by the Nursing Division and its director, the Division of Hygiene and its director, by the cooks engaged in the work, and the nutritionist, and also the contributory effort on the part of all those at the health units, have made this possible. A report compiled by the nutritionist, Miss Donovan, follows.

SOLARIUM PROGRAM.

The extraordinary encouraging thing about the nutritional program carried on during the last year on the health unit roofs is the parallel rate of growth and the maintenance of resistance of all the children admitted.

The nutritive condition of all the children on the six health units varied on admission. The average daily attendance on the health units for the past year has been about twenty-four children. All children must be of

pre-school age and tubercular contacts. However, a few rachitic and a few markedly underweight children have been admitted, who are not contacts, but who would be benefited by the program.

The program followed to obtain these results are —

1. All cases must be referred by a Health Unit Clinic Service; diagnosis based on complete physical examination.
2. Removal of any physical defect as soon as possible on admission, such as tonsils and adenoids, teeth, ears, etc.
3. X-ray of chest.
4. Regulated dietary — regulated physical, mental and social activities to prevent over-fatigue.
5. Weighing and measuring every child on admission and from then on every week, accepting an adequate gain as one reliable criterion of the child's physiologic well-being.

The increase in weight of all children admitted has been most satisfactory. We have evidenced that in every case in which the defects have been corrected and the child is free to gain, there has been a rapid advance in the weight — the rate of which is gradually reduced as the child approached his normal condition.

6. Monthly meetings of mothers at a luncheon with the children on roof.

A complete chart of food and health habits of each child previous to his admission on the roof has been recorded by the nurse. These charts are particularly valuable inasmuch as the individual food errors and deficiencies of the child may be pointed out to the mother thereby obtaining her keener interest. This food chart gives a general idea of the kind of food indulged in, how much is taken, the likes and dislikes of the child, mistaken ideas as to food value, food deficiencies and faulty food habits.

A study of the food charts of these children shows that the most common errors in their dietary are:

- (1) Insufficient daily amount of milk.
- (2) Omission of cereal.
- (3) Use of tea and coffee at mealtime.
- (4) Irregular meal time.
- (5) Sweets between meals.

It is our aim to teach the normal diet, to correct the individual food errors, and suggest to the mother of each child with a capricious appetite adaptations of food to the child's taste without lessening the food value. Good appetites need to be trained — a child's likes and dislikes are no signs of what he ought to eat, though they must be taken into account and dealt with tactfully.

The so-called balanced diet is elucidated in simplest forms expressing the amount of food required each day to supply sufficient protein of kind best suited for growth and maintenance, suitable amount of energy-producing foods, sufficient amount of roughage and adequate supply of vitamins.

Instruction in attractive preparations and ingenuity in serving is given, stressing the point that good combination promotes good digestion.

A copy of the roof menu for the week is given to the mothers at each meeting. A height and weight chart is kept in graphic form for each child so that the mother may follow the significant weight curve from week to week. This offers competition among mothers as well as the children.

Human economy is emphasized at each meeting, thus stressing the importance of "Buying health instead of sickness when buying food." The cheapest food is that which gives the greatest amount of nutriment at the least cost.

Although our problem is fundamentally medical, it is largely educational. It touches the most intimate habits and prejudices of a child.

We feel we have established health habits that will persist because every child has learned to like to do the things necessary for his health and comfort. The nurses in charge constantly observe the children, and are alert to unexpected happenings and keep detailed and accurate records on each child. During the spring of last year the dosage of cod liver oil was increased from one teaspoon to four teaspoons daily. This increased dosage, which was given along with the regulated daily irradiation from the ultraviolet lamps, caused a gastric disturbance which induced a loss of appetite, consequently a loss of weight. Noting this, the dosage was decreased to one teaspoon of cod liver oil daily. The *gastric disturbance disappeared* and the children started to gain.

(Owing to the uncertainties of sunshine ultraviolet

radiations has been found desirable. The method of treatment with the lamps is under a cautious control.)

We have noted that the children on all the roofs have had a similar mental response, *i. e.*, they all register joy and activity, in a sense of ownership and responsibility which is theirs while on the roof, and each one seems to show a willingness to share his possessions with others. At our nutrition conferences with the mothers, we are told of the improvement in attitude and habits of the roof child at home. They are much more resourceful in their ability to play alone and their ability to play with others and adapt themselves to circumstances. Their toys have been particularly selected so as to insure balanced use of body.

SAMPLE MENU FOR WEEK.

<i>Breakfast.</i>		<i>Lunch.</i>	
9.00	Orange juice. Wheatena. Bread and butter. Milk.	1.10	Spaghetti and tomato. Raw cabbage salad. Buttered carrots. Floating island.
10.30	Tomato juice and cod liver oil.	4.30	Bread and butter sandwich and milk.
9.00	Bananas. Oatmeal. Bread and butter.	1.10	Creamed eggs. Baked potatoes. Lettuce salad. Cornstarch pudding.
10.30	Tomato juice and cod liver oil.	4.30	Date marmalade sandwich and milk.
9.00	Dates. Farina. Bread and butter. Milk.	1.10	Creamed liver. Sliced bacon. Raw cabbage salad. Baked potato. Chocolate pudding.
10.30	Tomato juice and cod liver oil.	4.30	Banana paste sandwich and milk.
9.00	Prunes. Wheatena. Bread and butter. Milk.	1.10	Mashed potato pie (peas, carrots, onion). Sliced bacon (crisp). Milk, bread and butter. Apple tapioca.
10.30	Tomato juice and cod liver oil.	4.30	Bread and molasses and milk.
9.00	Apricots. Oatmeal. Bread and butter. Milk.	1.10	Spinach with grated egg. Escalloped potato. Raw cabbage. Bread and butter, milk. Snow pudding.
10.30	Tomato juice and cod liver oil.	4.30	Bread, butter and milk.
9.00	Dates. Wheatena. Bread and butter. Milk.	1.10	Stew — vegetables with meat stock. Lettuce sandwich. Ice cream.
10.30	Tomato juice and cod liver oil.		

In planning these menus we have constantly kept in mind the special need of certain food elements so necessary to stimulate growth during this age. We have followed quite closely the nutritional authorities' advice as to the requirements of protein, carbohydrates, fat, mineral matter, vitamins A, B, C, D, E for such an age group. We have given a particular attention to the ratio of calcium and phosphorus in foods to aid in the correction of nutritive subnormalities as rickets, poor teeth, etc. Careful observations of the food actually consumed by each child has been recorded by the nurse present at the meal. The satisfactory progress in weight, height, and general bodily development of almost every child admitted to the solarium during the year has indicated that the menu is adequate.

Much attention has been given to the better preparation of food in our diet kitchens. The six cooks and six helpers employed in the kitchens have been carefully trained to preserve the best natural food flavors in cooking the food, thereby preventing any appreciable loss of minerals and vitamins. We have given considerable attention so as to avoid monotony in the dietary and have tried to make them attractive and interesting so as to prevent and overcome any food dislikes. No negligences, as tasteless, watery food or careless washing, or over-cooking, or under-cooking, or improper seasoning are tolerated. We realize that these are many times the underlying causes of food dislikes, and have a marked effect on the cost per person. During the past year our average cost per day per patient was 25 cents.

The meal times afford an unusual opportunity for training these children in good food habits. Sitting at the little tables with a nurse, the children have been trained to eat together in the happiest fashion. The short period that the nutrition program was under special supervision of a pediatrician many interesting and helpful conclusions were drawn.

SOLARIUM PROGRAM.

Morning.

8.45 A. M. Arrival (from 8.45 nurse on duty for inspection).
Undress children and put on sun suits.
Attention to physical well-being.
Inspection by nurse.
Water (6 ounces).
Toilet.

VITAL STATISTICS.

CHART I.—RELATIVE WEIGHT UPON THE ENTIRE POPULATION
OF THE FIFTEEN PRINCIPAL CAUSES OF DEATH DURING
THE CALENDAR YEAR 1930.

CHART II.—RELATIVE WEIGHT UPON CHILDREN UNDER ONE YEAR OF AGE OF THE TEN PRINCIPAL CAUSES OF DEATH AMONG SUCH CHILDREN DURING THE CALENDAR YEAR 1930.

 Deaths from reportable diseases.
 Not reportable.

REPORT OF THE DIVISION OF VITAL STATISTICS.

BOSTON, January 1, 1931.

FRANCIS X. MAHONEY, M. D.,
Health Commissioner.

DEAR SIR,— I respectfully submit the annual report of the Division of Vital Statistics for the calendar year 1930.

All rates in the following tables are based on the United States Census Bureau estimate of the population for July 1, 1930, and corrections have been made in rates and population estimates for the inter-censal years, from the census of 1920 to the census of 1930.

The total number of deaths reported for the calendar year 1930 was 10,996, being the lowest annual number of deaths reported since the year 1924. The death rate for the year was 14.1 per 1,000 of the population, the lowest rate reported since the year 1921 when the rate was 13.6. The death rate for the year 1929 was 14.9. The total deaths and death rates for individual years since 1916 will be found in Table No. 1 of the Vital Statistician's report.

The corrected death rates for Boston, after deducting nonresident deaths, were as follows; for 1930, 11.29; 1929, 12.05; 1928, 12.09; 1927, 11.69; and for 1926, 12.44. The total number of nonresident deaths for the year 1930 was 2,163; for 1929, 2,269; for 1928, 2,187; for 1927, 2,075; and for 1926, 2,155; Boston being a large hospital center has more nonresident deaths in proportion to its total number of deaths than has any other large city in the country.

Principal Causes of Death.— The deaths from heart disease, 2,021 (heart disease includes, numbers 87, 88, 89, 90 of the International classification list), produced the heaviest mortality for any cause of death. These deaths, however, decreased by 209 as compared with the total for 1929, and by 428 as compared with 1928.

The death rate per 100,000, 258.4, was the lowest recorded since 1924 when the rate was 228.6. This decrease for 1930 is reflected in the decrease in the number of deaths from all causes. Deaths from cancer, second in importance, totaled 1,337, and were greater than those reported in any year since causes of death have been tabulated in Boston. The death rate from cancer for 1930 per 100,000 of the population was 171.0. For 1929 the rate was 165.1; for 1928, 158.2; for 1927, 157.7; and for 1926, 153.4. The statistics for cancer mortality certainly offer a strong incentive to develop some means which might serve at least to check the growing mortality from this disease. Nephritis (acute and chronic) was responsible for 794 deaths, the third highest total for any given cause during the year. This total, 794, with a rate of 101.5, was the highest since 1918 when the total was 782 and the rate was 104.6. By a strange coincidence, if it may be called such, the death rate from nephritis declined perceptibly about the time that the national prohibition act went into effect but it has shown a gradual increase (excepting the year 1928) since 1925. For a presentation of the rates from nephritis see Table No. 24A of this report.

Deaths from Tuberculosis, all forms.— These deaths totaled 604 with a rate of 77.2 during 1930, furnishing what is in all probability the lowest rate from this disease ever recorded in Boston. While the downward tendency of the tuberculosis death rate is slow, nevertheless it is constant, indicating that the work of the Health Department and its allied agencies in the campaign against tuberculosis is showing encouraging results. A glance at table numbered 16(c) will illustrate better than words the progress of the campaign.

Degenerative Diseases, so called.— Grouping the deaths from arteriosclerosis, cerebral hemorrhage, heart disease (not congenital) and chronic nephritis, the total for the year 1930 was 3,735, producing a rate of 477.6 per 100,000 of the population. In 1929 this total was 3,961 and the rate 508.7. During 1928 the total was 3,993 and produced a rate of 514.9; and for 1927 the total was 3,638 deaths, with a rate of 471.2. The so-called degenerative diseases cause about one third of the total deaths each year.

Deaths by Age Groups.— During the year 1930 there

were 1,264 deaths of children under one year. This was an increase of 29 as compared with the total for 1929. Comparing the year 1930 with 1929, decreases were shown during 1930 in all the age groups from one year to 100 years and over. The greatest decrease was shown in the age group sixty years and under seventy, 124 deaths. The largest decrease but one was shown in the age group seventy years and under eighty, 113 deaths. The largest decrease but two was shown in the age group fifty years and under sixty years, 106 deaths. The age groups, sixty years and over, contain 4,737 deaths or 43.1 per cent of the total deaths.

Total Deaths by Sex.—During the year 1930 there were 5,724 deaths of males and 5,272 deaths of females, as compared with 6,024 deaths of males and 5,628 deaths of females during 1929. This shows a decrease of 300 males and 356 females during the year 1930.

Death Rates by Wards.—The highest ward death rate was shown in Ward 9 (South End and Roxbury), where the rate was 18.22. The rate in Ward 8 (South End and Roxbury), easterly section, was highest but one, 13.88. During 1929 the highest ward death rate was also shown in Ward 9 when the rate was 18.14; Ward 8 was also highest but one in 1929, when the rate was 15.76.

The lowest ward death rate during 1930 was shown in Ward 14 (Dorchester), where the rate was 8.08. Next in order were Ward 18 (Hyde Park) and Ward 20 (West Roxbury), with death rates alike, 8.74. The lowest ward death rate in 1929 was also shown in Ward 14, rate 8.09, and the lowest but one was in Ward 18, rate 9.22.

Nonresident Deaths.—Of the total number of nonresident deaths 2,163, 1,253 were males and 910 were females. Deaths of nonresidents in hospitals numbered 1,990, or 90 per cent of the total nonresident deaths. The total nonresident deaths constituted 19.7 per cent of the total deaths from all causes. During 1929 the total number of nonresident deaths was 2,269 or 19.5 per cent of the total for all causes. In 1928 the total was 2,187 or 18.9 per cent; and in 1927 the total was 2,075 or 18.7 per cent.

Deaths of Colored.—There were 397 deaths of colored persons during the year 1930, as compared with 368 such deaths during 1929, and 394 such deaths during

1928. Of the total 397 colored, during 1930, 252 or 63.5 per cent died in hospitals. In 1929 there were 219 deaths in hospitals or 59.5 per cent. During 1928 64.7 per cent died in hospitals and during 1927 the percentage was 60.2.

Deaths of Chinese.— During 1930 there were 41 deaths of Chinese in Boston and of these 38 were males and 3 were females. Eighteen of these were due to tuberculosis, 17 pulmonary and one tuberculous meningitis. All of these tuberculosis deaths were among males.

Deaths, All Causes, in Hospitals.— Of the total number of deaths during 1930, all causes (10,996), 6,380 or 58 per cent died in hospitals. In 1929, of the 11,652 deaths, all causes, 6,544 or 56.2 per cent died in hospitals. The percentage of hospital deaths for 1928 was 54.8; for 1927, 54.7, and for 1926, 52.4. The trend towards hospitalization of the sick in Boston is graphically illustrated by the foregoing percentages.

Infant Mortality.— There were 1,264 deaths among infants during the year, producing a death rate of 70.16 per 1,000 live births. During 1929 there were 1,235 infant deaths and the rate was 68.86. If the non-resident infant deaths and nonresident births were deducted the infant rate for actual residents of Boston would be 67.04 for 1930 and 65.72 for 1929. Non-resident infant deaths during 1930 numbered 338, and during 1929 the total was 325. The totals for non-resident infant deaths in Boston are probably the largest of any such totals for the entire country. Comparisons with the totals for other large cities will be found in Table No. 20 of the report.

Infant Mortality by Wards.— Ward 7 (South Boston) had the highest infant mortality rate for the year 1930, 95.69. Ward 6, also in South Boston, was highest but one, with a rate of 93.51. The highest infant ward rate during 1929 (excluding Ward 13 because of the presence of an infant asylum within its borders) was shown in Ward 9, where the rate was 93.91. Ward 8 (Roxbury) was the highest but one with a rate of 90.27.

The lowest infant rate during 1930 was shown in Ward 14 (Dorchester), where the rate was 40.05; Ward 21 (Brighton) was lowest but one with a rate of 44.54. The lowest ward infant rate during 1929 was shown in Ward 20 (West Roxbury), where the rate was 31.89; and the lowest but one was in Ward 14, where the rate was 35.75.

Analysis of Infant Deaths.—Deaths due to premature birth, 309, caused the largest mortality among infants for the year 1930. During 1929 there were 338 such deaths. Broncho-pneumonia was second in importance as a cause of infant mortality. There were 208 deaths due to this disease during 1930, as compared with 191 during 1929. Congenital malformations were third in order of relative importance, causing 181 deaths, as compared with 170 during 1929. Diarrhea and enteritis deaths, fourth in order of weight, caused 142 deaths of infants as compared with 118 such deaths during 1929. The total deaths from these four most important causes were 840 or 66.4 per cent of the total infant deaths for the year, as compared with 817 deaths from the same causes during 1929 or 66.1 per cent of the total for the year. As compared with 1929, when there were 615 deaths due to premature birth, congenital malformations and injuries at birth, there were 589 deaths from these three causes during 1930 or 46.6 per cent of the total during 1930, as compared with 49.8 per cent for 1929.

There were 37 deaths of colored infants during 1930, as compared with 42 deaths for 1929.

Table No. 13A shows deaths of colored infants by cause and age period.

Birth Rates.—There were 18,015 live births in Boston during 1930 reported up to April 1, 1931, the closing date for births during 1930. This was 80 more than were reported during the year 1929 up to the closing date for the report, April, 1, 1930. The birth rate for 1930 was 23.04 and for 1929 23.03. If residents of Boston are considered alone the total resident births were 13,812 for 1930, as against 13,846 during 1929, furnishing a resident birth rate of 17.7 for 1930, and 17.8 for 1929. There was a decrease of 34 resident births for 1930.

The highest ward birth rate was recorded in Ward 11 (Roxbury and Jamaica Plain) where the rate was 22.61; and the highest rate but one was shown in Ward 1 (East Boston) where the rate was 21.17. The highest rate for 1929 was also recorded in Ward 11, where the rate was 22.37; Ward 8 (Roxbury and South End) had the highest rate but one during 1929, rate 22.26. The lowest ward birth rate during 1930 was shown in Ward 4 (South End and Roxbury) where the rate was 9.05; Ward 9 (Back Bay) was the lowest but one, with

a rate of 9.54. During 1929 Ward 5, with a rate of 9.46 was lowest, and Ward 4, with a rate of 10.51 was the lowest but one.

Births to mothers born in the United States were 11,296, or 62.7 per cent of the total live births for the year. Births to mothers born in Canada, 1,659, furnished 9.2 per cent of the total births reported. Births to mothers born in Italy, 1,442, furnished 8 per cent of the total; and births to mothers born in Ireland, 1,409, furnished 7.8 per cent of the total. The foreign-born mothers furnished 6,719 births, or 37.3 per cent of the total live births. Of the total number of live births, 9,245 were males, and 8,770 were females; 17,571 were white; 407 were colored, and 37 were of other colors.

Births in Hospitals.—Of the total 18,015 live births in Boston during 1930, 13,248, or 73.5 per cent, were born in hospitals, as against a percentage of 70 in 1929; 66.8 in 1928; 62.4 in 1927; 58.1 in 1926, and 53.9 in 1925. These percentages show clearly the increasing tendency towards hospitalization in parturition.

Of the total number of nonresident live births during 1930, 4,203, there were 4,165, or 99.1 per cent, born in hospitals. During 1929 this percentage was the same, 99.1. In 1928 the percentage was 98.3, and in 1927 it was 97.

Stillbirths.—During 1930 there were 581 stillbirths reported as against 515 for the year 1929, an increase of 66. During 1928 there were 613 stillbirths, and during 1927 the total was 597.

The stillbirth rate for 1930 per 1,000 deliveries (*i. e.*, live births and stillbirths together) was 31.2; in 1929 it was 27.9; in 1928, 31.7, and in 1927 it was 30.3. Further figures for stillbirths will be found in Table No. 14.

Maternal Mortality.—There were 127 deaths of mothers from causes apparently incident to pregnancy during 1930, an increase of 15 over 1929. This is an increase of 1 as compared with 1928, but a decrease of 14 as compared with 1927. The maternal mortality rate based on the number of deaths of mothers per 1,000 deliveries (live births and stillbirths together) was 6.8 for 1930; 6.1 for 1929; 6.5 for 1928; and 7.2 for 1927.

Fluctuations in a few of the more important causes

of death are shown in the following table. The years 1930 and 1929 are used as a basis of comparison.

<i>Increase during 1930.</i>		<i>Decrease during 1930.</i>	
Cancer	51	Heart disease	209
Measles	44	Broncho-pneumonia	123
Nephritis, acute and chronic, ...	29	Influenza	114
Cerebral hemorrhage	20	Lobar pneumonia	107
Diarrhea and enteritis		Arteriosclerosis	64
(under two years)	19	Tuberculosis, all forms	31
Puerperal diseases	15	Alcoholism, stated as pri-	
Scarlet fever	14	mary	29
Suicides	12	Diphtheria	28
		Automobile accidents	12
		Typhoid fever	7

SUMMARY.

The outstanding features for the year, from a statistical viewpoint, were as follows:

Favorable:

The marked decrease in the general death rate.

The decrease in the number of deaths from diphtheria.

The continued decrease in the number of deaths from tuberculosis.

The decrease in the number of deaths due to heart disease.

The decrease in the number of deaths due to broncho-pneumonia, lobar pneumonia and influenza.

The continued increase in the percentage of births in hospitals.

The continued increase in the number of persons obtaining hospital care before death.

Unfavorable:

The increase in the number of deaths from cancer.

The increase in the number of deaths from measles.

The increase in the number of deaths from nephritis and cerebral hemorrhage.

The increase in the number of deaths from puerperal diseases.

The increase in the number of suicidal deaths.

Ward Numbers and Approximate Locations by Name of Section of City.

Ward 1, East Boston.	Ward 11, Roxbury and Jamaica Plain.
Ward 2, Charlestown.	Ward 12, Roxbury and Dorchester.
Ward 3, City Proper and South End.	Wards 13, 14, 15, 16 and 17, Dorchester.
Ward 4, Back Bay and South End.	Ward 18, Mattapan and Hyde Park.
Ward 5, Back Bay.	Ward 19, Jamaica Plain.
Ward 6, South Boston (northerly side).	Ward 20, West Roxbury.
Ward 7, South Boston (southerly side and lower Dorchester).	Wards 21 and 22, Allston and Brighton.
Wards 8, 9 and 10, Roxbury.
